Vol. 66 No. 59

Pages 16593-16838

**Tuesday**

**Mar. 27, 2001**

The **FEDERAL REGISTER** is published daily, Monday through Friday, except official holidays, by the Office of the Federal Register, National Archives and Records Administration, Washington, DC 20408, under the Federal Register Act (44 U.S.C. Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). The Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402 is the exclusive distributor of the official edition.

The **Federal Register** provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive Orders, Federal agency documents having general applicability and legal effect, documents required to be published by act of Congress, and other Federal agency documents of public interest.

Documents are on file for public inspection in the Office of the Federal Register the day before they are published, unless the issuing agency requests earlier filing. For a list of documents currently on file for public inspection, see <http://www.nara.gov/fedreg>.

The seal of the National Archives and Records Administration authenticates the **Federal Register** as the official serial publication established under the Federal Register Act. Under 44 U.S.C. 1507, the contents of the **Federal Register** shall be judicially noticed.

The **Federal Register** is published in paper and on 24x microfiche. It is also available online at no charge as one of the databases on GPO Access, a service of the U.S. Government Printing Office.

The online edition of the **Federal Register** is issued under the authority of the Administrative Committee of the Federal Register as the official legal equivalent of the paper and microfiche editions (44 U.S.C. 4101 and 1 CFR 5.10). It is updated by 6 a.m. each day the **Federal Register** is published and it includes both text and graphics from Volume 59, Number 1 (January 2, 1994) forward.

GPO Access users can choose to retrieve online **Federal Register** documents as TEXT (ASCII text, graphics omitted), PDF (Adobe Portable Document Format, including full text and all graphics), or SUMMARY (abbreviated text) files. Users should carefully check retrieved material to ensure that documents were properly downloaded.

On the World Wide Web, connect to the **Federal Register** at <http://www.access.gpo.gov/nara>. Those without World Wide Web access can also connect with a local WAIS client, by Telnet to [swais.access.gpo.gov](http://swais.access.gpo.gov), or by dialing (202) 512-1661 with a computer and modem. When using Telnet or modem, type swais, then log in as guest with no password.

For more information about GPO Access, contact the GPO Access User Support Team by E-mail at [gpoaccess@gpo.gov](mailto:gpoaccess@gpo.gov); by fax at (202) 512-1262; or call (202) 512-1530 or 1-888-293-6498 (toll free) between 7 a.m. and 5 p.m. Eastern time, Monday–Friday, except Federal holidays.

The annual subscription price for the **Federal Register** paper edition is \$638, or \$697 for a combined **Federal Register**, Federal Register Index and List of CFR Sections Affected (LSA) subscription; the microfiche edition of the **Federal Register** including the Federal Register Index and LSA is \$253. Six month subscriptions are available for one-half the annual rate. The charge for individual copies in paper form is \$9.00 for each issue, or \$9.00 for each group of pages as actually bound; or \$2.00 for each issue in microfiche form. All prices include regular domestic postage and handling. International customers please add 25% for foreign handling. Remit check or money order, made payable to the Superintendent of Documents, or charge to your GPO Deposit Account, VISA, MasterCard or Discover. Mail to: New Orders, Superintendent of Documents, P.O. Box 371954, Pittsburgh, PA 15250-7954.

There are no restrictions on the republication of material appearing in the **Federal Register**.

**How To Cite This Publication:** Use the volume number and the page number. Example: 66 FR 12345.

### FEDERAL REGISTER WORKSHOP

## THE FEDERAL REGISTER: WHAT IT IS AND HOW TO USE IT

- FOR:** Any person who uses the Federal Register and Code of Federal Regulations.
- WHO:** Sponsored by the Office of the Federal Register.
- WHAT:** Free public briefings (approximately 3 hours) to present:
1. The regulatory process, with a focus on the Federal Register system and the public's role in the development of regulations.
  2. The relationship between the Federal Register and Code of Federal Regulations.
  3. The important elements of typical Federal Register documents.
  4. An introduction to the finding aids of the FR/CFR system.
- WHY:** To provide the public with access to information necessary to research Federal agency regulations which directly affect them. There will be no discussion of specific agency regulations.

### WASHINGTON, DC

**WHEN:** Tuesday, April 17, 2001 at 9:00 a.m.  
**WHERE:** Office of the Federal Register  
Conference Room  
800 North Capitol Street, NW.  
Washington, DC  
(3 blocks north of Union Station Metro)

**RESERVATIONS:** 202-523-4538

Printed on recycled paper.

# Rules and Regulations

Federal Register

Vol. 66, No. 59

Tuesday, March 27, 2001

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect, most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each week.

## DEPARTMENT OF AGRICULTURE

### Office of the Secretary

#### 7 CFR Part 2

#### Revision of Delegations of Authority

**AGENCY:** Rural Utilities Service; Rural Housing Service, USDA.

**ACTION:** Final rule.

**SUMMARY:** This final rule revises the delegations of authority from the Under Secretary for Rural Development. This rule will effectuate the change of the delegation of the administration of the hazardous weather early warning systems program, from the Administrator, Rural Housing Service (RHS), to the Administrator, Rural Utilities Service (RUS).

**EFFECTIVE DATE:** March 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** F. Lamont Heppie, Jr., Director, Program Development and Regulatory Analysis, Rural Utilities Service, U.S. Department of Agriculture, Stop 1522, 1400 Independence Ave., SW, Washington, DC, 20250-1522. Telephone: 202-720-9551. E-mail: fheppie@rus.usda.gov.

**SUPPLEMENTARY INFORMATION:** The Administration and Congress recognize the need to advance coverage of the NOAA Weather Radio and Alert Systems in unserved rural areas. The Administration requested, and Congress appropriated funds for this program, under section 306 of the Consolidated Farm and Rural Development Act (7 U.S.C. 1926). It has been determined that the hazardous weather early warning systems and the grant funds appropriated therefor should be administered by the Rural Utilities Service (RUS), in accordance with the authorizing legislation.

This rule relates to internal agency management. Therefore, pursuant to 5 U.S.C. 553, notice of proposed rule making and opportunity for comment

are not required, and this rule is made effective on the date of publication in the **Federal Register**. Further, since this rule relates to internal agency management, it is exempt from the provisions of Executive Order Nos. 12866 and 12988. In addition, this action is not a rule as defined by the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), and, thus, is exempt from the provisions of that Act. This action is not a rule as defined in 5 U.S.C. 804 and thus does not require review by Congress.

#### List of Subjects in 7 CFR Part 2

Authority delegations (Government agencies).

#### PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Accordingly, part 2, title 7, Code of Federal Regulations, is amended as follows:

1. The authority citation for part 2 is revised to read as follows:

**Authority:** 7 U.S.C. 6912(a)(1); 5 U.S.C. 301; Reorganization Plan No. 2 of 1953, 3 CFR 1949-1953 Comp., p. 1024.

#### Subpart G—Delegation of Authority by the Under Secretary for Rural Economic and Community Development

2. Amend § 2.47 to redesignate paragraphs (a)(4)(vi) through (a)(4)(x) as (a)(4)(vii) through (a)(4)(xi) and add a new paragraph (a)(4)(vi) to read as follows:

##### § 2.47 Administrator, Rural Utilities Service.

(a) \* \* \*

(4) \* \* \*

(vi) Section 306 (7 U.S.C. 1926) relating to hazardous weather early warning systems;

\* \* \* \* \*

3. Amend § 2.49 to revise paragraph (a)(1)(i) to read as follows:

##### § 2.49 Administrator, Rural Housing Service.

(a) \* \* \*

(1) \* \* \*

(i) Section 306 (7 U.S.C. 1926) except subsection 306(a)(11) and except financing for water and waste disposal facilities; hazardous weather early warning systems; grazing facilities;

irrigation and drainage facilities; rural electrification or telephone systems or facilities; and hydro-electric generating and related distribution systems and supplemental and supporting structures if they are eligible for Rural Utilities financing;

\* \* \* \* \*

Dated: March 18, 2001.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

#### 7 CFR Part 932

[Docket No. FV99-932-610 REVIEW]

#### California Olives; Section 610 Review of Marketing Order

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Review of marketing order; Continuation of regulations.

**SUMMARY:** This action summarizes the results of an Agricultural Marketing Service (AMS) review of Marketing Order 932 for olives grown in California, under the criteria contained in section 610 of the Regulatory Flexibility Act (RFA).

**DATES:** *Effective:* March 27, 2001.

**ADDRESSES:** Interested persons may obtain a copy of the review. Requests for copies should be sent to the Docket Clerk, Fruit and Vegetable Programs, AMS, USDA, Room 2525-S, Box 96456, Washington, DC 20090-6456; Fax: (202) 720-5698; or E-mail: moab.docketclerk@usda.gov.

**FOR FURTHER INFORMATION CONTACT:** Kurt Kimmel, Regional Manager, California Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 2202 Monterey Street, Suite 102B, Fresno, California 93721; telephone: (209) 487-5901; Fax: (209) 487-5906; E-mail: Kurt.Kimmel@usda.gov; or George Kelhart, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 720-

2491; Fax: (202) 720-5698; E-mail: George.Kelhart@usda.gov.

**SUPPLEMENTARY INFORMATION:** Marketing Order No. 932, as amended (7 CFR Part 932), regulates the handling of olives grown in California. The marketing order is effective under the Agricultural Marketing Agreement Act of 1937 (Act), as amended (7 U.S.C. 601-674).

AMS published in the **Federal Register** (63 FR 8014; February 18, 1999), its plan to review certain regulations, including Marketing Order No. 932, under criteria contained in section 610 of the Regulatory Flexibility Act (RFA; 5 U.S.C. 601-612). Accordingly, AMS published a notice of review and request for written comments on the California olive marketing order in the August 5, 1999, issue of the **Federal Register** (64 FR 42619). No written comments were received.

The review was undertaken to determine whether the California marketing order for olives should be continued without change, amended, or rescinded to minimize the impacts on small entities. In conducting this review, AMS considered the following factors: (1) The continued need for the marketing order; (2) the nature of complaints or comments received from the public concerning the marketing order; (3) the complexity of the marketing order; (4) the extent to which the marketing order overlaps, duplicates, or conflicts with other Federal rules, and, to the extent feasible, with State and local governmental rules; and (5) the length of time since the marketing order has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the marketing order.

Currently, there are about 1,000 olive growers in California and two handlers processing canned olives under the marketing order.

AMS has determined that the marketing order should be continued without change. The marketing order was established in 1965 to eliminate inconsistencies in and to improve the quality of canned ripe olives in the marketplace, and to assure that the growers are paid a fair return for the olives delivered by them to canners. The marketing order's regulations on the uniform application of size and quality requirements, through third party inspection continue to be beneficial to growers, canners, and end-users.

The AMS has received no complaints about the marketing order regulations. The marketing order is not unduly complex, and AMS has not identified

any relevant Federal rules, or State and local regulations that duplicate, overlap, or conflict with the California olive marketing order.

AMS and the California olive industry monitor marketing operations on a continuing basis. Changes in regulations are implemented to reflect current industry operating practices, and to solve marketing problems as they occur. The goal of these evaluations is to assure that the marketing order and the regulations implemented under it fit the needs of the industry and are consistent with the Act.

Over the years, regulation changes have been made to address industry operation changes and to improve program administration.

AMS plans to continue working with the California olive industry in maintaining an effective marketing order program.

Dated: March 21, 2001.

**Kenneth C. Clayton,**

*Acting Administrator, Agricultural Marketing Service.*

### Agricultural Marketing Service

#### 7 CFR Part 959

[Docket No. FV01-959-1 IFR]

#### Onions Grown in South Texas; Decreased Assessment Rate

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Interim final rule with request for comments.

**SUMMARY:** This rule decreases the assessment rate established for the South Texas Onion Committee (Committee) for the 2000-2001 and subsequent fiscal periods from \$0.04 to \$0.03 per 50-pound container or equivalent of onions handled. The Committee locally administers the marketing order which regulates the handling of onions grown in South Texas. Authorization to assess onion handlers enables the Committee to incur expenses that are reasonable and necessary to administer the program. The fiscal period began August 1 and ends July 31. The assessment rate will remain in effect indefinitely unless modified, suspended, or terminated.

**DATES:** Effective March 28, 2001. Comments received by May 29, 2001, will be considered prior to issuance of a final rule.

**ADDRESSES:** Interested persons are invited to submit written comments concerning this rule. Comments must be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; Fax: (202) 720-5698, or E-mail: moab.docketclerk@usda.gov. Comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be available for public inspection in the Office of the Docket Clerk during regular business hours, or can be viewed at: <http://www.ams.usda.gov/fv/moab.html>.

#### FOR FURTHER INFORMATION CONTACT:

Hackberry, McAllen, Texas 78501; telephone: (956) 682-2833, Fax: (956) 682-5942; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 720-2491, Fax: (202) 720-5698.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, P.O. Box 96456, room 2525-S, Washington, DC 20090-6456; telephone: (202) 720-2491, Fax: (202) 720-5698, or E-mail: Jay.Guerber@usda.gov.

**SUPPLEMENTARY INFORMATION:** This rule is issued under Marketing Agreement No. 143 and Order No. 959, both as amended (7 CFR part 959), regulating the handling of onions grown in South Texas, hereinafter referred to as the "order." The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. Under the marketing order now in effect, South Texas onion handlers are subject to assessments. Funds to administer the order are derived from such assessments. It is intended that the assessment rate as issued herein will be applicable to all assessable onions beginning August 1, 2000, and continue until amended, suspended, or

terminated. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review the Secretary's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule decreases the assessment rate established for the Committee for the 2000–2001 and subsequent fiscal periods from \$0.04 to \$0.03 per 50-pound container or equivalent of onions.

The South Texas onion marketing order provides authority for the Committee, with the approval of the Department, to formulate an annual budget of expenses and collect assessments from handlers to administer the program. The members of the Committee are producers and handlers of South Texas onions. They are familiar with the Committee's needs and with the costs for goods and services in their local area and are thus in a position to formulate an appropriate budget and assessment rate. The assessment rate is formulated and discussed in a public meeting. Thus, all directly affected persons have an opportunity to participate and provide input.

For the 1999–2000 and subsequent fiscal periods, the Committee recommended, and the Department approved, an assessment rate that would continue in effect from fiscal period to fiscal period unless modified, suspended, or terminated by the Secretary upon recommendation and information submitted by the Committee or other information available to the Secretary.

The Committee, in a mail vote, unanimously recommended 2000–2001 expenses of \$142,000 for personnel, office, compliance, and partial promotion expenses. These expenses were approved on July 31, 2000. The assessment rate and specific funding for

research and promotion projects were to be recommended at a later Committee meeting.

The Committee subsequently met on December 27, 2000, and unanimously recommended 2000–2001 expenditures of \$306,740 and an assessment rate of \$0.03 per 50-pound container of onions. In comparison, last year's budgeted expenditures were \$301,000. The assessment rate of \$0.03 is \$0.01 lower than the rate currently in effect. The Committee voted to lower its assessment rate to reduce handler costs by about \$75,000 (\$0.01 assessment rate reduction X 7,500,000 containers of assessable onions), and because the Committee believes the projected reserve on July 31, 2001 (\$279,814), would be higher than needed to administer the program.

The Committee recently entered into an agreement with the Texas Produce Association (Association) for management services. The Association also manages the Texas citrus and melon administrative committees (7 CFR Parts 906 and 979) and several other State marketing organizations. The sharing of costs (staff, office space, and equipment) is expected to foster economy and efficiency. Each organization's share of the costs is based upon the amount of work performed and time devoted to its activities.

The major expenditures recommended by the Committee for the 2000–2001 fiscal period include \$117,544 for administrative expenses, \$27,496 for compliance, \$39,500 for promotion, and \$122,200 for research projects. Budgeted expenses for these items in 1999–2000 were \$97,200, \$34,800, \$36,000, and \$133,000, respectively.

The assessment rate recommended by the Committee was derived by dividing anticipated expenses by expected shipments of South Texas onions. Onion shipments for the year are estimated at 7.5 million 50-pound equivalents, which should provide \$225,000 in assessment income. Income derived from handler assessments, along with interest income and funds from the Committee's authorized reserve, will be adequate to cover budgeted expenses. Funds in the reserve (currently \$346,554) will be kept within the maximum permitted by the order (approximately two fiscal periods' expenses, \$ 959.43).

The assessment rate established in this rule will continue in effect indefinitely unless modified, suspended, or terminated by the Secretary upon recommendation and information submitted by the

Committee or other available information.

Although this assessment rate is effective for an indefinite period, the Committee will continue to meet prior to or during each fiscal period to recommend a budget of expenses and consider recommendations for modification of the assessment rate. The dates and times of Committee meetings are available from the Committee or the Department. Committee meetings are open to the public and interested persons may express their views at these meetings. The Department will evaluate Committee recommendations and other available information to determine whether modification of the assessment rate is needed. Further rulemaking will be undertaken as necessary. The Committee's 2000–2001 budget and those for subsequent fiscal periods will be reviewed and, as appropriate, approved by the Department.

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this rule on small entities. Accordingly, AMS has prepared this initial regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and the rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 82 producers of onions in South Texas and approximately 34 handlers subject to regulation under the marketing order. Small agricultural producers are defined by the Small Business Administration (13 CFR 121.201) as those having annual receipts less than \$500,000, and small agricultural service firms are defined as those whose annual receipts are less than \$5,000,000.

Most of the handlers are vertically integrated corporations involved in producing, shipping, and marketing onions. For the 1999–2000 marketing year, the industry's 34 handlers shipped onions produced on 15,867 acres with the average and median volume handled being 168,387 and 139,237 fifty-pound bag equivalents, respectively. In terms of production value, total revenues for the 34 handlers were estimated to be \$48.7 million, with average and median revenues being \$1.4 million, and \$1.2 million, respectively.

The South Texas onion industry is characterized by producers and handlers whose farming operations generally involve more than one commodity, and whose income from farming operations is not exclusively dependent on the production of onions. Alternative crops provide an opportunity to utilize many of the same facilities and equipment not in use when the onion production season is complete. For this reason, typical onion producers and handlers either produce multiple crops or alternate crops within a single year.

Based on the SBA's definition of small entities, the Committee estimates that all the 34 handlers regulated by the order would be considered small entities if only their spring onion revenues are considered. However, revenues from other productive enterprises would likely push a large number of these handlers above the \$5,000,000 annual receipt threshold. All of the 82 producers may be classified as small entities based on the SBA definition if only their revenue from spring onions is considered. When revenues from all sources are considered, a majority of the producers would not be considered small entities because receipts would exceed \$500,000.

This rule decreases the assessment rate established for the Committee and collected from handlers for the 2000–2001 and subsequent fiscal periods from \$0.04 to \$0.03 per 50-pound container or equivalent of onions. The Committee unanimously recommended 2000–2001 expenditures of \$306,740 and an assessment rate of \$0.03 per 50-pound container or equivalent. The assessment rate of \$0.03 is \$0.01 lower than the 1999–2000 rate. The quantity of assessable onions for the 2000–2001 fiscal period is estimated at 7.5 million 50-pound containers or equivalents.

The Committee recently entered into an agreement with the Texas Produce Association (Association) for management services. The Association also manages the Texas citrus and melon administrative committees (7 CFR Parts 906 and 979) and several other State marketing organizations. The sharing of costs (staff, office space, and equipment) is expected to foster economy and efficiency. Each organization's share of the costs is based upon the amount of work performed and time devoted to its activities. Income derived from handler assessments, along with interest income and funds from the Committee's authorized reserve, will be adequate to cover budgeted expenses.

The major expenditures recommended by the Committee for the 2000–2001 fiscal period include \$117,544 for administrative expenses, \$27,496 for compliance, \$39,500 for promotion, and \$122,200 for research projects. Budgeted expenses for these items in 1999–2000 were \$97,200, \$34,800, \$36,000, and \$133,000, respectively.

The Committee voted to lower its assessment rate to lower handler costs by about \$75,000 and because the Committee believes the projected reserve on July 31, 2001 (\$279,814), would be higher than needed to administer the program.

The Committee reviewed and unanimously recommended 2000–2001 expenditures of \$306,739, which included increases in administrative and office salaries, and research programs. Prior to arriving at this budget, the Committee considered information from various sources, including the Committee's Executive Committee, the Research Subcommittee, and the Market Development Subcommittee. Alternative expenditure levels were discussed by these groups, based upon the relative value of various research projects to the onion industry. The assessment rate of \$0.03 per 50-pound equivalent of assessable onions was then determined by dividing the total recommended budget by the quantity of assessable onions, estimated at 7.5 million 50-pound equivalents for the 2000–2001 fiscal period. This is approximately \$81,740 below the anticipated expenses, which the Committee determined to be acceptable.

A review of historical information and preliminary information pertaining to the upcoming fiscal period indicates that the grower price for the 2001-marketing season could range between \$7.00 and \$12.00 per 50-pound equivalent of onions. Therefore, the estimated assessment revenue for the 2000–2001 fiscal period as a percentage of total grower revenue could range between .43 and .25 percent.

This action decreases the assessment obligation imposed on handlers. Assessments are applied uniformly on all handlers, and some of the costs may be passed on to producers. However, the assessment rate decrease reduces the burden on handlers, and may reduce the burden on producers. In addition, the Committee's meeting was widely publicized throughout the South Texas onion industry and all interested persons were invited to attend the meeting and participate in Committee deliberations on all issues. Like all Committee meetings, the December 27, 2000, meeting was a public meeting and

all entities, both large and small, were able to express views on this issue. Finally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

This action imposes no additional reporting or recordkeeping requirements on either small or large South Texas onion handlers. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sector agencies.

The Department has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the information and recommendation submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

Pursuant to 5 U.S.C. 553, it is also found and determined upon good cause that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice prior to putting this rule into effect, and that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** because: (1) The 2000–2001 fiscal period began on August 1, 2000, and the marketing order requires that the rate of assessment for each fiscal period apply to all assessable onions handled during such fiscal period; (2) this action decreases the assessment rate for assessable onions beginning on August 1, 2000; (3) handlers are aware of this action which was unanimously recommended by the Committee at a public meeting and is similar to other assessment rate actions issued in past years; and (4) this interim final rule provides a 60-day comment period, and all comments timely received will be considered prior to finalization of this rule.

#### List of Subjects in 7 CFR Part 959

Marketing agreements, Onions, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 959 is amended as follows:

#### **PART 959—ONIONS GROWN IN SOUTH TEXAS**

1. The authority citation for 7 CFR part 959 continues to read as follows:

**Authority:** 7 U.S.C. 601–674.

2. Section 959.237 is revised to read as follows:

##### **§ 959.237 Assessment rate.**

On and after August 1, 2000, an assessment rate of \$0.03 per 50-pound container or equivalent is established for South Texas onions.

Dated: March 21, 2001.

**Kenneth C. Clayton,**

*Acting Administrator, Agricultural Marketing Service.*

**BILLING CODE 3410–02–P**

## **DEPARTMENT OF AGRICULTURE**

### **Agricultural Marketing Service**

#### **7 CFR Part 989**

[Docket No. FV01–989–1 FIRA]

#### **Raisins Produced from Grapes Grown in California; Reduction in Production Cap for 2001 Diversion Program**

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Final rule.

**SUMMARY:** The Department of Agriculture (Department) is adopting, as a final rule, without change, the provisions of an interim final rule reducing the production cap for the 2001 diversion program (RDP) for Natural (sun-dried) Seedless (NS) raisins from 2.75 to 2.5 tons per acre. The cap is specified under the Federal marketing order for California raisins (order). The order regulates the handling of raisins produced from grapes grown in California and is administered locally by the Raisin Administrative Committee (RAC). Under an RDP, producers receive certificates from the RAC for curtailing their production to reduce burdensome supplies. The certificates represent diverted tonnage. Producers sell the certificates to handlers who, in turn, redeem the certificates for reserve raisins from the RAC. The production cap limits the yield per acre that a producer can claim in an RDP. Reducing the cap brings the figure in line with anticipated 2001 crop yields.

**EFFECTIVE DATE:** April 26, 2001.

#### **FOR FURTHER INFORMATION CONTACT:**

Maureen T. Pello, Senior Marketing Specialist, California Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 2202 Monterey Street, suite 102B, Fresno, California 93721; telephone: (559) 487–5901, Fax: (559) 487–5906; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525–S, P.O. Box 96456, Washington, DC 20090–6456; telephone: (202) 720–2491, Fax: (202) 720–5698.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, P.O. Box 96456, room 2525–S, Washington DC 20090–6456; telephone: (202) 720–2491, Fax: (202) 720–5698, or E-mail: [Jay.Guerber@usda.gov](mailto:Jay.Guerber@usda.gov).

**SUPPLEMENTARY INFORMATION:** This rule is issued under Marketing Agreement and Order No. 989 (7 CFR part 989), both as amended, regulating the handling of raisins produced from grapes grown in California, hereinafter referred to as the “order.” The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the “Act.”

The Department is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review the Secretary’s ruling on the

petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This rule continues to reduce the production cap for the 2001 RDP for NS raisins from 2.75 to 2.5 tons per acre. The cap is specified in the order. Under an RDP, producers receive certificates from the RAC for curtailing their production to reduce burdensome supplies. The certificates represent diverted tonnage. Producers sell the certificates to handlers who, in turn, redeem the certificates for reserve raisins from the RAC. The production cap limits the yield per acre that a producer can claim in an RDP. Reducing the cap for the 2001 RDP brings the figure in line with anticipated 2001 crop yields. This action was recommended by the RAC at a meeting on November 29, 2000.

#### **Volume Regulation Provisions**

The order provides authority for volume regulation designed to promote orderly marketing conditions, stabilize prices and supplies, and improve producer returns. When volume regulation is in effect, a certain percentage of the California raisin crop may be sold by handlers to any market (free tonnage) while the remaining percentage must be held by handlers in a reserve pool (reserve) for the account of the RAC. Reserve raisins are disposed of through various programs authorized under the order. For example, reserve raisins may be sold by the RAC to handlers for free use or to replace part of the free tonnage they exported; carried over as a hedge against a short crop the following year; or may be disposed of in other outlets not competitive with those for free tonnage raisins, such as government purchase, distilleries, or animal feed. Net proceeds from sales of reserve raisins are ultimately distributed to producers.

#### **Raisin Diversion Program**

The RDP is another program concerning reserve raisins authorized under the order and may be used as a means for controlling overproduction. Authority for the program is provided in § 989.56 of the order, and additional procedures are specified in § 989.156 of the order’s administrative rules and regulations.

Pursuant to these sections, the RAC must meet by November 30 each crop year to review raisin data, including information on production, supplies, market demand, and inventories. If the RAC determines that the available supply of raisins, including those in the reserve pool, exceeds projected market needs, it can decide to implement a

diversion program, and announce the amount of tonnage eligible for diversion during the subsequent crop year. Producers who wish to participate in the RDP must submit an application to the RAC. Such producers curtail their production by vine removal or some other means established by the RAC and receive a certificate from the RAC which represents the quantity of raisins diverted. Producers sell these certificates to handlers who pay producers for the free tonnage applicable to the diversion certificate minus the established harvest cost for the diverted tonnage. Handlers redeem the certificates by presenting them to the RAC and paying an amount equal to the established harvest cost plus payment for receiving, storing, fumigating, handling, and inspecting the tonnage represented on the certificate. The RAC then gives the handler raisins from the reserve pool in an amount equal to the tonnage represented on the diversion certificate.

#### **Production Cap**

Section 989.56(a) of the order specifies a production cap of 2.75 tons per acre for any production unit of a producer approved for participation in an RDP. When the diversion tonnage is announced, the RAC may recommend, subject to approval by the Secretary, reducing the 2.75 tons per acre production cap. The production cap limits the yield that a producer can claim. Producers who historically produce yields above the production cap can choose to produce a crop rather than participate in the diversion program. No producer is required to participate in an RDP.

Pursuant to § 989.156, producers who wish to participate in a program must submit an application to the RAC by December 20. Producers must specify, among other things, the raisin production and the acreage covered by the application. RAC staff verifies producers' production claims using handler acquisition reports and other available information. However, a producer could misrepresent production by claiming that some raisins produced on one ranch were produced on another, and use an inflated yield on the RDP application. Thus, the production cap limits the amount of raisins for which a producer participating in an RDP may be credited, and protects the program from overstated yields.

#### **RAC Recommendation**

On November 29, 2000, the RAC met and reviewed data relating to the quantity of reserve raisins and anticipated market needs. With a 2000–

01 NS crop estimated to be the largest on record at 427,394 tons, and a computed trade demand of 233,344 tons (comparable to market needs), the RAC projected a reserve pool of 194,050 tons of NS raisins. With such a large anticipated reserve, the RAC announced that 25,000 tons of NS raisins would be eligible for diversion under the 2001 RDP. In January 2001, the RAC revised its crop estimate to 440,000 tons, which, if realized, would yield a 206,656-ton reserve. The amount of tonnage towards the RDP was increased to 96,532 tons.

At the November meeting, RAC members evaluated the 2.75 tons per acre production cap. With this year's record crop and high yields per acre, the RAC believes that the grapevines will likely produce a smaller crop next year. In addition, RAC historical data indicates that the production cap under NS raisin diversion programs has averaged 2.24 tons per acre. Thus, the RAC recommended reducing the production cap from 2.75 to 2.5 tons per acre to more accurately reflect next year's anticipated yields. Accordingly, a new paragraph (t) was added to § 989.156 of the order's rules and regulations.

#### **Final Regulatory Flexibility Analysis**

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities. Accordingly, AMS has prepared this final regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 20 handlers of California raisins who are subject to regulation under the order and approximately 4,500 raisin producers in the regulated area. Small agricultural firms are defined by the Small Business Administration (13 CFR 121.201) as those having annual receipts of less than \$5,000,000, and small agricultural producers are defined as those having annual receipts of less than \$500,000. Thirteen of the 20 handlers subject to regulation have annual sales estimated to be at least \$5,000,000, and the remaining 7 handlers have sales less than \$5,000,000, excluding receipts from any other sources. No more than 7

handlers, and a majority of producers, of California raisins may be classified as small entities, excluding receipts from other sources.

This rule continues to add a new paragraph (t) to § 989.156 of the order's rules and regulations regarding the RDP. Under an RDP, producers receive certificates from the RAC for curtailing their production to reduce burdensome supplies. The certificates represent diverted tonnage. Producers sell the certificates to handlers who, in turn, redeem the certificates for reserve raisins from the RAC. The order specifies a production cap limiting the yield per acre that a producer can claim in an RDP. This rule continues to reduce the cap from 2.75 to 2.5 tons per acre to accurately reflect next year's anticipated yields. Authority for this action is provided in § 989.56(a) of the order.

Regarding the impact of this action on affected entities, producers who participate in the 2001 RDP will have the opportunity to earn some income for not harvesting a 2001–02 crop. Producers will sell the certificates to handlers next fall for the free tonnage applicable to the diversion certificate minus the harvest cost for the diverted tonnage. Applicable harvest costs for the 2001 RDP were established by the RAC at \$340 per ton.

Reducing the production cap has no impact on raisin handlers. Handlers will pay producers for the free tonnage applicable to the diversion certificate minus the \$340 per ton harvest cost. Handlers will redeem the certificates for 2000–01 crop NS reserve raisins and pay the RAC the \$340 per ton harvest cost plus payment for receiving, storing, fumigating, handling (currently totaling \$46 per ton), and inspecting (currently \$9.00 per ton) the tonnage represented on the certificate. Reducing the production cap does not impact handler payments for reserve raisins under the 2001 RDP.

Alternatives to the recommended action include leaving the production cap at 2.75 tons per acre or reducing it to another figure besides 2.5 tons per acre. However, the majority of RAC members believe that a cap of 2.5 tons per acre will more accurately reflect next year's yields.

There was some discussion at the RAC's meeting that the 2.5 tons per acre production cap was too low and would discriminate against producers with high yields. In recent years, cultural practices have evolved to where some producers' yield per acre is reportedly as high as 4 tons. However, as previously stated, the program is voluntary and producers whose vines

can produce 4 tons per acre have the option to produce a raisin crop rather than apply for the RDP and be subject to the production cap.

This rule imposes no additional reporting or recordkeeping requirements on either small or large raisin handlers. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the information collection requirement referred to in this rule (i.e., the application) has been approved by the Office of Management and Budget (OMB) under OMB Control No. 0581-0178. As with all Federal marketing order programs, reports and forms are periodically reviewed to reduce information requirements and duplication by industry and public sectors agencies. Finally, the Department has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule.

Further, the RAC's meeting on November 29, 2000, and the RAC's Administrative Issues Subcommittee meeting on that same day but prior to the RAC meeting where this action was deliberated were public meetings widely publicized throughout the raisin industry. All interested persons were invited to attend the meetings and participate in the industry's deliberations.

An interim final rule concerning this action was published in the **Federal Register** on January 4, 2001 (66 FR 705). Copies of the rule were mailed by the RAC's staff to all RAC members and alternates, the Raisin Bargaining Association, handlers, and dehydrators. In addition, the rule was made available through the Internet by the Office of the Federal Register. That rule provided for a 15-day comment period that ended January 19, 2001. No comments were received.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

After consideration of all relevant material presented, including the information and recommendation submitted by the RAC and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

#### List of Subjects in 7 CFR Part 989

Grapes, Marketing agreements, Raisins, Reporting and recordkeeping requirements.

#### PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

Accordingly, the interim final rule amending 7 CFR part 989 which was published at 66 FR 705 on January 4, 2001, is adopted as a final rule without change.

Dated: March 21, 2001.

##### Federal Aviation Administration

#### 14 CFR Part 39

[Docket No. 98-NE-35-AD; Amendment 39-12156, AD 2001-06-09]

**RIN 2120-AA64**

#### Airworthiness Directives; General Electric Company CF6-80A3 Series Turbofan Engines

**AGENCY:** Federal Aviation Administration, DOT.

**ACTION:** Final rule.

**SUMMARY:** This amendment supersedes an existing airworthiness directive (AD), applicable to General Electric Company (GE) CF6-80A3 series turbofan engines, that currently requires initial and repetitive on-wing borescope inspections of the left hand aft engine mount link assembly for cracks, bearing migration, and bearing race rotation, and if necessary, replacement with serviceable parts. This AD requires initial and repetitive visual inspections of both left hand and right hand aft engine mount link assemblies for separations, cracks, and bearing race migration. Cracked or separated parts will have to be replaced prior to further flight. If spherical bearing race migration is discovered, a borescope inspection for cracks is also required. If no cracks are discovered by the additional borescope inspection, assemblies would have a 75-cycle grace period for remaining in service before replacement. Finally, installation of improved aft engine mount link assemblies will constitute terminating action to the inspections of this AD. This amendment is prompted by a recent analysis of internal bearing friction and bearing migration and inspections, which revealed migrated spherical bearing races on two CF6-80A3 series and ten CF6-80C2 series aft

engine mount links. The actions specified by this AD are intended to prevent aft engine mount link failure, which can result in adverse redistribution of the aft engine mount loads and possible aft engine mount system failure.

**DATES:** Effective May 1, 2001. The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of May 1, 2001.

**ADDRESSES:** The service information referenced in this AD may be obtained from Rohr, Inc., 850 Lagoon Dr., Chula Vista, CA 91910-2098; telephone 619-691-3102, fax 619-498-7215. This information may be examined at the Federal Aviation Administration (FAA), New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, MA; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

**FOR FURTHER INFORMATION CONTACT:** Ann Mollica, Aerospace Engineer, Engine Certification Office, FAA, Engine and Propeller Directorate, 12 New England Executive Park, Burlington, MA 01803-5299; telephone 781-238-7740, fax 781-238-7199.

**SUPPLEMENTARY INFORMATION:** A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) by superseding AD 98-15-17, Amendment 39-10668 (63 FR 39489, July 23, 1998), which is applicable to GE Company CF6-80A3 series turbofan engines, was published in the **Federal Register** on July 20, 2000 (65 FR 44997). That action proposed to require initial and repetitive visual inspections of both left hand and right hand aft engine mount link assemblies for separations, cracks, and bearing race migration. Cracked or separated parts would have to be replaced prior to further flight. If spherical bearing race migration is discovered, a borescope inspection for cracks is also proposed. If no cracks are discovered by the additional borescope inspection, assemblies would have a 75-cycle grace period for remaining in service before replacement. Finally, installation of improved aft engine mount link assemblies would constitute terminating action to the inspections.

Interested persons have been afforded an opportunity to participate in the making of this amendment. Due consideration has been given to the comment received.

#### Comments

The sole commenter agrees with the technical intent and content of the proposed AD. However, the commenter

believes that the economic affect on his company would be considerably greater than that stated in the preamble to the proposed AD.

The comment did not, however, include any analysis to support the conclusion that the commenter's company would incur a greater adverse economic affect. The elements of the economic analysis were reviewed with the manufacturer, GE Company. The NPRM stated that 120 worldwide and 59 domestic airplanes would be affected by the AD. However, that economic data included both CF6-80A1 and CF6-80A3 engines. Since the AD applies only CF6-80A3 engines, the actual numbers of engines affected by this AD include 108 worldwide and 59 that could be installed on airplanes of US registry. The economic analysis section has been changed accordingly. The FAA also notes that the current AD already requires inspection of the left hand aft mount link at intervals considerably shorter than this AD requires. Therefore, some of the cost cited in the economic analysis has already been required by the current AD.

After careful review of the available data, including the comment noted above, the FAA has determined that air safety and the public interest require the adoption of the rule as proposed.

#### Economic Analysis

There are approximately 108 engines of the affected design in the worldwide fleet. The FAA estimates that 59 engines that could be installed on airplanes of US registry would be affected by this proposed AD, and that the cost of replacement link assemblies is approximately \$19,473 per engine. The FAA also estimates that it would take approximately 2 work hours per engine to accomplish the proposed interim inspections, and that the average labor rate is \$60 per work hour. Based on these figures, the total cost impact of the proposed AD over 3 years on US operators is estimated to be \$581,533 per year.

#### Regulatory Impact

This rule does not have federalism implications, as defined in Executive Order 13132, because it would not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. Accordingly, the FAA has not consulted with state authorities prior to publication of this rule.

For the reasons discussed above, I certify that this action (1) is not a

“significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and (3) will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act. A final evaluation has been prepared for this action and it is contained in the Rules Docket. A copy of it may be obtained by contacting the Rules Docket at the location provided under the caption **ADDRESSES**.

#### List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

#### Adoption of the Amendment

Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

#### PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

**Authority:** 49 U.S.C. 106(g), 40113, 44701.

##### § 39.13 [Amended]

2. Section 39.13 is amended by removing Amendment 39-10668 (63 FR 39489, July 23, 1998) and by adding a new airworthiness directive, Amendment 39-12156, to read as follows:

##### 2001-06-09 General Electric Company:

Amendment 39-12156. Docket 98-NE-35-AD. Supersedes AD 98-15-17, Amendment 39-10668.

**Applicability:** General Electric Company (GE) CF6-80A3 series turbofan engines, with left hand aft engine mount link assemblies, part numbers (P/N's) 224-1608-501, 224-1608-503, or 224-1608-505 installed, or right hand aft engine mount link assemblies, P/N's 224-1609-503, 224-1609-505, or 224-1609-507 installed. These engines are installed on but not limited to Airbus Industrie A310-200 series airplanes.

**Note 1:** This airworthiness directive (AD) applies to each engine identified in the preceding applicability provision, regardless of whether it has been modified, altered, or repaired in the area subject to the requirements of this AD. For engines that have been modified, altered, or repaired so that the performance of the requirements of this AD is affected, the owner/operator must request approval for an alternative method of compliance in accordance with paragraph (d) of this AD. The request should include an assessment of the effect of the modification, alteration, or repair on the unsafe condition

addressed by this AD; and, if the unsafe condition has not been eliminated, the request should include specific proposed actions to address it.

**Compliance:** Required as indicated, unless accomplished previously.

To prevent aft engine mount link failure, which can result in adverse redistribution of the aft engine mount loads and possible aft engine mount system failure, accomplish the following:

#### Initial Inspection

(a) Inspect aft engine mount link assemblies as follows:

#### Not Previously Inspected

(1) Within 400 cycles-in-service (CIS) after the effective date of this AD, if not previously inspected using Rohr Alert Service Bulletin (ASB) CF6-80A3-NAC-A71-061, Revision 1, dated February 22, 2000, or Rohr Alert Service Bulletin (ASB) CF6-80A3-NAC-A71-061, dated April 16, 1999; or

#### Previously Inspected

(2) Within 400 cycles-since-last-inspection (CSLI), if previously inspected using Rohr ASB CF6-80A3-NAC-A71-061, Revision 1, dated February 22, 2000, or Rohr ASB CF6-80A3-NAC-A71-061, dated April 16, 1999.

(3) Visually inspect for: separations, cracks, and spherical bearing race migration.

(4) Inspect in accordance with the Accomplishment Instructions of Rohr ASB CF6-80A3-NAC-A71-061, Revision 1, dated February 22, 2000.

#### Cracked or Separated Parts

(5) If a crack or separation is discovered, prior to further flight, remove the cracked or separated aft engine mount link assembly and the attaching hardware from service, and replace with serviceable parts.

#### Removal of Aft Engine Mount Link Assemblies With Spherical Bearing Race Migration

(6) If an aft engine mount link assembly is found with spherical bearing race migration, but no cracks or separations, prior to further flight, do either of the following:

#### Removal

(i) Remove the aft engine mount link assembly and the attaching hardware from service and replace with serviceable parts; or

#### Additional Borescope Inspection of Aft Engine Mount Link Assemblies with Spherical Bearing Race Migration

(ii) Perform an additional borescope inspection for cracks in accordance with paragraphs (2)(D)(5) and (2)(G)(5) of the Accomplishment Instructions of Rohr ASB CF6-80A3-NAC-A71-061, Revision 1, dated February 22, 2000, and perform the following:

#### After Additional Borescope Inspection, If Parts Are Cracked

(A) If a crack indication is discovered, prior to further flight, remove the cracked aft engine mount link assembly and the attaching hardware from service, and replace with serviceable parts.

**After Additional Borescope Inspection, If Parts Are Not Cracked (Grace Period)**

(B) If crack indications are not discovered, within 75 CIS after the inspection performed in accordance with paragraph (a)(6)(ii) of this AD, remove the aft engine mount link assembly from service, and replace with serviceable parts.

**Attaching Hardware**

(iii) Attaching hardware may be returned to service after inspection in accordance with paragraphs 2(D)(6)(a) or 2(G)(6)(a) of Rohr ASB CF6-80A3-NAC-A71-061, Revision 1, dated February 22, 2000, only if inspection of the removed link shows no cracks or separations.

**Note 2:** Link attaching hardware includes the nuts, bolts and washers that secure the link.

**Repetitive Inspections**

(b) Thereafter, perform the actions required by paragraph (a) and associated subparagraphs at intervals not to exceed 400 CSLI.

**Replacement With Improved Link Assemblies**

(c) Replace aft engine mount link assemblies with improved aft engine mount

link assemblies at the next engine shop visit (ESV), or prior to accumulating 29,000 engine cycles since new (CSN), whichever occurs first.

(1) Replace in accordance with the Accomplishment Instructions of Rohr ASB CF6-80A3-NAC-A71-064, dated April 4, 2000.

**Left Hand Aft Engine Mount Link Assemblies**

(2) Replace left hand aft engine mount link assemblies, P/N's 224-1608-501, 224-1608-503, or 224-1608-505, with improved left hand aft engine mount link assemblies, P/N's 224-1608-507 or 224-1608-509.

**Right Hand Aft Engine Mount Link Assemblies**

(3) Replace right hand aft engine mount link assemblies, P/N's 224-1609-503, 224-1609-505, or 224-1609-507, with improved right hand aft engine mount link assemblies, P/N's 224-1609-509 or 224-1609-511.

**Terminating Action**

(4) Installation of improved aft engine mount link assemblies in accordance with paragraph (c) and its subparagraphs constitutes terminating action to the inspections required by paragraphs (a) and (b) of this AD.

**Alternate Methods of Compliance**

(d) An alternative method of compliance or adjustment of the compliance time that provides an acceptable level of safety may be used if approved by the Manager, Engine Certification Office. Operators shall submit their requests through an appropriate FAA Principal Maintenance Inspector, who may add comments and then send it to the Manager, Engine Certification Office.

**Note 3:** Information concerning the existence of approved alternative methods of compliance with this airworthiness directive, if any, may be obtained from the Engine Certification Office.

**Special Flight Permits**

(e) Special flight permits may be issued in accordance with sections 21.197 and 21.199 of the Federal Aviation Regulations (14 CFR 21.197 and 21.199) to operate the aircraft to a location where the inspection requirements of this AD can be accomplished.

**Incorporation by Reference**

(f) The FAA has reviewed and approved the technical content of the listed Rohr Alert Service Bulletins ASBs. The actions required by this AD shall be done in accordance with the following Rohr ASBs:

Document No.	Pages	Revision	Date
ASB CF6-80A3-NAC-A71-061 ..... Total pages: 11	1-11	Revision 1 .....	Feb. 22, 2000.
ASB CF6-80A3-NAC-A71-064 ..... Total pages: 8	1-8	Original .....	April 4, 2000.

The incorporations by reference were approved by the Director of the Federal Register in accordance with 5 U.S.C. 552 (a) and 1 CFR part 51. Copies may be obtained from Rohr, Inc., 850 Lagoon Dr., Chula Vista, CA 91910-2098; telephone 619-691-3102, fax 619-498-7215. Copies may be inspected at the FAA, New England Region, Office of the Regional Counsel, 12 New England Executive Park, Burlington, MA 01803-5299; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

**Effective Date**

(g) This amendment becomes effective on May 1, 2001.

Issued in Burlington, Massachusetts, on March 19, 2001.

**Jay J. Pardee,**

*Manager, Engine and Propeller Directorate, Aircraft Certification Service.*

**BILLING CODE 4910-13-P**

**DEPARTMENT OF THE TREASURY****Bureau of Alcohol, Tobacco and Firearm****27 CFR Parts 55, 70, 270 and 275**

**[T.D. ATF-446]**

**RIN 1512-AC37**

**Technical Amendments to Regulations**

**AGENCY:** Bureau of Alcohol, Tobacco and Firearms (ATF), Department of the Treasury.

**ACTION:** Final rule, Treasury decision.

**SUMMARY:** This Treasury decision makes technical amendments and corrects typographical errors in parts 55, 70, 270 and 275 of title 27 Code of Federal Regulations (CFR). All changes are to provide clarity and uniformity throughout these regulations.

**DATES:** Effective March 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** Marjorie Ruhf, Regulations Division, (202) 927-8210, Bureau of Alcohol, Tobacco and Firearms, 650 Massachusetts Avenue, NW., Washington, DC 20226.

**SUPPLEMENTARY INFORMATION:**

**Background**

The Bureau of Alcohol, Tobacco and Firearms (ATF) administers regulations published in title 27, Code of Federal Regulations. These regulations are updated April 1 of each year to incorporate new or revised regulations that were published by ATF in the **Federal Register** during the preceding year. ATF identified several amendments that are needed to provide clarity and uniformity to the regulations in 27 CFR.

These amendments do not make any substantive changes and are only intended to improve the clarity of title 27.

**Paperwork Reduction Act**

The provisions of the Paperwork Reduction Act of 1995, Public Law 104-13, 44 U.S.C. Chapter 35, and its implementing regulations, 5 CFR 1320, do not apply to this final rule because there are no recordkeeping or reporting requirements.

**Regulatory Flexibility Act**

Because no notice of proposed rulemaking is required for this rule, the provisions of the Regulatory Flexibility

Act (5 U.S.C. 601 *et seq.*) do not apply. We sent a copy of this final rule to the Chief Counsel for Advocacy of the Small Business Administration in accordance with 26 U.S.C. 7805(f). No comments were received.

#### Executive Order 12866

This final rule is not a significant regulatory action as defined in Executive Order 12866. Accordingly, this final rule is not subject to the analysis required by this Executive Order.

#### Administrative Procedure Act

Because this final rule merely makes technical amendments to improve the clarity of the regulations, it is unnecessary to issue this final rule with notice and public procedure under 5 U.S.C. 553(b). Similarly, because of the nature of this final rule, good cause is found that it is unnecessary to subject this final rule to the effective date limitation of 5 U.S.C. 553(d).

#### Drafting Information

The author of this document is Nancy Kern, Regulations Division, Bureau of Alcohol, Tobacco and Firearms.

#### List of Subjects

##### 27 CFR Part 55

Administrative practice and procedure, Authority delegations, Customs duties and inspection, Explosives, Hazardous materials, Imports, Penalties, Reporting and recordkeeping requirements, Safety, Security measures, Seizures and forfeitures, Transportation, and Warehouses.

##### 27 CFR Part 70

Administrative practice and procedure, Alcohol and alcoholic beverages, Authority delegations, Bankruptcy, Claims, Disaster assistance, Excise taxes, Firearms and ammunition, Government employees, Law enforcement, Law enforcement officers, Penalties, Reporting and recordkeeping requirements, Seizures and forfeitures, Surety bonds, and Tobacco.

##### 27 CFR Part 270

Cigars and cigarettes, Claims, Electronic funds transfers, Excise taxes, Imports, Labeling, Packaging and containers, Reporting and recordkeeping requirements, Surety bonds, and Tobacco.

##### 27 CFR Part 275

Administrative practice and procedure, Authority delegations, Cigars and cigarettes, Claims, Customs duties and inspections, Electronic fund

transfers, Excise taxes, Imports, Labeling, Packaging and containers, Penalties, Reporting and recordkeeping requirements, Seizures and forfeitures, Surety bonds, and Tobacco.

#### Authority and Issuance

Title 27, Chapter I, Code of Federal Regulations is amended as follows:

#### PART 55—COMMERCE IN EXPLOSIVES

**Paragraph 1.** The authority citation for part 55 continues to read as follows:

**Authority:** 18 U.S.C. 847.

**Par. 2.** In § 55.11, revise the definitions of “Chief, Firearms, and Explosives Licensing Center” and “Explosive Materials” to read as follows:

##### § 55.11 Meaning of terms.

\* \* \* \* \*

*Chief, Firearms and Explosives Licensing Center.* The ATF official responsible for the issuance and renewal of licenses and permits under this part.

\* \* \* \* \*

*Explosive materials.* Explosives, blasting agents, water gels and detonators. Explosive materials include, but are not limited to, all items in the “List of Explosive Materials” provided for in § 55.23.

\* \* \* \* \*

**Par. 3.** Remove the reference “AFT” each place it appears and add, in its place, the reference “AFT” in the following places:

- Section 55.23;
- Section 55.71;
- Section 55.105(b); and
- Section 55.126(d).

**Par 4.** In § 55.128, revise the second sentence to read as follows:

##### § 55.128 Discontinue of business.

\* \* \* Where discontinuance of the business or operations is absolute, the records required by this subpart shall be delivered within 30 days following the business or operations discontinuance to any ATF office located in the division in which the business was located, or to the ATF Firearms Out-of-Business Records Center, 2029 Stonewall Jackson Drive, Falling Waters, West Virginia, 25419. \* \* \*

**Par. 5.** Amend § 55.218 as follows:

- Revise the table heading “Public highways with traffic volume 3000 or less vehicles/day” to read “Public highways with traffic volume of 3000 or fewer vehicles/day.”
- Add the reference “(1.5 lbs.)” at the end of the first sentence in paragraph (3)

of the Notes to the Table of Distances for Storage of Explosives.

c. Revise the table heading “Passenger railways—public highways with traffic volume of more than 3,000 vehicles/day” to read “Passenger railways—public highways with traffic volume of more than 3,000 vehicles/day.”

#### PART 70—PROCEDURE AND ADMINISTRATION

**Par. 6.** The authority citation for part 70 continues to read as follows:

**Authority:** 5 U.S.C. 301 and 552; 26 U.S.C. 4181, 4182, 5146, 5203, 5207, 5275, 5367, 5415, 5504, 5555, 5684(a), 5741, 5761(b), 5802, 6020, 6021, 6064, 6102, 6155, 6159, 6201, 6203, 6204, 6301, 6303, 6311, 6313, 6314, 6321, 6323, 6325, 6326, 6331–6343, 6401–6404, 6407, 6416, 6423, 6501–6503, 6511, 6513, 6514, 6532, 6601, 6602, 6611, 6621, 6622, 6651, 6653, 6656–6658, 6665, 6671, 6672, 6701, 6723, 6801, 6862, 6863, 6901, 7011, 7101, 7102, 7121, 7122, 7207, 7209, 7214, 7304, 7401, 7403, 7406, 7423, 7424, 7425, 7426, 7429, 7430, 7432, 7502, 7503, 7505, 7506, 7513, 7601–7606, 7608–7610, 7622, 7623, 7653, 7805.

**Par. 7.** In the third sentence of § 70.803(c), remove the words “under § 71.22” and add, in its place, the words “§ 71.701(d).”

#### PART 270—MANUFACTURE OF TOBACCO PRODUCTS AND CIGARETTE PAPERS AND TUBES

**Par. 8.** The authority citation for part 270 continues to read as follows:

**Authority:** 26 U.S.C. 5142, 5143, 5146, 5701, 5703–5705, 5711–5713, 5721–5723, 5731, 5741, 5751, 5753, 5761–5763, 6061, 6065, 6109, 6151, 6301, 6302, 6311, 6313, 6402, 6404, 6423, 6676, 6806, 7011, 7212, 7325, 7502, 7503, 7606, 7805; 31 U.S.C. 9301, 9303, 9304, 9306.

**Par. 9.** Amend §§ 270.165 and 270.165a by removing the OMB control number citation at the end of each section.

**Par. 10.** In the OMB control number citation in § 270.216, remove reference “1512–0488”, and add in its place the reference “1512–0502.”

#### PART 275—IMPORTATION OF TOBACCO PRODUCTS AND CIGARETTE PAPERS AND TUBES

**Par. 11.** The authority citation for part 275 continues to read as follows:

**Authority:** 18 U.S.C. 2342; 26 U.S.C. 5701, 5703, 5704, 5705, 5708, 5712, 5713, 5721, 5722, 5723, 5741, 5754, 5761, 5762, 5763, 6301, 6302, 6313, 6404, 7101, 7212, 7342, 7606, 7652, 7805; 31 U.S.C. 9301, 9303, 9304, 9306.

**Par. 12.** In the OMB control number citation in § 275.72, remove the

reference “1512–0488”, and add in its place, the reference “1512–0502.”

**Bradley A. Buckles,**  
Director.

Approved: March 8, 2001.

**Timothy E. Skud,**  
Acting Deputy Assistant Secretary,  
(Regulatory, Tariff and Trade Enforcement).

BILLING CODE 4810–13–M

## DEPARTMENT OF THE TREASURY

### 31 CFR Part 1

#### Departmental Offices; Privacy Act of 1974; Implementation

**AGENCY:** Department of the Treasury.

**ACTION:** Final rule; corrections.

**SUMMARY:** The Department of the Treasury is making corrections to its Privacy Act exemption rules that were published on November 21, 2000, which consolidated the regulations issued pursuant to 5 U.S.C. 552a(j) and (k) exempting one or more systems of records established on behalf of each bureau by the Department.

**EFFECTIVE DATE:** March 27, 2001.

**ADDRESSES:** Inquiries may be addressed to Department of the Treasury, Disclosure Services, Washington, DC 20200.

**FOR FURTHER INFORMATION CONTACT:** Dale Underwood, Deputy Assistant Director, Disclosure Services, (202) 622–0930.

**SUPPLEMENTARY INFORMATION:** On November 21, 2000, the Department of the Treasury published a final rule at 65 FR 69865, amending its regulations issued pursuant to 5 U.S.C. 552a(j) and (k).

The Department is making several corrections to its list of systems of records for which an exemption is claimed as published on November 21, 2000. In the table following paragraph (c)(1)(i), the system number and title of two systems of records were inadvertently combined to read “DO .212 Bank Secrecy Act Reports System.” This is being changed to properly identify the system number and name for the systems of records entitled “DO .212 Suspicious Activity Reporting System,” and “DO .213 Bank Secrecy Act Reports System.” In addition, “DO .212 Suspicious Activity Reporting System” was not included in the table following paragraph (g)(1)(i) under the heading “DEPARTMENTAL OFFICES,” and this rule will make this correction. The final rule for the “Suspicious Activity Reporting System” was

published on October 31, 1997, at 62 FR 58907.

As noted in that preamble, the Department had published a final rule on November 17, 1999, at 64 FR 62585, which exempted a U.S. Customs Service system of records, CS .213–Seized Assets and Case Tracking System (SEACATS) pursuant to 5 U.S.C. 552a(j)(2) and (k)(2). The above system of records did not appear in the tables following paragraphs (c)(1)(iv) and (g)(1)(iv) under the heading U.S. CUSTOMS SERVICE. This rule corrects the oversight by adding SEACATS to the tables under the respective paragraphs.

In addition, corrections are being made to incorporate the following changes to the Department’s inventory of Privacy Act systems of records in the appropriate tables:

(1) Treasury/DO .190 is renamed from “General Allegations and Investigative Records” to “Investigation Data Management System,” as published on August 31, 2000, at 65 FR 53085.

(2) “ATF .006–Internal Security Record System,” and “BEP .044–Personnel Security Files and Indices,” are deleted, as published on December 14, 2000, at 65 FR 78261.

These regulations are being published as a final rule because the amendment does not impose any requirements on any member of the public. This amendment is the most efficient means for the Treasury Department to implement its internal requirements for complying with the Privacy Act.

Accordingly, pursuant to the administrative procedure provisions in 5 U.S.C. 553, the Department of the Treasury finds good cause that prior notice and other public procedure with respect to this rule are impracticable and unnecessary and finds good cause for making this rule effective on the date of publication in the **Federal Register**.

In accordance with Executive Order 12866, it has been determined that this final rule is not a “significant regulatory action” and, therefore, does not require a Regulatory Impact Analysis.

The regulation will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

Because no notice of proposed rulemaking is required, the provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) do not apply.

In accordance with the provisions of the Paperwork Reduction Act of 1995

(44 U.S.C. 3501 *et seq.*), the Department of the Treasury has determined that this final rule will not impose new record-keeping, application, reporting, or other types of information collection requirements.

#### List of Subjects in 31 CFR Part 1

Privacy.

Part 1 Subpart C of title 31 of the Code of Federal Regulations is amended as follows:

#### PART 1—[AMENDED]

1. The authority citation for part 1 continues to read as follows:

**Authority:** 5 U.S.C. 301 and 31 U.S.C. 321. Subpart A also issued under 5 U.S.C. 552 as amended. Subpart C also issued under 5 U.S.C. 552a.

2. Section 1.36 is amended as follows:

a. Paragraph (c)(1)(i) is amended by removing “General Allegations and Investigative Records” and adding in its place “Investigation Data Management System,” to the table.

b. Paragraph (c)(1)(i) is amended by removing the entry “DO .212 Bank Secrecy Act Reports System” and adding in its place “DO .212 Suspicious Activity Reporting System” to the table in numerical order.

c. Paragraph (c)(1)(i) is amended by adding “DO .213 Bank Secrecy Act Reports System” to the table in numerical order.

d. Paragraph (c)(1)(iv) is amended by adding “CS .213–Seized Assets and Case Tracking System (SEACATS)” to the table in numerical order.

e. Paragraph (g)(1)(i) is amended by removing “General Allegations and Investigative Records” and adding in its place “Investigation Data Management System,” to the table.

f. Paragraph (g)(1)(i) is amended by adding “DO .212 Suspicious Activity Reporting System” to the table in numerical order.

g. Paragraph (g)(1)(ii) is amended by removing “ATF .006–Internal Security Record System” from the table.

h. Paragraph (g)(1)(iv) is amended by adding “CS .213–Seized Assets and Case Tracking System (SEACATS)” to the table in numerical order.

i. Paragraph (m)(1)(ii) is amended by removing “ATF .006–Internal Security Record System” from the table; and

j. Paragraph (m)(1)(v) is amended by removing “BEP .044–Personnel Security Files and Indices” from the table.

The additions to § 1.36 read as follows:

**§ 1.36 Systems exempt in whole or in part from provisions of 5 U.S.C. 522a and this part.**

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

#### 33 CFR Part 117

[CGD01-01-030]

#### Drawbridge Operation Regulations: Harlem River, NY

**AGENCY:** Coast Guard, DOT.

**ACTION:** Notice of temporary deviation from regulations.

**SUMMARY:** The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations governing the operation of the 207 Street (University Heights) Bridge, at mile 6.0, across the Harlem River at New York City, New York. This deviation authorizes the bridge owner to require a twenty-four hour notice for bridge openings from March 2, 2001 through April 15, 2001. This deviation is necessary in order to facilitate emergency repairs at the bridge.

**DATES:** This deviation is effective from March 2, 2001 through April 15, 2001.

**FOR FURTHER INFORMATION CONTACT:** Joe Arca, Project Officer, First Coast Guard District, at (212) 668-7165.

**SUPPLEMENTARY INFORMATION:** The 207 Street (University Heights) Bridge, at mile 6.0, across the Harlem River, has a vertical clearance of 26 feet at mean high water, and 30 feet at mean low water in the closed position. The existing drawbridge operating regulations are listed at 33 CFR 117.789(c).

The bridge owner, the New York City Department of Transportation (NYCDOT), requested a temporary deviation from the drawbridge operating regulations to facilitate emergency electrical repairs at the bridge. This deviation from the operating regulations allows the bridge owner to require a twenty-four hour notice for bridge openings from March 2, 2001 through April 15, 2001.

Thirty days notice to the Coast Guard for approval of this emergency repair was not given by the bridge owner and was not required because this work involves vital, unscheduled maintenance that must be performed without undue delay.

Vessels that can pass under the bridge without an opening may do so at all times during the closed period.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 15, 2001.

**G.N. Naccara,**

*Rear Admiral, U.S. Coast Guard, Commander, First Coast Guard District.*

**BILLING CODE 4910-15-P**

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

#### 33 CFR Part 117

[CGD01-01-031]

#### Drawbridge Operation Regulations: Long Island, New York Inland Waterway From East Rockaway Inlet to Shinnecock Canal, NY

**AGENCY:** Coast Guard, DOT.

**ACTION:** Notice of temporary deviation from regulations.

**SUMMARY:** The Commander, First Coast Guard District, has issued a temporary deviation from the drawbridge operation regulations for the Atlantic Beach Bridge, at mile 0.4, across the Reynolds Channel in New York. This deviation from the regulations allows the bridge owner to open only one of the two bascule spans for bridge openings from March 15, 2001 through May 11, 2001. Vessels that require both bascule spans to be opened for passage through the bridge shall provide at least a one-hour advance notice by calling the number posted at the bridge. This action is necessary to facilitate maintenance at the bridge.

**DATES:** This deviation is effective from March 15, 2001 through May 11, 2001.

**FOR FURTHER INFORMATION CONTACT:** Joe Schmied, Project Officer, First Coast Guard District, at (212) 668-7165.

**SUPPLEMENTARY INFORMATION:** The Atlantic Beach Bridge, mile 0.4, across the Reynolds Channel has a vertical clearance of 25 feet at mean high water, and 30 feet at mean low water in the closed position. The existing operating regulations are listed at 33 CFR 117.799(e).

The bridge owner, the New York State Department of Transportation, requested a temporary deviation from the operating regulations to facilitate necessary maintenance at the bridge. This deviation to the operating regulations allows the owner of the Atlantic Beach Bridge to open only one of the two bascule spans for bridge openings from March 15, 2001 through May 11, 2001. Vessels that require both bascule spans to be opened for passage through the bridge shall provide at least a one-hour advance notice by calling the number posted at the bridge. Vessels that can pass under the bridge without an opening may do so at all times.

The bridge owner provided less than 30 days notice to the Coast Guard of its request to deviate from the drawbridge regulations because various contingencies that dictate

commencement of this vital phase of maintenance such as weather conditions and the necessary completion of other phases of the ongoing bridge maintenance frustrate scheduling that far in advance.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 16, 2001.

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 60

[AD-FRL-6939-9]

RIN 2060-AF91

#### Standards of Performance for New Stationary Sources and Emission Guidelines for Existing Sources: Commercial and Industrial Solid Waste Incineration Units

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule; correction.

**SUMMARY:** Final standards and guidelines for new commercial and industrial solid waste incineration units were promulgated on December 1, 2000 (65 FR 75338). Table 1 to Subpart CCCC—Emission Limitations (65 FR 75360) inadvertently omitted two emission limits (cadmium and carbon monoxide). As a result, we are republishing Table 1.

**EFFECTIVE DATE:** March 27, 2001.

*Docket.* Docket No. A-94-63 contains the supporting information used in developing the final standards and guidelines and is available for public inspection and copying between 8 a.m. and 5:30 p.m., Monday through Friday, at the Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, 401 M Street, SW., Washington, DC 20460, telephone (202) 260-7548, fax (202) 260-4000. The docket is available at the above address in Room M-1500, Waterside Mall (ground floor, central mall). A reasonable fee may be charged for copying.

**FOR FURTHER INFORMATION CONTACT:** Fred Porter, Combustion Group, Emission

Standards Division (MD-13), U.S. EPA, Research Triangle Park, North Carolina 27711, (919) 541-5251, e-mail: [porter.fred@epa.gov](mailto:porter.fred@epa.gov).

#### SUPPLEMENTARY INFORMATION:

##### Administrative Requirements

Under Executive Order 12866 (58 FR 51735, October 4, 1993), this action is not a “significant regulatory action” and is, therefore, not subject to review by the Office of Management and Budget. Because we have made a “good cause” finding that this action is not subject to notice-and-comment requirements under the Administrative Procedure Act or any other statute, it is not subject to the regulatory flexibility provisions of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), or to sections 202 and 205 of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4). In addition, this action does not significantly or uniquely affect small governments or impose a significant intergovernmental mandate, as described in sections 203 and 204 of UMRA. This action also does not significantly or uniquely affect the communities of tribal governments, as specified by Executive Order 13084 (63 FR 27655, May 10, 1998). On January 1, 2001, Executive Order 13084 was superseded by Executive Order 13175; however, this rule was developed during the period when Executive Order 13084 was still in force, and so tribal considerations were addressed under Executive Order 13084. This action will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132 (64 FR 43255, August 10, 1999). This action also is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant.

This action does not involve technical standards; thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply. This action also does not involve special consideration of environmental justice related issues as required by Executive Order 12898 (59 FR 7629, February 16, 1994). In taking this action, we have taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct, as required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996). We have complied with Executive Order 12630 (53 FR

8859, March 15, 1988) by examining the takings implications of this action rule in accordance with the “Attorney General’s Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings” issued under the executive order. This action does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). The EPA’s compliance with these statutes and Executive Orders for the underlying standards and guidelines is discussed in the December 1, 2000, **Federal Register** notice promulgating the final standards and guidelines (65 FR 75338).

The Congressional Review Act (5 U.S.C. 801 *et seq.*), as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. Section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the Congressional Review Act if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement (5 U.S.C. 808(2)). As stated previously, we have made such a good cause finding, including the reasons therefore. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rules in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(a).

#### List of Subjects in 40 CFR Part 60

Environmental protection, Air pollution control, Carbon monoxide, Metals, Nitrogen dioxide, Particulate matter, Sulfur oxides, Waste treatment and disposal.

Dated: January 19, 2001.

**Robert Perciasepe,**

*Assistant Administrator for Air and Radiation.*

For the reasons stated in the preamble, title 40, chapter I, part 60 of the Code of Federal Regulations is amended as follows:

#### PART 60—[AMENDED]

1. The authority citation for part 60 continues to read as follows:

**Authority:** 42 U.S.C. 7401, 7411, 7414, 7416, 7429, and 7601.

2. Subpart CCCC is amended by revising Table 1 to read as follows:

TABLE 1 TO SUBPART CCCC.—EMISSION LIMITATIONS

For the air pollutant	You must meet this emission limitation <sup>a</sup>	Using this averaging time	And determining compliance using this method
Cadmium .....	0.004 milligrams per dry standard cubic meter.	3-run average (1 hour minimum sample time per run).	Performance test (Method 29 of appendix A of this part).
Carbon monoxide .....	157 parts per million by dry volume.	3-run average (1 hour minimum sample time per run).	Performance test (Method 10, 10A, or 10B of appendix A of this part).
Dioxins/furans (toxic equivalency basis) .....	0.41 nanograms per dry standard cubic meter.	3-run average (1 hour minimum sample time per run).	Performance test (Method 23 of Appendix A of this part).
Hydrogen chloride .....	62 parts per million by dry volume	3-run average (1 hour minimum sample time per run).	Performance test (Method 26A of appendix A of this part).
Lead .....	0.04 milligrams per dry standard cubic meter.	3-run average (1 hour minimum sample time per run).	Performance test (Method 29 of appendix A of this part).
Mercury .....	0.47 milligrams per dry standard cubic meter.	3-run average (1 hour minimum sample time per run).	Performance test (Method 29 of appendix A of this part).
Opacity .....	10 percent .....	6-minute averages .....	Performance test (Method 9 of appendix A of this part).
Oxides of nitrogen .....	388 parts per million by dry volume.	3-run average (1 hour minimum sample time per run).	Performance test (Method 7, 7A, 7C, 7D, or 7E of appendix A of this part).
Particulate matter .....	70 milligrams per dry standard cubic meter.	3-run average (1 hour minimum sample time per run).	Performance test (Method 5 or 29 of appendix A of this part).
Sulfur dioxide .....	20 parts per million by dry volume	3-run average (1 hour minimum sample time per run).	Performance test (Method 6 or 6c of appendix A of this part).

<sup>a</sup> All emission limitations (except for opacity) are measured at 7 percent oxygen, dry basis at standard conditions.

[FR Doc. 01-7398 Filed 3-26-01; 8:45 am]

BILLING CODE 6560-50-M

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 60

[SC-AT-2001-01; FRL-6956-1]

### New Stationary Sources; Supplemental Delegation of Authority to the State of South Carolina

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Delegation of authority.

**SUMMARY:** The South Carolina Department of Health and Environmental Control (SCDHEC or State agency) has requested that EPA approve the “adopt-by-reference” mechanism for delegation of New Source Performance Standards (NSPS). The purpose of the State agency request for approval of its delegation mechanism is to streamline existing administrative procedures by eliminating any unnecessary steps involved in the federal delegation process. With this NSPS delegation mechanism in place, an NSPS promulgated by EPA will become effective in South Carolina on the date the NSPS is adopted if the State agency adopts the NSPS without change. No further State requests for delegation will be necessary. Likewise, no further

**Federal Register** documents will be published. However, if an NSPS regulation is adopted by the State agency with changes, EPA reserves the right to review and comment on the revised NSPS. The State is required to notify EPA of the revisions. If EPA determines that the revisions are equivalent to the federal NSPS then delegation will occur and notice will be published in the **Federal Register**. EPA reserves the right to implement the federal NSPS directly and continues to retain concurrent enforcement authority.

On October 19, 1976, the EPA initially delegated the authority for implementation and enforcement of the NSPS program to the State of South Carolina. The EPA’s review of the State agency’s pertinent laws, rules, and regulations indicate that adequate and effective procedures are in place for the implementation and enforcement of these Federal standards. This document was written to inform the public of the State agency’s new mechanism for delegation (adopt-by-reference) of NSPS.

**EFFECTIVE DATE:** The effective date is March 27, 2001.

**ADDRESSES:** Copies of the request for delegation of authority and EPA’s letter of delegation are available for public inspection during normal business hours at the following locations: Environmental Protection Agency, Region 4, Air & Radiation Technology

Branch, 61 Forsyth Street, SW., Atlanta, Georgia 30303.

South Carolina Department of Health and Environmental Control, 2600 Bull Street, Columbia, South Carolina 29201-1708.

Effective March 27, 2001, all requests, applications, reports and other correspondence required by any NSPS should not be submitted to the EPA Region 4 office, but should instead be submitted to the following address: South Carolina Department of Health and Environmental Control, 2600 Bull Street, Columbia, South Carolina 29201-1708.

**FOR FURTHER INFORMATION CONTACT:** Katy Forney, Air & Radiation Technology Branch, Environmental Protection Agency, Region 4, 61 Forsyth St. SW, Atlanta, Georgia 30303, 404-562-9130. E-mail: reeves.kathleen@epa.gov

**SUPPLEMENTARY INFORMATION:** Section 301, in conjunction with sections 110 and 111(c)(1) of the Clean Air Act as amended November 15, 1990, authorize EPA to delegate authority to implement and enforce the standards set out in 40 CFR part 60, New Source Performance Standards (NSPS).

All current NSPS categories are delegated with the exception of the following sections within those subparts that may not be delegated. Future NSPS regulations will contain a list of sections that will not be delegated for that subpart.

1. Subpart A—§§ 60.8(b) (2) and (3), 60.11(e) (7) and (8), and 60.13 (g), (i) and (j)(2)
2. Subpart B—§§ 60.22, 60.27 and 60.29
3. Subpart Da—§ 60.45a
4. Subpart Db—§§ 60.44b(f), 60.44b(g) and 60.49b(a)(4)
5. Subpart Dc—§ 60.48c(a)(4)
6. Subpart Ec—§ 60.56(c)(i)
7. Subpart J—§§ 60.105(a)(13)(iii) and 60.106(i)(12)
8. Subpart Ka—§ 60.114a
9. Subpart Kb—§§ 60.111b(f)(4), 60.114b, 60.116b(e)(3) (iii) and (iv) and 60.116b(f)(2)(iii)
10. Subpart O—§ 60.153(e)
11. Subpart EE—§ 60.316(d)
12. Subpart GG—§§ 60.334(b)(2) and 60.335(f)(1)
13. Subpart RR—§ 60.446(c)
14. Subpart SS—§ 60.456(d)
15. Subpart TT—§ 60.466(d)
16. Subpart UU—§ 60.474(g)
17. Subpart VV—§§ 60.482–1(c)(2) and 60.484
18. Subpart WW—§ 60.496(c)
19. Subpart XX—§ 60.502(e)(6)
20. Subpart AAA—§§ 60.531, 60.533, 60.534, 60.535, 60.536(i)(2), 60.537, 60.538(e) and 60.539
21. Subpart BBB—§ 60.543(c)(2)(ii)(B)
22. Subpart DDD—§ 60.562–2(c)
23. Subpart III—§ 60.613(e)
24. Subpart NNN—§ 60.663(e)
25. Subpart RRR—§ 60.703(e)
26. Subpart SSS—§§ 60.711(a)(16), 60.713(b)(1)(i), 60.713(b)(1)(ii), 60.713(b)(5)(i), 60.713(d), 60.715(a) and 60.716
27. Subpart TTT—§§ 60.723(b)(1), 60.723(b)(2)(i)(C), 60.723(b)(2)(iv), 60.724(e) and 60.725(b)
28. Subpart VVV—§§ 60.743(a)(3)(v) (A) and (B), 60.743(e), 60.745(a) and 60.746
29. Subpart WWW—§ 60.754(a)(5)

After a thorough review of the request, the Regional Administrator determined that such a delegation was appropriate for all source categories. All sources subject to the requirements of 40 CFR part 60 will now be under the jurisdiction of the appropriate above mentioned agency.

Since review of the pertinent laws, rules, and regulations for the State agency has shown them to be adequate for implementation and enforcement of the NSPS, EPA hereby notifies the public that it is approving adoption-by-reference as the mechanism for delegation of the NSPS source categories upon publication of this **Federal Register** document.

#### Administrative Requirements

The Office of Management and Budget has exempted this regulatory action

from Executive Order 12866, entitled “Regulatory Planning and Review.”

The Congressional Review Act, as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (5 U.S.C. 801 *et seq.*), generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. However, section 808 allows the issuing agency to make a rule effective sooner than otherwise provided by the Congressional Review Act if the agency makes a good cause finding that notice and public procedure is impracticable, unnecessary or contrary to the public interest. This determination must be supported by a brief statement. 5 U.S.C. 808(2). As stated previously, EPA has made such a good cause finding, including the reasons therefor, and established an effective date of [insert date of publication]. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

**Authority:** This document is issued under the authority of sections 101, 110, 111, 112 and 301 of the Clean Air Act, as Amended (42 U.S.C. 7401, 7410, 7411, 7412 and 7601).

Dated: March 8, 2001.

**A. Stanley Meiburg,**

*Acting Regional Administrator, Region 4.*  
[FR Doc. 01–7516 Filed 3–26–01; 8:45 am]

**BILLING CODE 6560–50–P**

### Health Care Financing Administration

#### 42 CFR Parts 410 and 414

[HCFA–1120–CN]

RIN 0938–AK11

#### Medicare Program; Revisions to Payment Policies Under the Physician Fee Schedule for Calendar Year 2001

**AGENCY:** Health Care Financing Administration (HCFA), HHS.

**ACTION:** Correction of final rule with comment period.

**SUMMARY:** This document corrects technical errors that appeared in the final rule with comment period published in the **Federal Register** on

November 1, 2000, entitled “Revisions to Payment Policies Under the Physician Fee Schedule for Calendar Year 2001.”

**EFFECTIVE DATE:** January 1, 2001.

**FOR FURTHER INFORMATION CONTACT:**  
Diane Milstead, (410) 786–3355.

#### SUPPLEMENTARY INFORMATION:

##### Background

In FR Doc. 00–27833 of November 1, 2000, (65 FR 65376), there were a number of technical errors that are identified and corrected in the Correction of Errors section below. Additionally there are various revisions to Addenda B and C. The provisions in this correction notice are effective as if they had been included in the document published November 1, 2000, that is, January 1, 2001.

##### Discussion of Addenda B and C

1. While we had proposed revisions to the work relative work units (RVUs) for observation care codes (CPT 99234 through 99236) on page 44196 of the July 17, 2000 proposed rule, we indicated in the November 1, 2000 final rule we were not proceeding with the revisions to the work RVUs. Unfortunately, the work RVUs published in the November 1, 2000 rule continued to reflect the proposed reductions. The following entries on page 65555 are corrected: CPT code 99234, CPT code 99235, and CPT code 99236. These corrections are reflected in correction number 9 to follow. In addition, since no change was made to the RVUs for these codes, they should not be included on page 65585 of Addendum C. Therefore, they have been deleted from Addendum C.

2. On page 65568 of Addendum B, the value assigned to HCPCS code G0105 under the column labeled “Year 2001 Transitional Non-facility Total” is incorrect. The corrected value is reflected in correction number 10 to follow.

3. On page 65569 and 65570 of Addendum B, the short descriptor to HCFA Common Procedure Coding System (HCPCS) codes G0179 and G0190 are listed incorrectly. The corrected descriptor is reflected in correction number 11 to follow.

4. On page 65569 of Addendum B and page 65585 of Addendum C, the short descriptor for HCPCS code G0184 is listed incorrectly. The corrected descriptor is reflected in correction number 12 to follow.

5. On page 65246 of the November 1, 2000, we stated that HCPCS codes G0195 and G0196 will be assigned RVUs and inputs for practice expense.

However, Addenda B and C incorrectly indicate that these codes are carrier priced. Entries on the following pages are corrected: pages 65570 and 65585 for HCPCS codes G0195 and G0196. These corrections are reflected in corrections number 13 to follow.

6. In Addendum B, we assigned incorrect status indicators for the following CPT codes: page 65517 for CPT codes 76934, 76934-26, 76934-TC, 76938, 76938-26, 76938-TC; page 65518 for CPT codes 76960, 76960-26, 76960-TC; page 65536 for CPT codes 87145 and 87208; page 65544 for CPT code 92525, page 65545 for CPT codes 92597 and 92598; page 65556 for CPT codes 99375 and 99378; page 65556 for HCPCS codes A0030, A0040, A0050, A0225, A0300, A0302, A0304, A0306, A0308, A0310, A0320, A0322, A0324, A0326, A0328, A0330, A0340, A0342, A0344, A0346, A0348, A0350, A0360, A0362, A0364; page 65557 for HCPCS codes A0366, A0368, A0370, A0380 and A0390; and page 65577 for HCPCS code Q0186. These corrections are reflected in correction number 14 to follow.

7. In Addendum B, page 65548, we assigned incorrect status indicators and RVUs to CPT codes 93662-26 and 93662-TC. Corrections are made in correction number 15 to follow.

8. In Addendum B, page 65491, we assigned incorrect work and practice expense RVUs to CPT codes 59150 and 59151. We have corrected these RVUs in correction number 16 to follow.

9. In Addendum B, page 65514, we assigned incorrect malpractice RVUs to CPT code 76012. A correction is reflected in correction number 17 to follow.

10. In Addendum B the work RVUs for the following codes were incorrect due to a technical error in the payment calculations: page 65503 for CPT code 70540; page 65504 for CPT codes 70540-26, 70542, 70542-26, 70543, and 70543-26; on page 65505 for CPT codes 71550, 71550-26, 71551, 71551-26, 71552, and 71552-26; on page 65506 for CPT 72195, 72195-26, 72196, 72196-26, 72197, and 72197-26; on page 65508 for CPT code 73218, 73218-26, 73219, 73219-26, 73220, 73220-26, 73221, 73221-26, 73222, 73222-26, 73223, and 73223-26; on page 65509 for CPT codes 74181, 74181-26, 74182, 74182-26, and 74183; and on page 65510 for CPT code 74183-26. Corrections are made in correction number 18 to follow.

#### Correction of Errors

In FR Doc. 00-27833 of November 1, 2000, (65 FR 65376), make the following corrections:

1. On page 65383, column three, under "Comments on Response Rate", in the third full paragraph labeled "Response", in the third from the last line, delete the words "divided by the mean,".

2. On page 65385, column two, under "Result of Evaluation of Comments", second bullet, first paragraph, line eleven, delete the words "divided by the mean,".

3. On page 65425, column two, under Medical Nutrition Therapy (CPT codes 97802 through 97804) in the first paragraph, fourth sentence, replace "Diabetic" with "Dietetic".

4. On page 65427, column two, section V. "Physician Fee Schedule Update and Conversion Factor for

Calendar Year 2001", in the second sentence of the first paragraph, the anesthesia conversion factor should be corrected to read 17.83.

5. On page 65432, column one, first paragraph, the parenthetical contained in the note should read "(that is,  $1.019 \times 1.009 \times 1.027 \times 1.000 = 1.056$ )."

6. On page 65437, in the table labeled "Impact of This Final Rule Only on Payment for Selected Codes," for CPT code 99236, replace the values under "Old facility" and "New facility" columns with "225.72" and the value under the percent change column with a "0".

#### Addendum B [Corrected]

7. On page 65440 in column three, add the following after the entry for status code "G":

"H" = Deleted modifier (code used to have modifier of TC and PC)

"I" = Code not valid for Medicare purposes. Medicare does not recognize codes assigned this status. Medicare uses another code for the reporting of, and payment for, these services. This indicator is treated in the same manner as status indicator "G". Its use allows for more efficient processing of Medicare claims.

8. On page 65441, in the second and third columns of the key describing Addenda B and C, the year 2000 was incorrectly referenced. The references to "2000" in items 5, 7, 9, 10, 12, and 14 should be corrected to "2001."

9. In the Table of Addendum B the following CPT codes are corrected to read as follows:

CPT <sup>1</sup> HCPCS <sup>2</sup>	MOD	Status	Description	Physician work RVUs <sup>3</sup>	Fully imple- mented non-fa- cility PE RVUs	Year 2001 transi- tional non-fa- cility PE RVUs	Fully imple- mented facility PE RVUs	Year 2001 transi- tional facility PE RVUs	Mal- prac- tice RVUs	Fully imple- mented non-fa- cility total	Year 2001 transi- tional non-fa- cility total	Fully imple- mented facility total	Year 2001 transi- tional facility total	Global

## FEDERAL COMMUNICATIONS COMMISSION

### 47 CFR Part 1

[CC Docket No. 96-238; FCC 01-78]

### Procedures To Be Followed When Formal Complaints Are Filed Against Common Carriers

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule.

**SUMMARY:** This document resolves petitions for reconsideration and/or clarification concerning various aspects of the *First Report and Order* and *Second Report & Order* previously issued in this proceeding. As described, the Commission denies all of the petitions for reconsideration and one of the two requests for clarification

because they present issues fully addressed in the prior orders or because we reject the positions taken by the petitioners. We grant one petition for clarification to clarify that, before a matter is accepted onto the Accelerated Docket, the parties must participate in staff-supervised settlement negotiations. Moreover, on reconsideration on our own motion, we modify or clarify certain procedural rules, consistent with our experience in implementing those rules.

**DATES:** These rules contain information collections that have not yet been approved by OMB. The Commission will release a document in the **Federal Register** announcing the effective date of the rules. Written comments by the public on the modified information collections are due on or before April 26, 2001. Written comments by OMB on

the modified information collections are due on or before May 29, 2001.

**FOR FURTHER INFORMATION CONTACT:**

Gilberto de Jesus, Enforcement Bureau, at (202) 418-7331.

**SUPPLEMENTARY INFORMATION:** This is a summary of the Federal Communications Commission's Order on Reconsideration, FCC 01-78, in CC Docket No. 96-238, adopted on February 26, 2001, and released on March 7, 2001. The full text of this Order on Reconsideration is available for inspection and copying during normal business hours in the FCC Reference Center, Room CY-A257, 445 12th Street, SW., Washington, DC 20554. The complete text may be purchased from the Commission's copy contractor, International Transcription Service, Inc., 1231 20th Street, NW., Washington, DC 20037. The full text may also be downloaded at: <http://www.fcc.gov>. Alternative formats are available to persons with disabilities by contacting Martha Contee at (202) 418-0260 or TTY (202) 418-2555.

**Synopsis of the Order on Reconsideration**

(1) In the Order on Reconsideration, the Federal Communications Commission (Commission) considered petitions for reconsideration and/or clarification of various parts of the *First Report and Order* (12 FCC Rcd 22497 (1997), 63 FR 990 (January 7, 1997)) and *Second Report & Order* (13 FCC Rcd 17018 (1998), 63 FR 41433 (August 4, 1998)) issued in this proceeding. In the *First Report and Order*, the Commission adopted rules designed, *inter alia*, to expedite the resolution of formal complaints filed against common carriers pursuant to section 208 of the Communications Act of 1934, as amended ("Act"). In the *Second Report & Order*, the Commission established "Accelerated Docket" procedures to help spur the development of competition by adjudicating certain complaints within relatively short timeframes.

(2) Four parties filed petitions for reconsideration and/or clarification of various rules adopted in the *First Report and Order*. MCI Telecommunications Corp. ("MCI") requested reconsideration of certain discovery rules. AirTouch Paging ("AirTouch"), America's Carriers Telecommunication Association ("ACTA"), and MCI requested that the Commission reconsider its interpretation of the scope of the new five-month deadline for resolving certain formal complaints set forth in section 208(b)(1) of the Act. ACTA proposed additional requirements

regarding the service of complaints. AT&T Corp. ("AT&T") requested that the Commission clarify that pre-filing settlement letters should be sent to certain representatives of the defendant. Bell Atlantic Telephone Companies ("Bell Atlantic"), BellSouth Corporation ("BellSouth"), and Telecommunications Resellers Association ("TRA") filed comments in response to the petitions.

(3) One party, BellSouth, filed a petition for reconsideration and clarification of the Accelerated Docket rules adopted in the *Second Report & Order*. BellSouth requested that the Commission reconsider: (1) the rule requiring the automatic production of documents; and (2) the *ex parte* implications of the requirement for staff-supervised, pre-filing settlement negotiations. BellSouth also requested that the Commission routinely grant requests for extensions of time in Accelerated Docket proceedings. BellSouth also sought clarification on whether staff-supervised pre-filing meetings are required for all Accelerated Docket matters. SBC Communications Inc. ("SBC") and TRA filed comments in response to BellSouth's petition.

(4) *Elimination of Self-Executing Discovery*. The Commission rejects MCI's request that we reinstate the former rules granting self-executing discovery and permitting "extraordinary" discovery. The Commission fully addressed this issue in the *First Report and Order*, and neither the petitioners nor the commenters offer any new information or arguments on this issue to persuade us that our decision was erroneous. Moreover, the new discovery rules have worked well in streamlining proceedings while allowing the parties access to sufficient information to support their claims and defenses. Thus, the Commission denies MCI's petition for reconsideration of the discovery rules in formal complaint proceedings.

(5) *Section 208(b)(1) of the Act*. AirTouch, ACTA, and MCI urge the Commission to interpret section 208(b)(1) of the Act so that the five-month deadline provided therein will apply to all formal complaints filed pursuant to section 208, not just to formal complaints concerning the lawfulness of tariff provisions. The Commission fully addressed this issue in the *First Report and Order*, and neither the petitioners nor the commenters offer any new arguments or information to persuade us that our decision was erroneous. Thus, the Commission denies petitioners' request for reconsideration of our interpretation of section 208(b)(1).

(6) *Rules Regarding Service of Process*. The Commission adopted rules requiring each carrier to designate an agent in the District of Columbia to accept service of Commission process on behalf of the carrier, and permitting each carrier to designate other service agents outside the District of Columbia. Moreover, the Commission adopted a rule requiring the complainant to serve the complaint by hand delivery on either the named defendant or one of the named defendant's registered agents. ACTA maintains that the complaint should also be served, by overnight mail or facsimile, on any other designated service agents. We decline to adopt such a requirement. Additional notification is not necessary to enable defendants to file answers in a timely manner and would impose on a complainant an unduly burdensome task of identifying and serving agents throughout the country. Thus, the Commission denies ACTA's petition for reconsideration of our rules regarding service of process.

(7) *Automatic Production of Documents in Accelerated Docket Proceedings*. BellSouth, supported by SBC, requests reconsideration of the Accelerated Docket rules requiring automatic production of documents, especially by defendants. The Commission fully addressed this issue in the *Second Report & Order*, and the parties offer no new information or arguments to persuade us that the decision was erroneous. Thus, the Commission denies reconsideration of the rules requiring automatic production of documents in Accelerated Docket proceedings.

(8) *Extensions of Time in Accelerated Docket Proceedings*. We reject BellSouth's and SBC's contention that the Commission should routinely grant requests for extensions of time in Accelerated Docket proceedings. Parties should not ordinarily need extensions of time, because they should have a sufficient amount of time during pre-filing discussions to begin preparing their cases in the event a complaint subsequently is filed on the Accelerated Docket. Routinely granting extensions of time in Accelerated Docket proceedings would eviscerate the expedited mechanism that the Commission crafted. In any exceptional case that turns out to be unexpectedly complicated, the staff has discretion to grant extensions of time or modify the process in other respects. Thus, the Commission denies reconsideration of the time requirements for the Accelerated Docket.

(9) *Ex Parte Rules and Accelerated Docket Pre-Filing Procedures*. We reject BellSouth's and SBC's concerns

regarding the propriety of “*ex parte*” discussions in the pre-filing stage of cases being considered for the Accelerated Docket. As the Commission explained in the *Second Report & Order*, our *ex parte* rules restrict the actions of parties only after a complaint has been filed. Staff-supervised settlement discussions that take place prior to the filing of a complaint do not implicate the *ex parte* rules. Moreover, staff involvement during pre-filing meetings will not taint the complaint process or have a chilling effect on settlement discussions. It is the Commission’s role to act as an impartial entity during all formal complaint proceedings, including Accelerated Docket proceedings. We also are not persuaded by BellSouth’s argument that staff members who have contact with parties during the pre-filing phase of a proceeding could later become witnesses subject to deposition. Staff would not permit any party to abuse the Commission’s rules by attempting to introduce into complaint proceedings individual representations made in settlement discussions. Thus, the Commission denies reconsideration of the pre-filing requirements for the Accelerated Docket.

(10) *AT&T’s Petition for Clarification of the Formal Complaint Rules Regarding Pre-Filing Letters*. In the *First Report and Order*, the Commission required complainants to engage in good faith settlement discussions with the defendant prior to filing a formal complaint, including mailing to the defendant a certified letter outlining the allegations that form the basis of the complaint it anticipates filing with the Commission. AT&T argues that the Commission should clarify that the pre-filing letter must be sent to: (1) The defendant’s registered agent in the District of Columbia, and (2) the defendant’s representative that, to the best of the complainant’s knowledge, has decision making authority over the disputed matters or has been designated as the defendant’s attorney regarding those matters. We decline to clarify the rules in such a manner. The Commission deliberately left the determination of the appropriate recipient of the letter to the discretion of the complainant, who must exercise such discretion reasonably and in good faith. If the complainant does know who the defendant has designated as the decision maker or the attorney regarding the disputed matter, we would generally expect the complainant to serve that person. We also share TRA’s concerns that AT&T’s proposal could make a complainant’s choice of correspondent a

matter of routine contention. We do believe, however, that our service rule regarding pre-filing settlement letters should mirror our rule regarding service of complaints. The latter rule permits a complainant to serve a complaint on either “the named defendant or one of the named defendant’s registered agents for service of process \* \* \*.” (47 CFR 1.735(d)). Therefore, to promote consistency and thereby minimize confusion, we amend § 1.721(a)(8) of our rules to permit a complainant to serve the pre-filing settlement letter on the defendant carrier or one of the defendant’s registered agents for service of process. (See § 1.721(a)(8)).

(11) *BellSouth’s Petition for Clarification Regarding Accelerated Docket Pre-Filing Settlement Conferences*. We grant BellSouth’s request for clarification of whether every Accelerated Docket proceeding must involve staff-supervised, pre-filing settlement conferences. We clarify that, before a matter is accepted onto the Accelerated Docket, the parties must participate in staff-supervised settlement negotiations. This does not mean, however, that all requests for inclusion on the Accelerated Docket will result in a staff-supervised settlement conference. Instead, only those matters actually under active consideration for inclusion on the Accelerated Docket must ultimately have such a conference. We also strongly encourage disputing parties to contact Commission staff to assist in the resolution of matters prior to filing any formal complaint, regardless of whether the parties wish to have such complaint placed on the Accelerated Docket. Thus, the Commission grants BellSouth’s Petition for Clarification regarding Accelerated Docket pre-filing settlement conferences.

(12) The Commission has closely monitored the effectiveness of the amended formal complaint rules. We believe, on reconsideration on our own motion, that a few additional modifications to the rules are appropriate to promote further the expedited resolution of formal complaints.

(13) *The Rule Governing Answers Is Modified*. We amend § 1.724(d) of our rules, which currently states that “averments in a pleading to which a responsive pleading is required, other than those as to the amount of damages, are deemed to be admitted when not denied in this responsive pleading.” (47 CFR 1.724 (d)(emphasis added).) We find that requiring a defendant to respond specifically to all averments in a complaint, including those regarding damage amounts, will enhance the

ability of Commission staff to resolve complaints more efficiently. Accordingly, we amend § 1.724(d) to specify that defendants are required to respond to any and all averments raised in both initial and supplemental complaints, including averments relating to damage amounts. Failure by the defendant to respond to any averment in the complaint or supplemental complaint will result in the averment being admitted as true. In addition, we amend § 1.724(b) to require that denials based on information and belief are expressly prohibited unless made in good faith and accompanied by an affidavit explaining the basis for the defendant’s belief and why the defendant could not reasonably ascertain the facts from the complainant or any other source. (See § 1.724(b).) This new requirement regarding denials in answers mirrors an existing requirement regarding averments in complaints. (47 CFR 1.721(a)(5).) This will promote diligence on defendants’ part in gathering all of the relevant facts and documentation, and thereby expedite the development of a complete and substantial record on which the Commission can resolve the dispute.

(14) *The Rule Governing Replies Is Modified*. We amend § 1.726(a) of our rules, which currently permits a complainant to include in a reply only “statements of relevant, material facts that shall be responsive to only those specific factual allegations made by the defendant in support of its affirmative defenses.” (47 CFR 1.726(a)) (emphasis added). We find that permitting a complainant to include in the reply both factual statements and legal arguments that respond to both the factual allegations and the legal arguments made by a defendant in support of affirmative defenses will enhance the ability of Commission staff to resolve complaints more efficiently. Therefore, we amend § 1.726(a) to permit complainants to include in replies both factual statements and legal arguments that respond to both the factual allegations and the legal arguments made by defendants in support of their affirmative defenses. (See § 1.726(a).)

(15) *The Payment Verification Requirement Is Modified*. In the *First Report and Order*, the Commission adopted a rule requiring the complainant to include with the complaint a “verification of the filing payment \* \* \*.” (12 FCC Rcd at 22524, ¶ 56). To implement this rule, the Commission explained that a complainant should attach to its complaint a photocopy of its fee payment. We have found, however, that this photocopy requirement does not

serve its verification purpose in all cases. This is largely because, where the complainant pays by wire transfer or with a credit card, there exists no paper record of the transaction that can be contemporaneously photocopied. Thus, in order to create a uniform method of payment verification that will work in all cases, we amend the payment verification requirement set forth in the *First Report and Order* and § 1.721(a)(13) as follows: The complaint shall include a declaration, under penalty of perjury, by complainant or complainant's counsel describing the amount, method, and date of the complainant's payment of the filing fee, and the complainant's 10-digit FCC Registration Number (FRN), if any. (See § 1.721(a)(13).)

(16) *The Rules Governing Supplemental Complaints for Damages Are Modified.* Our rules enable complainants, and Commission staff under certain circumstances, to bifurcate formal complaints into two separate complaints: (1) An initial complaint for liability and any prospective relief, and (2) a supplemental complaint for damages. Our experience in implementing the rules regarding supplemental complaints for damages indicates that certain revisions are appropriate to clarify and modify how the supplemental complaint process operates.

(17) First, we amend § 1.722 of our rules (47 CFR 1.722), to state expressly what the Commission concluded in the *First Report and Order*: In a proceeding to which no statutory deadline applies, the Commission may, on its own motion, bifurcate the proceeding so that only liability and prospective relief issues are before the Commission initially, and damage issues come before the Commission only if the complainant prevails and later chooses to initiate a separate proceeding seeking damages. (See § 1.722(c).) Consistent with that amendment, we further amend § 1.722 of our rules to clarify that the procedures set forth therein apply to all supplemental complaints for damages, regardless of whether bifurcation was made upon the Commission's own motion or the complainant's request. (See § 1.722(d) through 1.722(i).)

(18) Second, § 1.722(b)(1) presently permits a prevailing complainant to file a subsequent complaint for damages arising from the same facts alleged in the first complaint, even if the first complaint made no mention whatsoever of any intent to seek damages. Upon further consideration of this provision, we believe that it should be stricken, because it conflicts with the principles

of efficiency, notice, and fairness to defendants that underlie the doctrine of *res judicata*. To promote those principles, defendants and the Commission should know as soon as possible whether a dispute may ultimately involve a resolution of damages. Therefore, we amend § 1.722 of our rules to state that, in order to preserve the option of filing a supplemental complaint for damages, a complainant must include in its initial complaint a notice of intent to file such a supplemental complaint, in accordance with the requirements of our rules. (See § 1.722(d).)

(19) Third, we amend § 1.722 to clarify that, except where otherwise stated, the rules governing initial formal complaint proceedings govern supplemental complaint proceedings, as well. (See § 1.722(j)). Fourth, our experience in applying § 1.722 of our rules reveals that its wording can be improved. Accordingly, we modify much of the language of § 1.722, intending to clarify rather than change its meaning (except the intended changes described previously). (See § 1.722(a)–(i).)

(20) Other rules require revisions, as well, because our experience with supplemental complaints indicates that some confusion exists as to whether, and to what extent, the format and content requirements for initial complaints apply to supplemental complaints for damages. We now recognize that our current rules seek more and different information than is needed to evaluate a supplemental complaint for damages. Accordingly, we amend, in relevant part, §§ 1.721 and 1.735 of our rules to specify what is required in supplemental damage complaints. As described further, these changes will streamline the supplemental complaint process by eliminating unnecessary or redundant information, reducing paperwork, and clarifying that additional filing fees are not required.

(21) We amend § 1.735 of our rules to make clear that (1) a filing fee need not be paid in conjunction with filing a supplemental complaint for damages pursuant to § 1.722 of our rules, and (2) a complainant may serve a supplemental complaint for damages in accordance with § 1.735(f) rather than § 1.735(d) of our rules. (See § 1.735(g).) Moreover, we amend the rules so that §§ 1.720(b) and 1.721(a)(4), (5), (8), (9), (12), and (13) do not apply to supplemental complaints for damages filed pursuant to § 1.722 of our rules. (See § 1.721(e)(i).) Thus, supplemental complaints for damages are not required to include the following: (1) A full

description of the statutory violation described previously in the initial complaint; (2) a statement regarding whether a separate action has been filed with the Commission, any court, or another government agency based on the same claim; (3) a formal complaint intake form; or (4) verification of the payment of a filing fee.

(22) We further amend our rules to make clear, however, that a supplemental complaint for damages filed pursuant to § 1.722 must provide a complete statement of facts which, if proven true, would support the complainant's calculations of damages in each category of damages for which recovery is sought. This statement of facts must include a detailed explanation of all matters relevant to the calculation of damages and the nature of any injury alleged to have been sustained by the complainant. Moreover, relevant affidavits and documentation must support this statement of facts. (See § 1.721(e)(ii).)

(23) In addition, although we change the rules so that the requirement of pre-filing settlement efforts set forth in § 1.721(a)(8) does not apply to supplemental complaints, we add a new rule imposing essentially the same requirement on supplemental complainants tailored to the particular deadlines applicable to supplemental complaints. Specifically, the complainant must mail to each defendant, within 30 days of the release of the order on liability, a certified letter describing, *inter alia*, the basis for the damages to be sought in a supplemental complaint. (See § 1.721(e)(iii).) We believe that the order on liability usually will give the parties a strong incentive to resolve on their own any outstanding damages issues, and a 30-day deadline for formally initiating settlement efforts should ensure that the parties have sufficient time to reach a resolution before the 60-day deadline for filing a supplemental complaint. Finally, we note that supplemental complaints must continue to meet the requirements of § 1.722 of our rules.

(24) *The Parties' Initial Pleadings Must Contain All of the Parties' Supporting Facts, Legal Arguments, and Documentation.* In the *First Report and Order*, the Commission explained at length that, under the amended formal complaint rules, the parties' initial pleadings should not merely provide bare notice of their claims and defenses, but rather should set forth in detail all of the parties' supporting facts, legal arguments, affidavits, and documentation. We reiterate that point here. Complaints and answers filed at the Commission pursuant to section 208

of the Act should not resemble their counterparts filed in federal courts under Fed. R. Civ. P. 8. Instead, if anything, complaints and answers filed here should resemble a *combination* of complaints/answers filed under Fed. R. Civ. P. 8, motions to dismiss (and oppositions thereto) filed under Fed. R. Civ. P. 12(b), and motions for summary judgment (and oppositions thereto) filed under Fed. R. Civ. P. 56. In other words, the parties' initial pleadings should contain every allegation, fact, argument, affidavit, and supporting paper that the parties can muster at that time. Moreover, the parties should support each and every factual statement in their initial pleadings (and in their replies and briefs) with a specific citation to an affidavit(s) and to all other relevant portions of the record. When parties submit such comprehensive initial pleadings, the Commission can resolve the parties' disputes more expeditiously.

(25) *Certain Parties' Practices in Submitting Answers Merit a Few Additional Observations.* First, our rules require the answer to "admit or deny the averments on which the complainant relies and state in detail the basis for admitting or denying such averment." (47 CFR 1.724(b) (emphasis added).) Bald denials and/or refraining from responding to a complaint's averment on the grounds that the averment asserts a legal conclusion are improper. Denials in answers must be accompanied by a thorough explanation of their basis; and if a complaint asserts a legal conclusion, then the answer's corresponding denial should fully explain why the legal conclusion is erroneous. Moreover, in its answer, a defendant must provide affidavits (as well as all supporting documents, data compilations, and tangible things) to support all of the facts on which the answer relies.

(26) *Motions To Dismiss Are Rarely Necessary.* Some defendants file motions to dismiss as separate pleadings. We find this practice of filing a separate motion to dismiss to be unnecessary in virtually all cases. The grounds for a motion to dismiss ordinarily should be raised in the answer alone rather than in a separate pleading.

(27) *The Joint Statement Filed Before the Initial Status Conference Must Be Detailed and Comprehensive.* Parties to a formal complaint must submit a joint statement of stipulated facts, disputed facts, key legal issues, discovery matters, and proposed pleading schedules two days prior to a staff-supervised, initial status conference. The purpose of this procedure is to

promote settlement, narrow and sharpen the relevant factual and legal issues, and otherwise expedite the Commission's resolution of the dispute. In some cases, however, parties have frustrated the accomplishment of this goal by submitting separate statements or joint statements that are vague, cursory, and/or incomplete. We reiterate here that the parties must together file a single, joint statement that is comprehensive, detailed, and specific, providing a thorough description of all stipulated and disputed facts, as well as a productive summary of key legal issues. Finally, in our view, if the parties work together with sufficient diligence, they should be able to stipulate to the bulk of relevant facts and key legal issues in most cases. Therefore, we urge parties to devote substantial and cooperative effort in arriving at stipulated facts and key legal issues.

(28) *We Encourage Disputing Parties To Seek Mediation From Commission Staff Before Filing A Formal Complaint.* Parties seeking placement of their dispute on the Accelerated Docket must participate in a staff-supervised, pre-filing settlement negotiation meeting. These pre-filing discussions have resulted in a substantial number of disputes being resolved without the parties having to resort to litigation. In light of the staff's success in helping parties achieve settlements, we highly recommend that parties avail themselves of the opportunity to use staff-supervised mediation and settlement negotiations prior to filing any formal complaint.

(29) *The Commission Generally Will Rule on Interlocutory Appeals of Staff Rulings Only in Conjunction with Ruling on the Merits.* We emphasize that the Commission generally will not consider applications for review of interlocutory staff rulings pursuant to § 1.115 of the Commission's rules (47 CFR 1.115) in the context of section 208 complaint proceedings except in conjunction with ruling on the merits of the complaint. In the event, however, that the ruling on the merits of the complaint is made pursuant to delegated authority, the application for review will not be considered until after the Enforcement Bureau, acting on delegated authority, has issued its final ruling on the merits of the complaint. This will maximize the efficient use of limited administrative resources.

## Procedural Matters

### Paperwork Reduction Act of 1995

(30) This Order on Reconsideration has been analyzed with respect to the Paperwork Reduction Act of 1995 (the

"1995 Act") and found to impose slightly modified information collection requirements on the public.<sup>1</sup> These rules contain information collections that have not yet been approved by OMB. The Commission will release a document in the **Federal Register** announcing the effective date of the rules.

(31) Written comments by the public on the modified information collections are due on or before April 26, 2001. Written comments by OMB on the modified information collections are due on or before May 29, 2001. In addition to filing comments with the Secretary, a copy of any comments on the modified information collections contained herein should be submitted to Judy Boley, Federal Communications Commission, Room 1-C804, 445 12th Street, SW., Washington, DC 20554, or via the Internet to jboley@fcc.gov and to Edward Springer, OMB Desk Officer, Room 10236 NEOB, 725 17th Street, NW., Washington, DC 20503, or via the Internet to edward.springer@omb.eop.gov.

### Regulatory Flexibility Act

(32) The Regulatory Flexibility Act ("RFA")<sup>2</sup> requires that an agency prepare a regulatory flexibility analysis for notice-and-comment rulemaking proceedings. In the *First Report and Order* and *Second Report & Order*, the Commission included a Final Regulatory Flexibility Analysis<sup>3</sup> and a supplemental Final Regulatory Flexibility Analysis,<sup>4</sup> respectively. In this Order, however, neither the clarifications to the rules nor the rule changes adopted on our own motion require a regulatory flexibility analysis.

### Ordering Clauses

(33) Pursuant to sections 1, 4(i), 4(j), 201-205, 208, 260, 271, 274, and 275 of the Communications Act of 1934, as amended, 47 U.S.C. 151, 154(i), 154(j), 201-205, 208, 260, 271, 274, and 275, and § 1.429 of the Commission's rules, 47 CFR 1.429, that the petitions for reconsideration filed by AirTouch Paging, America's Carriers Telecommunication Association, and MCI Telecommunications Corporation are *Denied*, the Petition for Clarification filed by AT&T Corporation is *Denied*,

<sup>1</sup> See §§ 18, 19, 20, 21, 24, 28, 29, *supra*.

<sup>2</sup> The RFA, see 5 U.S.C. § 601 *et seq.*, has been amended by the Contract with America Advancement Act of 1996, Pub. L. No. 104-121, 110 Stat. 847 (1996) ("CWAAA"). Title II of the CWAAA is the Small Business Regulatory Enforcement Fairness Act of 1996 ("SBREFA").

<sup>3</sup> See First Report and Order, 12 FCC Rcd at 22619-33, §§ 333-340.

<sup>4</sup> See Second Report & Order, 13 FCC Rcd at 17073-17085, §§ 108-134.

and the Petition for Reconsideration and Clarification filed by BellSouth Corporation is *Granted in Part* and *Denied in Part*.

(34) Sections 1.721, 1.722, 1.724, 1.726, and 1.735 of the Commission's rules, 47 CFR 1.721, 1.722, 1.724, 1.726, and 1.735, *Are Amended* as set forth in the rules changes. These rules contain information collections that have not yet been approved by OMB. The Commission will release a document in the **Federal Register** announcing the effective date of the rules.

Federal Communications Commission.

**Magalie Roman Salas,**  
*Secretary.*

### Rule Changes

Part 1 of Title 47 of the Code of Federal Regulations is amended as follows:

1. The authority citation for part 1 continues to read:

**Authority:** 47 U.S.C. 151, 154(i), 154(j), 155, 225, 303(r), 309 and 325(e).

2. In § 1.721, paragraphs (a) introductory text, (a)(8), and (a)(13) are revised, paragraph (e) is redesignated as paragraph (f) and a new (e) is added to read as follows:

#### § 1.721 Format and content of complaints.

(a) Subject to paragraph (e) of this section governing supplemental complaints filed pursuant to § 1.722, and paragraph (f) of this section governing Accelerated Docket proceedings, a formal complaint shall contain:

\* \* \* \* \*

(8) Certification that the complainant has, in good faith, discussed or attempted to discuss the possibility of settlement with each defendant prior to the filing of the formal complaint. Such certification shall include a statement that, prior to the filing of the complaint, the complainant mailed a certified letter outlining the allegations that form the basis of the complaint it anticipated filing with the Commission to the defendant carrier or one of the defendant's registered agents for service of process that invited a response within a reasonable period of time and a brief summary of all additional steps taken to resolve the dispute prior to the filing of the formal complaint. If no additional steps were taken, such certificate shall state the reason(s) why the complainant believed such steps would be fruitless;

\* \* \* \* \*

(13) A declaration, under penalty of perjury, by the complainant or complainant's counsel describing the amount, method, and date of the

complainant's payment of the filing fee required under § 1.1105(1)(c) or (d), and the complainant's 10-digit FCC Registration Number, if any; and

\* \* \* \* \*

(e) *Supplemental complaints.* (1) Supplemental complaints filed pursuant to § 1.722 shall conform to the requirements set out in this section and § 1.720, except that the requirements in §§ 1.720(b), 1.721(a)(4), (a) (5), (a)(8), (9), (a)(12), and (a)(13) shall not apply to such supplemental complaints;

(2) In addition, supplemental complaints filed pursuant to § 1.722 shall contain a complete statement of facts which, if proven true, would support complainant's calculation of damages for each category of damages for which recovery is sought. All material facts must be supported, pursuant to the requirements of § 1.720(c) and paragraph (a)(11) of this section, by relevant affidavits and other documentation. The statement of facts shall include a detailed explanation of the matters relied upon, including a full identification or description of the communications, transmissions, services, or other matters relevant to the calculation of damages and the nature of any injury allegedly sustained by the complainant. Assertions based on information and belief are expressly prohibited unless made in good faith and accompanied by an affidavit explaining the basis for the complainant's belief and why the complainant could not reasonably ascertain the facts from the defendant or any other source;

(3) Supplemental complaints filed pursuant to § 1.722 shall contain a certification that the complainant has, in good faith, discussed or attempted to discuss the possibility of settlement with respect to damages for which recovery is sought with each defendant prior to the filing of the supplemental complaint. Such certification shall include a statement that, no later than 30 days after the release of the liability order, the complainant mailed a certified letter to the primary individual who represented the defendant carrier during the initial complaint proceeding outlining the allegations that form the basis of the supplemental complaint it anticipates filing with the Commission and inviting a response from the carrier within a reasonable period of time. The certification shall also contain a brief summary of all additional steps taken to resolve the dispute prior to the filing of the supplemental complaint. If no additional steps were taken, such certification shall state the reason(s)

why the complainant believed such steps would be fruitless.

\* \* \* \* \*

3. Section 1.722 is revised to read as follows:

#### § 1.722 Damages.

(a) If a complainant wishes to recover damages, the complaint must contain a clear and unequivocal request for damages.

(b) If a complainant wishes a determination of damages to be made in the same proceeding as the determinations of liability and prospective relief, the complaint must contain the allegations and information required by paragraph (h) of this section.

(c) Notwithstanding paragraph (b) of this section, in any proceeding to which no statutory deadline applies, if the Commission decides that a determination of damages would best be made in a proceeding that is separate from and subsequent to the proceeding in which the determinations of liability and prospective relief are made, the Commission may at any time order that the initial proceeding will determine only liability and prospective relief, and that a separate, subsequent proceeding initiated in accordance with paragraph (e) of this section will determine damages.

(d) If a complainant wishes a determination of damages to be made in a proceeding that is separate from and subsequent to the proceeding in which the determinations of liability and prospective relief are made, the complainant must:

(1) Comply with paragraph (a) of this section, and

(2) State clearly and unequivocally that the complainant wishes a determination of damages to be made in a proceeding that is separate from and subsequent to the proceeding in which the determinations of liability and prospective relief will be made.

(e) If a complainant proceeds pursuant to paragraph (d) of this section, or if the Commission invokes its authority under paragraph (c) of this section, the complainant may initiate a separate proceeding to obtain a determination of damages by filing a supplemental complaint that complies with § 1.721(e) and paragraph (h) of this section within sixty days after public notice (as defined in § 1.4(b) of this chapter) of a decision that contains a finding of liability on the merits of the original complaint.

(f) If a complainant files a supplemental complaint for damages in accordance with paragraph (e) of this section, the supplemental complaint

shall be deemed, for statutory limitations purposes, to relate back to the date of the original complaint.

(g) Where a complainant chooses to seek the recovery of damages upon a supplemental complaint in accordance with the requirements of paragraph (e) of this section, the Commission will resolve the separate, preceding liability complaint within any applicable complaint resolution deadlines contained in the Act.

(h) In all cases in which recovery of damages is sought, it shall be the responsibility of the complainant to include, within either the complaint or supplemental complaint for damages filed in accordance with paragraph (e) of this section, either:

(1) A computation of each and every category of damages for which recovery is sought, along with an identification of all relevant documents and materials or such other evidence to be used by the complainant to determine the amount of such damages; or

(2) An explanation of:

(i) The information not in the possession of the complaining party that is necessary to develop a detailed computation of damages;

(ii) Why such information is unavailable to the complaining party;

(iii) The factual basis the complainant has for believing that such evidence of; damages exists;

(iv) A detailed outline of the methodology that would be used to create a computation of damages with such evidence.

(i) Where a complainant files a supplemental complaint for damages in accordance with paragraph (e) of this section, the following procedures may apply:

(1) Issues concerning the amount, if any, of damages may be either designated by the Enforcement Bureau for hearing before, or, if the parties agree, submitted for mediation to, a Commission Administrative Law Judge. Such Administrative Law Judge shall be chosen in the following manner:

(i) By agreement of the parties and the Chief Administrative Law Judge; or

(ii) In the absence of such agreement, the Chief Administrative Law Judge shall designate the Administrative Law Judge.

(2) The Commission may, in its discretion, order the defendant either to post a bond for, or deposit into an interest bearing escrow account, a sum equal to the amount of damages which the Commission finds, upon preliminary investigation, is likely to be ordered after the issue of damages is fully litigated, or some lesser sum which may be appropriate, provided the

Commission finds that the grant of this relief is favored on balance upon consideration of the following factors:

(i) The complainant's potential irreparable injury in the absence of such deposit;

(ii) The extent to which damages can be accurately calculated;

(iii) The balance of the hardships between the complainant and the defendant; and

(iv) Whether public interest considerations favor the posting of the bond or ordering of the deposit.

(3) The Commission may, in its discretion, suspend ongoing damages proceedings for fourteen days, to provide the parties with a time within which to pursue settlement negotiations and/or alternative dispute resolution procedures.

(4) The Commission may, in its discretion, end adjudication of damages with a determination of the sufficiency of a damages computation method or formula. No such method or formula shall contain a provision to offset any claim of the defendant against the complainant. The parties shall negotiate in good faith to reach an agreement on the exact amount of damages pursuant to the Commission-mandated method or formula. Within thirty days of the release date of the damages order, parties shall submit jointly to the Commission either:

(i) A statement detailing the parties' agreement as to the amount of damages;

(ii) A statement that the parties are continuing to negotiate in good faith and a request that the parties be given an extension of time to continue negotiations; or

(iii) A statement detailing the bases for the continuing dispute and the reasons why no agreement can be reached.

(j) Except where otherwise indicated, the rules governing initial formal complaint proceedings govern supplemental formal complaint proceedings, as well.

4. In § 1.724, paragraphs (b) and (d) are revised to read as follows:

#### § 1.724 Answer.

\* \* \* \* \*

(b) The answer shall advise the complainant and the Commission fully and completely of the nature of any defense, and shall respond specifically to all material allegations of the complaint. Every effort shall be made to narrow the issues in the answer. The defendant shall state concisely its defense to each claim asserted, admit or deny the averments on which the complainant relies, and state in detail the basis for admitting or denying such

averment. General denials are prohibited. Denials based on information and belief are expressly prohibited unless made in good faith and accompanied by an affidavit explaining the basis for the defendant's belief and why the defendant could not reasonably ascertain the facts from the complainant or any other source. If the defendant is without knowledge or information sufficient to form a belief as to the truth of an averment, the defendant shall so state and this has the effect of a denial. When a defendant intends in good faith to deny only part of an averment, the defendant shall specify so much of it as is true and shall deny only the remainder. The defendant may deny the allegations of the complaint as specific denials of either designated averments or paragraphs.

\* \* \* \* \*

(d) Averments in a complaint or supplemental complaint filed pursuant to § 1.722 are deemed to be admitted when not denied in the answer.

\* \* \* \* \*

5. In § 1.726, paragraph (a) is revised to read as follows:

#### § 1.726 Replies.

(a) Subject to paragraph (g) of this section governing Accelerated Docket proceedings, within three days after service of an answer containing affirmative defenses presented in accordance with the requirements of § 1.724(e), a complainant may file and serve a reply containing statements of relevant, material facts and legal arguments that shall be responsive to only those specific factual allegations and legal arguments made by the defendant in support of its affirmative defenses. Replies which contain other allegations or arguments will not be accepted or considered by the Commission.

\* \* \* \* \*

6. In § 1.735, paragraph (g) is added to read as follows:

#### § 1.735 Copies; service; separate filings against multiple defendants.

\* \* \* \* \*

(g) Supplemental complaint proceedings. Supplemental complaints filed pursuant to section 1.722 shall conform to the requirements set out in this section, except that the complainant need not submit a filing fee, and the complainant may effect service pursuant to paragraph (f) of this section rather than paragraph (d) of this section numerals.

BILLING CODE 6712-01-P

# FEDERAL COMMUNICATIONS COMMISSION

## 47 CFR Part 79

[MM Docket No. 99–339; FCC 01–7]

### Video Description

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule; correction.

**SUMMARY:** This document is a correction to the final rule portion regarding Video Description of Video Programming published in the **Federal Register** of February 1, 2001. This document corrects that rule.

**DATES:** Effective April 1, 2002.

**FOR FURTHER INFORMATION CONTACT:** Cyndi Thomas or Eric Bash, Policy and Rules Division, Mass Media Bureau, at (202) 418–2120.

**SUPPLEMENTARY INFORMATION:** This contains a correction to the Commission's *Memorandum Opinion and Order on Reconsideration* ("MO&O"), MM Docket No. 99–339, FCC 01–7; 66 FR 8521 (February 1, 2001). This document corrects the **Federal Register** as it appeared in rule FR Doc. 01–2754. The Commission is correcting § 79.3(c)(2) of its rules.

### Correction

#### § 79.3 [Corrected]

In § 79.3, on page 8529, in the second column, paragraph (c)(2) is corrected to read as follows:

\* \* \* \* \*

(c) \* \* \*

(2) In order to meet its fifty-hour quarterly requirement, a broadcaster or MVPD may count each program it airs with video description no more than a total of two times on each channel on which it airs the program. A broadcaster or MVPD may count the second airing in the same or any one subsequent quarter.

\* \* \* \* \*

Federal Communications Commission.

**Magalie Roman Salas,**

*Secretary.*

# DEPARTMENT OF COMMERCE

## National Oceanic and Atmospheric Administration

### 50 CFR Part 622

[I.D. 022101C]

### Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Greater Amberjack; Overfished Fishery

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Determination of overfished fishery.

**SUMMARY:** NMFS has determined that the Gulf of Mexico greater amberjack fishery is overfished and has notified the Gulf of Mexico Fishery Management Council (Council) of related responsibilities under the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

**DATES:** Effective March 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** Phil Steele, telephone 727–570–5305, fax 727–570–5583, e-mail Phil.Steele@noaa.gov.

**SUPPLEMENTARY INFORMATION:** The Gulf of Mexico reef fish fishery is managed under the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP). The FMP was prepared by the Council and approved and implemented by NMFS under the authority of the Magnuson-Stevens Act. The FMP is implemented by regulations at 50 CFR part 622.

### Determination of Overfished Fishery

NMFS' determination of the status of a stock relative to "overfishing" and an "overfished" condition is based on both the removal of fish from the stock through fishing (the exploitation rate) and the current stock size. When the exploitation rate jeopardizes the capacity of a stock to produce its maximum sustainable yield (MSY) on a continuing basis, overfishing occurs. The exploitation rate (i.e., rate of removal of fish from a population by fishing) is usually expressed in terms of an instantaneous fishing mortality rate (F). Another important factor for classifying the status of a resource is the current stock level. If a stock's biomass falls below its minimum stock size threshold (MSST), the capacity of the stock to produce MSY on a continuing basis is jeopardized, and the stock is said to be in an overfished condition.

Refer to NMFS' National Standard Guidelines for further information regarding these terms and concepts (final rule issued May 1, 1998; 63 FR 24212).

NMFS has made a determination regarding the status of the Gulf of Mexico greater amberjack stock relative to overfishing and to an overfished condition based on the 2000 greater amberjack stock assessment conducted by NMFS' Southeast Fisheries Science Center and on the December 2000 Report of the Council's Reef Fish Stock Assessment Panel (RFSAP). These most recent analyses indicate that the stock is overfished but is not undergoing overfishing due to presumed recent reductions in F. The NMFS' stock assessment used a calibrated Virtual Population Analysis (VPA) to obtain estimates of population abundance and mortality rates based on data through 1998. Inputs to the assessment were obtained from the following sources: Data on catch-at-age and selectivity; an index of abundance from private vessels and charter boats; and indices of abundance from the headboat and handline fisheries. Sensitivity analyses included (a) examinations of various combinations of the three indices for tuning; (b) truncation of the time series for the three indices to a period in which size limits were generally constant; (c) examination of alternatives for the F ratios for the terminal age group (fixing or estimating F); (d) two alternative stock-recruitment relationships; and (e) several assumed levels of natural mortality (i.e., 0.15, 0.25, 0.35).

Based on all the stock assessment options presented, the RFSAP chose four options for further consideration. These four options comprised best available scientific advice to the Council; all four combinations indicated that the greater amberjack stock was overfished in 1998 based on the Minimum Stock Size Threshold (MSST) status determination criterion. The best estimate of stock size in 2000 showed that the stock is at less than one-half of MSST. The assessment results also indicate that reductions in fishing mortality are required to eliminate overfishing. The assessment, however, did not take into account recent (1998) management actions that the RFSAP believes are adequate to achieve the required reductions in F. The RFSAP recognizes that the most recent (as of 1997) estimates of F will not reflect any effects of the closed season (started in 1998), greater amberjack bag limit, and bag and size limits presently in place for lesser amberjack/rudderfish (often mistaken for greater amberjack). If these

recently instituted measures have reduced fishing mortality for greater amberjack as expected, then this resource is no longer experiencing overfishing.

Section 304(e) of the Magnuson-Stevens Act requires that within 1 year of being notified of the identification of a stock as being overfished, the affected Regional Fishery Management Council must develop measures to end overfishing and rebuild the stock. On February 9, 2001, the Acting Regional Administrator, NMFS Southeast Region, notified the Council of the overfished status of the Gulf of Mexico greater amberjack and requested that the Council take appropriate action. The letter to the Council reads as follows:

Ms. Kay Williams, Chairman

Gulf of Mexico Fishery Management Council  
3018 U.S. Highway 301, Suite 1000  
Tampa, Florida 33619

Dear Kay:

This is to inform the Council that, based upon the best available scientific information, the National Marine Fisheries Service (NMFS) has determined that the Gulf of Mexico greater amberjack stock is overfished but is not experiencing overfishing.

This determination is based on the 2000 greater amberjack stock assessment conducted by the Southeast Fisheries Science Center and the December 2000 Report of the Reef Fish Stock Assessment Panel (RFSAP; copies enclosed). These most recent analyses indicate that the stock is overfished but is not undergoing overfishing due to presumed recent reductions in fishing mortality (F). The NMFS assessment used a calibrated VPA to obtain estimates of population abundance and mortality rates using data through 1998. Inputs to the assessment were obtained from data on catch at age and selectivity, from an index of abundance from private vessels and charter boats, and from indices of abundance from the headboat and handline fisheries. Sensitivity analyses included examination of various combinations of the three indices for tuning, truncation of the time series for the three indices to a period in which size limits were generally constant, examination of alternatives for the F ratios for the terminal age group (fixing or estimating F), examination of two alternative stock-recruitment relationships, and an examination of the assumed level of natural mortality (0.15, 0.25, 0.35).

Based on all the assessment options presented, the RFSAP chose four combinations for further consideration that comprised the best available advice to the Council. All four combinations indicated that the greater amberjack stock was overfished in 1998 based on the Minimum Stock Size Threshold (MSST). The best estimate of stock size in 2000 showed that the stock is at less than one-half of MSST. The assessment results also indicate that reductions in fishing mortality are required to eliminate

overfishing; however, the assessment did not take into account recent (1998) management actions that the RFSAP believes are adequate to achieve the required reductions in F. The RFSAP panel recognizes that the most recent (as of 1997) estimates of F will not reflect any effects of the closed season (started in 1998), greater amberjack bag limit, and bag and size limits that are presently in place for lesser amberjack/rudderfish (often mistaken for greater amberjack). The stock, therefore, is no longer experiencing overfishing if these recent regulations have reduced fishing mortality as expected.

The reference points for overfishing and overfished currently in the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico are based only on fishing mortality rates expressed as spawning potential ratios (overfishing: 30% static SPR; overfished: 20% transitional SPR). These reference points are not fully compliant with the national standard guidelines because they do not include a component based on stock size and, thus, are not an adequate basis for determination of stock status. The national guidelines require specification of a minimum stock size threshold (MSST) and a maximum fishing mortality threshold (MFMT). The 2000 stock assessment includes estimates of these status determination criteria as well as an estimate of MSY.

The Magnuson-Stevens Fishery Conservation and Management Act requires that the Council propose management measures to initiate rebuilding of the stock within one year of the determination that the stock is overfished. The 2000 stock assessment and the December 2000 RFSAP Report provide the Council with a range of assessment and rebuilding scenarios. As the Council addresses the overfished status and rebuilding of the greater amberjack stock, the Council must develop a plan to rebuild the stock to the biomass at maximum sustainable yield (MSY) and must select specific estimates of MSY, optimum yield, MFMT, and MSST as part of this plan. Clearly, the Council has already considered this at the January meeting when it voted to use the RFSAP's Table 6 as a basis for a rebuilding plan, if they were informed by NMFS that such a plan is required. We will be happy to assist the Council in future development of this rebuilding plan.

Please note that the most recent 2000 Report to Congress on the Status of Fisheries of the United States will list the status of amberjack as neither overfished nor approaching the overfished condition. Unfortunately, our determination of an overfished status for the Gulf greater amberjack stock was not completed in time for inclusion in the 2000 Congressional Report but will be included in the 2001 Report.

I look forward to working with the Council to develop a plan for rebuilding the greater amberjack stock.

Sincerely yours,

Joseph E. Powers, Ph.D.

Acting Regional Administrator

Enclosures

Dated: March 21, 2001.

William T. Hogarth,

Acting Assistant Administrator for Fisheries,  
National Marine Fisheries Service.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 679

[Docket No. 010112013-1013-01; I.D. 032101H]

#### Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in the West Yakutat District of the Gulf of Alaska

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Closure.

**SUMMARY:** NMFS is prohibiting directed fishing for pollock in the West Yakutat District of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the pollock total allowable catch (TAC) specified for the West Yakutat District in the GOA.

**DATES:** Effective 1200 hrs, Alaska local time (A.l.t.), March 22, 2001, until 2400 hrs, A.l.t., December 31, 2001.

**FOR FURTHER INFORMATION CONTACT:** Andrew Smoker, 907-586-7228

**SUPPLEMENTARY INFORMATION:** NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The pollock TAC in the West Yakutat District, Statistical Area 640, was established by the Final 2001 Harvest Specifications and Associated Management Measures for the Groundfish Fisheries Off Alaska (66 FR 7276, January 22, 2001) as 2,235 metric tons (mt). The West Yakutat District pollock fishery was closed under § 679.20(d)(1)(iii) on March 15, 2001, (66 FR 15359, March 19, 2001) and reopened on March 21, 2001 (reopening filed by the Office of the Federal Register on March 21, 2001).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region,

NMFS (Regional Administrator), has determined that the TAC of pollock in the West Yakutat District will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 2,035 mt, and is setting aside the remaining 200 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for pollock in the West Yakutat District of the GOA.

Maximum retainable bycatch amounts may be found in the regulations at § 679.20(e) and (f).

#### **Classification**

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds that the need to immediately implement this action to prevent exceeding the pollock TAC in the West Yakutat District constitutes good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B) and 50 CFR 679.20(b)(3)(iii)(A), as such procedures would be unnecessary and contrary to the public interest. Similarly, the need to implement these measures in a timely

fashion to prevent exceeding the pollock TAC in the West Yakutat District constitutes good cause to find that the effective date of this action cannot be delayed for 30 days. Accordingly, under 5 U.S.C. 553(d), a delay in the effective date is hereby waived.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

**Authority:** 16 U.S.C. 1801 *et seq.*

Dated: March 22, 2001.

**Bruce C. Morehead,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

# Proposed Rules

Federal Register

Vol. 66, No. 59

Tuesday, March 27, 2001

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

#### 7 CFR Part 989

[Docket No. FV01-989-2 PR]

#### Raisins Produced From Grapes Grown in California; Reporting on Organic Raisins

**AGENCY:** Agricultural Marketing Service, USDA.

**ACTION:** Proposed rule.

**SUMMARY:** This rule invites comments on adding additional reporting requirements for handlers covered under the Federal marketing order for California raisins (order). The order regulates the handling of raisins produced from grapes grown in California and is administered locally by the Raisin Administrative Committee (RAC). This rule would require handlers to report to the RAC information on acquisitions, shipments, and inventories of organic raisins. This action would provide the RAC with accurate data on organic raisins. The RAC would evaluate this data to determine whether organic raisins should be subject to the order's volume regulation requirements. This rule also announces the Agricultural Marketing Service's intention to request approval of the new information collection requirements by the Office of Management and Budget.

**DATES:** Comments must be received by May 29, 2001.

**ADDRESSES:** Interested persons are invited to submit written comments concerning this rule. Comments must be sent to the Docket Clerk, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; Fax: (202) 720-5698, or E-mail: [moab.docketclerk@usda.gov](mailto:moab.docketclerk@usda.gov). All comments should reference the docket number and the date and page number of this issue of the **Federal Register** and will be made available for public inspection in the Office of the Docket

Clerk during regular business hours, or can be viewed at: <http://www.ams.usda.gov/fv/moab.html>.

**FOR FURTHER INFORMATION CONTACT:**

Maureen T. Pello, Senior Marketing Specialist, California Marketing Field Office, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, 2202 Monterey Street, suite 102B, Fresno, California 93721; telephone: (559) 487-5901, Fax: (559) 487-5906; or George Kelhart, Technical Advisor, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, room 2525-S, P.O. Box 96456, Washington, DC 20090-6456; telephone: (202) 720-2491, Fax: (202) 720-5698.

Small businesses may request information on complying with this regulation by contacting Jay Guerber, Marketing Order Administration Branch, Fruit and Vegetable Programs, AMS, USDA, P.O. Box 96456, room 2525-S, Washington DC 20090-6456; telephone: (202) 720-2491, Fax: (202) 720-5698, or E-mail: [Jay.Guerber@usda.gov](mailto:Jay.Guerber@usda.gov).

**SUPPLEMENTARY INFORMATION:** This rule is issued under Marketing Agreement and Order No. 989 (7 CFR part 989), both as amended, regulating the handling of raisins produced from grapes grown in California, hereinafter referred to as the "order." The marketing agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), hereinafter referred to as the "Act."

The Department of Agriculture (Department) is issuing this rule in conformance with Executive Order 12866.

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. This rule is not intended to have retroactive effect. This rule will not preempt any State or local laws, or policies, unless they present an irreconcilable conflict with this rule.

The Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under section 608c(15)(A) of the Act, any handler subject to an order may file with the Secretary a petition stating that the order, any provision of the order, or any obligation imposed in connection with the order is not in accordance with law and request a modification of the order or to be exempted therefrom. Such

handler is afforded the opportunity for a hearing on the petition. After the hearing the Secretary would rule on the petition. The Act provides that the district court of the United States in any district in which the handler is an inhabitant, or has his or her principal place of business, has jurisdiction to review the Secretary's ruling on the petition, provided an action is filed not later than 20 days after the date of the entry of the ruling.

This proposal invites comments on adding additional reporting requirements for handlers covered under the order. This rule would require handlers to report to the RAC information on acquisitions, shipments, and inventories of organic raisins. This action would provide the RAC with accurate data on organic raisins. The RAC would evaluate this data to determine whether organic raisins should be subject to the order's volume regulation requirements. This action was unanimously recommended by the RAC at a meeting on November 29, 2000.

Section 989.73 of the order provides authority for the RAC to collect reports from handlers. Paragraph (d) of that section provides that, upon request of the RAC, with approval by the Secretary, handlers shall furnish to the RAC other information as may be necessary to enable it to exercise its powers and perform its duties. The RAC meets routinely to make decisions on various programs authorized under the order such as volume regulation and quality control. The RAC utilizes information collected under the order in its decision-making. Section 989.173 of the order's administrative rules and regulations specifies certain reports that handlers are currently required to submit to the RAC.

The RAC would like to collect information on organic raisins. Some organic raisin growers have expressed concern to the RAC and the Department with the application of the order's volume regulation provisions to organic raisins. In response, the RAC formed a working-group to review this issue and possible avenues of relief for such organic growers. One option considered by the RAC was to establish separate varietal types for organic raisins covered under the order. This would permit the RAC to consider the application of volume regulation for organic raisins

separate from traditionally grown raisins. However, during this process, it was determined that reliable data on the production, shipment, and marketing of organic raisins does not exist. Thus, the RAC does not have sufficient information at this time to make an informed decision.

Therefore, the RAC recommended requiring handlers to report information to the RAC on organic raisins. Such information would include reports on acquisitions, shipments (dispositions), and inventories of organic raisins. Information regarding transfers between handlers of organic raisins would also be needed to provide the RAC with accurate shipment data. The RAC recommended that this rule become effective on July 31, 2001, the last day of the 2000–01 crop year, so that the RAC could collect year-end inventory information on 2000–01 crop organic raisins. During the following weeks, handlers would begin reporting weekly acquisitions and monthly shipments of 2001–02 crop organic raisins.

Finally, for purposes of this rule, organically produced raisins would mean California raisins that have been certified as organic by an organic certification organization currently registered with the California Department of Food and Agriculture. Section 989.173 of the order's administrative rules and regulation is proposed to be revised accordingly. Paragraph (d) of that section regarding an interhandler transfer report would be revised, and a new paragraph (g) would be added to require handlers of organic raisins to report information regarding inventories, acquisitions, and dispositions of organic raisins. This information would enable the RAC to make an informed decision on whether organic raisins should be subject to the order's volume regulation requirements.

#### Initial Regulatory Flexibility Analysis

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA), the Agricultural Marketing Service (AMS) has considered the economic impact of this action on small entities.

Accordingly, AMS has prepared this initial regulatory flexibility analysis.

The purpose of the RFA is to fit regulatory actions to the scale of business subject to such actions in order that small businesses will not be unduly or disproportionately burdened. Marketing orders issued pursuant to the Act, and rules issued thereunder, are unique in that they are brought about through group action of essentially small entities acting on their own behalf. Thus, both statutes have small entity orientation and compatibility.

There are approximately 20 handlers of California raisins who are subject to regulation under the order and approximately 4,500 raisin producers in the regulated area. Small agricultural firms are defined by the Small Business Administration (13 CFR 121.201) as those having annual receipts of less than \$5,000,000, and small agricultural producers are defined as those having annual receipts of less than \$500,000. Thirteen of the 20 handlers subject to regulation have annual sales estimated to be at least \$5,000,000, and the remaining 7 handlers have sales less than \$5,000,000, excluding receipts from any other sources. No more than 7 handlers, and a majority of producers, of California raisins may be classified as small entities, excluding receipts from other sources.

This rule would revise paragraph (d) in § 989.173 and add a new paragraph (g) to that section to require handlers of organic raisins to submit reports to the RAC regarding acquisitions, shipments, and inventories of such raisins. This action is needed so that the RAC can collect accurate data on organic raisins and evaluate this information to determine whether organic raisins should be categorized as separate varietal types under the order. This would permit the RAC to consider application of the order's volume regulation provisions to organic raisins separate from traditionally grown raisins. Authority for this action is provided in § 989.73 of the order.

Regarding the impact of this action on affected entities, this action would impose some additional burden on handlers who handle organic raisins. Such handlers would be required to submit a weekly acquisition report for organic raisins, a monthly shipment (disposition) report, a monthly report of exports by country of destination, and an annual inventory report. Handlers would also be required to report transfers of organic raisins between handlers; however, those transfers would be captured on the same interhandler transfer report as handlers are currently using.

It is estimated that it would take each handler of organic raisins about 5 minutes to complete each weekly acquisition report (4 hours and 20 minutes annually per handler), 5 minutes to complete each monthly shipment report (1 hour annually per handler), 5 minutes to complete each report of exports by country of destination (1 hour annually per handler), and 5 minutes to complete an annual inventory report (5 minutes annually per handler). If all handlers handle organic raisins, it is estimated

that the total additional annual burden would be 6 hours and 25 minutes for each handler, or a total of 128 hours for the industry. In addition, handlers would be required to provide copies of organic certificates at the request of the Committee. The reporting burden for this activity is accounted for in the new weekly organic acquisition report. The four new reports, the organic inspection certificate requests, and underlying recordkeeping burden for organic acquisitions, shipments, and inventories are being submitted to the Office of Management and Budget (OMB) for approval under OMB Control No. 0581–NEW. At a later time, the new collection would be added to the currently approved collection for use under OMB No. 0581–0178. The burden for the interhandler transfer report (RAC–6) has already been approved by the OMB.

The Department has identified four comparable reports required to be submitted by handlers to the RAC under § 989.173. That section requires handlers to report to the RAC for all California raisins weekly acquisitions, monthly dispositions, monthly exports by country of destination, and annual inventories. This rule proposes that handlers continue to report such information for all California raisins, but that similar information regarding organically produced raisins be captured separately. Although this would be an additional reporting burden on handlers, the RAC has determined that this action is necessary to collect accurate information on organic raisins. In addition, several handlers are represented on the RAC and voted for this action.

Several alternatives were considered by RAC's work-group to address concerns of organic raisin growers. The group considered recommending informal rulemaking to establish separate varietal types for organic raisins. However, as discussed in this proposal, the RAC determined that sufficient data does not exist on production and shipments of organic raisins to warrant such action at this time.

Another option considered was to recommend informal rulemaking under authority provided in § 989.60(c). Under that authority, the RAC may designate such raisins as it deems appropriate for production, processing, and marketing and development projects. For each project, the volume of tonnage that can be acquired by all handlers cannot exceed 500 tons annually. Such raisins can be exempt from certain order regulations such as volume control. The 500-ton limit can be increased through informal rulemaking. The working-

group considered increasing the 500-ton limit and recommending a marketing develop project for all organic Natural (sun-dried) Seedless raisins. Such raisins would be exempt from volume regulation.

Also, there was some discussion about exempting organic raisins from the order's volume control requirements through a formal rulemaking proceeding. However, the working-group and ultimately the RAC decided that, at this time, the most appropriate action would be to collect the necessary production and shipment data on organic raisins. The RAC would evaluate this information and determine whether additional action on organic raisins would be warranted, including establishing separate varietal types for organic raisins.

Further, the RAC's meetings of its organic working-group on August 29 and October 17, 2000, and Administrative Issues Subcommittee and RAC meetings held on November 29, 2000, where this action was deliberated were public meetings widely publicized throughout the raisin industry. All interested persons were invited to attend the meetings and participate in the industry's deliberations. Finally, all interested persons are invited to submit information on the regulatory and information impact of this action on small businesses.

A small business guide on complying with fruit, vegetable, and specialty crop marketing agreements and orders may be viewed at: <http://www.ams.usda.gov/fv/moab.html>. Any questions about the compliance guide should be sent to Jay Guerber at the previously mentioned address in the **FOR FURTHER INFORMATION CONTACT** section.

#### **Paperwork Reduction Act**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the AMS announces its intention to request a approval of a new information collection for the California raisin marketing order.

*Title:* Raisins Produced from Grapes Grown in California.

*OMB Number:* 0581-NEW.

*Expiration Date of Approval:* To be assigned by OMB.

*Type of Request:* Intent to revise a currently approved information collection.

*Abstract:* The information collection requirements in this request are essential to carry out the intent of the Act, to provide the respondents the type of service they request, and to administer the California raisin

marketing order program, which has been operating since 1949.

On November 29, 2000, the RAC unanimously recommended revising the order's administrative rules and regulations to require handlers to report to the RAC information on organically produced raisins. This information would be reported on four new RAC forms, RAC-1 CO for weekly acquisitions of organic raisins, RAC-20 CO for monthly dispositions of organic raisins, RAC-21 CO for monthly exports of organic raisins by country of destination, and RAC-50 CO for annual inventories of organic raisins. This notice concerns these four reports and the proposed requirement that handlers provide copies of organic certificates at the request of the Committee. The burden regarding the submission of organic certificates is accounted for in the new acquisition report. The information and recordkeeping burdens for the new forms and submission of organic certificates by handlers has been submitted to OMB for approval. Section 989.176 requires handlers to maintain complete, accurate, and current records of all of their business affairs concerning the reports required to be submitted to the Committee. The records must be maintained for at least two years after the termination of the crop year for which the transactions occurred. The collection of information on the interhandler transfer of organic raisins would be captured on the same interhandler transfer report (RAC-6) handlers currently are using for traditionally produced raisins. The burdens associated with the collection of interhandler transfer information have been approved previously by OMB.

The new reports are needed so that the RAC can collect accurate information on organic raisins. The RAC would evaluate this information and determine whether organic raisins should be categorized as a separate varietal type under the order. This would permit the RAC to consider application of the order's volume regulation provisions to organic raisins separate from traditionally grown raisins.

The information collected would be used only by authorized representatives of USDA, including AMS, Fruit and Vegetable Programs regional and headquarter's staff, and authorized RAC employees. Authorized RAC employees and the industry would be the primary users of the information and AMS would be the secondary user.

The proposed request for approval of the new information collections under the order are as follows:

#### *RAC-1 CO—Weekly Report of Standard Organic Raisin Acquisitions*

*Estimate of Burden:* Public reporting burden for this collection of information (including the copying of organic certificates) is estimated to average 5 minutes per response.

*Respondents:* California raisin handlers who acquire organically produced California raisins.

*Estimated Number of Respondents:* 20.

*Estimated Number of Responses per Respondent:* 52.

*Estimated Total Annual Burden on Respondents:* 86.7 hours.

#### *RAC-20 CO—Monthly Disposition Report of Free Tonnage Organic Raisin Dispositions*

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 5 minutes per response.

*Respondents:* California raisin handlers who dispose of organically produced California raisins.

*Estimated Number of Respondents:* 20.

*Estimated Number of Responses per Respondent:* 12.

*Estimated Total Annual Burden on Respondents:* 20 hours.

#### *RAC-21 CO—Monthly Free Organic Tonnage Exports by Country of Destination*

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 5 minutes per response.

*Respondents:* California raisin handlers who dispose of organically produced California raisins.

*Estimated Number of Respondents:* 20.

*Estimated Number of Responses per Respondent:* 12.

*Estimated Total Annual Burden on Respondents:* 20 hours.

#### *RAC-50 CO—Inventory of Free Tonnage Standard Quality Organic Raisins*

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 5 minutes per response.

*Respondents:* California raisin handlers who acquire organically produced California raisins.

*Estimated Number of Respondents:* 20.

*Estimated Number of Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 1.7 hours.

*Comments:* Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper

performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments should reference OMB No. 0581-NEW and the California raisin marketing order, and be sent to USDA in care of the Docket Clerk at the previously mentioned address. All comments received will be available for public inspection during regular business hours at the same address.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

A 60-day comment period is provided to allow interested persons to respond to this proposal.

#### List of Subjects in 7 CFR Part 989

Grapes, Marketing agreements, Raisins, Reporting and recordkeeping requirements.

For the reasons set forth in the preamble, 7 CFR part 989 is proposed to be amended as follows:

#### PART 989—RAISINS PRODUCED FROM GRAPES GROWN IN CALIFORNIA

1. The authority citation for 7 CFR part 989 continues to read as follows:

**Authority:** 7 U.S.C. 601–674.

2. In § 989.173, paragraph (d)(1)(iii) is revised, paragraphs (g), (h), and (i) are redesignated as paragraphs (h), (i), and (j), and a new paragraph (g) is added to read as follows:

#### § 989.173 Reports.

\* \* \* \* \*

(d) \* \* \*

(1) \* \* \*

(iii) The varietal type of raisin, with organically produced raisins as specified in paragraph (g) of this section separated out, net weight, and condition of the raisins transferred; and

\* \* \* \* \*

(g) *Organically produced raisins.* For purposes of this section, organically produced raisins means raisins that have been certified by an organic certification organization currently registered with the California

Department of Food and Agriculture. Handlers of such raisins shall submit the following reports to the Committee.

(1) *Inventory report of organically produced raisins.* Each handler shall submit to the Committee by the close of business on July 31 of each crop year, and not later than the following August 6, on an appropriate form provided by the Committee, a report showing, with respect to the organically produced raisins held by such handler:

(i) The quantity of free tonnage raisins, segregated as to locations where they are stored and whether they are natural condition or packed;

(ii) The quantity of reserve tonnage raisins held for the account of the Committee;

(iii) The quantity of off-grade raisins segregated as to those for reconditioning and those for disposition as such.

(2) *Acquisition report of organically produced standard raisins.* Each handler shall submit to the Committee for each week (Sunday through Saturday or such other 7-day period for which the handler has submitted a proposal to and received approval from the Committee) and not later than the following Wednesday, on an appropriate form provided by the Committee, a report showing the following:

(i) The total net weight of the standard raisins acquired during the reporting period, segregated when appropriate, as to free tonnage and reserve tonnage;

(ii) The location of the reserve tonnage; and

(iii) The cumulative totals of such acquisitions (as so segregated) from the beginning of the current crop year.

(iv) Upon request of the Committee, each handler shall provide copies of the organic certificate(s) applicable to the quantity of raisins reported as acquired.

(3) *Disposition report of organically produced raisins.* No later than the seventh day of each month, handlers who are not processors shall submit to the Committee, on an appropriate form provided by the Committee, a report showing the aggregate quantity of free tonnage packed raisins and standard natural condition raisins which were shipped or otherwise disposed of by such handler during the preceding month (exclusive of transfer within the State of California between the plants of any such handler and from such handler to other handlers). Such information shall include:

(i) Domestic outlets (exclusive of Federal government purchases) according to the quantity shipped in consumer cartons, the quantity of bags having a net weight content of 4 pounds or less, and the quantity shipped in bulk

packs (including, but not limited to those in bags having a net weight content of more than 4 pounds);

(ii) Federal government purchases;

(iii) Export outlets according to quantity shipped in consumer cartons, the quantity shipped in bags having a net weight of 4 pounds or less, and the quantity shipped in bulk packs (including, but not limited to, those in bags having a net weight content of more than 4 pounds);

(iv) Export outlets, by countries of destination; and

(v) Each of any other outlets in which the handler disposed of such raisins other than by any transfer which is excluded by the preceding sentence.

#### Fair Credit Reporting Regulations on Communication of Consumer Information Among Affiliated Institutions

**AGENCIES:** Office of the Comptroller of the Currency, Treasury (OCC); Board of Governors of the Federal Reserve System (Board); Federal Deposit Insurance Corporation (FDIC); and Office of Thrift Supervision, Treasury (OTS).

**ACTION:** Joint notice of proposed rulemaking; update.

**SUMMARY:** The OCC, Board, FDIC, and OTS (Agencies) have published for comment proposed regulations implementing the provisions of the Fair Credit Reporting Act (FCRA) that permit institutions to communicate consumer information to their affiliates (affiliate information sharing) without incurring the obligations of consumer reporting agencies. Many of the comments have raised concerns about how this rulemaking would affect compliance with the final regulations implementing the privacy provisions of the Gramm-Leach-Bliley Act (GLBA). The final FCRA rule will not apply to privacy notices that an institution will have sent prior to January 1, 2002, or prior to the effective date of a final FCRA rule, whichever is later. The Agencies advise financial institutions to prepare their privacy notices in accordance with the privacy regulations and the FCRA without delaying compliance until publication of the final FCRA rule, and provide an update on the status of the rulemaking.

**FOR FURTHER INFORMATION CONTACT:**

*OCC:* Michael S. Bylsma, Director, Community and Consumer Law Division, (202) 874-5750; or Amy Friend, Assistant Chief Counsel, (202) 874-5200, Office of the Comptroller of the Currency, 250 E Street, SW., Washington, DC 20219.

*Board:* Jane J. Gell, Managing Counsel, Division of Consumer and Community Affairs, (202) 452-3667; or Thomas E. Scanlon, Senior Attorney, Legal Division (202) 452-3594, Board of Governors of the Federal Reserve System, 20th and C Streets, NW., Washington, DC 20051.

*FDIC:* James K. Baebel, Assistant Director, Compliance Policy, Division of Compliance and Consumer Affairs, (202) 942-3086, Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, DC 20429.

*OTS:* Paul Robin, Assistant Chief Counsel, (202) 906-6648; or Christine Harrington, Counsel (Banking and Finance), (202) 906-7957, Regulations and Legislation Division, Office of Thrift Supervision, 1700 G Street, NW., Washington, DC 20552.

**SUPPLEMENTARY INFORMATION:**

**Background**

On June 1, 2000, the Agencies jointly published final regulations implementing provisions of the GLBA regarding the privacy of consumer financial information (privacy regulations) (65 FR 35162). The privacy regulations require that financial

institutions deliver initial privacy notices to their existing customers no later than July 1, 2001. To meet the July 1, 2001, deadline, many institutions are currently designing, printing, and preparing to distribute their initial privacy notices.

Since 1997, the FCRA has permitted an institution to disclose certain consumer information to its affiliates, without incurring the obligations of consumer reporting agencies, if it first provides the consumer with a notice regarding the disclosure and an opportunity to opt out. The privacy regulations require an institution to include a FCRA notice, if applicable, within its privacy notice.

On October 20, 2000, the Agencies published for comment proposed regulations implementing the FCRA affiliate information-sharing provisions (October FCRA Proposal) (65 FR 63120). The October FCRA Proposal addressed, among other matters, the form, content, and means of delivery of FCRA opt out notices.

A number of financial institutions have expressed concern that if the FCRA opt out notices included in their initial privacy notices are inconsistent with final FCRA regulations, then they may be required to revise and reissue their privacy notices. As a result, some financial institutions may consider delaying the preparation and delivery of privacy notices until very close to July 1, 2001. Other financial institutions that already have delivered their privacy notices are concerned that they may have to revise and redeliver their notices.

**Update**

To allow financial institutions to plan for and meet the requirements of the privacy regulations, the Agencies provide this update on the October FCRA Proposal. The Agencies are actively considering all of the comments submitted by the public regarding the October FCRA Proposal. Among other things, the Agencies are considering whether it is appropriate in light of suggestions and new issues raised by commenters to request comment on a revised proposed rule or whether to proceed to issue a final rule. In either event, the Agencies do not contemplate that a final FCRA rule will be adopted in time for institutions to adhere to the rule's requirements and deliver their privacy notices before July 1, 2001. Accordingly, the Agencies encourage institutions to deliver their privacy notices well in advance of the July 1 deadline when possible.

The Agencies will also carefully consider and address the request of

commenters to the October FCRA Proposal that the Agencies delay the effective date of the final FCRA rule to permit financial institutions adequate time to comply with the final rule and the privacy regulations. Under no circumstances, however, will the final FCRA rule apply to privacy notices under the GLBA that an institution will have sent prior to January 1, 2002, or prior to the effective date of a final FCRA rule, whichever is later.

Dated: March 19, 2001.

## THE BROADCASTING BOARD OF GOVERNORS

### 22 CFR Part 503

#### Freedom of Information Act Regulations

**AGENCY:** The Broadcasting Board of Governors.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** This regulation establishes rules for implementing the Freedom of Information Act (FOIA) for the newly created Broadcasting Board of Governors.

**DATES:** Comments must be submitted on or before April 16, 2001.

**ADDRESSES:** Send comments to the FOIA/Privacy Act Office, The Broadcasting Board of Governors (BBG), Office of the General Counsel, 330 Independence Avenue, SW., Washington, DC 20237, Suite 3349; telephone (202) 260-4404.

**FOR FURTHER INFORMATION CONTACT:** Caroline S. West, Assistant General Counsel at (202) 260-4404.

**SUPPLEMENTARY INFORMATION:** Public Law 103-236, the United States International Broadcasting Act of 1994, created the Broadcasting Board of

Governors (BBG) within the United States Information Agency (USIA). By law, the bipartisan Board consisted of nine members—eight members who were appointed by the President, by and with the advice and consent of the Senate, and the USIA Director.

On October 21, 1998, President Clinton signed Pub. L. 105-277, the Omnibus Consolidated and Emergency Supplemental Appropriations Act for Fiscal Year 1999. Contained as Division G of this legislation was the Foreign Affairs Reform and Restructuring Act of 1998, which reorganized the foreign affairs agencies of the U.S. Government. Under this reorganization, the Broadcasting Board of Governors became an independent Federal entity on October 1, 1999. Under the reorganization of the foreign affairs agencies, the responsibilities of the Board remained intact, and the membership of the Board remained the same, except that the USIA Director was replaced by the Secretary of State.

The BBG has responsibility for oversight of all United States sponsored, non-military broadcasting to foreign countries. The BBG oversees the operations of the International Broadcasting Bureau (IBB), which includes the worldwide broadcasting services of the Voice of America (VOA) and WORLDNET, the Office of Cuba Broadcasting (OCB), Engineering and Technical Operations, and of the two grantee organizations, Radio Free Europe/Radio Liberty (RFE/RL) and Radio Free Asia (RFA). The Board members also serve as members of the Board of Directors for both RFE/RL and RFA.

The Board's authorities include:

- To review and evaluate the mission and operation of, and assess the quality, effectiveness, and professional integrity of, all such activities within the broad foreign policy objectives of the United States;
- To make and supervise grants for broadcasting and related activities for RFE/RL and RFA;
- To review, evaluate, and determine, at least annually, the addition or deletion of language services; and
- To allocate funds appropriated for international broadcasting activities among the various elements of the IBB and grantees, subject to reprogramming notification.

In total, the BBG broadcasting entities transmit over 2,000 hours of weekly programming in 61 languages to over 100 million weekly listeners worldwide.

This regulation revises 22 CFR part 503, which contains the Freedom of Information Act regulations of the former United States Information

Agency and establishes regulations of the BBG for implementing the Freedom of Information Act.

In accordance with 5 U.S.C. 605(b), the BBG certifies that this rule does not have a significant adverse economic impact on a substantial number of small entities. This rule is not considered being a significant regulatory action within the meaning of section 3(f) of Executive Order 12866, nor does this rule have Federalism implications warranting the preparation of a Federalism Assessment in accordance with Executive Order 12612.

Dated: March 19, 2001.

**Brian T. Conniff,**

*Acting Director, International Broadcasting Bureau, Broadcasting Board of Governors.*

- 503.5 Records available for public inspection.
- 503.6 Restrictions on some agency records.
- 503.7 Fees.
- 503.8 Exemptions.
- 503.9 Electronic records.

**Authority:** 5 U.S.C. 552 Reform Act of 1986 as amended by Pub. L. 99-570; sec. 1801-1804; U.S.C. 2658; 5 U.S.C. 301; 13 U.S.C. 8, E.O. 10477, as amended; 47 FR 9320, Apr. 2, 1982, E.O. 12356. 5 U.S.C. 552 (1988 & Supp. III 1991) as amended by Freedom of Information Reform Act of 1986, Pub. L. 99-570, Title I, sections 1801-1804, 100 Stat. 3207, 3207-48-50 (1986)(codified at 5 U.S.C. 552 (1988)); 22 U.S.C. 2658 (1988); 5 U.S.C. 301 (1988); 13 U.S.C. 8 (2988); E.O. 10477, 3 CFR 958 (1949-1953) as amended by E.O. 10822, 3 CFR 355 (1959-1963), E.O. 12292, 3 FR 134 (1982), E.O. 12356, 3 CFR 166 (1983), E.O. 12958 (1995).

### § 503.1 Introduction and definitions.

(a) *Introduction.* The Freedom of Information Act (FOIA) and this part apply to all records of The Broadcasting Board of Governors (BBG). As a general policy BBG follows a balanced approach in administering the FOIA. We recognize the right of public access to information in the Agency's possession, but we also seek to protect the integrity of the Agency's internal processes. This policy calls for the fullest possible disclosure of records consistent with those requirements of administrative necessity and confidentiality which are recognized by the FOIA.

(b) *Definitions:*

*Access Appeal Committee or Committee* means the Committee delegated by the Agency Head for making final agency determinations regarding appeals from the initial denial of records under the FOIA.

*Agency or BBG* means the Broadcasting Board of Governors. It includes all parts of the BBG in the U.S. and its worldwide operations.

*Commercial use*, when referring to a request, means that the request is from, or on behalf of, one who seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or of a person on whose behalf the request is made. Whether a request is for a commercial use depends on the purpose of the request and how the records will be used. The identity of the requester (individual, non-profit corporation, for-profit corporation), or the nature of the records, while in some cases indicative of that purpose or use, is not necessarily determinative. When a request is made by a representative of the news media, the request shall be deemed to be for a non-commercial use.

*Department* means any executive department, military department, government corporation, government controlled corporation, any independent regulatory agency, or other establishment in the executive branch of the Federal Government. A private organization is not a department even if it is performing work under contract with the Government or is receiving Federal financial assistance. Grantee and contractor records are not subject to the FOIA unless they are in the possession and control of the BBG.

*Duplication* means the process of making a copy of a record and sending it to the requester, to the extent necessary to respond to the request. Such copies include paper copy, microform, audiovisual materials, and magnetic tapes, cards and discs.

*Educational institution* means a preschool, elementary or secondary school, institution of undergraduate or graduate higher education, or institution of professional or vocational education.

*FOIA* means the Freedom of Information Act, section 552 of title 5, United States Code, as amended.

*Freedom of Information Officer* means the BBG official who has been delegated the authority to release or withhold records and assess, waive, or reduce fees in response to FOIA requests.

*Non-commercial scientific institution* means an institution that is not operated substantially for the purposes of furthering its own or someone else's business, trade, or profit interests, and

that is operated for purposes of conducting scientific research whose results are not intended to promote any particular product or industry.

*Records* (and any other term used in this section in reference to information) include any information that would be an agency record subject to the requirements of this section when maintained by the Agency in any format, including an electronic format. Records also include any handwritten, typed or printed documents (such as memoranda, books, brochures, studies, writings, drafts, letters, transcripts, and minutes) and documentary material in other forms (such as punchcards, magnetic tapes, cards, or discs; paper tapes; audio or video recordings, maps, photographs, slides, microfilm, and motion pictures). It does not include objects or articles such as exhibits, models, equipment, and duplication machines or audiovisual processing materials. Reports does not include books, magazines, pamphlets, or other reference material in formally organized and officially designated BBG libraries, where such materials are available under the rules of the particular library.

*Representative of the news media* means a person actively gathering news for an entity organized and operated to publish or broadcast news to the public. "News" means information that is about current events or that would be of current interest to the public. News media entities include television and radio broadcasters, publishers of periodicals (to the extent they publish "news") who make their products available for purchase or subscription by the general public, and entities that may disseminate news through other media (e.g., electronic dissemination of text). Freelance journalists shall be considered representatives of a news media entity if they can show a solid basis for expecting publication through such an entity. A publication contract or a requester's past publication record may show such a basis.

*Request* means asking in writing for records whether or not the request refers specifically to the FOIA.

*Review* means examining the records to determine which portions, if any, may be released, and any other processing that is necessary to prepare the records for release. It includes only the first examination and processing of the requested documents for purposes of determining whether a specific exemption applies to a particular record or portion of a record.

*Search* means looking for records or portions of records responsive to a request. It includes reading and interpreting a request, and also page-by-

page and line-by-line examination to identify responsive portions of a document. However, it does not include line-by-line examination where merely duplicating the entire page would be a less expensive and quicker way to comply with the request.

### § 503.2 Making a request.

(a) *How to request records.* All requests for documents shall be made in writing. Requests should be addressed to The Broadcasting Board of Governors (BBG), FOIA/Privacy Act Officer, Office of the General Counsel, 330 Independence Avenue, SW., Suite 3349, Washington, DC 20237; telephone (202) 260-4404. Write the words "Freedom of Information Act Request" on the envelope and letter.

(b) *Details in your letter.* Your request for documents should provide as many details as possible that will help us find the records you are requesting. If there is insufficient information, we will ask you to provide greater details. Include your telephone number(s) to help us reach you if we have questions. If you are not sure how to write your request or what details to include, you may call the FOIA Office to request a copy of the Agency's booklet "Guide and Index of Records," or access the same information via the Internet on BBG's World Wide Web site (<http://www.ibt.gov>). The more specific the request for documents, the sooner the Agency will be able to respond to your request(s).

(c) *Requests not handled under FOIA.* We will not provide documents requested under the FOIA and this part if the records are currently available in the National Archives, subject to release through the Archives, or commonly sold to the public by it or another agency in accordance with statutory authority (for example, records currently available from the Government Printing Office or the National Technical Information Service). Agency records that are normally freely available to the general public, such as BBG press releases, are not covered by the FOIA. Requests for documents from Federal departments, Chairmen of Congressional committees or subcommittees and court orders are not FOIA requests.

(d) *Referral of requests outside the agency.* If you request records that were created by or provided to us by another Federal department, we may refer your request to or consult with that department. We may also refer requests for classified records to the department that classified them. In cases of referral, the other department is responsible for processing and responding to your request under that department's

regulation. When possible, we will notify you when we refer your request to another department.

(e) *Responding to your request.*—(1) *Retrieving records.* The Agency is required to furnish copies of records only when they are in our possession and control. If we have stored the records you want in a record retention center, we will retrieve and review them for possible disclosure. However, the Federal Government destroys many old records, so sometimes it is impossible to fill requests. The Agency's record retention policies are set forth in the General Records Schedules of the National Archives and Records Administration and in BBG's Records Disposition Schedule, which establish time periods for keeping records before they may be destroyed.

(2) *Furnishing records.* (i) The Agency is only required to furnish copies of records that we have or can retrieve. We are not compelled to create new records. The Agency will aid requesters by providing records and information in the form requested, including electronic format, if we can readily reproduce them in that form or format.

(ii) We may decide to conserve government resources and at the same time supply the records you need by consolidating information from various records, in paper form or electronically, rather than copying them all. If the effort to produce records in electronic format would significantly interfere with the operations of the Agency, we will consider the effort to be an unreasonable search.

(iii) The Agency is required to furnish only one copy of a record. If we are unable to make a legible copy of a record to be released, we will not attempt to reconstruct it. Rather we will furnish the best copy possible and note its poor quality in our reply or on the copy.

(iv) If we cannot accommodate your request for form or format, we will provide responsive, nonexempt information in a reasonably accessible form.

### § 503.3 Availability of agency records.

(a) *Release of records.* If we have released a record or part of a record to others in the past, we will ordinarily release it to you also. This principle does not apply if the previous release was an unauthorized disclosure. However, we will not release it to you if a statute forbids this disclosure and we will not necessarily release it to you if an exemption applies in your situation and did not apply or applied differently in the previous situation.

(b) *Denial of requests.* All denials are in writing and describe in general terms the material withheld and state the reasons for the denial, including a reference to the specific exemption of the FOIA authorizing the withholding or deletion. The denial also explains your right to appeal the decision and it will identify the official to whom you should send the appeal. Denial letters are signed by the person who made the decision to deny all or part of the request, unless otherwise noted.

(c) *Unproductive searches.* We make a diligent search for records to satisfy your request. Nevertheless, we may not be able always to find the records you want using the information you provided, or they may not exist. If we advise you that we have been unable to find the records despite a diligent search, you will nevertheless be provided the opportunity to appeal the adequacy of the Agency's search. However, if your request is for records that are obviously not connected with this Agency or your request has been provided to us in error, a "no records" response will not be considered an adverse action and you will not be provided an opportunity to appeal.

(d) *Appeal of denials.* You have the right to appeal a partial or full denial of your FOIA request. To do so, you must put your appeal in writing and address it to the official identified in the denial letter. Your appeal letter must be dated and postmarked within 30 calendar days from the date of the Agency's denial letter. Because we have some discretionary authority in deciding whether to release or withhold records, you may strengthen your appeal by explaining your reasons for wanting the records. However, you are not required to give any explanation. Your appeal will be reviewed by the Agency's Access Appeal Committee that consists of senior Agency officials. When the Committee responds to your appeal, that constitutes the Agency's final action on the request. If the Access Appeal Committee grants your appeal in part or in full, we will send the records to you promptly or set up an appointment for you to inspect them. If the decision is to deny your appeal in part or in full, the final letter will state the reasons for the decision, name the officials responsible for the decision, and inform you of the FOIA provisions for judicial review.

#### **§ 503.4 Time limits.**

(a) *General.* The FOIA sets certain time limits for us to decide whether to disclose the records you requested, and to decide appeals. If we fail to meet the deadlines, you may proceed as if we had

denied your request or your appeal. Since requests may be misaddressed or misrouted, you should call or write to confirm that we have the request and to learn its status if you have not heard from us in a reasonable time.

(b) *Time Allowed.* (1) We will decide whether to release records within 20 working days after your request reaches the appropriate area office that maintains the records you are requesting. When we decide to release records, we will actually provide the records at that time, or as soon as possible after that decision, or let you inspect them as soon as possible thereafter.

(2) We will decide an appeal within 20 working days after the appeal reaches the appropriate reviewing official.

(3) (i) The FOIA Officer or appeal official may extend the time limits in unusual circumstances for initial requests or appeals, up to 10 working days. We will notify you in writing of any extensions. "Unusual circumstances" include situations where we: Search for and collect records from field facilities, records centers or locations other than the office processing the records; search for, collect, or examine a great many records in response to a single request; consult with another office or department that has substantial interest in the determination of the request; and/or conduct negotiations with submitters and requesters of information to determine the nature and extent of non-disclosable proprietary materials.

(ii) If an extra ten days still does not provide sufficient time for the Agency to deal with your request, we will inform you that the request cannot be processed within the statutory time limit and provide you with the opportunity to limit the scope of your request and/or arrange with us a negotiated deadline for processing your request.

(iii) If you refuse to reasonably limit the scope of your request or refuse to agree upon a time frame, the Agency will process your case, as it would have, had no modification been sought. We will make a diligent, good faith effort to complete our review within the statutory time frame.

#### **§ 503.5 Records available for public inspection.**

(a) To the extent that they exist, we will make the following records of general interest available for you in paper form or electronically for inspection or copying:

(1) Orders and final opinions, including concurring and dissenting opinions in adjudications. (See § 503.8(e) of this part for availability of

internal memoranda, including attorney opinions and advice.)

(2) Statements of policy and interpretations that we have adopted but which have not been published in the **Federal Register**.

(3) Administrative staff manuals and instructions to staff that affect the public. (We will not make available, however, manuals or instructions that reveal investigative or audit procedures as described in § 503.8(b) and (g) of this part.)

(4) In addition to such records as those described in this paragraph (a), we will make available to any person a copy of all other Agency records, in the format requested, if available, unless we determine that such records should be withheld from disclosure under subsection (b) of the Act and §§ 503.8 and 503.9 of this part.

(b) Before releasing these records, however, we may delete the names of people, or information that would identify them, if release would invade their personal privacy to a clearly unwarranted degree (See § 503.8(f).)

(c) The Agency's FOIA Guide and Index is available electronically via the Internet, or you may request a copy of it by mail.

#### **§ 503.6 Restrictions on some Agency records.**

Under the U.S. Information and Educational Exchange Act of 1948 (22 U.S.C. 1461, as amended), the BBG is prohibited from disseminating within the United States information about the U.S., its people, and its policies when such materials have been prepared by the Agency for audiences abroad. This includes films, radio scripts and tapes, videotapes, books, and similar materials produced by the Agency. However, this law does provide that upon request, such information shall be made available at BBG, for examination only, by representatives of the press, magazines, radio systems and stations, research students or scholars and available, for examination only, to Members of Congress.

#### **§ 503.7 Fees.**

(a) *Fees to be charged—categories of requests.* Paragraphs (a)(1) through (3) and (b) through (e) of this section explain each category of request and the type of fees that we will generally charge. However, for each of these categories, the fees may be limited, waived, or reduced for the reasons given in paragraph (e) of this section. *Request* means asking for records, whether or not you refer specifically to the Freedom of Information Act (FOIA). Requests from Federal agencies and court orders

for documents are not included within this definition. *Review* means, when used in connection with processing records for a commercial use request, examining the records to determine what portions, if any, may be withheld, and any other processing that is necessary to prepare the records for release. It includes only the examining and processing that are done the first time we analyze whether a specific exemption applies to a particular record or portion of a record. It does not include the process of researching or resolving general legal, or policy issues regarding exemptions. *Search* means looking for records or portions of records responsive to a request. It includes reading and interpreting a request, and also page-by-page and line-by-line examination to identify responsive portions of a document.

(1) *Commercial use request.* If your request is for a commercial use, BBG will charge you the costs of search, review and duplication. "Commercial use" means that the request is from or on behalf of one whom seeks information for a use or purpose that furthers the commercial, trade, or profit interests of the requester or of a person on whose behalf the request is made. Whether a request is for a commercial use depends on the purpose of the request and how the records will be used; the identity of the requester (individual, non-profit corporation, for-profit corporation), or the nature of the records, while in some cases may indicate the purpose or use is not necessarily determinative. When a request is made by a representative of the news media, a purpose of use which supports the requester's news dissemination function is deemed to be a non-commercial use.

(2) *Educational and scientific institutions and news media.* If you are an educational institution or a non-commercial scientific institution, operated primarily for scholarly or scientific research, or a representative of the news media, and your request is not for a commercial use, BBG will charge you only for the duplication of documents. Also BBG will not charge you the copying costs for the first 100 pages of duplication. "Educational institution" means a preschool, elementary or secondary school, institution of undergraduate or graduate higher education, or institution of professional or vocational education. "Non-commercial scientific institution" means an institution that is not operated substantially for purposes of furthering its own or someone else's business, trade, or profit interests, and that is operated for purposes of conducting

scientific research whose results are not intended to promote any particular product or industry. "Representative of the news media" means a person actively gathering news for an entity organized and operated to publish or broadcast news to the public. "News" means information that is about current events or that would be of current interest to the public. News media entities include television and radio broadcasters, publishers of periodicals (to the extent they publish "news") who make their products available for purchase or subscription by the general public, and entities that may disseminate news through other media (e.g., electronic dissemination of text). We will treat freelance journalists as representatives of a news media entity if they can show a solid basis for expecting publication through such an entity. A publication contract is such a basis and the requester's past publication record may show such a basis.

(3) *Other requesters.* If your request is not the kind described by paragraph (a)(1) or (a)(2) of this section, then the BBG will charge you only for search and duplication. Also, we will not charge you for the first two hours of search time or for the copying costs of the first 100 pages of duplication.

(b) *Fees to be charged—general provisions.* (1) We may charge search fees even if the records we find are exempt from disclosure, or even if we do not find any records at all.

(2) We will not charge you any fee at all if the costs of routine collection and processing of the fee are likely to equal or exceed the amount of the fee. We have estimated that cost to be \$5.00.

(3) If we determine that you are acting alone or with others to break down a single request into a series of requests in order to avoid or reduce the fees charged, we may aggregate all these requests for purposes of calculating the fees charged.

(4) We will charge interest on unpaid bills beginning on the 31st day following the day the bill was sent. The accrual of interest will stop upon receipt of the fee, rather than upon its processing by BBG. Interest will be at the rate prescribed in section 3717 of Title 32 U.S.C.

(c) *Fee Schedule—BBG will charge the following fees:* (1) Manual searching for or reviewing of records:

(i) When performed by employees at salary grade GS-1 through GS-8 or FS-9 through FS-5—an hourly rate of \$10.00 will be charged;

(ii) When performed by employees at salary grade GS-9 through GS-13 or FS-

5 through FS-2—an hourly rate of \$20.00 will be charged;

(iii) When performed by employees at salary grade GS-14 or above or FS-2 or above—an hourly rate of \$36.00 will be charged.

(iv) When a search involves employees at more than one of these levels, we will charge the appropriate rate for each.

(2) Computer searching and printing. Except in unusual cases, the cost of computer time will not be a factor in calculating the two free hours of search time. In those unusual cases, where the cost of conducting a computerized search significantly detracts from the Agency's ordinary operations, no more than the dollar cost of two hours of manual search time shall be allowed. For searches conducted beyond the first two hours, the Agency shall only charge the direct costs of conducting such searches.

(3) Photocopying standard size pages—\$0.15 per page.

(4) Photocopying odd-size documents (such as punchcards or blueprints) or reproducing other records (such as tapes)—the actual cost of operating the machine, plus the actual cost of the materials used, plus charges for the time spent by the operator, at the rates given in paragraph (c)(1) of this section.

(5) Certifying that records are true copies—this service is not required by the FOIA. If we agree to provide it, we will charge \$10.00 per certification.

(6) Sending records by express mail, certified mail, or other special methods. This service is not required by the FOIA. If we agree to provide it, we will charge our actual cost.

(7) Performing any other special service that you request and to which we agree—actual cost of operating any machinery, plus actual cost of any materials used, plus charges for the time of our employees, at the rates given in paragraph (c)(1) of this section.

(d) *Procedures for assessing and collecting fees.*—(1) *Agreement to pay.*

We generally assume that when you request records you are willing to pay the fees we charge for services associated with your request. You may specify a limit on the amount you are willing to spend. We will notify you if it appears that the fees will exceed the limit and ask whether you nevertheless want us to proceed with the search.

(2) *Advance payment.* If you have failed to pay previous bills in a timely manner, or if our initial review of your request indicates that we will charge you fees exceeding \$250.00, we will require you to pay your past due fees and/or the estimated fees, or a deposit, before we start searching for the records

you want, or before we send them to you. In such cases, the administrative time limits as described in § 503.4(b), will begin only after we come to an agreement with you over payment of fees, or decide that a fee waiver or reduction is appropriate.

(e) *Waiver or reduction of fees.* We will waive or reduce the fees we would otherwise charge if disclosure of the information meets both of the following tests (paragraphs (e)(1) and (e)(2) of this section):

(1) It is in the public interest because it is likely to contribute significantly to public understanding of government operations or activities, regardless of any other public interest it may further. In making this determination, we may consider:

(i) Whether the requester is in a position to contribute to public understanding;

(ii) Whether the requester has such knowledge or expertise as may be necessary to understand the information; and

(iii) Whether the requester's intended use of the information would be likely to disseminate the information among the public; and,

(2) It is not primarily in the commercial interest of the requester. Commercial interests include interests relating to business, trade, and profit. Not only profit-making corporations have commercial interests; so do nonprofit corporations, individuals, unions, and other associations.

(3) You must make your request for a waiver or reduction at the same time you make your request for records. Only the FOIA Officer may make the decision whether to waive or reduce the fees. If we do not completely grant your request for a waiver or reduction, the denial letter will designate the appeal official.

### § 503.8 Exemptions.

Section 552(b) of the Freedom of Information Act contains nine exemptions to the mandatory disclosure of records. These exemptions and their application by the Agency are described below. In some cases, more than one exemption may apply to the same document. This section does not itself authorize the giving of any pledge of confidentiality by any officer or employee of the Agency.

(a) *Exemption one—National defense and foreign policy.* We are not required to release records that are specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy and are in fact properly classified according to such Executive Order. Executive Order No. 12958

(1995) provides for such classification. When the release of certain records may adversely affect U.S. relations with foreign countries, we usually consult with officials with knowledge of those countries and/or with officials of the Department of State. We may also have in our possession records classified by another agency. If we do, we may consult with that agency or may refer your request to that agency for their direct response to you. If possible, we will notify you that we have made such a referral.

(b) *Exemption two—Internal personnel rules and practices.* We are not required to release records that are related solely to the internal personnel rules and practices of an agency. We may withhold routine internal agency procedures such as guard schedules and luncheon periods. We may also withhold internal records the release of which would help some persons circumvent the law or Agency regulations.

(c) *Exemption three—Records exempted by other statutes.* We are not required to release records if another statute specifically allows us to withhold them. Another statute may be used only if it absolutely prohibits disclosure or if it sets forth criteria identifying particular types of material to be withheld (for example, the statute discussed in § 503.6).

(d) *Exemption four—Trade secrets and confidential commercial or financial information.* We will withhold trade secrets and commercial or financial information that is obtained from a person and is privileged or confidential.

(1) *Trade secrets:* A trade secret is a secret, commercially valuable plan, formula, process, or device that is used for the making, preparing, compounding, or processing of trade commodities and that can be said to be the end product of either innovation or substantial effort. A direct relationship is necessary between the trade secret and the productive process.

(2) *Commercial or financial information,* obtained from a person, and is privileged or confidential.

(i) Information is "commercial or financial" if it relates to businesses, commerce, trade, employment, profits, or finances (including personal finances).

(ii) Information is obtained from someone outside the Federal Government or from someone within the Government who has a commercial or financial interest in the information. "Person" includes an individual, partnership, corporation, association, state or foreign government, or other

organization. Information is not "obtained from a person" if it is generated by BBG or another Federal agency.

(iii) Information is "privileged" if it would ordinarily be protected from disclosure in civil discovery by a recognized evidentiary privilege, such as the attorney-client privilege, or the work-product privilege. Information may be privileged for this purpose under a privilege belonging to a person outside the Government, unless the providing of the information to the Government rendered the information no longer protectible in civil discovery.

(iv) Information is "confidential" if it meets one of the following tests:

(A) Disclosure may impair the Government's ability to obtain necessary information in the future;

(B) Disclosure would substantially harm the competitive position of the person who submitted the information;

(C) Disclosure would impair other Government interests, such as program effectiveness and compliance; or

(D) Disclosure would impair other private interests, such as an interest in controlling availability of intrinsically valuable records, which are sold in the market by their owner.

(3) *Designation of certain confidential information.* A person who submits records to the Government may designate part or all of the information in such records as exempt from disclosure under Exemption four. The person may make this designation either at the time the records are submitted to the Government or within a reasonable time thereafter. The designation must be in writing. The legend prescribed by a request for proposal or request for quotations according to any agency regulation establishing a substitute for the language is sufficient but not necessary for this purpose. Any such designation will expire ten years after the records were submitted to the Government.

(4) *Predisclosure notification.* The procedures in this paragraph apply to records that were submitted to the Government and where we have substantial reason to believe that information in the records could reasonably be considered exempt under Exemption four. Certain exceptions to these procedures are stated in paragraph (d)(5) of this section.

(i) When we receive a request for such records and we determine that we may be required to disclose them, we will make reasonable efforts to notify the submitter about these facts. The notice will inform the submitter about the procedures and time limits for submission and consideration of

objections to disclosure. If we must notify a large number of submitters, we may do this by posting or publishing a notice in a place where the submitters are reasonably likely to become aware of it.

(ii) The submitter has ten (10) working days from receipt of the notice to object to disclosure of any part of the records and to state all bases for its objections.

(iii) We will give consideration to all bases that have been timely stated by the submitter. If we decide to disclose the records and the submitter still does not agree, we will send a written notice to the submitter stating briefly why we did not sustain its objections and we will provide a copy of the records as we intend to release them. The notice will state that we will disclose the records five (5) working days after the submitter receives the notice unless we are ordered by a United States District Court not to release them.

(iv) When a requester files suit under the FOIA to obtain records covered by this paragraph, we will promptly notify the submitter.

(v) Whenever we send a notice to a submitter under paragraph (d)(4)(i) of this section, we will notify you that we are giving the submitter a notice and an opportunity to object.

(5) Exceptions to predisclosure notification. The notice requirements in paragraph (d)(4) of this section do not apply in the following situations:

(i) We decide not to disclose the records;

(ii) The information has previously been published or made generally available;

(iii) We have already notified the submitter of previous requests for the same records and have come to an understanding with that submitter about the records;

(iv) Disclosure is required by a statute other than the FOIA;

(v) Disclosure is required by a regulation, issued after notice and opportunity for public comment that specifies narrow categories of records that are to be disclosed under the FOIA. In this case a submitter may still designate records as described in paragraph (d)(3) of this section and in exceptional cases, at our discretion, may follow the notice procedures in paragraph (d)(4) of this section;

(vi) The designation appears to be obviously frivolous, but in this case we will still give the submitter the written notice required by paragraph (d)(4)(iii) of this section (although this notice need not explain our decision or include a copy of the records); and

(vii) We withhold the information because another statute requires its withholding.

(e) *Exemption five—Internal memoranda.* This exemption covers internal Government communications and notes that fall within a generally recognized evidentiary privilege. Internal Government communications include an agency's communications with an outside consultant or other outside person, with a court, or with Congress, when those communications are for a purpose similar to the purpose of privileged intra-agency communications. Some of the most common applicable privileges are:

(1) *The deliberative process privilege.* This privilege protects predecisional deliberative communications. A communication is protected under this privilege if it was made before a final decision was reached on some question of policy and if it expressed recommendations or opinions on that question. The purpose of this privilege is to prevent injury to the quality of the agency decision making process by encouraging open and frank internal policy discussions, by avoiding premature disclosure of policies not yet adopted, and by avoiding the public confusion that might result from disclosing reasons that were not in fact the ultimate grounds for an agency's decision. This privilege continues to protect pre-decisional documents even after a decision is made. We will release purely factual material in a deliberative document unless that material is otherwise exempt. However, purely factual material in a deliberative document is within this privilege if:

(i) It is inextricably intertwined with the deliberative portions so that it cannot reasonably be segregated; or

(ii) It would reveal the nature of the deliberative portions, or

(iii) Its disclosure would in some other way make possible an intrusion into the decision making process.

(2) *Attorney-client privilege.* This privilege protects confidential communications between a lawyer and an employee or agent of the Government where an attorney-client relationship exists (for example, where the lawyer is acting as attorney for the agency and the employee is communicating on behalf of the agency) and where the employee has communicated information to the attorney in confidence in order to obtain legal advice or assistance, and/or when the attorney has given advice to the client.

(3) *Attorney work product privilege.* This privilege protects documents prepared by or for an agency, or by or for its representative (usually BBG

attorneys) in anticipation of litigation or for trial. It includes documents prepared for purposes of administrative adjudications as well as court litigation. It includes factual material in such documents as well as material revealing opinions and tactics. The privilege continues to protect the documents even after the litigation is closed.

(f) *Exemption six—Clearly unwarranted invasion of personal privacy.* We may withhold personnel, medical, and similar files, and personal information about individuals if disclosure would constitute a clearly unwarranted invasion of personal privacy.

(1) *Balancing test.* In deciding whether to release records that contain personal or private information about someone else to a requester, we weigh the foreseeable harm of invading that individual's privacy against the public benefit that would result from the release of the information. In our evaluation of requests for records, we attempt to guard against the release of information that might involve a violation of personal privacy by a requester being able to "piece together items" or "read between the lines" information that would normally be exempt from mandatory disclosure.

(2) *Information frequently withheld.* We frequently withhold such information as home addresses, home telephone numbers, ages, minority group status, social security numbers, individual's benefits, earning records, leave records, etc.

(g) *Exemption seven—Law enforcement.* We are not required to release information or records that the Government has compiled for law enforcement purposes. The records may apply to actual or potential violations of either criminal or civil laws or regulations. We can withhold these records only to the extent that releasing them would cause harm in at least one of the following situations:

(1) *Enforcement proceedings.* We may withhold information when release could reasonably be expected to interfere with prospective or ongoing law enforcement proceedings, investigations of fraud and mismanagement, employee misconduct, and civil rights violations may fall into this category. In certain cases, we may refuse to confirm or deny the existence of records that relate to violations in order not to disclose that an investigation is in progress or may be conducted.

(2) *Fair trial or impartial adjudication.* We may withhold records when release would deprive a person of

a fair trial or an impartial adjudication because of prejudicial publicity.

(3) *Personal privacy.* We are careful not to disclose information that could reasonably be expected to constitute an unwarranted invasion of personal privacy. When a name surfaces in an investigation, that person is likely to be vulnerable to innuendo, rumor, harassment, or retaliation.

(4) *Confidential sources and information.* We may withhold records whose release could reasonably be expected to disclose the identity of a confidential source of information. A confidential source may be an individual; a state, local or foreign Government agency; or any private organization. The exemption applies whether the source provides information under an express promise of confidentiality or under circumstances from which such an assurance could be reasonably inferred. Also, where the record or information in it has been compiled by a criminal law enforcement authority conducting a criminal investigation or by an agency conducting a lawful national security investigation, the exemption also protects all information supplied by a confidential source. Also protected from mandatory disclosure is any information which, if disclosed, could reasonably be expected to jeopardize the system of confidentiality that assures a flow of information from sources to investigatory agencies.

(5) *Techniques and procedures.* We may withhold records reflecting special techniques or procedures of investigation or prosecution not otherwise generally known to the public. In some cases, it is not possible to describe even in general terms those techniques without disclosing the very material to be withheld. We may also withhold records whose release would disclose guidelines for law enforcement investigations or prosecutions if this disclosure could reasonably be expected to create a risk that someone could circumvent requirements of law or of regulation.

(6) *Life and physical safety.* We may withhold records whose disclosure could reasonably be expected to endanger the life or physical safety of any individual. This protection extends to threats and harassment as well as to physical violence.

(h) *Exemptions eight and nine—records on financial institutions and records on wells.* (1) Exemption eight permits us to withhold records about regulation or supervision of financial institutions.

(2) Exemption nine permits the withholding of geological and

geophysical information and data, including maps concerning wells.

#### **§ 503.9 Electronic records.**

(a) *Introduction.* This section applies to all records of the BBG, including all of its worldwide operations. Congress enacted the FOIA to require Federal agencies to make records available to the public through public inspections and at the request of any person for any public or private use. The increase in the Government's use of computers enhances the public's access to Government information. This section addresses and explains how records will be reviewed and released when the records are maintained in electronic format. Documentation not previously subject to the FOIA when maintained in a non-electronic format is not made subject to FOIA by this law.

(b) *Definitions.*—(1) *Compelling need.* Obtaining records on an expedited basis because of an imminent threat to the life or physical safety of an individual, or urgently needed by an individual primarily engaged in disseminating information to the public concerning actual or alleged Federal Government activities.

(2) *Discretionary disclosure.* Records or information normally exempt from disclosure will be released whenever it is possible to do so without reasonably foreseeable harm to any interest protected by an FOIA exemption.

(3) *Electronic reading room.* The room provided which makes electronic records available.

(c) *Electronic format of records.* (1) Materials such as agency opinions and policy statements (available for public inspection and copying) will be available electronically by accessing the BBG's Home Page via the Internet at <http://www.ibb.gov>. To set up an appointment to view such records in hard copy or to access the Internet via the BBG's computer, please contact the FOIA/Primary Act Officer at (202) 260-4404.

(2) We will make available for public inspection and copying, both electronically via the Internet and in hard copy, those records that have been previously released in response to FOIA requests, when we determine the records have been or are likely to be the subject of future requests.

(3) We will provide both electronically through our Internet address and in hard copy a "Guide" on how to make an FOIA request, and an Index of all Agency information systems and records that may be requested under the FOIA.

(4) We may delete identifying details when we publish or make available the

index and copies of previously-released records to prevent a clearly unwarranted invasion of personal privacy.

(i) We will indicate the extent of any deletions made from the place the deletion was made, if possible.

(ii) We will not reveal information about deletions if such disclosure would harm an interest protected by an exemption.

(d) *Honoring form or format requests.* We will aid requesters by providing records and information in the form requested, including electronic format, if we can readily reproduce them in that form or format. However, if we cannot accommodate you, we will provide responsive, nonexempt information in a reasonably accessible form.

(1) We will make a reasonable effort to search for records kept in an electronic format. However, if the effort would significantly interfere with the operations of the agency or the agency's use of its computers, we will consider the effort to be unreasonable.

(2) We need not create documents that do not exist, but computer records found in a database rather than in a file cabinet may require the application of codes or some form of programming to retrieve the information. This application of codes or programming of records will not amount to the creation of records.

(3) Except in unusual cases, the cost of computer time will not be a factor in calculating the two free hours of search time available under "503.7. In those unusual cases, where the cost of conducting a computerized search significantly detracts from the agency's ordinary operations, no more than the dollar cost of two hours of manual search time shall be allowed. For searches conducted beyond the first two hours, the agency shall only charge the direct costs of conducting such searches.

(e) *Technical feasibility of redacting non-releasable material.* We will make every effort to indicate the place on the record where a redaction of non-releasable material is made, and an FOIA citation noting the applicable exemption for the deletion will also be placed at the site. If unable to do so, we will notify you of that fact.

(f) *Ensuring timely response to request.* We will make every attempt to respond to FOIA requests within the prescribed 20 working-day time limit. However, processing some requests may require additional time in order to properly screen material against the inadvertent disclosure of material covered by the exemptions.

(1) *Multitrack first-in first-out processing.* (i) Because the agency

expects to be able to process its requests without a backlog of cases, BBG will not institute a multitract system. Those cases that may be handled easily, because they require only a few documents or a simple answer, will be handled immediately by an FOIA specialist.

(ii) If you wish to qualify for faster processing, you may limit the scope of your request so that we may respond more quickly.

(2) *Unusual circumstances.* (i) The agency may extend for a maximum of ten working days the statutory time limit for responding to an FOIA request by giving notice in writing as to the reason for such an extension. The reasons for such an extension may include: the need to search for and collect requested records from multiple offices; the volume of records requested; and, the need for consultation with other components within the agency.

(ii) If an extra ten days still does not provide sufficient time for the Agency to deal with your request, we will inform you that the request cannot be processed within the statutory time limit and provide you with the opportunity to limit the scope of your request and/or arrange with us a negotiated deadline for processing your request.

(iii) If you refuse to reasonably limit the scope of your request or refuse to agree upon a time frame, the agency will process your case, as it would have, had no modification been sought. We will make a diligent, good-faith effort to complete our review within the statutory time frame.

(3) *Grouping of requests.* We will group together requests that clearly involve related material that should be considered as a single request.

(i) If you make multiple or related requests for similar material for the purpose of avoiding costs, we will notify you that we are grouping together your requests, and the reasons why.

(ii) Multiple or related requests may also be grouped, such as those involving requests and schedules but you will be notified in advance if we intend to do so.

(g) *Time periods for agency consideration of requests.—(1) Expedited access.* We will authorize expedited access to requesters who show a compelling need for access, but the burden is on the requester to prove that expedition is appropriate. We will determine within ten days whether or not to grant a request for expedited access and we will notify the requester of our decision.

(2) *Compelling need for expedited access.* Failure to obtain the records within an expedited deadline must pose

an imminent threat to an individual's life or physical safety; or the request must be made by someone primarily engaged in disseminating information, and who has an urgency to inform the public about actual or alleged Federal Government activity.

(3) *How to request expedited access.* We will be required to make factual and subjective judgments about the circumstances cited by requesters to qualify them for expedited processing. To request expedited access, your request must be in writing and it must explain in detail your basis for seeking expedited access. The categories for compelling need are intended to be narrowly applied:

(i) *A threat to an individual's life or physical safety.* A threat to an individual's life or physical safety should be imminent to qualify for expedited access to the records. You must include the reason why a delay in obtaining the information could reasonably be foreseen to cause significant adverse consequences to a recognized interest.

(ii) *Urgency to inform.* The information requested should pertain to a matter of a current exigency to the American public, where delay in response would compromise a significant recognized interest. The person requesting expedited access under an "urgency to inform," must be primarily engaged in the dissemination of information. This does not include individuals who are engaged only incidentally in the dissemination of information. "Primarily engaged" requires that information dissemination be the main activity of the requester. A requester only incidentally engaged in information dissemination, besides other activities, would not satisfy this requirement. The public's right to know, although a significant and important value, would not by itself be sufficient to satisfy this standard.

(4) *Estimation of matter denied.* The agency will try to estimate the volume of any denied material and provide the estimate to the requester, unless doing so would harm an interest protected by an exemption.

(h) *Computer redaction.* The agency will identify the location of deletions in the released portion of the records, and where technologically possible, will show the deletion at the place on the record where the deletion was made, unless including that indication would harm an interest protected by an exemption.

(i) *Annual report on FOIA activities.* Reports on FOIA activities are submitted each fiscal year to the Department of Justice, and are due by

February 1 of every year. The BBG's report will be available both in hard copy and through the Internet. The Department of Justice will also report all Federal agency FOIA activity through electronic means.

(j) *Reference materials and guides.* The agency has available in hard copy, and electronically through the Internet, a guide for requesting records under the FOIA, and an index and description of all major information systems of the agency. The guide is a simple explanation of what the FOIA is intended to do, and how you can use it to access BBG records. The Index explains the types of records that may be requested from the Agency through FOIA requests and why some records cannot, by law, be made available by the BBG.

BILLING CODE 8610-01-P

## THE BROADCASTING BOARD OF GOVERNORS

### 22 CFR Part 505

#### Privacy Act Regulations

**AGENCY:** The Broadcasting Board of Governors.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Broadcasting Board of Governors revises the Privacy Act regulations of the former United States Information Agency to establish implementation regulations.

**DATES:** Persons wishing to comment on the newly published Privacy Act Regulation may do so by April 26, 2001.

**ADDRESSES:** Send comments to the FOIA/Privacy Act Office, Office of the General Counsel, Broadcasting Board of Governors, Suite 3349, 330 Independence Avenue, SW., Washington, DC 20237.

**FOR FURTHER INFORMATION CONTACT:** Caroline S. West, Assistant General Counsel, telephone (202) 260-4404.

**SUPPLEMENTARY INFORMATION:** Public Law 103-236, the United States Broadcasting Act of 1994, created the Broadcasting Board of Governors (BBG) within the United States Information Agency (USIA). By law, the bipartisan board consisted of nine members—eight members who were appointed by the President, by and with the advice and consent of the Senate, and the USIA Director.

On October 21, 1998, President Clinton signed Pub. L. 105-277, the Omnibus Consolidated and Emergency Supplemental Appropriations Act for

Fiscal Year 1999. Contained as Division G of this legislation was the Foreign Affairs Reform and Restructuring Act of 1998, which reorganized the foreign affairs agencies of the U.S. Government. Under this reorganization, the Broadcasting Board of Governors became an independent Federal entity on October 1, 1999. Under the reorganization of the foreign affairs agencies, the responsibilities of the Board remained intact, and the membership of the Board remained the same, except that the USIA Director was replaced by the Secretary of State.

The BBG has responsibility for oversight of all United States sponsored, non-military broadcasting to foreign countries. The BBG oversees the operations of the International Broadcasting Bureau (IBB), which includes the worldwide broadcasting services of the Voice of America (VOA), WORLDNET, the Office of Cuba Broadcasting (OCB), Engineering and Technical Operations, and of the two grantee organizations, Radio Free Europe/Radio Liberty (RFE/RL) and Radio Free Asia (RFA). The Board members also serve as members of the Board of Directors for both RFE/RL and RFA.

The Board's authorities include:

- To review and evaluate the mission and operation of, and assess the quality, effectiveness, and professional integrity of, all such activities within the broad foreign policy objectives of the United States;
- To make and supervise grants for broadcasting and related activities for RFE/RL and RFA;
- To review, evaluate and determine, at least annually, the addition or deletion of language services; and
- To allocate funds appropriated for international broadcasting activities among the various elements of the IBB and grantees, subject to reprogramming notification.

In total, the BBG broadcasting entities transmit over 2,000 hours of weekly programming in 61 languages to over 100 million weekly listeners worldwide.

The Privacy Act of 1974 (5 U.S.C. 552a) is a Federal law which requires Federal agencies to limit the manner in which they collect, use and disclose information about American citizens or lawful permanent residents of the United States. The Privacy Act also provides that, upon request, an individual has the right to access any record maintained on herself/himself in an agency's files, and has the right to request correction of or amendment to that record.

In accordance with 5 U.S.C. 605(b), the BBG certifies that this rule does not

have a significant adverse economic impact on a substantial number of small entities. This rule is not considered to be a significant regulatory action within the meaning of section 3(f) of Executive Order 12866, nor does this rule have Federalism implications warranting the preparation of a Federalism Assessment in accordance with Executive Order 12612.

Dated: March 19, 2001.

**Brian T. Conniff,**

*Acting Director, International Broadcasting Bureau, Broadcasting Board of Governors.*

#### List of Subjects in 22 CFR Part 505

Privacy.

Accordingly Part 505 is revised to read as follows:

#### PART 505—PRIVACY ACT REGULATION

Sec.

- 505.1 Purpose and Scope.
- 505.2 Definitions.
- 505.3 Procedures and requests.
- 505.4 Requirements and identification for making requests.
- 505.5 Disclosure of information.
- 505.6 Medical records.
- 505.7 Correction or amendment of record.
- 505.8 Agency review of requests for changes.
- 505.9 Review of adverse agency determination.
- 505.10 Disclosure to third parties.
- 505.11 Fees.
- 505.12 Civil remedies and criminal penalties.
- 505.13 General exemptions (Subsection (j)).
- 505.14 Specific exemptions (Subsection (k)).
- 505.15 Exempt systems of records used.

**Authority:** Pub. L. 93-579, 88 Stat. 1897; 5 U.S.C. 552a.

##### § 505.1 Purpose and scope.

The Broadcasting Board of Governors (BBG) will protect individuals' privacy from misuses of their records, and grant individuals access to records concerning them which are maintained by the Agency's domestic and overseas offices, consistent with the provisions of Public Law 93-579, 88 Stat. 1897; 5 U.S.C. 552a, the Privacy Act of 1974, as amended. The Agency has also established procedures to permit individuals to amend incorrect records, to limit the disclosure of personal information to third parties, and to limit the number of sources of personal information. The Agency has also established internal rules restricting requirements of individuals to provide social security account numbers.

##### § 505.2 Definitions.

(a) *Access Appeal Committee (AAC)*—the body established by and responsible

to the Broadcasting Board for reviewing appeals made by individuals to amend records held by the Agency.

(b) *Agency, BBG, our, we or us*—The BBG, its offices, divisions, branches and its worldwide operations.

(c) *Amend*—to make a correction to or expunge any portion of a record about an individual which that individual believes is not accurate, relevant, timely or complete.

(d) *Individual or you*—A citizen of the United States or an alien lawfully admitted for permanent residence.

(e) *Maintain*—Collect, use, store, disseminate or any combination of these record keeping functions; exercise of control over and hence responsibility and accountability for systems of records.

(f) *Record*—Any information maintained by the Agency about an individual that can be reproduced, including finger or voice prints and photographs, and which is retrieved by that particular individual's name or personal identifier, such as a social security number.

(g) *Routine use*—With respect to the disclosure of a record, the use of such record for a purpose, which is compatible with the purpose for which it was collected. The common ordinary purposes for which records are used and all of the proper and necessary uses even if any such uses occur infrequently.

(h) *Statistical record*—A record in a system of records maintained for statistical research or reporting purposes only and not used in whole or in part in making any determination about an identifiable individual, except as provided in 12 U.S.C. 8.

(i) *System of records*—A group of records under the maintenance and control of the Agency from which information is retrieved by the name or personal identifier of the individual.

(j) *Personnel record*—Any information about an individual that is maintained in a system of records by the Agency that is needed for personnel management or processes such as staffing, employee development, retirement, grievances and appeals.

(k) *Worldwide Operations*—Any of the foreign service establishments of the Agency.

##### § 505.3 Procedures for requests.

(a) The agency will consider all written requests received from an individual for records pertaining to herself/himself as a request made under the Privacy Act of 1974, as amended (5 U.S.C. 552a) whether or not the individual specifically cites the Privacy Act when making the request.

(b) All requests under the Privacy Act should be directed to the FOIA/Privacy Act Office, Office of the General Counsel, Broadcasting Board of Governors, Suite 3349, 330 Independence Avenue, SW., Washington, DC 20237, which will coordinate the search of all systems of records specified in the request. Requests should state name, date of birth, and social security number.

(c) Requests directed to any of the Agency's worldwide establishments which involve routine unclassified, administrative and personnel records available only at those establishments may be released to the individual by the establishment if it determines that such a release is authorized by the Privacy Act.

All other requests shall be submitted by the establishment to the FOIA/Privacy Act Office, Office of the General Counsel, Broadcasting Board of Governors, Suite 3349, 330 Independence Avenue, SW., Washington, DC 20237, and the individual shall be so notified of this section in writing, when possible.

(d) In those instances where an individual requests records pertaining to herself/himself, as well as records pertaining to another individual, group or some other category of the Agency's records, only that portion of the request which pertains to records concerning the individual will be treated as a Privacy Act request. The remaining portions of such a request will be processed as a Freedom of Information Act request and sent to the office noted in paragraph (b) of this section.

#### **§ 505.4 Requirements and identification for making requests.**

(a) When you seek access to Agency records, you may present your written request, fax it to (202) 401-6605 or mail it to the FOIA/Privacy Act Office, Office of the General Counsel, Broadcasting Board of Governors, Suite 3349, 330 Independence Avenue, SW., Washington, DC 20237. The FOIA/Privacy Act Office may be visited between the hours of 9 a.m. and 3 p.m., Monday through Friday, except for legal holidays.

(b) When you seek access to Agency records, you will be requested to present identification. You must state your full name, date of birth and social security number. You must also include your present mailing address and zip code, and if possible, a telephone number.

(c) When signing a statement confirming your identity, you should understand that knowingly and willfully seeking or obtaining access to records about another person under

false pretenses is punishable by a fine of up to \$5,000.

#### **§ 505.5 Disclosure of information.**

(a) In order to locate the system of records that you believe may contain information about you, you should first obtain a copy of the Agency's Notice of Systems of Records. By identifying a particular record system and by furnishing all the identifying information requested by that record system, it would enable us to more easily locate those records, which pertain to you. At a minimum, any request should include the information specified in § 505.4(b).

(b) In certain circumstances, it may be necessary for us to request additional information from you to ensure that the retrieved record does, in fact, pertain to you.

(c) All requests for information on whether or not the Agency's system(s) of records contain information about you will be acknowledged within 20 working days of receipt of that request. The requested records will be provided as soon as possible thereafter.

(d) If the Agency determines that the substance of the requested record is exceptionally sensitive, we will require you to furnish a signed, notarized statement that you are in fact the person named in the file before granting access to the records.

(e) Original records will not be furnished subject to and in accordance with fees established in § 505.11.

(f) Denial of access to records:

(1) The requirements of this section do not entitle you access to any information compiled in reasonable anticipation of a civil action or proceeding.

(2) Under the Privacy Act, we are not required to permit access to records if the information is not retrievable by your name or other personal identifier; those requests will be processed as Freedom of Information Act requests.

(3) We may deny you access to a record, or portion thereof, if following a review it is determined that the record or portion falls within a system of records that is exempt from disclosure according to 5 U.S.C. 552a(j) and 552a(k). See §§ 505.13 and 505.14 for a listing of general and specific exemptions.

(4) The decision to deny access to a record or a portion of the record is made by the Agency's Privacy Act Officer, Office of Administration. The denial letter will advise you of your right to appeal the denial (See § 505.9 on Access Appeal Committee's review).

#### **§ 505.6 Medical records.**

If, in the judgment of the Agency, the release of medical information to you could have an adverse effect, the Agency will arrange an acceptable alternative to granting access of such records directly to you. This normally involves the release of the information to a doctor named by you. However, this special procedure provision does not in any way limit your absolute right to receive a complete copy of your medical record.

#### **§ 505.7 Correction or amendment of record.**

(a) You have the right to request that we amend a record pertaining to you which you believe is not accurate, relevant, timely, or complete. At the time we grant access to a record, we will furnish guidelines for you to request amendment to the record.

(b) Requests for amendments to records must be in writing and mailed or delivered to the FOIA/Privacy Act Officer, FOIA/Privacy Act Office, Office of the General Counsel, Broadcasting Board of Governors, Suite 3349, 330 Independence Avenue, SW., Washington, DC 20237, who will coordinate the review of the request to amend the record with the appropriate office(s). Such requests must contain, at a minimum, identifying information needed to locate the record, a brief description of the item or items of information to be amended, and the reason for the requested change. The requester should submit as much documentation, arguments or other data as seems warranted to support the request for amendment.

(c) We will review all requests for amendments to records within 20 working days of receipt of the request and either make the changes or inform you of our refusal to do so and the reasons.

#### **§ 505.8 Agency review of requests for changes.**

(a) In reviewing a record in response to a request to amend or correct a file, we will incorporate the criteria of accuracy, relevance, timeliness, and completeness of the record in the review.

(b) If we agree with you to amend your records, we will:

- (1) Advise you in writing;
- (2) Correct the record accordingly;
- (3) And, to the extent that an

accounting of disclosure was maintained, advise all previous recipients of the record of the corrections.

(c) If we disagree with all or any portion of your request to amend a record, we will:

(1) Advise you of the reasons for the determination;

(2) Inform you of your right to further review (see § 505.9).

#### **§ 505.9 Review of adverse agency determination.**

(a) When we determine to deny a request to amend a record, or portion of the record, you may request further review by the Agency's Access Appeal Committee. The written request for review should be mailed to the Chairperson, Access Appeal Committee, FOIA/Privacy Act Office, Office of the General Counsel, Broadcasting Board of Governors, Suite 3349, 330 Independence Avenue, SW., Washington, DC 20237. The letter should include any documentation, information or statement, which substantiates your request for review.

(b) The Agency's Access Appeal Committee will review the Agency's initial denial to amend the record and your documentation supporting amendment, within 30 working days. If additional time is required, you will be notified in writing of the reasons for the delay and the approximate date when the review is expected to be completed. Upon completion of the review, the Chairperson will notify you of the results.

(c) If the Committee upholds the Agency's denial to amend the record, the Chairperson will advise you of:

(1) The reasons for our refusal to amend the record;

(2) Your right and the procedure to add to the file a concise statement supporting your disagreement with the decision of the Agency;

(3) Your right to seek judicial review of the Agency's refusal to amend the file.

(d) When you file a statement disagreeing with our refusal to amend a record, we will clearly annotate the record so that the fact that the record is disputed is apparent to anyone who may subsequently have access to, use of, or reason to disclose the file. If information is disclosed regarding the area of dispute, we will provide a copy of your statement in the disclosure. Any statement, which may be included by the Agency regarding the dispute, will be limited to the reasons given to you for not amending the record. Copies of our statement shall be treated as part of your record, but will not be subject to amendment by you under these regulations.

#### **§ 505.10 Disclosure to third parties.**

We will not disclose any information about you to any person or another agency without your prior consent,

except as provided for in the following paragraphs:

(a) *Medical records.* May be disclosed to a doctor or other medical practitioner, named by you, as prescribed in § 505.6.

(b) *Accompanying individual.* When you are accompanied by any other person, we will require that you sign a statement granting consent to the disclosure of the contents of your record to that person.

(c) *Designees.* If a person requests another person's file, he or she must present a signed statement from the person of record that authorizes and consents to the release of the file to the designated individual.

(d) *Guardians.* Parent(s) or legal guardian(s) of dependent minors or of an individual who has been declared by a court to be incompetent due to physical, mental or age incapacity, may act for and on behalf of the individual on whom the Agency maintains records.

(e) *Other disclosures.* A record may be disclosed without a request by or written consent of the individual to whom the record pertains if such disclosure conditions are authorized in accordance with 5 U.S.C. 552a(b). These conditions are:

(1) *Disclosure within the Agency.* This condition is based upon a "need-to-know" concept, which recognizes that Agency personnel may require access to discharge their duties.

(2) *Disclosure to the public.* No consent by an individual is necessary if the record is required to be released under the Freedom of Information Act (FOIA), 5 U.S.C. 552. The record may be exempt, however, under one of the nine exemptions of the FOIA.

(3) *Disclosure for a routine use.* No consent by an individual is necessary if the condition is necessary for a "routine use" as defined in § 505.2(g). Information may also be released to other government agencies, which have statutory or other lawful authority to maintain such information.

(4) *Disclosure to the Bureau of the Census.* For purposes of planning or carrying out a census or survey or related activity. Title 13 U.S.C. Section 8 limits the uses, which may be made of these records and also makes them immune from compulsory disclosure.

(5) *Disclosure for statistical research and reporting.* The Agency will provide the statistical information requested only after all names and personal identifiers have been deleted from the records.

(6) *Disclosure to the National Archives.* For the preservation of records of historical value, according to 44 U.S.C. 2103.

(7) *Disclosure for law enforcement purposes.* Upon receipt of a written request by another Federal agency or a state or local government describing the law enforcement purpose for which a record is required, and specifying the particular record. Blanket requests for all records pertaining to an individual are not permitted under the Privacy Act.

(8) *Disclosure under emergency circumstances.* For the safety or health of an individual (e.g., medical records on a patient undergoing emergency treatment).

(9) *Disclosure to the Congress.* For matters within the jurisdiction of any House or Senate committee or subcommittee, and/or joint committee or subcommittee, but only when requested in writing from the Chairman of the committee or subcommittee.

(10) *Disclosure to the General Accounting Office (GAO).* For matters within the jurisdiction of the duties of the GAO's Comptroller General.

(11) *Disclosure according to court order.* According to the order of a court of competent jurisdiction. This does not include a subpoena for records requested by counsel and issued by a clerk of court.

#### **§ 505.11 Fees.**

(a) The first copy of any Agency record about you will be provided free of charge. A fee of \$0.15 per page will be charged for any additional copies requested by you.

(b) Checks or money orders should be made payable to the United States Treasurer and mailed to the FOIA/Privacy Act Office, Office of the General Counsel, Broadcasting Board of Governors, Suite 3349, 330 Independence Avenue, SW., Washington, DC 20237. The Agency will not accept cash.

#### **§ 505.12 Civil remedies and criminal penalties.**

(a) *Grounds for court action.* You will have a remedy in the Federal District Court under the following circumstances:

(1) *Denial of access.* You may challenge our decision to deny you access to records to which you consider yourself entitled.

(2) *Refusal to amend a record.* Under the conditions of 5 U.S.C. § 552a(g), you may seek judicial review of the Agency's refusal to amend a record.

(3) *Failure to maintain a record accurately.* You may bring suit against the Agency for any alleged intentional and willful failure to maintain a record accurately, if it can be shown that you were subjected to an adverse action resulting in the denial of a right, benefit,

entitlement or employment you could reasonably have been expected to be granted if the record had not been deficient.

(4) *Other failures to comply with the Act.* You may bring an action for any alleged failure by the Agency to comply with the requirements of the Act or failure to comply with any rule published by the Agency to implement the Act provided it can be shown that:

(i) The action was intentional or willful;

(ii) The Agency's action adversely affected you; and

(iii) The adverse action was caused by the Agency's actions.

(b) *Jurisdiction and time limits.* (1) Action may be brought in the district court for the jurisdiction in which you reside or have a place of residence or business, or in which the Agency records are situated, or in the District of Columbia.

(2) The statute of limitations is two years from the date upon which the cause of action arises, except for cases in which the Agency has materially and willfully misrepresented any information requested to be disclosed and when such misrepresentation is material to the liability of the Agency. In such cases the statute of limitations is two years from the date of discovery of the misrepresentation by you.

(3) A suit may not be brought on the basis of injury, which may have occurred as a result of the Agency's disclosure of a record prior to September 27, 1975.

(c) *Criminal penalties.*—(1) *Unauthorized disclosure.* It is a criminal violation of the provisions of the Act for any officer or employee of the Agency knowingly and willfully to disclose a record in any manner to any person or agency not entitled to receive it, for failure to meet the conditions of disclosure listed in 5 U.S.C. 552a(b), or without the written consent or at the request of the individual to whom the record pertains. Any officer or employee of the Agency found guilty of such misconduct shall be fined not more than \$5,000.

(2) *Failure to publish a public notice.* It is a criminal violation of the Act to willfully maintain a system of records and not to publish the prescribed public notice. Any officer or employee of the Agency found guilty of such misconduct shall be fined not more than \$5,000.

(3) *Obtaining records under false pretenses.* The Act makes it a criminal offense to knowingly and willfully request or gains access to a record about an individual under false pretenses. Any person found guilty of such an

offense may be fined not more than \$5,000.

#### **§ 505.13 General exemptions (Subsection (j)).**

(a) General exemptions are available for systems of records which are maintained by the Central Intelligence Agency (Subsection (j)(1)), or maintained by an agency which performs as its principal function any activity pertaining to the enforcement of the criminal laws (Subsection (j)(2)).

(b) The Act does not permit general exemption of records compiled primarily for a non-criminal purpose, even though there are some quasi-criminal aspects to the investigation and even though the records are in a system of records to which the general exemption applies.

#### **§ 505.14 Specific exemptions (Subsection (k)).**

The specific exemptions focus more on the nature of the records in the system of records than on the agency. The following categories of records may be exempt from disclosure:

(a) *Subsection (k)(1).* Records which are specifically authorized under criteria established under an Executive Order to be kept secret in the interest of national defense or foreign policy, and which are in fact properly classified according to such Executive Order;

(b) *Subsection (k)(2).* Investigatory records compiled for law enforcement purposes (other than material within the scope of subsection (j)(2) as discussed in § 505.13(a)). If any individual is denied any right, privilege, or benefit for which she/he would otherwise be eligible, as a result of the maintenance of such material, the material shall be provided to the individual, unless disclosure of the material would reveal the identity of a source who has been pledged confidentiality;

(c) *Subsection (k)(3).* Records maintained in connection with protection of the President and other VIPs accorded special protection by statute;

(d) *Subsection (k)(4).* Records required by statute to be maintained and used solely as statistical records.

(e) *Subsection (k)(5).* Records compiled solely for the purpose of determining suitability, eligibility, or qualifications for Federal civilian employment, military service, Federal contracts, or access to classified information, but only if disclosure of the material would reveal the identity of a confidential source that furnished information to the Government.

(f) *Subsection (k)(6).* Testing or examination records used solely to

determine individual qualifications for appointment or promotion in the Federal service when the disclosure of such would compromise the objectivity or fairness of the testing or examination process.

(g) *Subsection (k)(7).* Evaluation records used to determine potential for promotion in the armed services, but only if disclosure would reveal the identity of a confidential source.

#### **§ 505.15 Exempt systems of records used.**

The BBG is authorized to use exemptions (k)(1), (k)(2), (k)(4), (k)(5) and (k)(6).

BILLING CODE 8610-01-P

## **ENVIRONMENTAL PROTECTION AGENCY**

### **40 CFR Part 63**

[FRL-6958-7]

### **Project XL Site-Specific Rulemaking for Weyerhaeuser Company Flint River Operations**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA is proposing to approve revisions to the National Emission Standards for Hazardous Air Pollutants (NESHAP), which concern the control of hazardous air pollutant (HAP) emissions from the pulp and paper industry. The proposed revisions would apply only to the Weyerhaeuser Company's Flint River Operations in Oglethorpe, Georgia, (Weyerhaeuser). The revisions are proposed as one of the EPA's steps to implement the Final Project Agreement for Weyerhaeuser's XL Project.

The intended effect of proposing these revisions is to regulate emissions of HAPs in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act) and to facilitate implementation of the Project eXcellence and Leadership (Project XL) at Weyerhaeuser. Such implementation will result in superior environmental performance, and at the same time, provide Weyerhaeuser with greater operational flexibility.

**DATES:** All public comments on the proposed rule revision must be received on or before April 26, 2001. Comments provided electronically will be considered timely if they are submitted electronically by 11:59 p.m. (Eastern time) before April 26, 2001.

**ADDRESSES:** Comments should be addressed to "Project XL/

Weyerhaeuser," c/o Mr. Lee Page, United States Environmental Protection Agency, Region 4, Air, Pesticides & Toxics Management Division, Sam Nunn Federal Center, 61 Forsyth Street, SW., Atlanta, Georgia, 30303.

Commenters are also requested to submit an original and 3 copies of their written comments as well as an original and 3 copies of any attachments, enclosures, or other documents referenced in the comments.

Commenters who would like EPA to acknowledge receipt of their comments should include a self-addressed, stamped envelope. No facsimiles (faxes) will be accepted.

EPA will also accept comments electronically. Comments should be addressed to the following Internet address: [page.lee@epa.gov](mailto:page.lee@epa.gov). Electronic comments must be submitted as an ASCII, WordPerfect 5.1/6.1/8 format file and avoid the use of special characters or any form of encryption. Electronic comments will be transferred into a paper version for the official record. EPA will attempt to clarify electronic comments if there is an apparent error in transmission.

Supporting information used in developing this proposed rulemaking is available on the world wide web at the following location: <http://www.epa.gov/ProjectXL>. It is also available for inspection and copying at Environmental Protection Agency, Region 4, 61 Forsyth Street, Atlanta, Georgia, 30303; and at Environmental Protection Agency, Headquarters, 401 M Street, SW., Room 3802-M, Washington, DC 20460. Persons wishing to view the materials at the Georgia location are encouraged to contact Mr. Lee Page in advance by telephoning (404) 562-9131. Persons wishing to view the materials at the Washington DC location are encouraged to contact Ms. Janet Murray in advance by telephoning (202) 260-2570. A reasonable fee may be charged for copying.

**FOR FURTHER INFORMATION CONTACT:** Mr. Lee Page, Environmental Protection Agency, Region 4, Air, Pesticides & Toxics Management Division, 61 Forsyth Street, Atlanta, GA, 30303, (404) 562-9131.

**SUPPLEMENTARY INFORMATION:** The information presented in this preamble is organized as follows:

#### I. Authority

#### II. Background

##### A. What Is Project XL?

##### B. What Is EPA Proposing?

##### C. What Are the Environmental Benefits Anticipated Through Project XL?

##### D. Stakeholder Involvement in the XL Process

##### E. What Are the National Emission Standards for Hazardous Air Pollutants?

##### F. What Are the Proposed Regulatory Requirements for the Weyerhaeuser XL Project?

##### G. What Is the Project Duration and Completion Date?

#### III. Rule Description

#### IV. Request for Public Comments

#### V. Additional Information

##### A. Executive Order 12866: Regulatory Planning and Review

##### B. Regulatory Flexibility

##### C. Paperwork Reduction Act

##### D. Unfunded Mandates Reform Act

##### E. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

##### F. Executive Order 13132: Federalism

##### G. Executive Order 13084: Consultation and Coordination With Indian Tribal Governments

##### H. National Technology Transfer and Advancement Act.

#### I. Authority

This regulation is being proposed under the authority of sections 101(b)(1), 112, and 301(a)(1) of the CAA. EPA has determined that this rulemaking is subject to the provisions of section 307(d) of the CAA.

#### II. Background

##### A. What Is Project XL?

Project XL, which stands for "eXcellence and Leadership," is a national pilot program that tests innovative ways of achieving better and more cost-effective public health and environmental protection through site-specific agreements with project sponsors. Project XL was announced on March 16, 1995, as a central part of the National Performance Review and EPA's effort to reinvent environmental protection. See 60 FR 2782 (May 23, 1995) and 60 FR 55569 (November 1, 1995). The intent of Project XL is to allow EPA and regulated entities to experiment with pragmatic, potentially promising regulatory approaches, both to assess whether they provide superior environmental performance and other benefits at the specific source affected, and whether they should be considered for wider application. Such pilot projects are intended to allow EPA to collect more data on a more focused basis prior to national rulemaking. Today's proposed regulation would enable implementation of a specific XL project. These efforts are crucial to EPA's ability to test new strategies that reduce the regulatory burden and promote economic growth while achieving better environmental public health protection. EPA intends to evaluate the results of this and other XL projects to determine which specific elements of the project, if any, should be

more broadly applied to other regulated entities for the benefit of both the economy and the environment.

##### B. What Is EPA Proposing?

EPA is proposing a site-specific rule that supports the Clean Air Act portion of the Project XL Final Project Agreement (FPA) for the Weyerhaeuser Company Flint River Operations in Oglethorpe, Georgia. The proposed rule will facilitate the use of alternative pollution controls and process changes not required by any existing rule that applies to Weyerhaeuser. The proposed rule will provide for greater reductions in hazardous air pollutants emissions, measured as methanol, than would otherwise be required for this mill under the maximum available control technology (MACT) determination specific to the pulp and paper industry. The principles for accounting for HAP emission controls, including controls to implement MACT are outlined in the Weyerhaeuser Project XL FPA.

Although not subject to public comment at this time, the FPA is among the background documents available for review in the docket for today's action and also on the world wide web at <http://www.epa.gov/ProjectXL>. **Federal Register** documents were published on October 11, 1996 at 61 FR 53373 and January 31, 1997 at 62 FR 4760 to notify the public of the details of this XL project and to solicit comments on the specific provisions of the FPA, which embodies the Agency's intent to implement this project. The FPA addresses the eight Project XL criteria, the expectation of the Agency that this XL project will meet those criteria, and the manner in which the project is expected to produce, measure, monitor, report and demonstrate superior environmental benefits.

In today's action, the Agency is soliciting comment on the site-specific regulatory changes necessary to implement the Clean Air Act, MACT portion of the project.

Weyerhaeuser is an international forest products company whose principal businesses are the growing and harvesting of trees; the manufacture, distribution and sale of forest products, including logs, wood chips, building products, pulp, paper and packaging products; and real estate construction and development. The Weyerhaeuser Flint River Operations is a Kraft pulp manufacturing source, which produces absorbent fluff pulp. The source is located in Oglethorpe, Georgia and was initially constructed in 1980.

Except as specifically described in this proposed rule and the FPA, nothing

in this proposed rule will waive, modify, or otherwise affect any obligations Weyerhaeuser may have under local, State, and Federal law with respect to the operation of its Flint River Operations mill.

The goal of the Weyerhaeuser Flint River Operations XL project is to develop a regulatory structure that both facilitates flexible manufacturing operations and achieves superior environmental performance. The flexibility provided by this proposed rule will allow the source to provide greater reductions in HAP emissions, measured as methanol, than are controlled by the MACT rule from specified equipment used in kraft pulp manufacturing, and to obtain credit for process improvements that reduced HAP emissions.

EPA determined at the time the MACT rule was adopted that the majority of all non-chlorinated HAP emissions from Kraft mill pulping process equipment is methanol. *See*, 63 FR 18511 (April 15, 1998). EPA's Final Environmental Impact Statement for the MACT rule accepted that methanol was an appropriate measure for HAP emissions from Kraft mill pulping systems. EPA addressed this point in response to comments calling for monitoring of speciated HAP emissions. "Methanol is an appropriate indicator of total HAP since it is the dominant HAP present in pulping vents and condensates and since the control technologies identified in the rule do not remove HAPs preferentially." Final EIS (EPA document EPA-453/R-93-050b) pp. 8-9 through 8-11. The proposed site specific rule does not provide flexibility by counting reductions of the less dangerous HAPs to balance increases in emissions of the more toxic HAPs. Besides measuring HAP emissions as methanol, as required by the MACT rule for pulping process vents, the source's MACT compliance plan does not claim any credit related to HAP emissions from bleaching systems. All the "extra" HAP emission reductions provided by the source, and all the flexibility proposed for the source to control alternate process vents, occur in the pulping process area.

Since 1992, Weyerhaeuser has focused on a "Minimum Impact Manufacturing" (MIM) model as a holistic strategy for continuous environmental improvement. MIM is an aggressive plan that seeks to harmonize Weyerhaeuser's pulp and paper manufacturing facilities with their surrounding physical environments. Weyerhaeuser is committed to managing its raw material and resources such that its manufacturing processes, and their

outputs, achieve continuous improvement of air, water, and solid-waste discharges. MIM contains the elements of a comprehensive pollution prevention program designed to obtain the greatest use of raw materials and to stop waste generation rather than rely on "end-of-pipe" remedies. MIM involves multi-disciplinary teams employing a systems engineering approach, waste reduction and a commitment to continuous improvement rather than the more traditional "project" focus. Weyerhaeuser is committed to optimizing raw materials used at the mill level, reducing water usage, minimizing fossil fuel for energy in manufacturing, reducing/eliminating hazardous waste, generating less solid waste, reducing emissions to all media, eliminating spills, reusing and recycling from mills the materials and residuals that previously went to landfills, and collecting and recycling used waste paper for use as a raw material.

The FPA provides that HAP reductions at Flint River Operations shall be guided by a MACT Compliance Plan. The FPA sets out seven principles to guide the MACT Compliance Plan. The principles include the following points: (1) HAP emission reductions from the total source occurring after January 1, 1996 are eligible to be counted; (2) HAP emission reductions occurring after January 1, 1996 that were obtained voluntarily (from the source's weak gas collection system) are eligible to be counted; (3) HAP emission reductions at the source are to be counted on a total pound HAP for total pound HAP, as measured by methanol, basis; (4) HAP measurements were documented using EPA-approved test methods and as provided in the MACT Standard; (5) HAP emission reductions are required as of the due date for compliance provided in the MACT Standard; (6) HAP emission reductions from all HAP emitting units currently regulated under applicable state or Federal rules (*e.g.*, 40 CFR Part 60, Subpart BB) are not eligible to be counted against the HAP emissions reductions required by the MACT Standard; and (7) compliance is required with all requirements (other than the emission limitations) of the MACT Standard as promulgated. In addition, Weyerhaeuser will comply with all other present or future Clean Air Act Section 112 standards that are applicable to the source.

Specific details of the MACT Compliance Plan were agreed upon through negotiations between Weyerhaeuser Company, EPA Region 4 and the Georgia EPD after the MACT

rule for the kraft pulp manufacturing industry was published on April 15, 1998. *See*, 63 FR 18503. The MACT Compliance Plan is consistent with the principles set out in the FPA. The MACT Compliance Plan includes the HAP emitting units that must be controlled to comply with the MACT Standard, the amount of HAPs allowed to be emitted for each HAP emitting unit at the source under the MACT Standard; the HAP emitting units and the amount of HAP emission reductions eligible to be counted, the HAP emitting units that the source plans to use to obtain additional HAP emission reductions, the units that present a potential to obtain HAP emission reductions, and the amount eligible to be counted against HAP emission reductions required by the MACT Standard. For more information about the specific equipment subject to the MACT Compliance Plan, status of emissions, the HAP emitting unit that will be controlled and the accounting of HAP emissions and emission reductions refer to the information referenced in the section entitled **ADDRESSES**.

#### *C. What Are the Environmental Benefits Anticipated Through Project XL?*

This proposed rule supports the goals of the Clean Air Act to protect and enhance the quality of the Nation's air resources so as to promote the public health and welfare and the productive capacity of its population.

Specifically this project not only meets, but exceeds the HAP emission reductions required by the current MACT standard. For example, reductions in HAP emissions are expected from the digesting, brownstock washing, oxygen delignification and bleaching system processes due to improved digester woodchip delignification and pulp washing; from the collection and incineration of Weak Gas system sources and the collection and biological treatment of methanol containing process condensates; from bleach plan process reductions; and from various pollution prevention projects. Decreased emissions of volatile organic compounds, total reduced sulfur, and carbon monoxide are also expected. A more detailed discussion of the environmental benefits associated with the Weyerhaeuser project is located in the FPA, EPA's response to comments on the proposed FPA, and other information referenced in the section entitled **ADDRESSES**.

#### *D. Stakeholder Involvement in the XL Process*

EPA believes stakeholder involvement and participation in developing the

Weyerhaeuser Pilot XL program is vital to the success of the program. Therefore, as part of the Project XL proposal, a Company must clearly explain its process for involving stakeholders in the design of the pilot program. This process should be based upon the guidance set out in the April 23, 1997 **Federal Register** notice (62 FR 19872). The support of the parties that have a stake in the program is very important. Stakeholders may include communities near the project, local or state governments, businesses, environmental and other public interest groups, or other similar entities. Stakeholders that participated in the development of this rule included the Lake Blackshear Watershed Association, non-management employees at Flint River Operations, City of Montezuma, City of Oglethorpe, Macon Correctional Institution, Macon County Local Emergency Planning Committee, other leaders from Macon County, and other interested Parties. Once EPA accepted Weyerhaeuser as a candidate based on its detailed proposal, Weyerhaeuser, EPA, the State and local stakeholders finalized a Final Project Agreement (FPA). The FPA is a nonbinding agreement that describes the intentions and commitments of the implementing parties. Stakeholders participated in the negotiation of the FPA. The stakeholder process has been open and the public invited to participate. Weyerhaeuser will continue to work with the stakeholders, who serve as the primary contact with the community.

#### *E. What Are the National Emission Standards for Hazardous Air Pollutants?*

The main purposes of the Clean Air Act ("CAA" or "the Act") are to protect and enhance the quality of our Nation's air resources, and to promote the public health and welfare and the productive capacity of the population. See CAA, section 101(b)(1). Section 112 of the Act provides a list of 189 hazardous air pollutants ("HAP's") and directs EPA to develop rules to control HAP emissions from both new and existing major sources. The Act requires that the rules be established by categories of emission sources considering all HAPs emitted rather than establishing rules based on the emission of a single pollutant from a source category. The statute also requires that the standards reflect the maximum degree of reduction in emissions of HAPs that is achievable, taking into consideration the cost of achieving such emission reduction and any non-air quality health and environmental impacts and energy requirements. This level of control is

commonly referred to as Maximum Achievable Control Technology ("MACT").

In addition, the Act sets out specific criteria to be considered for establishing a minimum level of control and criteria (incremental cost, energy impacts, etc.). For evaluating control options more stringent than the minimum level of control. This minimum level of control is commonly referred to as the MACT "floor." The MACT floor for new sources, as specified by the Act, is "the emission control that is achieved in practice by the best controlled similar source." The MACT floor for existing sources, as specified by the Act, is the average emission limitation achieved by the best performing 12 percent of existing sources in each category or subcategory of 30 or more sources (CAA section 112(d)(3)). For smaller categories or subcategories, the Act specifies that standards shall not be less stringent than the average emission limitation achieved by the best performing five sources in the category or subcategory. These floor determinations are based on data available to the Administrator at the time the standards are developed. The statutory provisions do not limit how the standard is set, beyond requiring that it be applicable to all sources in a category or subcategory and at least as stringent as the MACT floor. The emission standards are to be reviewed and revised as necessary no less often than every 8 years. Also, EPA may later promulgate more stringent standards to address any unacceptable health or environmental risk that remains after the imposition of controls resulting from the standards.

To this end, section 112(d) of the CAA directs EPA to set standards for stationary sources emitting greater than ten tons of any one HAP or 25 tons of total HAPs annually (one ton is equal to 0.908 megagrams). EPA promulgated the NESHAP for the pulp and paper production source category at 40 CFR Subpart S, because pulp and paper mills have the potential to emit ten tons per year of any one HAP or 25 tons per year of all HAPs. Potential to emit is based on the total of all HAP emissions from all activities at the mill. Individual mills are capable of emitting as much as several hundred tons per year (TPY) of HAPs, which may adversely affect air quality and public health. The emission standards for pulping and bleaching processes provide several options for compliance, including an alternative pollution prevention option for the kraft pulping process. The standards specify compliance dates for new and existing sources and require control devices to

be properly operated and maintained at all times.

#### *F. What Are the Proposed Regulatory Requirements for the Weyerhaeuser XL Project?*

Implementation of the Weyerhaeuser XL project requires only limited regulatory changes. Weyerhaeuser will achieve HAP emission reductions for this mill that at least equal the HAP emission reductions required to be provided by this mill under the applicable portions of the pulp and paper MACT standard, 40 CFR Part 63, Subpart S (MACT standard). Weyerhaeuser will achieve the reductions in hazardous air pollutant emissions required by the pulp and paper MACT standard by using a combination of equipment regulated by MACT, equipment not regulated by the MACT, and process changes.

#### *G. What Is the Project Duration and Completion Date?*

Under Project XL, the Weyerhaeuser Flint River Operations project may be approved to operate for the term expressed in the FPA. The FPA was signed on December 13, 1996 and will be in effect for a period of 15 years, unless it is terminated earlier. As outlined in the FPA, the duration of the project does not affect the term of any permit, the duration of this proposed rule, or any other enforceable regulatory mechanism that has a term fixed by applicable law or regulation. Therefore, the terms and requirements of this proposed rule do not expire unless formally amended through notice and comment rulemaking.

### **III. Rule Description**

Today's proposed rule will require Weyerhaeuser to control HAP emissions from alternative process vents and to maintain process changes at its Flint River Operations that are currently not required by the existing rule. In implementing this change, this mill will achieve a greater amount of HAP reductions than this mill would achieve under the existing rule.

To accomplish this alternative compliance, the EPA is proposing to promulgate a site-specific rule to amend 40 CFR Subpart S, which provides the National Emission Standards for Hazardous Air Pollutants from the Pulp and Paper Industry. The Federal site-specific rule, amending 40 CFR 63.459, will allow the source to provide greater reductions in HAP emissions, measured as methanol, than are controlled by the MACT rule from alternative process vents and through process changes during the kraft pulping process. The

proposed rule does not provide flexibility by counting reductions of the less dangerous HAPs to balance increases in emissions of the more toxic HAPs. For example, instead of controlling HAP emissions from the brownstock diffusion washer vent, first stage brownstock diffusion washer filtrate tank vent, and oxygen delignification system, the site-specific rule will allow the Weyerhaeuser Flint River Operations to control HAP emission from the weak liquor storage tank; boilout tank; utility tank; 50 percent solids black liquor storage tank; south 67 percent solids black liquor storage tank; north 67 percent solids black liquor storage tank; precipitator make down tanks numbers 1, 2 and 3; salt cake mix tank; and NaSH storage tank. (These terms are defined in the proposed rule.) Weyerhaeuser will be required by the generally applicable MACT rule (40 CFR Subpart S) to provide for record-keeping, monitoring and reporting to demonstrate continuous compliance for these operations. HAP emission reductions achieved from process changes involving the cylinder mould decker and the cylinder mould filtrate tank will be counted against the total HAP emission reductions Weyerhaeuser would have to provide to meet the MACT standard.

#### IV. Request for Public Comments

The Agency requests public comments on today's Rule.

#### V. Additional Information

##### A. Executive Order 12866: Regulatory Planning and Review

Because this rule affects only one facility, it is not a rule of general applicability and therefore not subject to OMB review and Executive Order 12866. In addition, OMB has agreed that review of site specific rules under Project XL is not necessary.

##### B. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions. This proposed rule would not have a significant impact on a substantial number of small entities because it only affects one source, the Weyerhaeuser Flint River Operations, which is not a

small entity. Therefore, EPA certifies that this action will not have a significant economic impact on a substantial number of small entities.

##### C. Paperwork Reduction Act

This action applies only to one company, and therefore requires no information collection activities subject to the Paperwork Reduction Act, and therefore no information collection request (ICR) will be submitted to OMB for review in compliance with the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

##### D. Unfunded Mandates Reform Act

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA), Public Law 104-4, establishes requirements for Federal agencies to assess the effects of their regulatory actions on State, local and tribal governments and the private sector. Under section 202 of the UMRA, EPA generally must prepare a written statement, including a cost-benefit analysis, for proposed and final rules with "Federal mandates" that may result in expenditures to State, local, and tribal governments, in the aggregate, or to the private sector, of \$100 million or more in any one year. Before promulgating an EPA rule for which a written statement is needed, section 205 of the UMRA generally requires EPA to identify and consider a reasonable number of regulatory alternatives and adopt the least costly, most cost-effective or least burdensome alternative that achieves the objectives of the rule. The provisions of section 205 do not apply when they are inconsistent with applicable law. Moreover, section 205 allows EPA to adopt an alternative other than the least costly, most cost-effective or least burdensome alternative if the Administrator publishes with the final rule an explanation why the alternative was not adopted. Before EPA establishes any regulatory requirements that may significantly or uniquely affect small governments, including tribal governments, it must have developed under section 203 of the UMRA a small government agency plan. The plan must provide for notifying potentially affected small governments, enabling officials of affected small governments to have meaningful and timely input in the development of EPA regulatory proposals with significant Federal intergovernmental mandates, and informing, educating, and advising small governments on compliance with the regulatory requirements.

EPA has determined that this rule does not contain a Federal mandate that may result in expenditures of \$100 million or more for State, local, and

tribal governments, in the aggregate, or the private sector in any one year. Thus, today's rule is not subject to the requirements of sections 202 and 205 of the UMRA. In addition, because this rule contains no regulatory requirements that might significantly or uniquely affect small governments, it is not subject to UMRA section 203.

##### E. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

Executive Order 13045, "Protection of Children from Environmental Health Risks and Safety Risks" (62 FR 19885, April 23, 1997) applies to any rule that: (1) Is determined to be "economically significant," as defined under Executive Order 12866; and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This rule is not subject to Executive Order 13045 because it is not economically significant as defined in Executive Order 12866, because it is based on technology performance and implements previously promulgated health or safety-based National Emission Standards for Hazardous Air Pollutants for Source Categories (NESHAPS). The effects of hazardous air pollutants from the pulp and paper industry on children's health was addressed in detail in EPA's rulemaking to establish Subpart S, the NESHAP for the pulp and paper industry, and EPA is not revisiting those issues here.

##### F. Executive Order 13132: Federalism

Executive Order 13132, entitled "Federalism" (64 FR 43255, August 10, 1999), requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." Under Section 6 of Executive Order 13132, EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and

that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or EPA consults with State and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This proposed rule does not have federalism implications. It will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132. Thus, the requirements of section 6 of the Executive Order do not apply to this rule. Although section 6 of Executive Order 13132 does not apply to this rule, EPA did fully coordinate and consult with the affected State and local officials in developing this rule.

*G. Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments)*

Executive Order 13175, entitled "Consultation and Coordination with Indian Tribal Governments" (65 FR 67249, November 6, 2000), requires EPA to develop an accountable process to ensure "meaningful and timely input by tribal officials in the development of regulatory policies that have tribal implications." "Policies that have tribal implications" is defined in the Executive Order to include regulations that have "substantial direct effects on one or more Indian tribes, on the relationship between the Federal government and the Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes."

This proposed rule does not have tribal implications. It will not have substantial direct effects on tribal governments, on the relationship between the Federal government and Indian tribes, or on the distribution of power and responsibilities between the Federal government and Indian tribes, as specified in Executive Order 13175. Thus, Executive Order 13175 does not apply to this rule.

In the spirit of Executive Order 13175, and consistent with EPA policy to promote communications between EPA and tribal governments, EPA specifically solicits additional comment

on this proposed rule from tribal officials.

*H. National Technology Transfer and Advancement Act*

Section 12(d) of the National Technology Transfer and Advancement Act ("NTTAA"), Public Law 104-113, section 12(d) (15 U.S.C. 272 note) directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards bodies. The NTTAA directs EPA to provide Congress, through OMB, explanations when the Agency decides not to use available and applicable voluntary standards. This proposed rulemaking does not involve technical standards. Therefore, EPA is not considering the use of any voluntary consensus standards. EPA welcomes comments on this aspect of the proposed rulemaking, and specifically invites the public to identify potentially applicable voluntary consensus standards and to explain why such standards should be used in this regulation.

**List of Subjects in 40 CFR Part 63**

Environmental protection, Administrative practice and procedure, Air pollution control, Hazardous substances, Intergovernmental relations, Reporting and recordkeeping.

Dated: March 20, 2001.

**Christine Todd Whitman,**  
*Administrator.*

For the reasons set out in the preamble, title 40, chapter I of the Code of Federal Regulations is proposed to be amended as follows:

**PART 63—NATIONAL EMISSION STANDARDS FOR HAZARDOUS AIR POLLUTANTS FOR SOURCE CATEGORIES**

1. The authority citation for part 63 continues to read as follows:

**Authority:** 42 U.S.C. 7401 *et seq.*

**Subpart S—National Emission Standards for Hazardous Air Pollutants From the Pulp and Paper Industry**

2. Add § 63.459 to Subpart S to read as follows:

**§ 63.459 Alternative standards.**

(a) *Flint River Mill.* The owner or operator of the pulping system using the

kraft process at the manufacturing facility, commonly called Weyerhaeuser Company Flint River Operations, at Old Stagecoach Road, Oglethorpe, Georgia, (hereafter the Site) shall comply with all provisions of this subpart, except as specified in paragraphs (a)(1) through (a)(5) of this section.

(1) The owner or operator of the pulping system is not required to control total HAP emissions from equipment systems specified in paragraphs (a)(1)(i) and (a)(1)(ii) of this section if the owner or operator complies with paragraphs (a)(2) through (a)(5) of this section.

(i) The brownstock diffusion washer vent and first stage brownstock diffusion washer filtrate tank vent in the pulp washing system specified in § 63.443(a)(1)(iii).

(ii) The oxygen delignification system specified in § 63.443(a)(1)(v).

(2) The owner or operator of the pulping system shall control total HAP emissions from equipment systems listed in paragraphs (a)(2)(i) through (a)(2)(ix) of this section as specified in § 63.443(c) and (d) of this subpart no later than April 16, 2002.

(i) The weak liquor storage tank;

(ii) The boilout tank;

(iii) The utility tank;

(iv) The fifty percent solids black liquor storage tank;

(v) The south sixty-seven percent solids black liquor storage tank;

(vi) The north sixty-seven percent solids black liquor storage tank;

(vii) The precipitator make down tanks numbers one, two and three;

(viii) The salt cake mix tank; and

(ix) the NaSH storage tank.

(3) The owner or operator of the pulping system shall operate the Isothermal Cooking system at the site while pulp is being produced in the continuous digester at any time after April 16, 2002.

(i) The owner or operator shall monitor the following parameters to demonstrate that isothermal cooking is in operation:

(A) Continuous digester dilution factor and

(B) The difference between the continuous digester vapor zone temperature and the continuous digester extraction header temperature.

(ii) The isothermal cooking system shall be in operation when the continuous digester dilution factor and the temperature difference between the continuous digester vapor zone temperature and the continuous digester extraction header temperature are maintained as set forth in the following Table:

TABLE—ISOTHERMAL COOKING SYSTEM OPERATIONAL VALUES

Parameter	Instrument No.	Limit	Units
Digester Dilution Factor .....	K1DILFAC	> 0.0	None.
Difference in Digester Vapor Zone Temperature and Digester Extraction Header Temperature .....	03TI0311 03TI0329	< 10	Degrees F.

(iii) The owner or operator shall certify annually the operational status of the isothermal cooking system.

(4) [Reserved]

(5) *Definitions.* All descriptions and references to equipment and emission unit ID numbers refer to equipment at the Site. All terms used in this paragraph shall have the meaning given them in this part and this paragraph. For the purposes of this paragraph only the following additional definitions apply.

*Boilout tank* means the tank that provides tank storage capacity for recovery of black liquor spills and evaporator water washes for return to the evaporators (emission unit ID no. U606);

*Brownstock diffusion washer* means the equipment used to wash pulp from the surge chests to further reduce lignin carryover in the pulp;

*Continuous digester* means the digester system used to chemically and thermally remove the lignin binding the wood chips to produce individual pulp fibers (emission unit ID no. P300);

*Fifty percent solids black liquor storage tank* means the tank used to store intermediate black liquor prior to final evaporation in the 1A, 1B, and 1C Concentrators (emission unit ID no. U605);

*First stage brownstock diffusion washer* means the equipment that receives and stores filtrate from the first stage of washing for return to the pressure diffusion washer;

*Isothermal cooking system* means the 1995–1996 modernization of brownstock pulping process including conversion of the Kamyr continuous vapor phase digester to an extended delignification unit and changes in the knotting, screening, and oxygen stage systems.

*NaSH storage tank* means the tank used to store sodium hydrosulfite solution prior to use as make-up to the liquor system.;

*North sixty-seven percent solids black liquor storage tank* means one of two tanks used to store black liquor prior to burning in the Recovery Boiler for chemical recovery (emission unit ID no. U501);

*Precipitator make down tank numbers one, two and three* mean tanks used to mix collected particulate from

electrostatic precipitator chamber number one with 67% black liquor for recycle to chemical recovery in the Recovery Boiler (emission unit ID nos. U504, U505 and U506);

*Salt cake mix tank* means the tank used to mix collected particulate from economizer hoppers with black liquor for recycle to chemical recovery in the Recovery Boiler (emission unit ID no. U503);

*South sixty-seven percent solids black liquor storage tank* means one of two tanks used to store black liquor prior to burning in the Recovery Boiler for chemical recovery (emission unit ID no. U502);

*Utility tank* means the tank used to store fifty percent liquor and, during black liquor tank inspections and repairs, to serve as a backup liquor storage tank (emission unit ID no. U611);

*Weak gas system* means high volume, low concentration or HVLC system as defined in § 63.441; and

*Weak liquor storage tank* means the tank that provide surge capacity for weak black liquor from digesting prior to feed to multiple effect evaporators (emission unit ID no. U610).

BILLING CODE 6560–50–U

## DEPARTMENT OF TRANSPORTATION

### Coast Guard

#### 46 CFR Parts 140 to 146

[USCG–2001–9173]

#### Floating Production, Storage, and Offloading Units in the Gulf of Mexico

**AGENCY:** Coast Guard, DOT.

**ACTION:** Notice of meeting; request for comments.

**SUMMARY:** The Coast Guard's Marine Safety and Environmental Protection Directorate and the Minerals Management Service (MMS), will jointly hold a public listening session. This listening session is in response to the marine industry's concerns regarding the standards and regulations applicable to the operation of Floating Production,

Storage and Offloading (FPSO) units in the Gulf of Mexico. This listening session is being held to collect comments on design, construction, operating and safety standards or regulations for FPSOs and any possible need to clarify standards or enforcement policy regarding these safety standards. We encourage interested parties to attend the meeting and submit comments for discussion during the meeting. We also seek written comments from any party who is unable to attend the meeting.

**DATES:** *Public Meeting:* We will hold the meeting on Thursday, 3 May 2001, from 2 to 5 p.m.

*Written Comments:* Comments and related material must reach the Docket Management Facility on or before 25 April, 2001. The Docket Management Facility must receive your comments on or before 25 April 2001.

**ADDRESSES:** *Public Meeting:* We will hold the meeting at the Sheraton North Houston Hotel's Amphitheater, at George Bush International Airport, 15700 John F. Kennedy Blvd, Houston Texas.

*Written Comments:* To make sure that your comments and related material are not entered more than once in the docket, please submit them by only one of the following means:

(1) By mail to the Docket Management Facility (USCG–2001–9173), U.S. Department of Transportation, room PL–401, 400 Seventh Street SW., Washington, DC 20590–0001.

(2) By delivery to room PL–401 on the Plaza level of the Nassif Building, 400 Seventh Street SW., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The telephone number is 202–366–9329.

(3) By Internet to <http://dms.dot.gov>.

(4) By Fax to the Docket Management Facility: 202–493–2251.

**FOR FURTHER INFORMATION CONTACT:** For information concerning this notice or the public meeting, contact Lieutenant Commander Russell Proctor, Vessel Compliance Division (G–MOC–2), U.S. Coast Guard Headquarters, 2100 Second Street, SW., Washington, DC 20590, telephone 202–267–0499. For questions on viewing or submitting material to the

docket contact Dorothy Beard, Chief, Dockets, Department of Transportation, telephone 202-366-5149.

#### **SUPPLEMENTARY INFORMATION:**

##### **How Do I Participate in This Action?**

The Coast Guard encourages you to participate by submitting comments and related material, and by attending the public meeting. If you submit written comments, please include—

- Your name and address;
- The docket number for this notice (USCG-2001-9173);
- The specific section of this notice to which each comment applies; and
- The reason for each comment.

You may mail, deliver, fax, or electronically submit your comments and attachments to the Docket Management Facility, using an address or fax number listed in the **ADDRESSES** section of this notice. Please do not submit the same comment or attachment by more than one method. If you mail or deliver your comments, they must be on 8½ by 11 inch paper and the quality of the copy should be clear enough for copying and scanning. If you mail your comments, and you would like to know if the Docket Management Facility received them, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period.

##### **How Can I Get Additional Information, Including Copies of This Notice or Other Related Documents?**

The Docket Management Facility maintains the public docket for this notice. The docket number for this notice is USCG-2001-9173. Comments, and other documents related to this notice will become part of this docket and will be available for inspection or copying as follows:

- *In person:* You may access the docket in room PL-401, on the Plaza Level of the Nassif Building at the same address, between 9 a.m. and 5 p.m., Monday through Friday. The facility is closed on Federal holidays.
- *Electronically:* You may access the docket on the Internet at <http://dms.dot.gov>.

##### **Where Can I Get Information on Service for Individuals With Disabilities?**

To obtain information on facilities or services for individuals with disabilities or to request that we provide special assistance at the public meeting, please contact Lieutenant Commander Russell Proctor as soon as possible. You will find his address and phone number in

the **FOR FURTHER INFORMATION CONTACT** section of this notice.

##### **Why Is the Coast Guard Holding This Public Meeting?**

This meeting is in response to requests for information and direction from the oil industry on the regulations and policies the Coast Guard and MMS will jointly use to inspect and oversee the safety regimen for FPSO operation and lightering in the Gulf of Mexico (GOM). No direct request was received by either agency to have this meeting, but interest in these operations is building due to recent oil exploration finds in the deepwater sectors of the GOM. There have been numerous requests for information, seeking specifics as to the applicability of existing federal standards and enforcement policy, as well as suggestions regarding various practices that should be incorporated in the further development of deep water oil and gas projects in the GOM. Prior to finalizing policy in this arena we would like to take an opportunity to hear and collect information from all interested parties. The Coast Guard and MMS are coming to the meeting, not to discuss issues or actions, but to listen to industry and public concerns about which safety and operation standards should be used for this new oil production technology within the GOM. If indicators are received from this listening session and written comments that regulations or standards need to be developed for FPSO operations in the GOM, the Coast Guard will open a rulemaking to address these issues.

##### **What Issues Should I Discuss at the Meeting or Address in Written Comments?**

The public meeting on 3 May, 2001, will provide a forum for members of the public and industry to discuss FPSO operation in the GOM. You can discuss or comment on any ideas or issues you have in this area of deepwater oil production, use of FPSOs in the GOM, shuttling of produced oil from deepwater operations, and industry or regulatory standards that would be applicable to these operations. Specific questions that the Coast Guard and MMS have and would like to see answered in the written or verbal comments are:

1. Is the industry seeking to use U.S. or foreign-flagged FPSOs in deepwater operations in the GOM?
2. What type of ships or pipelines will be used to transfer the produced oil to U.S. Gulf Ports?
3. What are the three most significant regulatory barriers to resolve before

FPSO applications are received for review and approval?

4. What types of standards are being used to design and equip FPSOs for the GOM, in the way of:

- Turret units and turrets locations onboard the unit;
- Crude Oil Washing systems;
- Double hull construction;
- Wave plates or sea walls;
- Inert gas systems;
- Anchoring systems;
- Lifesaving equipment;
- Oil spill response equipment; and
- Safety management systems?

5. What standards should be used for the manning and certification of personnel completing the drilling or lightering operations on FPSOs?

6. USCG lightering regulations are contained in Title 33, Code of Federal Regulations (CFR), part 156—Subpart B, with additional GOM specific lightering zone regulations in 33 CFR 156—Subpart C. Are additional regulations or standards required to address FPSO cargo transfer operations in deepwater activities of the GOM?

7. What standards should be used for the development of operation requirements (operations manual) for an FPSO lightering to shuttle vessels?

8. Should safety zones be established around FPSO operations, similar to those for fixed OCS facilities or the Louisiana Offshore Oil Port?

9. Should lightering operations at a FPSO, require a standby vessel(s), and when?

10. Deepwater response logistics, such as environmental or medical, present increasing challenges. What “first response” offsets are contemplated to minimize the potential of aggravating emergency situations?

11. What types of standards are being used to design and equip shuttle tankers or articulated tug-barge units for offload of FPSOs, in the way of:

- Oil lightering systems;
- Positioning systems; and
- Emergency break-aways from transfer hoses during lightering operations.

Interested parties who cannot attend the meeting are strongly encouraged to submit issues to the docket for discussion at the public meeting prior to 25 April, 2001.

##### **What Is the Agenda for the Public Meeting?**

The agenda for the meeting on May 3, 2001, is as follows:

- Introduction and Overview of meeting rules;
- Presentation and discussion of areas of concern, standards that are already in place;

- Presentation of written statements or comments submitted to the docket prior to the meeting;
- Listening session, verbal comments presented by attending members of the public and industry; and
- Closing statements and expected next steps by the Coast Guard and MMS.

Dated: March 19, 2001.

**Howard H. Hime,**

*Acting, Director of Standards.*

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 600

[I.D. 031401E]

#### Magnuson-Stevens Act Provisions; General Provisions for Domestic Fisheries; Application for Exempted Fishing Permits (EFPs)

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notification of a proposal for EFPs to conduct experimental fishing; request for comments.

**SUMMARY:** NMFS announces that the Administrator, Northeast Region, NMFS (Regional Administrator), has made a preliminary determination to issue an EFP that would allow six vessels to conduct fishing operations otherwise restricted by the regulations governing the fisheries of the northeastern United States. The Maine Department of Marine Resources (Maine DMR) has submitted an application for the issuance of EFPs to six commercial longline and tub trawl vessels. The EFPs would allow six federally permitted vessels to fish for and possess Atlantic halibut (*Hippoglossus hippoglossus*) within a portion of the Gulf of Maine/Georges Bank Regulated Mesh Area in excess of the possession limit. The EFP would also authorize these vessels to land legal-sized Atlantic halibut for commercial sale in excess of the landing limit. The purpose of the experiment is to continue the collection of data on the distribution, relative abundance, migration, stock definition, mortality rates, stock size, yield, and other significant biological reference points of Atlantic halibut to be used in the long-term management of the species. Regulations under the Magnuson-Stevens Fishery Conservation and Management Act require publication of this notification to provide interested

parties the opportunity to comment on applications for proposed EFPs.

**DATES:** Comments on this notification must be received at the appropriate address or fax number (see **ADDRESSES**) on or before April 11, 2001.

**ADDRESSES:** Written comments should be sent to Patricia Kurkul, Regional Administrator, NMFS, Northeast Regional Office, One Blackburn Drive, Gloucester, MA 01930. Mark the outside of the envelope "Comments on EFP Proposal." Comments may also be sent via facsimile (fax) to (978) 281-9135.

**FOR FURTHER INFORMATION CONTACT:** Allison Ferreira, Fishery Management Specialist, 978-281-9103.

**SUPPLEMENTARY INFORMATION:** Maine DMR submitted an industry cooperative proposal on November 14, 2000, for six EFPs to fish for and possess Atlantic halibut in a portion of the Gulf of Maine/Georges Bank Regulated Mesh Area. The proposed experiment is a continuation of an experimental fishery conducted in 2000 to gather biological information on Atlantic halibut to be used in the long-term management of this species.

The study would occur from April 1 through May 31, 2001, and take place in the eastern Gulf of Maine in an area defined by the following coordinates:

Area Point	N. Latitude	W. Longitude
HAL 1	Mainland Maine Coastline	69° 00"
HAL 2	43° 12.3"	69° 00"
HAL 3	43° 58.3"	67° 21.5"
HAL 4*	Mainland Maine Coastline and U.S./Canada Maritime Boundary	Mainland Maine Coastline and U.S./Canada Maritime Boundary

\*Between points HAL 3 and HAL 4, the area follows the U.S./Canada maritime boundary.

The industry collaborative experiment involves Maine DMR, with consultation provided by the NMFS Northeast Fisheries Science Center (Center). The experiment proposes to continue the collection of data on the distribution, relative abundance, migration, stock definition, mortality rates, stock size, yield, and other significant biological reference points of Atlantic halibut in the eastern Gulf of Maine. In addition, the experiment would collect information on age and growth, size and sex composition, and rate and onset of sexual maturity.

The gear to be used during the experiment would consist of traditional longline and tub trawl gear. Vessels would be limited to a maximum number of 700 hooks per boat, and restricted to using circle hooks no smaller than 14/0 in size.

The maximum number of vessels participating in the experiment at a given time would be six, and the maximum number of Atlantic halibut to be harvested would be 1,080 fish--the amount of halibut requested for the 2000 experimental fishery. The maximum number of fish that could be harvested equates to 180 fish per vessel (1,080 divided by 6). Maine DMR has further proposed that each vessel be given a 50-fish total allowable catch (TAC). Once this TAC is reached, each vessel would be restricted to landing six fish per vessel per day, the same as for the 2000 experiment.

Logbooks would be used to obtain information on length of all halibut caught, whether retained or released, time and place of all halibut caught, tag number (as applicable), amount of gear used, bait type used, and identification

and measurement on any other species caught as bycatch. For all halibut that are retained, stomachs and gonads would be preserved, otoliths extracted, and the corresponding fish length recorded. All halibut less than 36 inches (91.44 cm) total length (TL) would be sampled for scales, measured, tagged and released. Only legal-sized halibut would be retained for commercial sale.

Training in the procedures for collecting this information would be provided by Maine DMR and/or Center personnel. All participants would also be required to complete a training program in the tagging and release of Atlantic halibut. Maine Sea Grant will provide this training program, with the assistance and guidance of the Pacific Halibut Commission. All participants in the experimental fishery would be required to sample retained halibut for

otoliths and non-retained halibut for scales, as well as other biological information, or samples as requested by Maine DMR and/or the Center.

Vessels may be required to carry onboard observers as requested by NMFS and Maine DMR. Onboard observers will be trained by Maine DMR and/or Center personnel in the protocols of the experiment. Maine DMR observer staff, Maine Sea Grant staff and

University of Maine students would be utilized as observers for this experiment.

EFPs would be issued to up to six participating federally permitted vessels at any one time to exempt them from landing and possession limits for Atlantic halibut. These EFPs would also authorize the vessels to land for commercial sale Atlantic halibut that

conform with the minimum size requirement of 36 inches (91.44 cm) TL.

#### Southwest Washington Provincial Advisory Committee Meeting Notice

**AGENCY:** Forest Service, USDA.

**ACTION:** Notice of meeting.

**SUMMARY:** The Southwest Washington Provincial Advisory Committee will meet on Wednesday, April 4, 2001, at the Gifford Pinchot National Forest Office, located at 10600 NE 51st Circle, Vancouver, Washington. The meeting will begin at 9:30 a.m. and continue until 4:00 p.m. The purpose of the meeting is to: (1) Discuss the Late Successional Reserve of the Gotchen area, and (2) Provide for a Public Open Forum. All Southwest Washington Provincial Advisory Committee meetings are open to the public. Interested citizens are encouraged to attend. The "open forum" provides opportunity for the public to bring issues, concerns, and discussion topics to the Advisory Committee. The "open forum" is scheduled as part of agenda item (2) for this meeting. Interested speakers will need to register prior to the open forum period. The committee welcomes the public's written comments on committee business at any time.

#### FOR FURTHER INFORMATION CONTACT:

Direct questions regarding this meeting to Linda Turner, Public Affairs Specialist, at (360) 891-5195, or write Forest Headquarters Office, Gifford Pinchot National Forest, 10600 NE. 51st Circle, Vancouver, WA 98682.

Dated: March 20, 2001.

## DEPARTMENT OF COMMERCE

[I.D. 032101G]

### Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

*Agency:* National Oceanic and Atmospheric Administration (NOAA).

*Title:* Southeast Region Logbook Family of Forms.

*Form Number(s):* None.

*OMB Approval Number:* 0648-0016.

*Type of Request:* Regular submission.

*Burden Hours:* 2,047.

*Number of Respondents:* 505.

*Average Hours Per Response:* 15 minutes.

*Needs and Uses:* Participants in most Federally-managed fisheries in the Southeast Region are currently required to keep and submit catch and effort logbooks from their fishing trips. NOAA proposes to require that a subset of these vessels also provide information on the species and quantities of fish, shellfish, marine turtles, and marine mammals that are caught and discarded or have interacted with the vessel's fishing gear. The data obtained is needed for fishery management planning and to help protect endangered species and marine mammals.

*Affected Public:* Business or other for-profit organizations, individuals.

*Frequency:* By fishing trip.

*Respondent's Obligation:* Mandatory.

*OMB Desk Officer:* David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Madeleine Clayton, Departmental Paperwork Clearance Officer, (202) 482 3129, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at MClayton@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Dated: March 20, 2001.

**Gwellnar Banks,**

*Management Analyst, Office of the Chief Information Officer.*

**BILLING CODE 3510-22-S**

## DEPARTMENT OF COMMERCE

### Census Bureau

#### Current Population Survey (CPS)—School Enrollment Supplement

**ACTION:** Proposed collection; comment request.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before May 29, 2001.

**ADDRESSES:** Direct all written comments to Madeleine Clayton, Departmental Forms Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the internet at mclayton@doc.gov).

#### FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to Karen Woods, Census Bureau, FOB 3, Room 3340, Washington, DC 20233-8400, (301) 457-3806.

#### SUPPLEMENTARY INFORMATION:

##### I. Abstract

The Census Bureau plans to request clearance for the collection of data concerning the School Enrollment Supplement to be conducted in conjunction with the October 2001 CPS. Title 13, United States Code, Section 182, and Title 29, United States Code, Sections 1-9, authorize the collection of the CPS information. The Census Bureau and the Bureau of Labor Statistics sponsor the basic annual school enrollment questions, which

have been collected annually in the CPS for 30 years.

This survey provides information on public/private elementary school, secondary school, and college enrollment, and on characteristics of private school students and their families, which is used for tracking historical trends, policy planning, and support. This year's supplement contains additional questions which were last asked in 1988 and 1992 on adult and vocational education. The questions are asked of adults (age 15 and over) and focus on characteristics of vocational courses and types of adult education being pursued. This survey is the only source of national data on the age distribution and family characteristics of college students and the only source of demographic data on preprimary school enrollment. As part of the federal government's efforts to collect data and provide timely information to local governments for policymaking decisions, the survey provides national trends in enrollment and progress in school.

## II. Method of Collection

The school enrollment information will be collected by both personal visit and telephone interviews in conjunction with the regular October CPS interviewing. All interviews are conducted using computer-assisted interviewing.

## III. Data

*OMB Number:* 0607-0464.

*Form Number:* There are no forms. We conduct all interviews on computers.

*Type of Review:* Regular.

*Affected Public:* Households.

*Estimated Number of Respondents:* 57,000.

*Estimated Time Per Response:* 3.5 minutes.

*Estimated Total Annual Burden Hours:* 3,325.

*Estimated Total Annual Cost:* The only cost to respondents is that of their time.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* Title 13, U.S.C., Section 182, and Title 29, U.S.C., Sections 1-9.

## IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c)

ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for the Office of Management and Budget approval of this information collection; they also will become a matter of public record.

Dated: March 22, 2001.

### 2002 New York City Housing and Vacancy Survey

**ACTION:** Proposed collection; comment request.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(c)(2)(A)).

**DATES:** Written comments must be submitted on or before May 29, 2001.

**ADDRESSES:** Direct all written comments to Madeleine Clayton, Departmental Forms Clearance Officer, Department of Commerce, Room 6086, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at [mclayton@doc.gov](mailto:mclayton@doc.gov)).

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to: Peter Fronczek, Census Bureau, FB3-1433, Washington, DC 20233-8500, or phone 301-457-3199.

### SUPPLEMENTARY INFORMATION:

#### I. Abstract

The Census Bureau plans to conduct the 2002 New York City Housing and Vacancy Survey (NYCHVS) under contract for the City of New York. The primary purpose of the survey is to measure the rental vacancy rate which

is the primary factor in determining the continuation of rent control regulations. Other survey information is used by city and state agencies for planning purposes as well as the private sector for business decisions. New York is required by law to have such a survey conducted every three years.

Information to be collected includes: age, gender, race, hispanic origin, and relationship of all household members; employment status, education level, and income for persons aged 15 and above. Owner/renter status (tenure) is asked for all units, including vacants. Utility costs, monthly rent, availability of kitchen and bathroom facilities, maintenance deficiencies, neighborhood suitability, and other specific questions about each unit such as number of rooms and bedrooms are also asked. The survey also poses a number of questions relating to handicapped accessibility. For vacant units, a shorter series of similar questions is asked. Finally, all vacant units and approximately five percent of occupied units will be reinterviewed for quality assurance purposes.

## II. Method of Collection

All information will be collected by personal interview.

## III. Data

*OMB Number:* 0607-0757 (expired 09/30/99).

*Form Number:* H-100, H-108 (reinterview).

*Type of Review:* Regular.

*Affected Public:* Households.

*Estimated Number of Respondents:* 17,200 + 2,000 reinterviews.

*Estimated Time Per Response:* 40 minutes occupied (16,000); 10 minutes vacant (1,200); 10 minutes reinterview (2,000).

*Estimated Total Annual Burden Hours:* 11,200.

*Estimated Total Annual Cost:* The only cost to the respondent is that of his/her time.

*Respondent's Obligation:* Voluntary.

*Legal Authority:* Title 13 U.S.C.—Section 8b and Local Emergency Housing Rent Control Act, Laws of New York (Chapters 8603 and 657).

## IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and

clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: March 22, 2001.

### Foreign-Trade Zones Board

[Order No. 1149]

#### **Grant of Authority for Subzone Status; Tesoro Alaska Company (Oil Refinery), Kenai, AK**

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

*Whereas*, by an Act of Congress approved June 18, 1934, an Act "To provide for the establishment \* \* \* of foreign-trade zones in ports of entry of the United States, to expedite and encourage foreign commerce, and for other purposes," as amended (19 U.S.C. 81a-81u) (the Act), the Foreign-Trade Zones Board (the Board) is authorized to grant to qualified corporations the privilege of establishing foreign-trade zones in or adjacent to U.S. Customs ports of entry;

*Whereas*, the Board's regulations (15 CFR Part 400) provide for the establishment of special-purpose subzones when existing zone facilities cannot serve the specific use involved;

*Whereas*, an application from the Municipality of Anchorage, Alaska, grantee of FTZ 160, for authority to establish special-purpose subzone status at the oil refinery complex of Tesoro Alaska Company in Kenai, Alaska, was filed by the Board on May 5, 2000, and notice inviting public comment was given in the **Federal Register** (FTZ Docket 20-2000, 65 FR 31139, 5/16/00); and,

*Whereas*, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and

Board's regulations would be satisfied, and that approval of the application would be in the public interest if approval is subject to the conditions listed below;

*Now, Therefore*, the Board hereby authorizes the establishment of a subzone (Subzone 160A) at the oil refinery complex of Tesoro Alaska Company, in Kenai, Alaska, at the location described in the application, subject to the FTZ Act and the Board's regulations, including § 400.28, and subject to the following conditions:

1. Foreign status (19 CFR 146.41, 146.42) products consumed as fuel for the refinery shall be subject to the applicable duty rate.

2. Privileged foreign status (19 CFR 146.41) shall be elected on all foreign merchandise admitted to the subzone, except that non-privileged foreign (NPF) status (19 CFR 146.42) may be elected on refinery inputs covered under HTSUS Subheadings # 2709.00.1000—# 2710.00.1050, # 2710.00.2500 and # 2710.00.4510 which are used in the production of:

—Petrochemical feedstocks and refinery by-products (examiners report, Appendix "C");

—Products for export;

—And, products eligible for entry under HTSUS # 9808.00.30 and #9808.00.40 (U.S. Government purchases).

Signed at Washington, DC, this 15th day of March 2001.

### Foreign-Trade Zones Board

[Order No. 1147]

#### **Expansion of Foreign-Trade Zone 112 and Authority To Conduct Manufacturing Activity; Quantum Corp. (Data Storage Products), Colorado Springs, CO**

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

*Whereas*, the Colorado Springs Foreign-Trade Zone, Inc., grantee of Foreign-Trade Zone 112, submitted an application to the Board for authority to expand FTZ 112 to include three new sites, as well as authority on behalf of Quantum Corporation to manufacture

data storage products under zone procedures within FTZ 112 (FTZ Docket 32-2000; filed 6/27/2000);

*Whereas*, notice inviting public comment was given in the **Federal Register** (65 FR 41430, 7/5/2000) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

*Whereas*, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations are satisfied, and that the proposal is in the public interest;

*Now, Therefore*, the Board hereby orders: The application to expand FTZ 112, and to conduct manufacturing authority (data storage products) by the Quantum Corporation, is approved, subject to the Act and the Board's regulations, including section 400.28, and further subject to the Board's standard 2,000 acre activation limit.

Signed at Washington, DC, this 15th day of March 2001.

[Order No. 1146]

#### **Approval for Extension of Manufacturing Authority Within Foreign-Trade Zone 44; Quest International Fragrances USA, Inc. (Flavor and Fragrance Products), Mt. Olive, NJ**

Pursuant to its authority under the Foreign-Trade Zones (FTZ) Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

*Whereas*, the New Jersey Commerce and Economic Growth Commission, grantee of FTZ 44, has requested an extension of authority on behalf of Quest International Fragrances USA, Inc., to manufacture flavor and fragrance products under FTZ procedures within FTZ 44, Mt Olive, New Jersey (FTZ Docket 39-2000, filed 7/18/00);

*Whereas*, notice inviting public comment has been given in the **Federal Register** (65 FR 47376, 8/2/00);

*Whereas*, pursuant to Section 400.32(b)(1) of the FTZ Board regulations (15 CFR Part 400), the Secretary of Commerce's delegate on the FTZ Board has the authority to act for

the Board in making such decisions regarding manufacturing authority within existing zones when the proposed activity is the same, in terms of products involved, to activity recently approved by the Board and similar in circumstances (15 CFR § 400.32(b)(1)(i)); and,

*Whereas*, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and Board's regulations are satisfied, and that the proposal is in the public interest;

*Now, Therefore*, the Board hereby orders:

The application to extend manufacturing authority within FTZ 44 on behalf of Quest International Fragrances U.S.A., Inc., is approved, subject to the Act and the Board's regulations, including Section 400.28.

Signed at Washington, DC, this 15th day of March 2001.

### Foreign-Trade Zones Board

[Order No. 1145]

#### Expansion of Foreign-Trade Zone 173, Grays Harbor County, WA

Pursuant to its authority under the Foreign-Trade Zones Act of June 18, 1934, as amended (19 U.S.C. 81a-81u), the Foreign-Trade Zones Board (the Board) adopts the following Order:

*Whereas*, the Port of Grays Harbor (Washington), grantee of Foreign-Trade Zone 173, submitted an application to the Board for authority to expand FTZ 173 to expand existing Site 1 at the Port of Grays Harbor (PGH) and to include two new sites at the PGH Marine Terminal and Industrial Park (Site 6) in Hoquiam, and at the Satsop Development Park (Site 7) in Elma, adjacent to the Aberdeen Customs port of entry area (FTZ Docket 36-2000; filed 7/10/00);

*Whereas*, notice inviting public comment was given in the **Federal Register** (65 FR 43736, 7/14/00) and the application has been processed pursuant to the FTZ Act and the Board's regulations; and,

*Whereas*, the Board adopts the findings and recommendations of the examiner's report, and finds that the requirements of the FTZ Act and the Board's regulations are satisfied, and that the proposal is in the public interest;

*Now, Therefore*, the Board hereby orders:

The application to expand FTZ 173 is approved, subject to the Act and the Board's regulations, including Section 400.28.

Signed at Washington, DC, this 15th day of March 2001.

**Timothy J. Hauser,**

*Acting Under Secretary for International Trade, Alternate Chairman, Foreign-Trade Zones Board.*

BILLING CODE 3510-DS-P

## DEPARTMENT OF COMMERCE

### International Trade Administration

[A-570-867]

#### Notice of Initiation of Antidumping Duty Investigation: Automotive Replacement Glass Windshields from the People's Republic of China

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Initiation of antidumping duty investigation.

**EFFECTIVE DATE:** March 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** Rick Johnson at (202) 482-3818; Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230.

#### Initiation of Investigation

##### *The Applicable Statute and Regulations*

Unless otherwise indicated, all citations to the statute are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Tariff Act of 1930 (the Act) by the Uruguay Round Agreements Act (URAA). In addition, unless otherwise indicated, all citations to the Department's regulations are references to the provisions codified at 19 CFR part 351 (2000).

##### *The Petition*

On February 28, 2001, the Department of Commerce (the Department) received the petition filed in proper form by the following parties: PPG Industries, Inc., Safelite Glass Corp. and Apogee Enterprises, Inc. The Department received from petitioners information supplementing the petition throughout the 20-day initiation period. On March 13, 2001, Fuyao Glass Industry Group Co., Ltd., a Chinese producer and exporter of the subject merchandise, and its wholly-owned subsidiary, Greenville Glass Industries, Inc. (Greenville Glass), a U.S. importer of the subject merchandise, provided comments regarding whether petitioners have established industry support pursuant to Section 732(c)(4)(E) of the Act.

In accordance with section 732(b) of the Act, petitioners allege that imports of automotive replacement glass windshields (ARG windshields) from the People's Republic of China (PRC) are being, or are likely to be, sold in the United States at less than fair value within the meaning of section 731 of the Act, and that such imports are materially injuring an industry in the United States.

The Department finds that petitioners filed this petition on behalf of the domestic industry because they are interested parties as defined in section 771(9)(C) of the Act and have demonstrated sufficient industry support with respect to the antidumping duty investigation of automotive replacement glass (ARG) windshields that they are requesting the Department to initiate (see *Determination of Industry Support for the Petition* section below).

##### *Scope of Investigation*

For purposes of this investigation, the products covered are imports of ARG windshields, and parts thereof, whether clear or tinted, whether coated or not, and whether or not they include antennas, ceramics, mirror buttons or VIN notches, and whether or not they are encapsulated. ARG windshields are laminated safety glass (*i.e.*, two layers of (typically float) glass with a sheet of clear or tinted plastic in between (usually polyvinyl butyral)), which are produced and sold for use by automotive glass installation shops to replace windshields in automotive vehicles (*e.g.*, passenger cars, light trucks, vans, sport utility vehicles, etc.) that are cracked, broken or otherwise damaged.

ARG windshields subject to this investigation are currently classifiable under subheading 7007.21.10.10 of the Harmonized Tariff Schedules of the United States (HTSUS). Specifically excluded from the scope of this investigation are automotive windshields sold for original equipment manufacturers (OEM) (*i.e.*, automobile manufacturers). While HTSUS subheadings are provided for convenience and Customs purposes, our written description of the scope of this investigation is dispositive.

During our review of the petition, we discussed the scope with the petitioner to ensure that it accurately reflects the product for which the domestic industry is seeking relief. Specifically, we have discussed with petitioners whether it is possible to develop descriptive language that would permit a distinction between ARG and OEM windshields based on the physical characteristics of the

product. Because it is not clear whether specific standards, specifications, or quantifiable differences in tolerances can be used to distinguish ARG from OEM windshields, we are requesting all interested parties to comment on how the scope definition might be refined to describe more clearly ARG windshields, and which will enable U.S. Customs officials to distinguish between OEM and ARG windshields. For example, the Department would consider the construction of scope language which would allow for exclusion based on the presence of an OEM logo (*e.g.*, GM, Ford, Toyota, etc.) on the windshield. Alternatively, exclusion from the scope of the order may be established through the presence of documentation demonstrating that the OEM customer has certified the foreign producer as a supplier of a particular model. Thus, as discussed in the preamble to the Department's regulations (62 FR 27323), we are setting aside a period for parties to raise issues regarding product coverage. The period of scope consultations is intended to provide the Department with ample opportunity to consider all comments and consult with parties prior to the issuance of the preliminary determination. Therefore, the Department encourages all parties to submit such comments by April 9, 2001. Comments should be addressed to Import Administration's Central Records Unit at Room 1870, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

##### *Determination of Industry Support for the Petition*

Section 771(4)(A) of the Act defines the "industry" as the producers of a domestic like product. Thus, to determine whether the petition has the requisite industry support, the statute directs the Department to look to producers and workers who produce the domestic like product. The International Trade Commission (ITC), which is responsible for determining whether "the domestic industry" has been injured, must also determine what constitutes a domestic like product in order to define the industry. While both the Department and the ITC must apply the same statutory definition regarding the domestic like product (section 771(10) of the Act), they do so for different purposes and pursuant to separate and distinct authority. In addition, the Department's determination is subject to limitations of time and information. Although this may result in different definitions of the like product, such differences do not

render the decision of either agency contrary to the law.<sup>1</sup>

Section 771(10) of the Act defines the domestic like product as "a product which is like, or in the absence of like, most similar in characteristics and uses with, the article subject to an investigation under this title." Thus, the reference point from which the domestic like product analysis begins is "the article subject to an investigation," *i.e.*, the class or kind of merchandise to be investigated, which normally will be the scope as defined in the petition. Moreover, petitioners do not offer a definition of domestic like product distinct from the scope of the investigation.

In this case, the domestic like product referred to in the petition is the single domestic like product defined in the "Scope of Investigation" section above. As discussed below, on March 13, 2001, the Department received comments on industry support from Fuyao Glass Industry Group Co., Ltd. and Greenville Glass Industries Inc., a U.S. importer of subject merchandise (collectively "FYG"). While we have addressed FYG's comments below, we note that, in essence, FYG argues that the domestic like product includes glass windshields manufactured for OEM customers.

Concerning whether windshields for OEM customers are part of the same domestic like product as ARG windshields, we have considered such factors as the similarities of manufacturing processes, pricing bases, marketing methods, and applications. With regard to the manufacturing process, petitioners have noted that the design and testing stages for OEM customers are lengthy processes (*i.e.*, up to three years). In contrast, the entire time to design, test, and produce an ARG windshield is much shorter, typically requiring as little as 12 weeks or less. Moreover, because many ARG windshields are "reverse engineered", the ARG windshields cannot, and do not, meet the same specifications and tolerances as the OEM windshields. Also, according to discussions with the U.S. International Trade Commission, the sheet of clear or tinted plastic in between the glass (*e.g.*, polyvinyl butyral) is usually applied by machine in the production of OEM windshields, while it is normally applied by hand for the manufacture of ARG windshields. Finally, petitioners note that the vast

majority of OEM windshield part numbers and ARG windshield part numbers are produced in different production facilities with different workers. Petitioners also state that OEM windshields are produced on high volume production equipment, with much longer production runs than is the case for ARG windshields.

Petitioners state that ARG windshields are typically more expensive than OEM windshields, based primarily on their shorter production runs and the need to keep low volume parts in stock, both of which reduce the economic efficiencies of producing ARG windshields.

Marketing methods are clearly different, due to the fact that the customers to whom ARG and OEM windshields are sold are likewise different. OEM windshields are sold to a relatively small universe of customers (*i.e.*, auto manufacturers). The market for ARG windshields, in contrast, is comprised of thousands of retail service shops that install replacement windshields in cars and light trucks. Thus, ARG windshields are produced for sale to distributors and auto glass installation shops who, in turn, sell to consumers and auto insurance companies.

With regard to similarity of applications, our research indicates that while OEM windshields may be sold in the ARG market (*e.g.*, in the event of production overruns on the part of the OEM windshield manufacturer) for use as replacement glass, the reverse is not true: ARG windshields are not used by OEM customers.

In summary, the Department has no basis on the record to find the petition's definition of the domestic like product to be inaccurate. The Department has, therefore, adopted the domestic like product definition set forth in the petition.

Section 732(b)(1) of the Act requires that a petition be filed on behalf of the domestic industry. Section 732(c)(4)(A) of the Act provides that a petition meets this requirement if the domestic producers or workers who support the petition account for: (1) at least 25 percent of the total production of the domestic like product; and (2) more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for, or opposition to, the petition. Finally, section 732(c)(4)(D) of the Act provides that if the petition does not establish support of domestic producers or workers accounting for more than 50 percent of the total production of the domestic like product, the administering agency shall: (i) poll

the industry or rely on other information in order to determine if there is support for the petition as required by subparagraph (A), or (ii) determine industry support using a statistically valid sampling method.

In order to estimate production for the domestic industry as defined for purposes of this case, the Department has relied upon not only the petition and amendments thereto, but also upon "other information" it obtained through research and which is attached to the Initiation Checklist (*See Import Administration AD Investigation Initiation Checklist (Initiation Checklist)*, Attachment I: Industry Support, March 20, 2001). Based on information from these sources, the Department determined, pursuant to section 732(c)(4)(D), that there is support for the petition as required by subparagraph (A). Specifically, the Department made the following determinations. Petitioners established industry support representing over 50 percent of total production of the domestic like product. Therefore, the domestic producers who support the petition account for at least 25 percent of the total production of the domestic like product, and the requirements of section 732(c)(4)(A)(i) are met. Furthermore, the domestic producers who support the petition account for more than 50 percent of the production of the domestic like product produced by that portion of the industry expressing support for or opposition to the petition. Thus, the requirements of section 732(c)(4)(A)(ii) are also met.

Accordingly, the Department determines that the petition was filed on behalf of the domestic industry within the meaning of section 732(b)(1) of the Act. *See Initiation Checklist.*

As noted above, on March 13, 2001, FYG submitted comments regarding industry support. Specifically, FYG argues that the proposed scope of this investigation is flawed because it differentiates scope and non-scope merchandise based on customer type/channel of distribution (*i.e.*, OEM versus ARG windshield customers). To eliminate that distinction, FYG argues that all automotive glass windshields, whether OEM or ARG, should be included in the scope. Therefore, FYG argues that the Department should base industry support on U.S. production of all automotive glass windshields. Based on data regarding light vehicle production in the United States (which show that U.S. consumption of auto glass for OEM customers exceeds the entire U.S. consumption of auto glass for replacement glass customers), FYG asserts that it is very possible that

<sup>1</sup> See *Algoma Steel Corp. Ltd., v. United States*, 688 F. Supp. 639, 642-44 (CIT 1988); *High Information Content Flat Panel Displays and Display Glass Therefor from Japan: Final Determination; Rescission of Investigation and Partial Dismissal of Petition*, 56 FR 32376, 32380-81 (July 16, 1991).

petitioners' standing levels could be "cut in half". FYG concludes that in order to determine whether petitioners have the requisite support, the Department should poll the entire U.S. auto glass manufacturing industry and extend the period for initiation.

The Department notes that FYG has not asserted that industry support does not exist given petitioners' definition of the domestic industry; instead, FYG has taken issue with petitioners' definition of the domestic industry itself. However, as fully discussed above, the Department believes that there exists a distinct automotive replacement glass windshield domestic industry. Therefore, it would be improper to include U.S. production of OEM windshields in the calculation of industry support, as such production does not pertain to the domestic like product. For this reason, we disagree with FYG that petitioners have not demonstrated industry support.

#### *U.S. Price and Normal Value*

The following are descriptions of the allegations of sales at less than fair value upon which the Department based its decision to initiate this investigation. The sources of data and deductions and adjustments relating to U.S. price and factors of production (FOP) are detailed in the *Initiation Checklist*. Should the need arise to use any of this information as facts available under section 776 of the Act in our preliminary or final determinations, we may re-examine the information and revise the margin calculations, if appropriate. The period of investigation (POI) for this case is July 1, 2000 to December 31, 2000.

This investigation involves a non-market economy (NME), and the Department presumes, based on the extent of central government control in an NME, that a single dumping margin, should there be one, is appropriate for all NME exporters in the given country. See, e.g., *Final Determination of Sales at Less Than Fair Value: Silicon Carbide from the PRC*, 59 FR 22585 (May 2, 1994). In the course of this investigation, all parties will have the opportunity to provide relevant information related to the issues of a country's NME status and the granting of separate rates to individual exporters.

#### **United States Price**

##### *Export Price*

Petitioners calculated export price for integrated and non-integrated Chinese producers using official U.S. IM-145 import statistics for HTSUS category 7007.21.10.10. Petitioners assert that this category contains only imports of

ARG windshields, based on petitioners' understanding that no Chinese producers are currently supplying OEM customers in the United States. Petitioners used the free alongside ship (FAS) per-square-meter value for the period July 1, 2000 through December 31, 2000 as the export price. Petitioners made no deductions to this price.

##### *Constructed Export Price*

Petitioners calculated constructed export price (CEP) using two sources: a price list from China Southern, and a price list from FYG.

##### *China Southern*

Petitioners based CEP on a price list from China Southern for the first sale of ARG windshields to an unaffiliated U.S. customer. Petitioners calculated net prices by deducting discounts, international freight, insurance and charges (CIF charges), U.S. customs duties, U.S. commissions and U.S. inland freight charges.

Petitioners based a 7 percent discount rate for China Southern on a 1999 catalogue and price list from Shenzhen Benxun, a subsidiary of China Southern. Petitioners based U.S. inland freight charges for China Southern on PPG's experience for truckload shipments of ARG windshields to its distributors.

In calculating CIF charges for China Southern, petitioners calculated the per-square-meter CIF charges for China on a monthly basis during the POI by applying the ratio of the total CIF charges to the total customs FAS value to the per-square-meter FAS value of entries of the subject merchandise as reported on the ITC data web ([www.usitc.gov](http://www.usitc.gov)). Similarly, petitioners obtained the per-square-meter amount of U.S. duty by multiplying the percentage duty rate of 4.9 percent by the per-square-meter FAS value of entries of the subject merchandise as reported on the ITC data web.

Petitioners based a commission fee for China Southern on an affidavit from one of petitioners' company officials explaining his knowledge of trade industry practices.

##### *FYG*

Petitioners similarly calculated CEP for FYG based on a price list from FYG to an unaffiliated customer in the United States. Petitioners calculated CEP by deducting CIF charges, U.S. customs duties, U.S. selling expenses and U.S. inland freight charges.

Petitioners calculated CIF and duty charges for FYG using the same methodology utilized for China Southern (see above), with one exception. Specifically, petitioners

estimated U.S. selling expenses for FYG based on the actual selling expense experience of one of the U.S. producers of the subject merchandise.

##### *Normal Value*

Petitioners assert that the PRC is an NME country, and note that in all previous investigations the Department has determined that the PRC is an NME. See, e.g., *Notice of Final Determination of Sales at Less Than Fair Value: Bulk Aspirin From the People's Republic of China*, 65 FR 33805 (May 25, 2000). The PRC will be treated as an NME unless and until its NME status is revoked. Pursuant to section 771(18)(C)(i) of the Act, because the PRC's status as an NME remains in effect, petitioners estimated the dumping margin using an NME analysis.

For normal value (NV), petitioners based the FOP, as defined by section 773(c)(3) of the Act, on the consumption rates of PPG Industries, a U.S. producer of the subject merchandise. Petitioners assert that information regarding Chinese producers' consumption rates is not available, and that the U.S. producer employs a production process which is similar to the production process employed by one of the largest producers of windshields in the PRC. Thus, petitioners have assumed for purposes of the petition that producers in the PRC use the same inputs in the same quantities as petitioners use. Petitioners provided separate normal values for integrated and non-integrated producers, based upon whether the float glass is purchased or self-produced. Based on the information provided by petitioners, we believe that their FOP methodology represents information reasonably available to petitioners and is appropriate for purposes of initiating this investigation.

Petitioners assert that India is the most appropriate surrogate country for the PRC, claiming that India is: (i) A market economy, (ii) a significant producer of comparable merchandise, and (iii) at a level of economic development comparable to the PRC in terms of per capita GNP. Based on the information provided by petitioners, we believe that petitioners' use of India as a surrogate country is appropriate for purposes of initiating this investigation.

In accordance with section 773(c)(4) of the Act, petitioners valued FOP, where possible, on reasonably available, public surrogate data from India.

##### *Industry Practices*

ARG windshields are produced by both integrated and non-integrated producers. Integrated producers produce ARG windshields in a two-step

process, the first of which is to produce the float glass in its own manufacturing step, and then to use the glass that it produced as one material input into the step of producing the ARG windshields. Non-integrated producers purchase float glass as a raw material input into the process of making ARG windshields. Consequently, petitioners provided separate normal value calculations for integrated and non-integrated producers of the subject merchandise.

#### Float Glass

*For non-integrated producers:* Petitioners valued colored float glass using a publicly available 1999 price of float glass purchases by Asahi Safety Glass (Asahi) inflated to the month of March 2000, the last month for which annualized data are published based on the Indian wholesale price index (WPI) as reported in the *International Financial Statistics*. Petitioners then applied the yield factor experienced by PPG for float glass to obtain a yielded material value for the float glass in U.S. dollars.

*For integrated producers:* Petitioners provided the batch composition usage and yield loss rate of PPG Industries to produce float glass used in ARG windshields. Petitioners valued each of the material inputs using the published imports statistics of India for April 1998 through May 1999, and inflated the resulting figures to the month of March 2000 using the Indian WPI as reported in the *International Financial Statistics*. The values in rupees were converted to U.S. dollars using the exchange rate for March 2000, as reported by the Federal Reserve Board. Petitioners could not locate a surrogate value for rouge, one of the minor elements included in the batch composition for float glass. Therefore, petitioners relied on PPG's cost for this factor.

Petitioners used PPG's experience to determine the usage rates for labor and energy per ton of glass production. Petitioners valued electricity using prices published in *Energy Prices and Taxes, First Quarter 2000*, published by the OECD International Energy Agency. Petitioners applied the value of natural gas recorded in the Department's *Index of Factor Values*, (<http://ia.ita.doc.gov/factorv/prc/energy.htm>), and inflated it by the change in the India WPI to March 2000. Petitioners valued oxygen using Indian import statistics, inflated to March 2000 using the Indian WPI reported in *International Financial Statistics*, and converted to U.S. dollars.

Because petitioners' surrogate value for factory overhead was obtained from two non-integrated producers of automotive glass windshields,

petitioners applied a factory overhead surrogate value for float glass production in calculating normal value for integrated producers. Specifically, for factory overhead, petitioners used information from an Indian producer of float glass, Floatglass India Ltd.

#### Polyvinyl Butyral ("PVB") and Other Materials

Petitioners valued PVB, as they did float glass for non-integrated producers, using publicly available information regarding 1999 float glass purchases by Asahi, inflated to the month of March 2000 based on the Indian WPI as reported in the *International Financial Statistics*. The value of PVB in rupees was converted to U.S. dollars using the exchange rate for March 2000, as reported by the Federal Reserve Board. Petitioners then applied the yield factor experienced by PPG for PVB.

Petitioners valued paint, PVB frames, and attachments such as mirrors and antennae, using PPG's costs, and applying an amount for labor and overhead as they did for float glass and PVB for non-integrated producers. However, we have disregarded petitioners' valuation of these items because petitioners failed to provide surrogate value information for them or to adequately demonstrate that such information was not reasonably available. We note that the disallowance of attachment hardware has no impact on the highest margins for both China Southern and FYG calculated by petitioners, since the highest margins calculated by petitioners did not include attachments.

#### For the Assembly and Production of ARG Windshields

Petitioners valued labor using the regression-based wage rate for the PRC provided by the Department, in accordance with 19 CFR 351.408(c)(3) (<http://ia.ita.doc.gov/wages/98wages/gdp00web.htm>). Petitioners divided PPG's manufacturing experience with the time required to produce one windshield by 1.28, the average number of square meters of glass per windshield, to arrive at a labor cost per square-meter of windshield.

For energy, petitioners used PPG's manufacturing experience as factor values for electricity and natural gas. Petitioners valued electricity using prices published in *Energy Prices and Taxes, First Quarter 2000*, published by the OECD International Energy Agency. Petitioners valued natural gas using the price of natural gas recorded in the Department's *Index of Factor Values* (<http://ia.ita.doc.gov/factorv/prc/energy.htm>).

For factory overhead, selling, general and administrative (SG&A) and profit, petitioners applied rates derived from the financial statements of Asahi and Atul Glass Industry Limited (Atul), two of India's largest producers of ARG windshields.

Petitioners expressed the weighted-average factory overhead of the two companies as a percentage of materials and energy expenses, and applied it to the total factor values for materials and energy used in the production of ARG windshields. Similarly, they applied the ratio of SG&A expenses expressed as a ratio of materials and energy expenses to the total factor values for materials and energy used in the production of ARG windshields. Petitioners also applied the weighted-average profit margin of the two Indian windshield producers to the total of materials, energy, labor, factory overhead and SG&A expenses.

For packing, petitioners estimated packing materials usage based on the expert judgement of PPG employees who examined detailed drawings of standard export packing for Chinese ARG windshields. Petitioners valued wood using the published imports statistics of India for April 1998 through March 1999, and inflated the resulting figures to the month of March 2000 using the Indian WPI as reported in the *International Financial Statistics*. Petitioners used their own costs, however, to value dunnage. We have disallowed this valuation for dunnage because petitioners did not sufficiently demonstrate that surrogate value information from any potential surrogate country was not reasonably available.

To recalculate petitioners' margins, we recalculated normal value without the cost of minor materials such as paint, PVB frames and minor materials, and dunnage for packing. We recalculated the margins for the highest-margin and lowest non-de minimis-margin products without hardware attachments for both FYG and China Southern. We determined the simple average of the difference between the submitted and revised margins for these products for each company, and subtracted the result from the report highest and lowest non-de minimis margin for each company to arrive at a revised highest and lowest non-de minimis margin for each company.

Based upon the comparison of CEP to CV, petitioners' calculated estimated dumping margins, as adjusted by the Department, ranged from 9.59 to 132.12 percent.

### Fair Value Comparisons

Based on the data provided by petitioners, there is reason to believe that imports of ARG windshields from the PRC are being, or are likely to be, sold at less than fair value.

### Allegations and Evidence of Material Injury and Causation

Petitioners allege that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the imports of the subject merchandise sold at less than NV. Petitioners contend that the industry's injured condition is evident in the declining trends in net operating profits, net sales volumes, profit-to-sales ratios, and capacity utilization. The allegations of injury and causation are supported by relevant evidence including U.S. Customs import data, lost sales, and pricing information. We have assessed the allegation and supporting evidence regarding material injury and causation, and have determined that this allegation is properly supported by accurate and adequate evidence and meets the statutory requirements for initiation (*Initiation Checklist*, Attachment II Re: Material Injury).

### Initiation of Antidumping Investigation

Based upon our examination of the petition on ARG windshields, and petitioners' responses to our supplemental questionnaires clarifying the petition, we have found that it meets the requirements of section 732 of the Act. Therefore, we are initiating an antidumping duty investigation to determine whether imports of ARG windshields from the PRC are being, or are likely to be, sold in the United States at less than fair value. Unless this deadline is extended, we will make our preliminary determination no later than 140 days after the date of this initiation.

### Distribution of Copies of the Petition

In accordance with section 732(b)(3)(A) of the Act, a copy of the public version of this petition has been provided to the representative of the government of the PRC.

### International Trade Commission Notification

We have notified the ITC of our initiation, as required by section 732(d) of the Act.

### Preliminary Determination by the ITC

The ITC will determine, no later than April 16, 2001, whether there is a reasonable indication that imports of ARG windshields from the PRC are causing material injury, or threatening

to cause material injury, to a U.S. industry. A negative ITC determination will result in the investigation being terminated; otherwise, this investigation will proceed according to statutory and regulatory time limits.

This notice is issued and published pursuant to section 777(i) of the Act. Effective January 20, 2001, Bernard T. Carreau is fulfilling the duties of the Assistant Secretary for Import Administration.

Dated: March 20, 2001.

**Bernard T. Carreau,**

*Deputy Assistant Secretary, Import Administration.*

## DEPARTMENT OF COMMERCE

### International Trade Administration

[A-560-805]

### Certain Cut-To-Length Carbon-Quality Steel Plate Products From Indonesia: Initiation of New Shipper Antidumping Duty Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**SUMMARY:** The Department of Commerce has received a request to conduct a new shipper review of the antidumping duty order on certain cut-to-length carbon-quality steel plate products from Indonesia. In accordance with section 751(a)(2)(B) of the Tariff Act of 1930, as amended, and 19 CFR 351.214(d), we are initiating a review for PT. Gunung Raja Paksi.

**EFFECTIVE DATE:** March 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** Barbara Wojcik-Betancourt or Brian Smith, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-0629 or (202) 482-1766, respectively.

### Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Tariff Act of 1930, as amended ("the Act"), are references to the provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all references to the Department of Commerce's ("the Department's") regulations are to 19 CFR Part 351 (2000).

### SUPPLEMENTARY INFORMATION:

### Background

On February 22, 2001, the Department received a request from PT. Gunung Raja Paksi ("Gunung"), pursuant to section 751(a)(2)(B) of the Act, and in accordance with 19 CFR 351.214, for a new shipper review of the antidumping duty order on certain cut-to-length carbon-quality steel plate products ("CTL Plate") from Indonesia. This order has a February anniversary month. See Notice of Amendment of Final Determinations of Sales at Less-Than-Fair Value and Antidumping Duty Orders: Certain Cut-To-Length Carbon-Quality Steel Plate Products from France, India, Indonesia, Italy, Japan, and the Republic of Korea, 65 FR 6585 (February 10, 2000). Therefore, this request is timely pursuant to 19 CFR 351.214(b)(2)(c).

In accordance with 19 CFR 351.214(b)(2)(i) and (iii)(A), Gunung has certified (1) that it did not export CTL Plate to the United States during the period of investigation ("POI"); and (2) that, since the investigation was initiated, it never has been affiliated with any exporter or producer who did export CTL Plate to the United States during the POI, including those not examined during the investigation. Also, in accordance with 19 CFR 351.214(b)(2)(iv), Gunung submitted documentation establishing (1) the date on which it first shipped the subject merchandise to the United States, (2) the volume of that shipment, and (3) the date of the first sale to an unaffiliated customer in the United States.

On February 24, 2001, Gunung submitted a certification clarifying that it is both the producer and exporter of the subject merchandise sold to the United States during the period February 1, 2000, through January 31, 2001.

Therefore, in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214(b), we are initiating the new shipper review of the antidumping duty order on CTL Plate from Indonesia for Gunung.

We will issue a questionnaire to Gunung, allowing approximately 37 days for response.

### Initiation of Review

In accordance with section 751(a)(2)(B)(ii) of the Act and 19 CFR 351.214(d)(1), we are initiating a new shipper review of the antidumping duty order on CTL Plate from Indonesia. In accordance with section 751(b)(iv) of the Act and 19 CFR 351.214(h)(i), we intend to issue the preliminary results of this review not later than 180 days after the date of publication of this

notice. All provisions of 19 CFR 351.214 will apply to Gunung throughout the duration of this new shipper review.

Antidumping duty proceeding	Period to be reviewed
Indonesia: Certain Cut-To-Length Carbon-Quality Steel Plate Products, A-560-805; PT. Gunung Raja Paksi .....	02/01/00-1/31/01

Pursuant to 19 CFR 351.214(g)(i)(A), the standard period of review ("POR") in a new shipper review, which like this one, was initiated in the month immediately following the anniversary month, is the twelve month period immediately preceding the anniversary month. Therefore, the POR for this new shipper review is February 1, 2000, through January 31, 2001.

Concurrent with publication of this notice, and in accordance with 19 CFR 351.214(e), we will instruct the Customs Service to suspend liquidation of any unliquidated entries of the subject merchandise from the relevant exporter or producer, and to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the subject merchandise exported by the above-listed company.

Interested parties that need access to proprietary information in this new shipper review should submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306.

This initiation and notice are in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.214.

Dated: March 12, 2001.

**Richard W. Moreland,**

*Deputy Assistant Secretary for Import Administration.*

**BILLING CODE 3510-DS-P**

## DEPARTMENT OF COMMERCE

### International Trade Administration

[C-580-818]

#### **Certain Cold-Rolled and Corrosion-Resistant Carbon Steel Flat Products From Korea: Amended Final Affirmative Countervailing Duty Determinations in Accordance with Decision Upon Remand**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of amendment to final affirmative countervailing duty

determinations in accordance with decision upon remand.

**SUMMARY:** On April 5, 2000, the Court of International Trade (CIT) remanded this case to recalculate duties owed in conformity with the Court of Appeals for the Federal Circuit's (CAFC's) decision in *AK Steel Corp., v. United States*, 193 F.3d 1367 (Fed. Cir. 1999) (*AK Steel*). In accordance with that remand order, on June 19, 2000, the Department issued its *Final Results of Redetermination on Remand Pursuant to LaClede Steel Co., et al. v. United States*, Slip Op. 00-36 (CIT April 5, 2000) (*Second Remand*). In the *Second Remand*, the Department recalculated the program rates, the company-specific total *ad valorem* and the country-wide rate.

**EFFECTIVE DATE:** March 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** Tipten Troidl or Richard Herring, AD/CVD Enforcement Office VI, Group II, Import Administration, U.S. Department of Commerce, Room 4012, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone (202) 482-2786.

**SUPPLEMENTARY INFORMATION:** In *British Steel P.L.C. v. United States*, 941 F. Supp. 119 (CIT 1996) (*British Steel IV*), the CIT upheld the Department's final determination in the *Final Affirmative Countervailing Duty Determinations and Final Negative Critical Circumstances Determinations: Certain Steel Products from Korea*, 58 FR 37338 (July 9, 1993) (*Steel Products from Korea*). Respondents challenged the CIT's ruling, and on October 1, 1999, the CAFC issued its decision in *AK Steel*, affirming-in-part and reversing-in-part the decision of the CIT in *British Steel IV*. In *AK Steel*, the CAFC affirmed that the Korean government exercised *de jure* control of the financial system to benefit the steel industry through 1984. *AK Steel*, 193 F.3d at 1371. However, the CAFC determined that the Department's conclusion that there is a causal nexus between the Korean government's control of the financial system and the domestic loans received by the steel industry from private sources after 1985 was unsupported by substantial evidence. *Id.* at 1376. The CAFC reversed the portion of the CIT's judgment in *British Steel IV* concerning

the imposition of countervailing duties based on domestic credit provided to the Korean steel industry by private Korean lenders. *Id.* In addition, the CAFC determined that loans from foreign lenders are not countervailable subsidies under the terms of the then existent statute. *Id.* at 1378. On April 5, 2000, the CIT remanded this case to the Department to recalculate duties owed in conformity with the CAFC's decision. In accordance with that order, on June 19, 2000, the Department issued the *Second Remand*, where the Department recalculated the program rates, the company-specific total *ad valorem*, and the country-wide rate.

#### **Remand Results**

In accordance with the Court's instructions, we recalculated respondents' net subsidy rates using a methodology which ensures that countervailing duties are not based on domestic credit provided to the Korean steel industry by private Korean lenders after 1984 and are not based on preferential access to foreign credit. In addition, we recalculated the country-wide rate by taking the weighted-average of all of the companies' company-specific program rates. We then determined whether each company's individual company-specific rate was significantly different from the country-wide rate. In the event a company's rate was significantly different, we assigned it an individually-calculated rate. Otherwise, we assigned the company the country-wide rate. Listed below are the rates for corrosion-resistant products in the first table and cold-rolled products in the second table.

The final countervailing duty rates for the 1991 period of investigation are as follows:

Manufacturer/Exporter of corrosion-resistant	Ad Valorem rate
Pohang Iron & Steel Co., Ltd. (POSCO).	1.15
Dongbu Steel Co., Ltd. (Dongbu)	1.15
Union Steel Manufacturing (Union).	<i>De minimis</i>
Country-Wide Rate .....	1.15

Manufacturer/Exporter of cold-rolled	Ad Valorem rate
Pohang Iron & Steel Co., Ltd. (POSCO).	1.45
Dongbu Steel Co., Ltd. (Dongbu) Union Steel Manufacturing (Union).	1.45
Country-Wide Rate .....	<i>De minimis</i> 1.45

The Department has been enjoined from issuing any liquidation instructions to the U.S. Customs Service (Customs) until the conclusion of litigation of this case. Litigation has been completed, and therefore the Department will issue liquidation instructions directly to Customs. The Department will instruct Customs to assess countervailing duties on all appropriate entries from December 7, 1992, the date of the publication of the *Preliminary Affirmative Countervailing Duty Determination and Alignment of Final Countervailing Duty Determinations: Certain Steel Products from Korea* (57 FR 57761), when we first suspended liquidation, through December 31, 1999; the period which would have been covered by the latest administrative review. We are issuing liquidation instructions through December 31, 1999, because, although there have been no administrative reviews covering the period through December 31, 1999, the Department has been enjoined from issuing liquidation instructions pending the resolution of this litigation. With the Court's affirmation of the results of the Department's *Second Remand*, we are now able to issue liquidation instructions for this time period.

Union Steel Manufacturing (Union) is excluded from both the cold-rolled and the corrosion-resistant orders because it received a *de minimis ad valorem* rate in each investigation. Therefore, we will instruct Customs to liquidate entries from Union without regard to countervailing duties. In addition, the order on cold-rolled carbon steel flat products was revoked effective January 1, 2000, pursuant to section 751(c) of the Tariff Act, as amended. *See Notice of Final Results of Sunset Review and Revocation of Countervailing Duty Order: Cold-Rolled Carbon Steel Products from Korea*, 65 FR 78469 (December 15, 2000). Therefore, we instructed Customs to terminate suspension of liquidation for all entries of subject merchandise without regard to CVD duties after January 1, 2000, and there are no cash deposit requirements in effect for cold-rolled steel products. However, the order on corrosion-

resistant carbon steel flat products remains in effect. Since there have not been any intervening administrative reviews with respect to the order on corrosion-resistant carbon steel flat products, the above rates will affect the cash deposit requirements currently in effect. The cash deposit requirement for corrosion-resistant carbon steel flat products will be 1.15 percent.

This amendment to the final results of countervailing duty determinations notice is in accordance with section 705(d) of the Tariff Act of 1930, as amended, (19 USC 1671d(d)) and section 351.210(c) of the Department's regulations. Effective January 20, 2001, Bernard T. Carreau is fulfilling the duties of the Assistant Secretary for Import Administration.

Dated: March 20, 2001.

**Bernard T. Carreau,**

*Deputy Assistant Secretary, Import Administration.*

## DEPARTMENT OF COMMERCE

### International Trade Administration

[C-560-806]

#### **Certain Cut-To-Length Carbon-Quality Steel Plate From Indonesia: Notice of Initiation of New Shipper Countervailing Duty Review**

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of Initiation of New Shipper Countervailing Duty Review.

**SUMMARY:** On February 22, 2001, the Department of Commerce (the Department) received a request to conduct a new shipper review of the countervailing duty order on certain cut-to-length carbon-quality steel plate from Indonesia. We are initiating this new shipper review in accordance with section 751(a)(2)(B) of the Tariff Act of 1930, as amended, (the Act), and 19 CFR 351.214(d).

**EFFECTIVE DATE:** March 27, 2001.

**FOR FURTHER INFORMATION CONTACT:** Stephanie Moore or Tipten Troidl, Office of AD/CVD Enforcement VI, Group II, Import Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone numbers (202) 482-3692 and 482-1767, respectively.

#### **Applicable Statute and Regulations**

Unless otherwise indicated, all citations to the Act are references to the

provisions effective January 1, 1995, the effective date of the amendments made to the Act by the Uruguay Round Agreements Act. In addition, unless otherwise indicated, all citations to the Department's regulations refer to the regulations codified at 19 CFR part 351 (2000).

#### **SUPPLEMENTARY INFORMATION:**

##### **Background**

On December 29, 1999, the Department published the final affirmative countervailing duty determination on certain cut-to-length carbon-quality steel plate from Indonesia. *See Final Affirmative Countervailing Duty Determination: Certain Cut-to-Length Carbon-Quality Steel Plate from Indonesia*, 64 FR 73155. On February 10, 2000, the Department published the countervailing duty order. *See Notice of Amended Final Determinations: Certain Cut-to-Length Carbon-Quality Steel Plate from India and the Republic of Korea; and Notice of Countervailing Duty Orders: Certain Cut-To-Length Carbon-Quality Steel Plate from France, India, Indonesia, Italy, and the Republic of Korea*, 65 FR 6587. The Department received a request from a cut-to-length carbon-quality steel plate producer and exporter in Indonesia, PT. Gunung Rajapaksi, to conduct a new shipper review of the countervailing duty order on certain cut-to-length carbon-quality steel plate from Indonesia. This request was made pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(b).

##### **Initiation of Review**

Pursuant to 19 CFR 351.214(b), in its request of February 1, 2001, PT. Gunung Rajapaksi certified that (1) it did not export the subject merchandise to the United States during the period of investigation (POI) (January 1, 1998 through December 31, 1998) and (2) that, since the investigation was initiated, it has never been affiliated with any exporter or producer who exported the subject merchandise to the United States during the POI. Also, in accordance with 19 CFR 351.214(b)(2), PT. Gunung Rajapaksi submitted documentation establishing (1) the date on which its merchandise was first entered, or withdrawn from warehouse, for consumption in the United States, (2) the volume of that first shipment and (3) the date of its first sale to an unaffiliated customer in the United States. In addition, the company provided a certification stating that it has informed the Government of Indonesia that it will be required to provide a full response to the

Department's countervailing duty questionnaire.

In accordance with section 751(a)(2)(B) of the Act and section 351.214(d) of the Department's regulations, we are initiating a new shipper review of the countervailing duty order on certain cut-to-length carbon-quality steel plate from Indonesia. In accordance with 19 CFR 351.214(h)(i), we intend to issue the preliminary results of this review not later than 180 days from the date of publication of this notice. In a countervailing duty proceeding, the standard period of review in a new shipper review is the same as that specified in 19 CFR 351.213(e)(2) for an administrative review. Although the first administrative review of this order covers July 26, 1999 through December 31, 2000, the new shipper, PT. Gunung Rajapaksi, had no shipments prior to January 1, 2000. The Department generally calculates subsidies on a calendar year basis, and PT. Gunung Rajapaksi had no shipments before 2000; therefore, we will review the subsidies received by the company only for calendar year 2000.

Countervailing duty proceeding	Period to be reviewed
Indonesia: Certain Cut-to-Length Carbon-Quality Steel Plate, C-560-806: PT. Gunung Rajapaksi .....	01/01/00-12/31/00

Concurrent with publication of this notice, and in accordance with 19 CFR 351.214(e), we will instruct the Customs Service to suspend liquidation of any unliquidated entries of the subject merchandise from the relevant exporter or producer, and to allow, at the option of the importer, the posting of a bond or security in lieu of a cash deposit for each entry of the merchandise exported by the company listed above, until the completion of the review.

Interested parties may submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306.

This initiation notice is in accordance with section 751(a) of the Act (19 U.S.C. 1675(a)) and 19 CFR 351.214.

Dated: March 19, 2001.

**Holly A. Kuga,**

*Acting Deputy Assistant Secretary for Import Administration, Group II.*

## DEPARTMENT OF COMMERCE

### National Institute of Standards and Technology

#### Public Meeting Announcing a Workshop for the Analysis of Modes of Operation for Symmetric Key Block Cipher Algorithms

**AGENCY:** National Institute of Standards and Technology, Commerce.

**ACTION:** Notice of public workshop.

**SUMMARY:** The National Institute of Standards and Technology (NIST) announces a workshop on modes of operation for securing data using symmetric key block cipher algorithms, such as the algorithm specified in the draft Advanced Encryption Standard (AES). Interested parties may suggest ideas or submit papers for discussion at the workshop, including proposals of modes of operation, to the address below.

**DATES:** The Second Modes of Operation Workshop will be held on August 24, 2001, from 9:00 a.m. to 5:00 p.m.

**ADDRESSES:** The workshop will be held at the Holiday Inn Santa Barbara, 5650 Calle Real, Goleta, California. Details regarding workshop registration will be available at the modes home page: <http://csrc.nist.gov/encryption/aes/modes/>. Suggestions, questions, comments or submissions should be sent to Modes of Operation Workshop, Attn: Elaine Barker, NIST, 100 Bureau Drive, Stop 8930, Gaithersburg, MD 20899-8930, or to [EncryptionModes@nist.gov](mailto:EncryptionModes@nist.gov).

**FOR FURTHER INFORMATION CONTACT:** For further information, contact [EncryptionModes@nist.gov](mailto:EncryptionModes@nist.gov) or one of the following: Elaine Barker, NIST, 100 Bureau Drive, Stop 8930, Gaithersburg, MD 20899-8930; telephone 301-975-2911; fax 301-948-1233 or via e-mail at [Elaine.barker@nist.gov](mailto:Elaine.barker@nist.gov); or Morris Dworkin 100 Bureau Drive, Stop 8930, Gaithersburg, MD 20899-8930; telephone 301-975-2354; fax 301-948-1233; or via e-mail at [morris.dworkin@nist.gov](mailto:morris.dworkin@nist.gov).

**SUPPLEMENTARY INFORMATION:** Block ciphers can be used as building blocks for encryption modes and for other modes for securing data. For example, block ciphers can be used in the construction of message authentication codes, hash algorithms, and random bit generators. With the advent of new block ciphers, such as the AES, there is an opportunity to update such modes of operation for current and future applications and technology.

The purpose of this **Federal Register** notice is to announce a workshop on

modes of operation for securing data using symmetric key block cipher algorithms, such as the algorithm specified in the draft Advanced Encryption Standard (AES). Prior to the workshop, suggestions and submissions from the public to aid NIST in planning an appropriate workshop and facilitate the comparison and analysis of block cipher modes of operation are welcome. The workshop will aid NIST in developing a standard or guideline that is secure and responsive to the needs of government, industry, and the public. NIST will consider for discussion at the workshop, at a minimum, the modes that were proposed at the October 20, 2000 public workshop on this topic. These are available at the modes home page, and NIST encourages public analysis of these modes.

The workshop may also consider other existing modes or their generalizations, or other modes that are proposed in comments and papers. It will be helpful to receive analysis and proposals for variations of counter mode, arising from alternative methods for prescribing the generation of counters. All suggestions received will be publicly available at the modes home page.

In order to encourage a common framework for comparison, a workshop approach to evaluate and analysis is available on the modes home page. NIST believes that participants in the upcoming workshop would be interested in comments that include statements regarding the intellectual property and/or licensing requirements of any proposed modes. Test vectors will also be useful, to provide analyzers of the modes a means to check the validity of their implementations. Fuller descriptions are available at the modes web site.

The results of the workshop will aid NIST's efforts to develop a complete "suite" of modes of operation from which individual modes can be selected to fit the needs of a wide range of applications and environments. The recommended modes are expected to support the eventual Advanced Encryption Standard (AES) and other block ciphers.

Submissions for discussion at the workshop should be made early enough to provide time to prepare the meeting agenda. Papers proposing new modes of operation are requested as soon as possible, to provide time for the analysis of the new proposals.

**Authority:** NIST's activities to develop computer security standards to protect sensitive (unclassified) systems are undertaken pursuant to specific responsibilities assigned to NIST in section

5131 of the Information Technology Management Reform Act of 1996 (P.L. 104-106), the Computer Security Act of 1987 (Pub. L. 100-235), and Appendix III to Office of Business Management Circular A-130.

Dated: March 19, 2001.

**Karen Brown,**

*Acting Director, NIST.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 032101D]

#### Gulf of Mexico Fishery Management Council; Public Meetings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Gulf of Mexico Fishery Management Council (Council) will convene a public meeting of the Red Drum Stock Assessment Panel (RDSAP).

**DATES:** The Council's RDSAP will meet on Monday, April 10, 2001 from 9:30 a.m. to 5:00 p.m.

**ADDRESSES:** The meeting will be held at the New Orleans Airport Hilton, 901 Airline Highway, Kenner, LA 70062; (504)465-1157.

*Council address:* Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

**FOR FURTHER INFORMATION CONTACT:** Peter B. Hood, Biologist, Gulf of Mexico Fishery Management Council; telephone: (813) 228-2815.

**SUPPLEMENTARY INFORMATION:** The RDSAP will convene to develop a standardized stock assessment methodology that can accept area (state)-specific data and work with these within the context of a Gulf stock assessment. In addition, the RDSAP will hear about new life history research conducted by Louisiana State University personnel and will consider available data on shrimp-trawl bycatch mortality and historic length composition of the commercial catch that may have not been used in the last stock assessment conducted by NMFS. A copy of the agenda can be obtained by calling the Council office at (813)228-2815.

Although other issues not on the agenda may come before the RDSAP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act,

those issues may not be the subject of formal action by the RDSAP during this meeting. The RDSAP's actions will be restricted to those issues specifically identified in the agenda listed as available by this notice.

#### Special Accommodations

The meeting is open to the public and is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) by April 3, 2001.

Dated: March 21, 2001.

**Richard W. Surdi,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

### National Oceanic and Atmospheric Administration

[I.D. 032101B]

#### Mid-Atlantic Fishery Management Council; Public Meeting

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public meeting.

**SUMMARY:** The Mid-Atlantic Fishery Management Council's (Council) Comprehensive Management Committee (CMC) will hold a public meeting.

**DATES:** The meeting will be held on Tuesday, April 10, 2001, from 10 a.m. until 5 p.m.

**ADDRESSES:** This meeting will be held at the Embassy Suites Hotel Philadelphia Airport, 9000 Bartram Avenue, Philadelphia, PA; (610) 561-1776.

*Council address:* Mid-Atlantic Fishery Management Council, 300 South New Street, Room 2115, Dover, DE 19904.

**FOR FURTHER INFORMATION CONTACT:** Daniel T. Furlong, Executive Director, Mid-Atlantic Fishery Management Council; (302) 674-2331, ext. 19.

**SUPPLEMENTARY INFORMATION:** The purpose of this meeting is to address the development of future committee activities and actions, and provide priority recommendations to the Council regarding its future activities and actions. For purposes of establishing Council priorities, the committee will review and discuss the following items:

1. Consider utility of ecosystem management;

2. Address implications of Marine Protected Areas (sea mapping data review);

3. Identify possible effort management scenarios;

4. Consider economic impacts of management measures (highest and best use of the resource);

5. Address managing a recovering fishery;

6. Analyze and redesign the fishery management infrastructure;

7. Address economic and social impacts of fishery management;

8. Achieve maximum harvest while minimizing impacts;

9. Achieve maximum harvest while using minimum fuel;

10. Manage harvest for the maximum economic benefit to the nation;

11. Develop a stable year-round infrastructure;

12. Resolve dilemma whereby fishery management can't support all traditional entities and/or communities;

13. Address utility of Individual Transferable Quota applications;

14. Consider conducting a management experiment whereby a selected number of boats fish under a particular format to test fundamental changes in management approaches;

15. Consider fishing as farming and manage activity accordingly;

16. Evaluate the extent and scope of the Mid-Atlantic fishery as to actual and potential capacity in terms of number of boats, number of permits, landings, etc.; and

17. Explore the notion of cumulative trip limits and associated impact on bycatch

Other issues and items that arise during this meeting can become part of the rating and ranking process that will ultimately be reduced to writing as a set of priorities to be recommended to the Council for its consideration and action.

Although other issues not contained in this agenda may come before this Council for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal Council action during this meeting. Council action will be restricted to those issues specifically identified in the agenda listed in this notice.

#### Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Joanna Davis at the Council Office (see **ADDRESSES**) at least 5 days prior to the meeting date.

Dated: March 21, 2001.

**Richard W. Surdi,**

*Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.*

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 031601B]

#### Endangered Species; Permits

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** NMFS has issued modification #1 to permit 1231 and modification #1 to permit 1201.

**SUMMARY:** Notice is hereby given of the following actions regarding permits for takes of endangered and threatened species for the purposes of scientific research and/or enhancement under the Endangered Species Act (ESA): NMFS has issued modification #1 to permit 1231 to Dr. Lewis Ehrhart, University of Central Florida and NMFS has issued modification #1 to permit #1201 to Dr. Thane Wibbels, University of Alabama at Birmingham.

**DATES:** Comments or requests for a public hearing on any of the new applications or modification requests must be received at the appropriate address or fax number no later than 5 p.m. eastern standard time on April 26, 2001.

**ADDRESSES:** The permits and related documents are available for review in the indicated office, by appointment: Endangered Species Division, F/PR3, 1315 East West Highway, Silver Spring, MD 20910 (phone: 301-713-1401, fax: 301-713-0376).

**FOR FURTHER INFORMATION CONTACT:** Terri Jordan, Silver Spring, MD (phone: 301-713-1401, fax: 301-713-0376, e-mail: Terri.Jordan@noaa.gov)

#### SUPPLEMENTARY INFORMATION:

##### Authority

Issuance of permits and permit modifications, as required by the Endangered Species Act of 1973 (16 U.S.C. 1531-1543) (ESA), is based on a finding that such permits/modifications: (1) are applied for in good faith; (2) would not operate to the disadvantage of the listed species which are the subject of the permits; and (3) are consistent with the purposes and policies set forth in section 2 of the

ESA. Scientific research and/or enhancement permits are issued under Section 10(a)(1)(A) of the ESA. Authority to take listed species is subject to conditions set forth in the permits. Permits and modifications are issued in accordance with and are subject to the ESA and NMFS regulations governing listed fish and wildlife permits (50 CFR parts 222-226).

Those individuals requesting a hearing on an application listed in this notice should set out the specific reasons why a hearing on that application would be appropriate (see **ADDRESSES**). The holding of such hearing is at the discretion of the Assistant Administrator for Fisheries, NOAA. All statements and opinions contained in the permit action summaries are those of the applicant and do not necessarily reflect the views of NMFS.

#### Species Covered in This Notice

The following species are covered in this notice:

##### Sea turtles

Threatened and endangered Green turtle (*Chelonia mydas*)

Endangered Hawksbill turtle (*Eretmochelys imbricata*)

Endangered Kemp's ridley turtle (*Lepidochelys kempii*)

Leatherback turtle (*Dermochelys coriacea*)

Threatened Loggerhead turtle (*Caretta caretta*)

#### Permits and Modified Permits Issued

##### Permit #1231

Notice was published on December 29, 2000 (65 FR 82977) that Dr. Lew Ehrhart, of the University of Central Florida applied for a modification to permit #1231. The applicant holds a five-year permit to take and conduct research on green, hawksbill, Kemp's ridley, Leatherback and loggerhead turtles living in the Indian River Lagoon Estuary of central Florida in Brevard and Indian River counties. The data provided by the study will include information regarding habitat requirements, seasonal distribution and abundance, movement and growth, feeding preferences, sex distribution and the prevalence and severity of fibropapilloma. Modification #1 authorizes attaching satellite tags to no more than eight large juvenile green turtles. Modification #1 to Permit 1231 was issued on March 9, 2001, authorizing take of listed species. Permit 1231 expires March 31, 2005.

##### Permit #1201

Notice was published on December 14, 2000 (65 FR 78146) that Dr. Thane Wibbels, University of Alabama at Birmingham applied for a modification to permit #1231. Modification #1 extends the expiration date of the permit from February 28, 2001 to February 28, 2003. The applicant possesses a two-year scientific research permit to take up to 50 green (*Chelonia mydas*), 100 Kemp's ridley (*Lepidochelys kempii*) and 100 loggerhead (*Caretta caretta*) turtles annually in large mesh tangle nets. The purpose of the research is to evaluate the abundance, movements, and location of sea turtles in the estuaries of Alabama, and to potentially identify specific foraging areas. The presence of juvenile sea turtles in estuaries represents a potential conflict for fisheries and coastal development. However, there is little information about this issue for the estuaries of Alabama. The proposed research is a prerequisite to determining if the estuaries of Alabama represent a developmental habitat for sea turtles, and will benefit the species by providing information critical to developing a prudent management strategy which protects sea turtles while sustaining the productivity of the fisheries. Modification #1 to Permit 1201 was issued on March 9, 2001, authorizing take of listed species. Permit 1201 expires February 28, 2003.

Dated: March 20, 2001.

**Phil Williams,**

*Acting Chief, Endangered Species Division, Office of Protected Resources, National Marine Fisheries Service.*

BILLING CODE 3510-22-S

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

[I.D. 031401C]

#### Marine Mammals; File No. 731-1509.

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Issuance of permit amendment.

**SUMMARY:** Notice is hereby given that Permit No. 731-1509-01, issued to Robin W. Baird, Ph.D., C201-2747 S. Kihei Road, Kihei, HI 96753, was amended.

**ADDRESSES:** (See **SUPPLEMENTARY INFORMATION**)

**FOR FURTHER INFORMATION CONTACT:** Jill Lewandowski or Trevor Spradlin, 301/713-2289.

**SUPPLEMENTARY INFORMATION:** On November 20, 2000, notice was published in the **Federal Register** (65 FR 69738) that a request for a scientific research permit amendment to take various cetacean species had been submitted by the above-named individual. After the comment period, the request was changed to only include an increase in suction cup tagging and incidental harassment takes of North Pacific humpback whales in Hawaii. All other permit amendment requests included in the above-referenced **Federal Register** notice were postponed from consideration until a later date.

The subject permit amendment has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The permit has been amended to increase the authorized takes for: (1) suction cup tagging of North Pacific humpback whales in Hawaii from 15 to 35 individual animals annually; and (2) incidental harassment of North Pacific humpback whales in Hawaii from 25 to 50 individual animals annually.

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Documents may be reviewed in the following locations:

Permits and Documentation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13130, Silver Spring, MD 20910 (301/713-2289);

## COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

### Adjustment of Import Limits for Certain Cotton and Man-Made Fiber Textile Products Produced or Manufactured in the Dominican Republic

March 21, 2001.

**AGENCY:** Committee for the Implementation of Textile Agreements (CITA).

**ACTION:** Issuing a directive to the Commissioner of Customs adjusting limits.

**EFFECTIVE DATE:** March 28, 2001.

**FOR FURTHER INFORMATION CONTACT:** Naomi Freeman, International Trade Specialist, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4212. For information on the quota status of these limits, refer to the Quota Status Reports posted on the bulletin boards of each Customs port, call (202) 927-5850, or refer to the U.S. Customs website at <http://www.customs.gov>. For information on embargoes and quota re-openings, refer to the Office of Textiles and Apparel website at <http://otexa.ita.doc.gov>.

#### SUPPLEMENTARY INFORMATION:

**Authority:** Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854); Executive Order 11651 of March 3, 1972, as amended.

The current limits for certain categories are being adjusted for swing and carryforward.

A description of the textile and apparel categories in terms of HTS numbers is available in the **CORRELATION:** Textile and Apparel Categories with the Harmonized Tariff Schedule of the United States (see **Federal Register** notice 65 FR 82328, published on December 28, 2000). Also

see 65 FR 75671, published on December 4, 2000.

**D. Michael Hutchinson,**

*Acting Chairman, Committee for the Implementation of Textile Agreements.*

#### Committee for the Implementation of Textile Agreements

March 21, 2001.

Commissioner of Customs,  
*Department of the Treasury, Washington, DC 20229.*

Dear Commissioner: This directive amends, but does not cancel, the directive issued to you on November 28, 2000, by the Chairman, Committee for the Implementation of Textile Agreements. That directive concerns imports of certain cotton, wool and man-made fiber textile products, produced or manufactured in the Dominican Republic and exported during the twelve-month period which began on January 1, 2001 and extends through December 31, 2001.

Effective on March 28, 2001, you are directed to adjust the current limits for the following categories, as provided for under the Uruguay Round Agreement on Textiles and Clothing:

Category	Adjusted twelve-month limit <sup>1</sup>
342/642 .....	720,760 dozen.
347/348/647/648 .....	3,025,976 dozen of which not more than 1,485,592 dozen shall be in Categories 647/648.

<sup>1</sup>The limits have not been adjusted to account for any imports exported after December 31, 2000.

The Committee for the Implementation of Textile Agreements has determined that these actions fall within the foreign affairs exception of the rulemaking provisions of 5 U.S.C. 553(a)(1).

Sincerely,

D. Michael Hutchinson,

*Acting Chairman, Committee for the Implementation of Textile Agreements.*

[Docket No. RP00-632-002]

**Dominion Transmission, Inc.; Notice of Compliance Filing**

March 21, 2001.

Take notice that on March 16, 2001, Dominion Transmission Inc. (DTI) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, the following revised tariff sheets, with an effective date of April 1, 2001:

Fifth Revised Sheet No. 31  
Fifth Revised Sheet No. 32  
Fourth Revised Sheet No. 33  
Fourth Revised Sheet No. 35

DTI states that the tariff sheets are filed to comply with Commission's October 31, 2000 Order which accepted for filing DTI's revised rates implementing DTI's annual TCRA mechanism, and suspended their effectiveness on the earlier of April 1, 2001 or a date set by subsequent Commission order, subject to refund and to the outcome of the technical conference. To afford additional time for

settlement discussions, DTI proposes to defer moving the rates into effect at this time. DTI anticipates that it will not file to move the revised rates into effect if a settlement in principle is reached prior to the April 1, 2001. DTI reserves its right to file a motion at least one day prior to April 1, 2001 to place the rates into effect.

DTI states that copies of its letter of transmittal and enclosures have been served upon DTI's customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). ### Federal Energy Regulatory Commission

[Docket No. RP96-320-038]

#### Gulf South Pipeline Company, LP; Notice of Negotiated Rate Filing

**DATES:** March 21, 2001.

Take notice that on March 15, 2001, Gulf South Pipeline Company, LP (Gulf South) filed with the Commission a contract between Gulf South and the following company for disclosure of a recently negotiated rate transaction. As shown on the contract, Gulf South requests an effective date of April 1, 2001.

Special Negotiated Rate Between Gulf South Pipeline Company, LP and AEP Energy Services, Inc.

Gulf South states that it has served copies of this filing upon all parties on the official service list created by the Secretary in this proceeding.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestant parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. ## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. EC01-80-000, et al.]

#### Minnesota Power, Inc., et al.; Electric Rate and Corporate Regulation Filings

March 21, 2001.

Take notice that the following filings have been made with the Commission:

##### 1. Minnesota Power, Inc. and Superior Water, Light and Power Company

[Docket No. EC01-80-000]

Take notice that on March 15, 2001, Minnesota Power, Inc. (MP) and its wholly-owned subsidiary, Superior Water, Light and Power Company (SWLP) tendered for filing an application under section 203 of the Federal Power Act to transfer operational control of their jurisdictional transmission facilities to the Midwest Independent Transmission System Operator, Inc. (Midwest ISO) at the time the Midwest ISO becomes operational.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

##### 2. American Transmission Systems, Inc., Ohio Edison Company, The Cleveland Electric Illuminating Company, The Toledo Edison Company

[Docket No. ER01-1560-000]

Take notice that on March 15, 2001, American Transmission Systems, Inc., tendered for filing on behalf of itself and Ohio Edison Company, The Cleveland Electric Illuminating Company, and The Toledo Edison Company, a Service Agreement for Network Integration Service and Operating Agreement for the Network Integration Transmission Service under the Ohio Retail Electric Program with Green Mountain Energy Company pursuant to the American

Transmission Systems, Inc. Open Access Tariff. This agreement will enable the party to obtain Network Integration Service under the Ohio Retail Electric Program in accordance with the terms of the Tariff.

The proposed effective date under this agreement is April 1, 2001.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

### 3. Maine Electric Power Company

[Docket No. ER01-1562-000]

Take notice that on March 15, 2001, Maine Electric Power Company (MEPCO) tendered for filing a service agreement for Short-Term Firm Point-to-Point Transmission Service entered into with NRG Power Marketing Inc. Service will be provided pursuant to MEPCO's Open Access Transmission Tariff, designated rate schedule MEPCO—FERC Electric Tariff, Original Volume No. 1, as supplemented, Original Service Agreement No. 66.

MEPCO requests that the agreement become effective March 15, 2001.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

### 4. Oklahoma Gas and Electric Company

[Docket No. ER01-1567-000]

Take notice that on March 16, 2001, Oklahoma Gas and Electric Company filed an executed service agreement for long-term power sales pursuant to OG&E's FERC Electric Tariff, Original Volume No. 3, Sheet Nos. 1-6 as required by the Commission in Oklahoma Gas and Electric Co., 81 FERC ¶ 61,333 (1997).

OG&E requests that the agreement be effective as of May 1, 2001.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

### 5. Oklahoma Gas and Electric Company

[Docket No. ER01-1568-000]

Take notice that on March 16, 2001, Oklahoma Gas and Electric Company (OG&E) filed to cancel its Electric Service Agreement with Municipal Energy Agency of Mississippi, which was designated Service Agreement No. 96 under OG&E FERC Electric Tariff, First Revised Volume No. 1, pursuant to section 35.15 of the Federal Energy Regulatory Commission's (Commission) regulations.

This filing has been served upon the affected purchaser.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**6. Wisconsin Electric Power Company**

[Docket No. ER01-1569-000]

Take notice that on March 16, 2001, Wisconsin Electric Power Company (Wisconsin Power) tendered for filing with the Federal Energy Regulatory Commission (Commission) a Notice of Cancellation of Service Agreement No. 74 and No. 80 under Wisconsin Electric's Coordination Sales Tariff (CST), FERC Electric Tariff First Revised Volume No. 2.

Wisconsin Electric requests an effective date of April 15, 2001.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**7. Florida Power & Light Company**

[Docket No. ER01-1571-000]

Take notice that on March 16, 2001, Florida Power & Light Company (FPL) tendered for filing proposed service agreements with Allegheny Energy Supply Company, L.L.C. for Non-Firm transmission service and Firm transmission service under FPL's Open Access Transmission Tariff.

FPL requests that the proposed service agreements become effective on March 16, 2001.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**8. PJM Interconnection, L.L.C., Allegheny Power System operating companies: Monongahela Power Company, The Potomac Edison Company, West Penn Power Company**

[Docket No. RT01-98-000]

Take notice that on March 15, 2001, PJM Interconnection, L.L.C. (PJM) and the Allegheny Power System operating companies: Monongahela Power Company, The Potomac Edison Company, and West Penn Power Company (hereinafter referred to collectively as Allegheny), jointly submitted a filing to establish PJM as the Regional Transmission Organization (RTO) for Allegheny pursuant to an arrangement known as "PJM West."

PJM and Allegheny propose an effective date of January 1, 2002.

A copy of this filing was served on all state public utility commissions having jurisdiction over Allegheny or over any of the existing PJM transmission owners, on all PJM members, and on Allegheny's transmission customers, in addition to being posted on the PJM website.

*Comment date:* April 20, 2001, in accordance with Standard Paragraph E at the end of this notice.

**9. Consumers Energy Company**

[Docket No. ER01-318-003]

Take notice that on March 15, 2001, Consumers Energy Company (Consumers) tendered for filing the following tariff sheets as part of its FERC Electric Tariff No. 6 in compliance with the February 28, 2001 order issued in this proceeding:

Second Sub Original Sheet No. 134 and Sub Original Sheet No. 161. The sheets are to have an effective date of November 1, 2000. Copies of the filed agreement were served upon the Michigan Public Service Commission and those on the official service list in this proceeding.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**10. St. Joseph Light & Power Co.**

[Docket No. ER01-742-001]

Take notice that on March 15, 2001, UtiliCorp United Inc., tendered for filing a compliance filing in this docket.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**11. Duke Electric Transmission, a division of Duke Energy Corporation**

[Docket No. ER01-794-001]

Take notice that on March 16, 2001, Duke Electric Transmission (Duke ET), a division of Duke Energy Corporation tendered for filing a compliance filing in the above-referenced docket.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**12. Wisconsin Electric Power Company**

[Docket No. ER01-846-001]

Take notice that on March 15, 2001, Wisconsin Electric Power Company (Wisconsin Electric) tendered for filing a refund report for a refund made to Oconto Falls on January 8, 2001. The refund is for the amount of distribution demand charges collected above newly reduced demand charges, with interest, for the period May 15, 1996 through December 14, 2000.

Copies of the filing have been served on Oconto Falls, the Michigan Public Service Commission, and the Public Service Commission of Wisconsin.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**13. Northeast Utilities Service Company**

[Docket No. ER01-947-001]

Take notice that on March 15, 2001, Northeast Utilities Service Company (NUSCO), on behalf of The Connecticut Light and Power Company, tendered for

filing an Interconnection Agreement by and between The Connecticut Light and Power Company and Connecticut Resources Recovery Authority (Agreement), dated December 22, 2000.

On March 2, 2001, the Commission issued a letter order in the above-captioned docket accepting the Agreement for filing on the condition that NUSCO re-file the Agreement within thirty days of the date of the letter order as a designated service agreement in compliance with the guidelines set forth in Southwest Power Pool, 92 FERC ¶ 61,109 (2000). NUSCO has designated the Agreement accordingly.

NUSCO seeks an effective date of the closing of the South Meadow transaction.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**14. Deseret Generation & Transmission Co-operative, Inc.**

[Docket No. ER01-1186-001]

Take notice that on March 15, 2001, Deseret Generation & Transmission Co-operative, Inc. (Deseret), tendered for filing First Revised Service Agreement No. 7 to Deseret's FERC Electric Tariff, Original Volume No. 3, amending a Confirmation Agreement between Deseret and Utah Associated Municipal Power Systems (UAMPS) for a firm power sale pursuant to the Western Systems Power Pool Agreement (WSPP Agreement).

Deseret requests an effective date of February 1, 2001.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**15. Duke Energy Moapa, LLC**

[Docket No. ER01-1208-001]

Take notice that on March 15, 2001, Duke Energy Moapa, LLC (Duke Moapa) tendered for filing a revision to its proposed FERC Electric Tariff, Original Volume No. 1 (Tariff), clarifying that all market information shared between Duke Moapa and any public utility with a franchised service territory that is an affiliate of Duke Moapa will be disclosed simultaneously to the public. No other changes were made to the Tariff or to Duke Moapa's Application for Order Accepting Rates for Filing, Determining Rates to be Just and Reasonable, and Granting Certain Waivers and Pre-Approvals, filed in Docket No. ER01-1208-000 on February 8, 2001.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**16. Florida Power & Light Company**

[Docket No. ER01-1236-001]

Take notice that on March 15, 2001, Florida Power & Light Company (FPL) tendered for filing a revision to the February 14, 2001 filing to show compliance with Order No. 614, FERC Stats. & Regs. ¶ 31,096 (2000).

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**17. Mississippi Power Company**

[Docket No. ER01-1555-000]

Take notice that on March 15, 2001, Mississippi Power Company and Southern Company Services, Inc., its agent, tendered for filing a transmission Interconnection Agreement with Duke Energy Enterprises, LLC, pursuant to Southern Operating Companies' Open Access Transmission Tariff (FERC Electric Tariff, Fourth Revised Volume No. 5).

Copies of the filing were served upon Duke Energy Enterprises, LLC, the Mississippi Public Service Commission, and the Mississippi Public Utilities Staff.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**18. Consumers Energy Company**

[Docket No. ER01-1556-000]

Take notice that on March 15, 2001, Consumers Energy Company (Consumers) tendered for filing a letter Agreement between Distributed Power Systems, LLC [Generator] and Consumers, dated March 9, 2001 (Agreement). Under the Agreement, Consumers is to undertake certain pre-construction activities associated with providing an electrical connection between Consumers' transmission system and a generating plant to be built by Generator.

Consumers requested that the Agreements be allowed to become effective March 9, 2001.

Copies of the filing were served upon Generator and the Michigan Public Service Commission.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**19. PPL Wallingford Energy LLC**

[Docket No. ER01-1559-000]

Take notice that on March 15, 2001, PPL Wallingford Energy LLC (PPL Wallingford) tendered for filing with the Commission an application for authority to sell electric energy, capacity and specified ancillary services at market-based rates.

PPL Wallingford requests that the Commission permit its Market-Based Rate Tariff to become effective one business day from date of filing.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**20. Alliant Energy Corporate Services Inc.**

[Docket No. ER01-1563-000]

Take notice that on March 15, 2001, Alliant Energy Corporate Services Inc. (ALTM), tendered for filing a signed Service Agreement under ALTM's Market Based Wholesale Power Sales Tariff (MR-1) between itself and PECO Energy Company (PECO).

ALTM respectfully requests a waiver of the Commission's notice requirements, and an effective date of March 6, 2001.

*Comment date:* April 5, 2001, in accordance with Standard Paragraph E at the end of this notice.

**21. Southwest Power Pool, Inc.**

[Docket No. ER01-1564-000]

Take notice that on March 15, 2001, Southwest Power Pool, Inc. (SPP), tendered for filing an executed service agreement for Firm Point-to-Point Transmission Service with American Electric Power (Transmission Customer).

SPP seeks an effective date of April 1, 2001 for this service agreement.

A copy of this filing was served on the Transmission Customer.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**22. California Independent System Operator Corporation**

[Docket No. ER01-1565-000]

Take notice that on March 16, 2001, the California Independent System Operator Corporation, tendered for filing a Meter Service Agreement for ISO Metered Entities between the ISO and Los Alamos Energy, LLC for acceptance by the Commission.

The ISO states that this filing has been served on Los Alamos Energy, LLC and the California Public Utilities Commission.

The ISO is requesting waiver of the 60-day notice requirement to allow the Meter Service Agreement for ISO Metered Entities to be made effective March 15, 2001.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**23. California Independent System Operator Corporation**

[Docket No. ER01-1566-00]

Take notice that on March 16, 2001, the California Independent System Operator Corporation, tendered for filing a Participating Generator Agreement between the ISO and Los Alamos Energy, LLC for acceptance by the Commission.

The ISO states that this filing has been served on Los Alamos Energy, LLC and the California Public Utilities Commission.

The ISO is requesting waiver of the 60-day notice requirement to allow the Participating Generator Agreement to be made effective March 15, 2001.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**24. Northern Iowa Windpower LLC**

[Docket No. ER01-1570-000]

Take notice that on March 16, 2001, Northern Iowa Windpower LLC (Northern Iowa) petitioned the Commission for authority to sell electricity at market-based rates under Section 205(a) of the Federal Power Act, 16 U.S.C. § 824d(a); for the granting of certain blanket approvals and for the waiver of certain Commission regulations. Northern Iowa is a limited liability company that proposes to engage in the wholesale sale of electric power in the state of Iowa.

*Comment date:* April 6, 2001, in accordance with Standard Paragraph E at the end of this notice.

**Standard Paragraph**

E. Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions or protests should be filed on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of these filings are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Comments, parties, and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR

385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

**David P. Boergers,**  
Secretary.

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### Notice of Application for Amendment of License and Soliciting Comments, Motions To Intervene, and Protests

March 21, 2001.

Take notice that the following application has been filed with the Commission and is available for public inspection:

- a. *Application Type*: Non-Project Use of Project Lands and Waters.
- b. *Project No.*: 2210-065.
- c. *Date Filed*: February 21, 2001.
- d. *Applicant*: American Electric Power (AEP).

e. *Name of Project*: Smith Mountain.

f. *Location*: The project is located on the Roanoke River, in Bedford, Pittsylvania, Franklin, and Roanoke Counties, Virginia.

g. *Filed Pursuant to*: Federal Power Act, 16 U.S.C. 791(a), 825(r) and 799 and 801.

h. *Applicant Contact*: Frank M. Simms, Fossil and Hydro Operations, American Electric Power, 1 Riverside Plaza, Columbus, Ohio 43215, (614) 223-2918.

i. *FERC Contact*: Any questions on this notice should be addressed to Mrs. Heather Campbell at (202) 219-3097.

j. *Deadline for filing comments and or motions*: April 28, 2001.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington DC 20426. Comments, protests, and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

k. *Description of Request*: Please include the specific project number (P-2210-065) on any comments or motions filed.

American Electric Power proposes to permit Waters Edge, Inc. to construct 124 boat slips within the project boundary to provide access to the project reservoir for residents of the Bridgewater Pointe community located adjacent to, but outside, the project

boundary and for patrons of the community's restaurants. In addition, a 1,200-foot-long boardwalk along the water's edge would be built to allow pedestrian access between the marina area and other waterfront amenities. A 250-foot-long floating breakwater would be installed to protect docked boats from wave action.

1. *Location of the Application*: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 208-1371. This filing may be viewed on <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item (h) above.

m. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

n. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

o. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "RECOMMENDATIONS FOR TERMS AND CONDITIONS", "PROTEST", OR "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

p. Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If any agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an

agency's comments must also be sent to the Applicant's representatives.

**David P. Boergers,**  
Secretary.

BILLING CODE 6717-01-M

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### Notice of Request for Extension of Time To Commence and Complete Project Construction and Soliciting Comments, Motions To Intervene, and Protests

March 21, 2001.

Take notice that the following application has been filed with the Commission and is available for public inspection:

a. *Application Type*: Request for Extension of Time.

b. *Project No.*: 9025-013.

c. *Date Filed*: February 9, 2001.

d. *Applicant*: Hancock Hydro, Inc.

e. *Name and Location of Project*: The Hancock Creek Hydroelectric Project is to be located on Hancock Creek in King County, Washington. The project does not occupy federal or tribal land.

f. *Filed Pursuant to*: Public Law 105-189 and sections 4.200(c) and 4.202(a) of the Commission's regulations.

g. *Applicant Contact*: Mr. Frank W. Frisk, Jr., Suite 125, 1054 31st Street, NW, Washington, DC, (202) 333-8433.

h. *FERC Contact*: Any questions on this notice should be addressed to Tom Papsidero at (202) 219-2715.

i. *Deadline for filing comments and/or motions*: April 27, 2001.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Motions to intervene, comments and protests may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

Please include the project number (P-9025-013) on any motions to intervene, comments or motions filed.

j. *Description of Proposal*: The Applicant requests an extension of time to June 21, 2003, to commence construction, as authorized by Public Law 105-190. In support of its request, the Applicant details several attempts to obtain power purchase agreements or other arrangements that could support project financing. The Applicant notes

that it filed on January 30, 2001, an application for amendment of the project license (Project No. 9025-005) proposing to increase the capacity from 6.3 megawatts to 7.4 megawatts, at a cost likely to be lower per megawatt, which should make the project more attractive to potential power purchasers. The Applicant states further that it has obtained most pre-construction permits and approvals, and is confident that all remaining approvals can be obtained in time to meet the new construction deadline. The deadline for completion of construction would be extended to June 21, 2005.

k. *Locations of the application:* A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 208-1371. The application may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (Call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item g above.

l. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "PROTEST", OR "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. A copy of any motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

David P. Boergers,  
Secretary.

BILLING CODE 6717-01-M

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

#### Notice of Application Accepted for Filing and Soliciting Motions To Intervene, Protests, and Comments

March 21, 2001.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 11882-000.

c. *Date filed:* February 6, 2001.

d. *Applicant:* Symbiotics, LLC.

e. *Name of Project:* Hebgen Dam Project.

f. *Location:* On the Madison River, in Gallatin County, Montana. Would develop additional capacity to the site already licensed under FERC No. 2188.

g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Mr. Brent L. Smith, President, Northwest Power Services, Inc., P.O. Box 535, Rigby, ID 83442, (208) 745-8630.

i. *FERC Contact:* Robert Bell, (202) 219-2806.

j. *Deadline for filing motions to intervene, protests and comments:* 60 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Comments, recommendations, interventions, and protests may be electronically filed via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission

to serve a copy of that document on each person in the official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Project:* The proposed project would consist of: (1) An existing 625-foot-long, 73.5-foot-high earth filled dam with concrete core wall; (2) an existing reservoir having a surface area of 13,000 acres with a storage capacity of 386,000 acre-feet and normal water surface elevation of 6,543.87 feet msl; (3) a proposed Intake structure; (4) a proposed 560-foot-long, 11.5-foot-diameter steel penstock; (5) a proposed powerhouse containing one generating unit with an installed capacity of 6.7 MW; (6) a proposed 8-mile-long 46 kV transmission line; and (7) appurtenant facilities.

The project would have an annual generation of 46 GWh that would be sold to a local utility.

l. A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 208-1371. The application may be viewed on <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item h above.

m. Preliminary Permit—Anyone desiring to file a competing application for preliminary permit for a proposed project must submit the competing application itself, or a notice of intent to file such an application, to the Commission on or before the specified comment date for the particular application (see 18 CFR 4.36). Submission of a timely notice of intent allows an interested person to file the competing preliminary permit application no later than 30 days after the specified comment date for the particular application. A competing preliminary permit application must conform with 18 CFR 4.30(b) and 4.36.

n. Preliminary Permit—Any qualified development applicant desiring to file a competing development application must submit to the Commission, on or before a specified comment date for the particular application, either a competing development application or a notice of intent to file such an application. Submission of a timely notice of intent to file a development application allows an interested person to file the competing application no

later than 120 days after the specified comment date for the particular application. A competing license application must conform with 18 CFR 4.30(b) and 4.36.

o. Notice of intent—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit, if such an application may be filed, either a preliminary permit application or a development application (specify which type of application). A notice of intent must be served on the applicant(s) named in this public notice.

p. Proposed Scope of Studies under Permit—A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit would be 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on the results of these studies, the Applicant would decide whether to proceed with the preparation of a development application to construct and operate the project.

q. Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

r. Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. An additional copy must be sent to Director, Division of Hydropower Administration and Compliance, Federal Energy Regulatory Commission, at the above-mentioned

address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

s. Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

#### Notice of Application Accepted for Filing and Soliciting Motions To Intervene, Protests, and Comments

March 21, 2001.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

a. *Type of Application:* Preliminary Permit.

b. *Project No.:* 11885-000.

c. *Date filed:* February 7, 2001.

d. *Applicant:* Edward Navickis.

e. *Name of Project:* Bear River Canal Power Project.

f. *Location:* Would utilize the existing Bear River Canal and Halsey Forebay of Pacific Gas & Electric Company's Drum-Spaulding Project No. 2310, in Placer County, California.

g. *Field Pursuant to:* Federal Power Act, 16 U.S.C. 791(a)-825(r).

h. *Applicant Contact:* Mr. Edward T. Navickis, P.O. Box 910, Penn Valley, CA 95946, (916) 432-9226.

i. *FERC Contact:* James Hunter, (202) 219-2839.

j. *Deadline for filing motions to intervene, protests, and comments:* 60 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Motions to intervene, protests, and comments may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web

site at <http://www.ferc.fed.us/efi/doorbell.htm>.

Please include the project number (P-11885-000) on any comments or motions filed.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person in the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. *Description of Project:* The proposed project, using Pacific Gas & Electric Company's existing Bear River Canal and Halsey Forebay, would consist of: (1) An intake structure adjacent to the canal with an invert elevation of 1,760 feet; (2) a 200-foot-long, 72-inch-diameter buried penstock; (4) a powerhouse containing a generating unit with an installed capacity of 600 kilowatts; (5) a 200-foot-long, 12-kV transmission line; and (6) appurtenant facilities. The project would have an annual generation of 3.78 GWh that would be sold to Pacific Gas & Electric Company or a power distributor.

l. A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426, or by calling (202) 208-1371. The application may be viewed on <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item h above.

m. Preliminary Permit—Anyone desiring to file a competing application for preliminary permit for a proposed project must submit the competing application itself, or a notice of intent to file such an application, to the Commission on or before the specified comment date for the particular application (see 18 CFR 4.36). Submission of a timely notice of intent allows an interested person to file the competing preliminary permit application no later than 30 days after the specified comment date for the particular application. A competing preliminary permit application must conform with 18 CFR 4.30(b) and 4.36.

n. Preliminary Permit—Any qualified development applicant desiring to file a competing development application must submit to the Commission, on or before a specified comment date for the particular application, either a

competing development application or a notice of intent to file such an application. Submission of a timely notice of intent to file a development application allows an interested person to file the competing application no later than 120 days after the specified comment date for the particular application. A competing license application must conform with 18 CFR 4.30(b) and 4.36.

**o. Notice of intent**—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit, if such an application may be filed, either a preliminary permit application or a development application (specify which type of application). A notice of intent must be served on the applicant(s) named in this public notice.

**p. Proposed Scope of Studies under Permit**—A Preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit would be 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on the results of these studies, the Applicant would decide whether to proceed with the preparation of a development application to construct and operate the project.

**q. Comments, Protests, or Motions to Intervene**—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

**r. Filing and Service of Responsive Documents**—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", or "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, Federal Energy Regulatory

Commission, 888 First Street, NE., Washington, DC 20426. An additional copy must be sent to Director, Division of Hydropower Administration and Compliance, Federal Energy Regulatory Commission, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

**s. Agency Comments**—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

**David P. Boergers,**  
*Secretary.*

[FR Doc. 01-7462 Filed 3-26-01; 8:45 am]

**BILLING CODE 6717-01-M**

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. RM98-10-008; Docket No. RM98-12-008]

#### Regulation of Short-Term Natural Gas Transportation Services; Regulation of Interstate Natural Gas Transportation Services; Notice of Petition

March 21, 2001.

Take notice that on March 16, 2001, the American Gas Association (AGA) filed a reply to the February 1, 2001, Gas Industry Standards Board (GISB) report and a petition for clarification and a directive from the Commission regarding the requirement for capacity release scheduling equality.

AGA noted that in Order No. 637 the Commission amended the regulations to achieve scheduling equality between released capacity and interstate pipeline services. Because its standards were inconsistent with this regulatory change, GISB undertook to amend its capacity release standards. On February 2, 2001, GISB filed a report with the Commission dated February 1, 2001, which indicated GISB could not arrive at a consensus agreement on standards addressing "flowing day recalls" of capacity releases. AGA responded to that report. In addition, AGA expressed concern that no pipeline is yet adhering to the requirement for scheduling equality for released capacity.

AGA petitioned the Commission to rectify noncompliance with Order No. 637. Specifically, AGA requested the Commission to:

- Direct pipelines to immediately implement tariff changes incorporating timelines and procedures to allow released capacity, including recalled released capacity, to be nominated at any of the nomination deadlines currently in place.
- Provide clarification as to the impact on and instruction for revising GISB standards to reflect the Commission's scheduling equality policy.
- Consider implementing the use of a contract pre-approval process for capacity release transactions to facilitate scheduling equality.
- Require pipelines to effectuate recalls by providing recall notifications.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before April 16, 2001. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Comments, protests and interventions may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

**David P. Boergers,**  
*Secretary.*

**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-6958-9]

**Agency Information Collection Activities: Proposed Collection; Comment Request; State Small Business Stationary Source Technical and Environmental Compliance Assistance Program (SBTCP) Under the Clean Air Act as Amended in 1990****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following proposed and continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): State Small Business Stationary Source Technical and Environmental Compliance Assistance Program Annual Reporting Form, ICR Number 1748.02, OMB Control Number 2060-0337, expiration date 09/30/01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

**DATES:** Comments must be submitted on or before May 29, 2001.

**ADDRESSES:** Small Business Division/ Small Business Ombudsman, U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., (MC-1808), Washington, DC 20460; 202-260-0490. Interested persons may receive a copy of the ICR without charge by writing or calling the above address. The ICR is also posted on the Small Business Environmental Assistance homepage at <http://www.smallbiz-enviroweb.org>.

**FOR FURTHER INFORMATION CONTACT:** Angela Suber, Small Business Division, telephone: 202-260-7205/facsimile: 202-401-2302/e-mail: [suber.angela@epa.gov](mailto:suber.angela@epa.gov).

**SUPPLEMENTARY INFORMATION:**

*Affected Entities:* Entities potentially affected by this action are those which are in one of the following state or territory offices, including the District of Columbia, Puerto Rico, and the Virgin Islands: environmental agency, commerce or economic development department, governor's office, or ombudsman's office.

*Title:* State Small Business Stationary Source Technical and Environmental Compliance Assistance Program Annual Reporting Form, ICR Number 1748.02, OMB Control Number 2060-0337, expiration date 09/30/01.

*Abstract:* As part of the Clean Air Act Amendments of 1990, The U.S. Congress included, as part of section 507, the requirement that each state establish a Small Business Stationary Source Technical and Environmental Compliance Assistance Program (SBTCP) to help small businesses comply with the Act. EPA must provide the Congress with periodic reports from the EPA Small Business Ombudsman (SBO) on these programs, including their effectiveness, difficulties encountered, and other relevant information. Each state assistance program will submit requested information to EPA for compilation and summarization.

This collection of information is mandatory pursuant to section 507 (a), (d), and (e) of the Clean Air Act as amended in 1990, Public Law 101-549, November 15, 1990. This Act directs EPA to monitor the SBTCPs and to provide a report to Congress. This responsibility has been delegated to the EPA SBO. Response to the collection is not required to obtain or retain a benefit. Information in the annual Report to Congress is aggregated and is not of a confidential nature. None of the information collected by this action results in or requests sensitive information of any nature from the states or territories.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

The EPA would like to solicit comments to:

(i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

The EPA SBO shall report the results of the collection to Congress, including an objective summary of conclusions and recommendations relative to funding or other environmental legislative considerations. This information will also be provided to Congressional staffs and committees interested in environmental matters and small business assistance activities at the state and local levels. In addition, this information will be provided to small business trade associations for their further use in promoting the utility and viability of assistance programs to EPA Headquarters and Regional Offices, to other federal agencies such as the Small Business Administration, to all

state small business ombudsmen and small business assistance program directors, state environmental commissioners, state Governors, and other interested state environmental officials.

Both state and federal officials have used the information not only to evaluate how well the programs are functioning, but also in planning how to render more effective, less costly and more timely assistance. The constantly evolving nature of these programs means that information of this nature should be made available to decision-makers, whether they be at federal, state, or local levels.

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

We will form a workgroup of approximately 15 to 20 state ombudsmen and/or small business assistance program directors to review and discuss changes to the existing Reporting Form. Previously, we discussed the Reporting Form with the state ombudsmen and/or small business assistance program directors from 6 of the 53 section 507 reporting programs (*i.e.*, the 50 states, the District of Columbia, and the territories of Puerto Rico and the Virgin Islands). A general consensus was taken to establish how long it would take to complete the Reporting Form and who would likely be responsible from each state to complete the task.

From the pretest, the information requested was confirmed to be, for the most part, the normal program activity information the SBTCPs collect on an on-going basis. Where a few state environmental agencies have delegated or contracted management of their technical assistance program, this information is part of the project management responsibilities. The requested reporting information typically would be compiled by either an entry level technical person or maintained by experienced clerical staff.

On an average, the requested information can be compiled readily and maintained by the state within 80 hours (assuming the state organization continuously maintains their records in a reasonably efficient manner) using a mix of management, entry level technical staff, and experienced clerical staff. The 80-hour forecast includes 4 hours for record keeping and 76 hours for reporting the required information.

The respondent information will be compiled electronically and summarized by an outside contractor and clerical staff. EPA will provide

oversight of all contractor activities. An estimated 274 EPA hours and 1,564.5 contractor hours will be required to complete the Report to Congress.

(iii) Enhance the quality, utility, and clarity of the information to be collected.

Revisions to the Reporting Form were conducted by representatives from the SBTCPs, who have been reporting on the activities of their programs since 1995 and are familiar with these reporting requirements. They provided extensive review of the proposed Reporting Form and suggested modifications, which then were incorporated into the Reporting Form.

Pretesting of the original collection instrument was accomplished by consolidating all comments received following the states' review of a draft of the Reporting Form and an extensive discussion of the Form at the annual National Small Business Ombudsman and Small Business Assistance Program Conference.

(iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).

Each year, every state and territory will have access to a password protected on-line Reporting Form. This allows the states and territories to complete their Report and submit it to EPA's Small Business Division/SBO via the internet.

**Burden Statement:** This annual information collection involves responses from all 50 states, 2 territories (Puerto Rico and the Virgin Islands), and the District of Columbia, for a total of 53 respondents.

The requested information, for the most part, is collected as normal program activity information for the SBTCPs. On an average, the information can be compiled and maintained by the state within 80 hours annually (assuming the state organization continuously maintains their records in a reasonably efficient manner). The 80 hour per state estimate includes 4 hours for recordkeeping and 76 hours for reporting.

For each respondent, the annual cost burden is estimated to be \$2,102.76. Total capital and start-up cost component annualized over its expected useful life is \$0. Total operations and maintenance is estimated at \$0, and the cost for purchase of services is estimated at \$0.

Total annual burden for the 53 respondents is estimated at 4,240 hours at a cost of \$111,446.28.

Federal burden is estimated to be 274 hours at an annual labor cost of \$14,085.32. Total capital and start-up costs are \$0. Total operations and maintenance costs are estimated to be \$11,506. The cost to purchase services is \$75,000.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: March 20, 2001.

**Karen V. Brown,**

*Small Business Ombudsman/Director, Small Business Division, Office of Business and Community Innovation, Office of Policy, Economics and Innovation.*

**BILLING CODE 6560-50-P**

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-6957-6]

### Agency Information Collection Activities: Proposed Collection; Comment Request; Reporting and Recordkeeping Requirements for Universal Waste Handlers and Destination Facilities

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Reporting and Recordkeeping Requirements for Universal Waste Handlers and Destination Facilities, ICR Number 1597.04, OMB Control Number 2050-0145, Expiration Date 9/30/01 (the general universal waste ICR). This ICR also consolidates the Reporting and Recordkeeping Requirements for Generators of Hazardous Waste Lamps ICR (formerly having ICR Number

1699.02, OMB Control Number 2050-0164, Expiration Date 9/30/02) into the general universal waste rule ICR. EPA is doing this consolidation because hazardous waste lamps are a new federal universal waste and their reporting and recordkeeping requirements are covered in the requirements for universal waste handlers. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

**DATES:** Comments must be submitted on or before May 29, 2001.

**ADDRESSES:** Commenters must send an original and two copies of their comments referencing docket number F-2001-UWHP-FFFFF to RCRA Docket Information Center, Office of Solid Waste (5305G), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Ave, NW., Washington, DC 20460. Hand deliveries of comments should be made to the Arlington, VA, address listed below. Comments may also be submitted electronically by sending electronic mail through the Internet to: [rcra-docket@epamail.epa.gov](mailto:rcra-docket@epamail.epa.gov). Comments in electronic format should also be identified by the docket number F-2001-UWHP-FFFFF. All electronic comments must be submitted as an ASCII file avoiding the use of special characters and any form of encryption.

The official record for this action will be kept in paper form. Accordingly, EPA will transfer all comments received electronically into paper form and place them in the official record, which will also include all comments submitted directly in writing. The official record is the paper record maintained in the RCRA Information Center (the RIC address is listed above in this section).

Commenters should not submit any confidential business information (CBI) electronically. An original and two copies of CBI must be submitted under separate cover to: RCRA CBI Document Control Officer, Office of Solid Waste (5303W), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Ave, NW., Washington, DC 20460.

Public comments and supporting materials are available for viewing in the RCRA Information Center (RIC), located at Crystal Gateway I, First Floor, 1235 Jefferson Davis Highway, Arlington, VA. The RIC is open from 9:00 a.m. to 4:00 p.m. Monday through Friday, excluding federal holidays. To review docket materials, it is recommended that the public make an appointment by calling (703) 603-9230.

The public may copy a maximum of 100 pages from any regulatory docket at no charge. Additional copies are \$0.15/page. This notice and the supporting documents that detail the Reporting and Recordkeeping Requirements for Universal Waste Handlers and Destination Facilities ICR are also available electronically. See the **SUPPLEMENTARY INFORMATION** section for information on accessing them.

**FOR FURTHER INFORMATION CONTACT:** Tab Tesnau by phone at (703) 605-0636, by facsimile at (703) 308-8638, by mail at the Office of Solid Waste (5303W), U.S. Environmental Protection Agency, Ariel Rios Building, 1200 Pennsylvania Ave, NW., Washington, DC 20460, or by e-mail at [tesnau.tab@epamail.epa.gov](mailto:tesnau.tab@epamail.epa.gov).

**SUPPLEMENTARY INFORMATION:**

*Internet Availability:* Today's notice and the supporting documents that detail the Reporting and Recordkeeping Requirements for Generators of Hazardous Waste Lamps ICR are available on the Internet. Follow these instructions to access this information electronically:

Path: /pub/epaoswer

*Affected entities:* Entities potentially affected by this action are waste handlers and destination facilities that collect and manage certain hazardous waste batteries, certain hazardous waste pesticides, hazardous waste mercury-containing thermostats, and hazardous waste lamps.

*Title:* Reporting and Recordkeeping Requirements for Universal Waste Handlers and Destination Facilities, OMB Control number 2050-0145, EPA ICR number 1597.04, expiration date: 9/30/2001.

*Abstract:* EPA promulgated the Universal Waste standards at 40 CFR part 273. The Universal Waste standards govern the collection and management of widely generated wastes known as universal wastes. EPA has identified hazardous waste batteries, certain hazardous waste pesticides, hazardous waste thermostats, and hazardous waste lamps as universal wastes. Other wastes may be added to the universal waste federal program if EPA determines such regulation is appropriate. Additional wastes can be added by states as a "state-only" waste. The regulations allow universal waste handlers to manage universal wastes under a reduced set of regulatory requirements. Destination facilities, on the other hand, (i.e., those facilities accepting universal

waste for treatment, recycling, or disposal) remain subject to their regular requirements. The universal waste regulations at part 273 were promulgated by EPA under the authority of Subtitle C in RCRA.

This information collection targets the collection of information for the following reporting or recordkeeping requirements: notification, labeling and marking, storage time limitations, off-site shipments, tracking of universal waste shipments, and petitions to include other waste categories at the federal level. It is necessary for EPA to collect universal waste information to ensure that universal waste is collected and managed in a manner that is protective of human health and the environment. EPA requires, among other things, Large Quantity Handlers of Universal Waste to notify the Agency of their universal waste management activities so that EPA can obtain general information on these handlers, and to facilitate enforcement of the regulations at part 273. In addition, EPA requires universal waste handlers to record the date on which they begin storing universal waste on-site to ensure that such accumulation is performed responsibly. EPA also requires certain universal waste handlers to track receipt of universal waste shipments as well as shipments sent off-site to ensure that universal waste is properly treated, recycled, and disposed. Finally, the submission of petitions in support of regulating other wastes or waste categories under part 273 helps EPA (1) to compile information on these wastes, and (2) to determine whether regulation as a universal waste is appropriate.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15.

*EPA would like to solicit comments to:* (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) Enhance the quality, utility, and clarity of the information to be collected; and

(iv) Minimize the burden of the collection of information on those who are to respond, including through the

use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

*Burden Statement:* The bottom line annual respondent burden is estimated to be 218,168 hours with a cost of approximately \$10,285,683. The bottom line burden to respondents over the three-year period covered by this ICR is estimated at 654,504 hours, with a cost of approximately \$30,857,049.

The average public recordkeeping burden for Small Quantity Handlers of Universal Waste (SQHUWs) under this collection of information is estimated to be 1.4 hours per year. This estimate includes time for reading the regulations, labeling universal waste, and maintaining records demonstrating the length of storage. The reporting burden for SQHUWs (for submitting notices of rejected or illegal universal waste shipments) is expected to be negligible. The recordkeeping burden for Large Quantity Handlers of Universal Waste (LQHUWs) under this collection of information is estimated to be 2.8 hours per year. This estimate includes time for reading the regulations, labeling universal waste, maintaining records demonstrating the length of storage, and maintaining records of universal waste received and sent. The reporting burden for LQHUWs is estimated to be 0.5 hours per year. This estimate includes time for notifying EPA of universal waste management, and preparing and submitting notices of rejected or illegal universal waste shipments. The recordkeeping burden for destination facilities is estimated to be 183.1 hours per year. This estimate includes time for reading the regulations and maintaining records of universal waste received. The reporting burden for destination facilities is estimated to be 18.4 hours per year. This estimate includes time for preparing and submitting notices of rejected or illegal universal waste shipments.

This ICR estimates a total respondent universe of 129,839 LQHUWs, SQHUWs, and destination facilities (118,367 SQHUWs, 11,414 LQHUWs, and 58 Destination Facilities). The frequency of response is on an as needed basis.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information,

processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: March 14, 2001.

**Elizabeth A Cotsworth,**

BILLING CODE 6560-50-P

## ENVIRONMENTAL PROTECTION AGENCY

[OPP-50883; FRL-6774-2]

### Experimental Use Permit; Bt Corn Receipt of Application

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** This notice announces receipt of an application 68467-EUP-2 from Mycogen Seeds c/o Dow AgroSciences and Pioneer Hi-Bred International requesting to amend and extend an experimental use permit (EUP) for the plant-pesticide *Bacillus thuringiensis* Cry1F protein and the genetic material necessary for its production (plasmid insert PHI 8999) in corn. The Agency has determined that the application may be of regional and national significance. Therefore, in accordance with 40 CFR 172.11(a), the Agency is soliciting comments on this application.

**DATES:** Comments, identified by docket control number OPP-50883, must be received on or before April 26, 2001.

**ADDRESSES:** Comments and data may be submitted by mail, electronically, or in person. Please follow the detailed instructions for each method as provided in Unit I. of the

**SUPPLEMENTARY INFORMATION.** To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP-50883 in the subject line on the first page of your response.

**FOR FURTHER INFORMATION CONTACT:** By mail: Mike Mendelsohn, Biopesticides and Pollution Prevention Division (7511C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (703) 308-8715; e-mail address: mendelsohn.mike@epa.gov.

**SUPPLEMENTARY INFORMATION:**

## I. General Information

### A. Does this Action Apply to Me?

This action is directed to the public in general. This action may, however, be of interest to those persons interested in plant-pesticides or those persons who are or may be required to conduct testing of chemical substances under the Federal Food, Drug, and Cosmetic Act (FFDCA), or the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

### B. How Can I Get Additional Information, Including Copies of this Document and Other Related Documents?

1. *Electronically.* You may obtain electronic copies of this document, and certain other related documents that might be available electronically, from the EPA Internet Home Page at <http://www.epa.gov/>. To access this document, on the Home Page select "Laws and Regulations," "Regulations and Proposed Rules," and then look up the entry for this document under the "**Federal Register**—Environmental Documents." You can also go directly to the **Federal Register** listings at <http://www.epa.gov/fedrgstr/>.

2. *In person.* The Agency has established an official record for this action under docket control number OPP-50883. The official record consists of the documents specifically referenced in this action, and other information related to this action, including any information claimed as Confidential Business Information (CBI). This official record includes the documents that are physically located in the docket, as well as the documents that are referenced in those documents. The public version of the official record does not include any information claimed as CBI. The public version of the official record, which includes printed, paper versions of any electronic comments submitted during an applicable comment period is available for inspection in the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA, from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305-5805.

### C. How and to Whom Do I Submit Comments?

You may submit comments through the mail, in person, or electronically. To ensure proper receipt by EPA, it is imperative that you identify docket control number OPP-50883 in the subject line on the first page of your response.

1. *By mail.* Submit your comments to: Public Information and Records Integrity Branch (PIRIB), Information Resources and Services Division (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460.

2. *In person or by courier.* Deliver your comments to: Public Information and Records Integrity Branch (PIRIB), Information Resources and Services Division (7502C), Office of Pesticide Programs (OPP), Environmental Protection Agency, Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. The PIRIB is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The PIRIB telephone number is (703) 305-5805.

3. *Electronically.* You may submit your comments electronically by e-mail to: [opp-docket@epa.gov](mailto:opp-docket@epa.gov), or you can submit a computer disk as described above. Do not submit any information electronically that you consider to be CBI. Avoid the use of special characters and any form of encryption. Electronic submissions will be accepted in WordPerfect 6.1/8.0 or ASCII file format. All comments in electronic form must be identified by docket control number OPP-50883. Electronic comments may also be filed online at many Federal Depository Libraries.

### D. How Should I Handle CBI That I Want to Submit to the Agency?

Do not submit any information electronically that you consider to be CBI. You may claim information that you submit to EPA in response to this document as CBI by marking any part or all of that information as CBI. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2. In addition to one complete version of the comment that includes any information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public version of the official record. Information not marked confidential will be included in the public version of the official record without prior notice. If you have any questions about

CBI or the procedures for claiming CBI, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

*E. What Should I Consider as I Prepare My Comments for EPA?*

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the notice.
7. Make sure to submit your comments by the deadline in this document.
8. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

## II. Background

Mycogen Seeds c/o Dow AgroSciences (9330 Zionsville Road, Indianapolis, IN 46268) has requested to amend and extend an EUP for the plant-pesticide *Bacillus thuringiensis* Cry1F protein and the genetic material necessary for its production (plasmid insert PHI 8999) in corn.

Mycogen Seeds has requested to test 19,363 acres in Alabama, Colorado, Delaware, Florida, Georgia, Hawaii, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Puerto Rico, South Carolina, Tennessee, Texas, Virginia, Washington, and Wisconsin.

Acreage is requested for maize breeding and observation nursery, maize academic efficacy trials, maize agronomic observation trials, maize efficacy trial, maize production research trials, maize demonstration trials, herbicide tolerance study, insect resistance management studies, seed production research, and grain production for feeding trials.

The EUP is to be genetically contained. Corn grown during the EUP is not to be used for food or feed, unless the pending temporary tolerance petition (OG6112) is granted and the

EUP is amended to allow food use. The pending temporary tolerance petition (OG6112) published in the **Federal Register** on June 15, 2000 (65 FR 37545) (FRL-6558-6).

## III. What Action is the Agency Taking?

Following the review of the Mycogen Seeds application and any comments and data received in response to this notice, EPA will decide whether to issue or deny the EUP amendment and extension request for this EUP program, and if issued, the conditions under which it is to be conducted. Any issuance of an EUP will be announced in the **Federal Register**.

## IV. What is the Agency's Authority for Taking this Action?

The Agency's authority for taking this action is under FIFRA section 5.

### List of Subjects

Environmental protection,  
Experimental use permits.

Dated: March 15, 2001.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-6956-5]

### South Bay Asbestos Superfund Site Proposed Notice of Administrative Settlement

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice; request for public comment.

**SUMMARY:** In accordance with Section 122(I) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980, as amended by the Superfund Amendments and Reauthorization Act of 1986 ("CERCLA"), 42 U.S.C. 9600 *et seq.*, notice is hereby given that a proposed administrative cost recovery settlement concerning the South Bay Asbestos Site in San Jose, California was executed by the Agency on September 14, 2000. The proposed administrative settlement would resolve, pursuant to CERCLA section 122(h), the liability of Cargill Corporation, the previous owner of the Highway 237 Disposal Site (formerly known as Marshland Landfill) for past and future costs of the United States with respect to the South Bay Asbestos

Area Superfund Site. Under the terms of the agreement, Cargill would pay EPA \$50,000.

For thirty (30) calendar days following the date of publication of this notice, EPA will receive written comments relating to the proposed settlement. If requested prior to the expiration of this public comment period, EPA will provide an opportunity for a public meeting in the effected area. EPA's response to any comments received will be available for public inspection at the U.S. Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA 94105.

**DATES:** Comments must be submitted on or before April 26, 2001.

**ADDRESSES:** Comments should be sent to Kara Christenson, Assistant Regional Counsel (ORC-2), Office of Regional Counsel, USEPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105.

### Availability

The proposed settlement is available for public inspection at the U.S. Environmental Protection Agency, 75 Hawthorne Street, San Francisco, CA 94105. A copy of the proposed settlement may be obtained from Kara Christenson, Assistant Regional Counsel (ORC-2), Office of Regional Counsel, U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105. Comments should reference "Cargill, South Bay Asbestos Area Superfund Site," and "Docket No. 2000-10".

**FOR FURTHER INFORMATION CONTACT:** Kara Christenson, Assistant Regional Counsel (ORC-2), Office of Regional Counsel, U.S. EPA Region IX, 75 Hawthorne Street, San Francisco, CA 94105; E-mail: christenson.kara@epa.gov; phone: (415) 744-1330.

Dated: February 23, 2001.

**John Kemmerer,**

*Acting Director, Superfund Division, EPA, Region IX.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Agency for Toxic Substances and Disease Registry

### Solicitation of Interested Persons To Serve as Special Consultants to the Community/Tribal Subcommittee of the ATSDR Board of Scientific Counselors

**AGENCY:** Agency for Toxic Substances and Disease Registry(ATSDR),

Department of Health and Human Services (HHS).

**ACTION:** Notice.

**SUMMARY:** This notice announces ATSDR's intent to fill 2 special consultant vacancies on the Community/Tribal Subcommittee of ATSDR's Board of Scientific Counselors.

#### Background

The CTS provides the Board with input, recommendations, and advice on ATSDR's community and tribal community involvement practices, programs, and policies from community/tribal members who live near hazardous waste sites or are otherwise affected by hazardous substances in the community environment. The Subcommittee was established, at the request of the Assistant Administrator, ATSDR, to provide the agency, through its Board of Scientific Counselors, (BSC) with a formal vehicle for citizen input.

**FOR FURTHER INFORMATION CONTACT:** To express interest in serving as a special consultant and obtain additional information, contact: Ruby Palmer, Designated Federal Official, CT/S ATSDR (E-54), 1600 Clifton Road, NE, Atlanta, GA 30033 Toll-free 1-888-422-8737.

**SUPPLEMENTARY INFORMATION:** ATSDR conducts public health-related activities at hazardous waste sites and releases, pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA or Superfund) (42 U.S.C. 9601 *et seq.*). ATSDR established a BSC which is chartered under the Federal Advisory Committee Act (5 U.S.C. app.). In 1994, the chair of the BSC, ATSDR, selected three community/tribal representatives as consultants to ensure that its deliberations included the views of community and tribal members who live around Superfund and other hazardous waste sites and are representatives of groups that work at local, regional, or national locations with these affected communities. To supplement the work of these consultants, nine additional community/tribal representatives were added.

Four members of the BSC serve on this Subcommittee, one of which is appointed as chair. The Community/Tribal Subcommittee's (CTS) objective is to provide the BSC, ATSDR, with the views and recommendations of community/tribal representatives on ATSDR's community involvement programs, practices, policies, and other

relevant issues impacting communities and tribes who live near Superfund and hazardous waste sites. The Subcommittee reviews ATSDR's community involvement programs, and policies; provides advice, findings, and recommendations to the Board on these issues; and bring broad-based community/tribal involvement issues to the attention of the Board.

The Community and Tribal Subcommittee presents its findings, advice, and recommendations to the full Board. The BSC will discuss and review reports of the Subcommittee and may forward recommendations to the Agency for action. The Community/Tribal Subcommittee will periodically meet and/or hold conference calls.

A group consisting of special consultants, the CTS Chair and the Designated Federal Official will review the applications and develop a short list to be recommended to the Agency for consideration. The Agency, in consultation with the BSC chair will then select the two community representatives to fill the vacancies, with special consideration given to the recommended slate.

Accordingly, any person who lives in a community affected by an National Priority List or other hazardous waste site; who is a representative of a group that works at local, regional, or national locations with these communities; or who wishes to be considered for serving as a special consultant on this Subcommittee should write or call the ATSDR contact person listed above to obtain additional information.

Application: Please complete the following application and return it to the address listed by Monday, April 2, 2001.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities for both CDC and ATSDR.

Dated: March 21, 2001.

**John Burckhardt,**

*Acting Director, Management Analysis and Services Office, Centers for Disease Control and Prevention.*

#### Application

##### Community and Tribal Subcommittee

Agency for Toxic Substances and Disease Registry (ATSDR)

March 1, 2001.

Please answer the following questions (as legibly as possible to ensure that photocopies of it are readable) by *Monday, April 2, 2001*. Please send to:

Ruby Palmer, Phone: Toll-free 1-888-422-8737, Designated Federal Official, CT/S Fax: (404) 639-4699, ATSDR (E-54) 1600 Clifton Road, NE Atlanta, GA 30033.

Name: \_\_\_\_\_  
Street Address: \_\_\_\_\_  
City, State, Zip: \_\_\_\_\_  
Telephone: \_\_\_\_\_  
Fax: \_\_\_\_\_  
E-mail: \_\_\_\_\_  
Employment and employer(s) for last five years: \_\_\_\_\_

Please check the corresponding box for your response to the following questions; please keep any written responses brief.

(1) Do you live in a community or on a reservation that contains a site contaminated with toxic substances or are you a member of an organization that works on environmental health/toxic substance issues with such affected communities/tribes? (Check all that apply)

\_\_\_\_ Yes, live in such a community/reservation  
\_\_\_\_ Yes, member of such an organization  
\_\_\_\_ No

If you checked no, please skip to question #9. ATSDR Community and Tribal Subcommittee Application, continued:

(2) What type of site is it?  
\_\_\_\_ National Priorities List (Superfund NPL)

\_\_\_\_ Department of Energy  
\_\_\_\_ Department of Defense  
\_\_\_\_ State  
\_\_\_\_ Not sure/don't know

Other \_\_\_\_\_

(3) What is the status of site cleanup?

\_\_\_\_ Cleanup underway  
\_\_\_\_ No work done  
\_\_\_\_ Cleanup completed  
\_\_\_\_ Not sure/don't know

(4) How would you characterize your community/tribe?

\_\_\_\_ Rural  
\_\_\_\_ Suburban  
\_\_\_\_ Urban  
\_\_\_\_ Tribal Lands  
\_\_\_\_ Not sure/ don't know

(5) How would you characterize the racial/ethnic makeup of your community/tribe?

\_\_\_\_ White  
\_\_\_\_ African-American  
\_\_\_\_ Hispanic  
\_\_\_\_ Asian  
\_\_\_\_ Native American  
\_\_\_\_ Mixed/no group predominate  
\_\_\_\_ Not sure/don't know

(6) How would you characterize the economic status of your community/tribe?

\_\_\_\_ Lower income  
\_\_\_\_ Middle income  
\_\_\_\_ Upper income  
\_\_\_\_ Not sure/don't know

(7) Do you believe your personal/family health has been harmed due to exposure to toxic substances in the environment?

\_\_\_\_ Yes  
\_\_\_\_ Possibly

No  
 (7a) If you are a Tribal member, is contamination of traditional food supply thought to be a problem?  
 Yes  
 Possibly  
 No  
 ATSDR Community and Tribal Subcommittee Application, continued:  
 (8) Are you a member of a community/tribal organization focused on the site?  
 Yes  
 No  
 (8a) If yes, please describe \_\_\_\_\_  
 .  
 (9) Are you familiar with the Agency for Toxic Substances and Disease Registry (ATSDR)?  
 Yes  
 No  
 (10) Have you either sought assistance from, or previously been involved with ATSDR?  
 Yes  
 No  
 (11) As ATSDR sponsored a health assessment or health study in your community?  
 Yes  
 No  
 Not sure/don't know  
 (12) Have you attended other national or regional ATSDR meetings in the last 5 years?  
 Yes  
 No  
 (13) Are you a member of an organization—other than the one you may have noted in question 8—focused on toxic substances/environmental health?  
 Yes  
 No  
 (13a) If yes, what is the scope of the organization?  
 Local  
 Regional  
 National  
 (13b) Please describe the organization \_\_\_\_\_  
 \_\_\_\_\_  
 (14) How many years have you been involved in toxic substance/environmental health issues?  
 Years  
 (15) How many hours per month on average can you make available for telephone calls, periodic meetings, and review of materials?  
 Hours per month  
 (16) Have you in the past or are you now participating in an advisory group similar in structure to the Community/Tribal Subcommittee?  
 Yes  
 No  
 (16a) If yes, please describe the group and your role. \_\_\_\_\_  
 \_\_\_\_\_  
 (17) *Qualifications/Background:* Please briefly note your knowledge of/ experience with toxic substance/environmental health issues. List relevant self-education/research, workshops attended, and/or formal training. \_\_\_\_\_

(18) *Current Issues:* What are your views on ATSDR's current approach to working with communities/tribes? \_\_\_\_\_  
 \_\_\_\_\_  
 \_\_\_\_\_

(19) *Expectations:* What type of input, recommendations, and advice do you envision the Subcommittee providing, and what type of outreach would you intend to do in order to formulate your recommendations to the Board of Scientific Counselors? \_\_\_\_\_

### Centers for Disease Control and Prevention

#### Healthcare Infection Control Practices Advisory Committee (HICPAC): Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (P.L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following meeting.

*Name:* Healthcare Infection Control Practices Advisory Committee.

*Times and Dates:* 8:30 a.m.–5 p.m., May 7, 2001. 8:30 a.m.–4 p.m., May 8, 2001.

*Place:* Atlanta Marriott Century Center, 2000 Century Boulevard, NE, Atlanta, Georgia 30345.

*Status:* Open to the public, limited only by the space available.

*Purpose:* The Committee is charged with providing advice and guidance to the Secretary, the Assistant Secretary for Health, the Director, CDC, and the Director, National Center for Infectious Diseases (NCID), regarding (1) the practice of hospital infection control; (2) strategies for surveillance, prevention, and control of infections (e.g., nosocomial infections), antimicrobial resistance, and related events in settings where healthcare is provided; and (3) periodic updating of guidelines and other policy statements regarding prevention of healthcare-associated infections and healthcare-related conditions.

*Matters To Be Discussed:* Agenda items will include a review of proposed revisions to the Guideline for Prevention of Healthcare-Associated Pneumonia, the Guideline for Isolation Precautions in Hospitals, the Guideline for Sterilization and Disinfection, the Guideline for Hand Hygiene; public comments of the Draft Guideline for Environmental Controls in Healthcare Settings; and updates on CDC activities of interest to the Committee.

Agenda items are subject to change as priorities dictate.

#### Contact Person for More Information:

Michele L. Pearson, M.D., Executive Secretary, HICPAC, Hospital Infections Program, NCID, CDC, 1600 Clifton Road, NE., M/S A-07, Atlanta, Georgia 30333, telephone 404/639-6439.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: March 21, 2001.

#### Board of Scientific Counselors, National Institute for Occupational Safety and Health: Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), the Centers for Disease Control and Prevention (CDC) announces the following committee meeting:

*Name:* Board of Scientific Counselors, National Institute for Occupational Safety and Health (BSC, NIOSH).

*Time and Date:* 9 a.m.–3:30 p.m., April 17, 2001.

*Place:* The Washington Court, 525 New Jersey Avenue, NW., Washington, DC 20001-1527.

*Status:* Open to the public, limited only by the space available. The meeting room accommodates approximately 50 people.

*Purpose:* The BSC, NIOSH is charged with providing advice to the Director, NIOSH on NIOSH research programs. Specifically, the Board shall provide guidance on the Institute's research activities related to developing and evaluating hypotheses, systematically documenting findings, and disseminating results.

*Matters To Be Discussed:* Agenda items include a report from the Acting Director of NIOSH; Response to the IOM Report on Safe Work in the 21st Century; Report on Workplace Violence Intervention Research Workshop; Update on NIOSH Health Care Worker Activities; Interim Report of BSC Beryllium Subcommittee; NIOSH Communications Activities; NIOSH Activities in the Maritime Industry; and future activities of the Board.

Agenda items are subject to change as priorities dictate.

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Food and Drug Administration

#### Epidemiology Research Needs Related to the Radiofrequency Energy From Wireless Phones

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notice of public meeting.

The Food and Drug Administration (FDA) is announcing a public meeting to discuss the health effects of radio frequency (RF) emissions from wireless phones. Currently, the scientific literature relating to the health effects of low level exposure to RF does not demonstrate the existence of any health risk from wireless phones. National and international scientific experts will discuss the need for research into the incidence, distribution, and control of any adverse effects related to RF energy from wireless phones. This meeting is being convened as part of the Cooperative Research and Development Agreement (CRADA) between FDA's Center for Devices and Radiological Health and the Cellular Telecommunications Industry Association (CTIA).

**Date and Time:** The meeting will be held on April 18, 2001, 8:30 a.m. to 5 p.m. and on April 19, 2001, 8:30 a.m. to 5 p.m.

**Location:** The meeting will be held at The Regal Cincinnati Hotel, Colonnada B, second floor, 150 West Fifth St., Cincinnati, OH.

**Contact:** Russell D. Owen, Center for Devices and Radiological Health, Food and Drug Administration (HFZ-114), 12709 Twinbrook Pkwy., Rockville, MD 20857, 301-443-7118, FAX 301-594-6775. Further information about the CRADA is available on the Internet at:

<http://www.fda.gov/cdrh/ocd/wlessphonecrada.html>.

**Agenda:** On April 18, 2001, completed and ongoing epidemiology studies will be reviewed and scientific questions that have been raised by this research will be discussed. On April 19, 2001, specific studies that could address these scientific questions will be discussed.

**Procedure:** Interested persons may present scientific information relevant to items on the agenda. Written submissions may be made to the contact person by April 6, 2001. Oral presentations from the public will be scheduled on April 18, 2001, between 3 p.m. and 5 p.m. Time allotted for each presentation may be limited. Those desiring to make formal oral presentations should notify the contact person before April 1, 2001, and submit a brief statement of the general nature of the information they wish to present, the names and addresses of proposed participants, and an indication of the approximate time requested to make their presentation.

**Transcripts:** Transcripts of the meeting may be requested in writing from the Freedom of Information Office (HFI-35), Food and Drug Administration, 5600 Fishers Lane, rm. 12A-16, Rockville, MD 20857, approximately 15 working days after the meeting at a cost of 10 cents per page.

If you need special accommodations due to a disability, please contact Abiy B. Desta, 301-443-7192 at least 7 days in advance.

Dated: March 20, 2001.

**Ann M. Witt,**

*Acting Associate Commissioner for Policy.*

### Health Care Financing Administration

**[Document Identifier: HCFA-R-246]**

#### Agency Information Collection Activities: Submission for OMB Review; Comment Request

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Health Care Financing Administration (HCFA), Department of Health and Human Services, has submitted to the Office of Management and Budget (OMB) the following proposal for the collection of information. Interested persons are invited to send comments regarding the burden estimate or any

other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

#### Type of Information Collection

**Request:** Reinstatement, with change, of a previously approved collection for which has expired;

**Title of Information Collection:** The Medicare Managed Care CAHPS Survey and Supporting Regulations in 42 CFR 417.126 and 417.470;

**Form No.:** HCFA-R-246 (OMB# 0938-0732);

**Use:** The CAHPS data is necessary to hold the Medicare managed care industry accountable for the quality of care they are delivering. It is critical to HCFA's mission that we collect and disseminate information that will help beneficiaries choose among plans, contribute to improved quality of care through identification of quality improvement opportunities, and assist HCFA in carrying out its responsibilities;

**Frequency:** On occasion;

**Affected Public:** Individuals or Households, Business or other for-profit, and Not-for-profit institutions;

**Number of Respondents:** 168,000;

**Total Annual Responses:** 168,000;

**Total Annual Hours:** 55,450.

To obtain copies of the supporting statement for the proposed paperwork collections referenced above, access HCFA's web site address at <http://www.hcfa.gov/regs/prdact95.htm>, or E-mail your request, including your address and phone number, to [Paperwork@hcfa.gov](mailto:Paperwork@hcfa.gov), or call the Reports Clearance Office on (410) 786-1326.

Written comments and recommendations for the proposed information collections must be mailed within 30 days of this notice directly to the OMB Desk Officer designated at the following address: OMB Human Resources and Housing Branch, Attention: Allison Eydt, New Executive Office Building, Room 10235, Washington, DC 20503

Dated: March 19, 2001.

**John P. Burke III,**

*HCFA Reports Clearance Officer, HCFA, Office of Information Services, Security and Standards Group, Division of HCFA Enterprise Standards.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Health Care Financing Administration

#### Privacy Act of 1974; Report of New System of Records

**AGENCY:** Department of Health and Human Services (HHS), Health Care Financing Administration (HCFA).

**ACTION:** Notice of New System of Records.

**SUMMARY:** In accordance with the requirements of the Privacy Act of 1974, we are proposing to establish a new system of records, "1-800 Medicare Choices Helpline (HELPLINE), HHS/HCFA/CBS System No. 09-70-0535."

HCFA proposes a new system of records collecting data under the authority of Public Law 105-33, the Balanced Budget Act (BBA) of 1997. The primary purpose of the system of records is to provide general information to beneficiaries and future beneficiaries so that they can make informed Medicare decisions. Information retrieved from this system of records will also be used to support regulatory and policy functions performed within the agency or by a contractor or consultant; constituent requests made to a congressional representative; and litigation involving the agency related to this system of records. We have provided background information about the proposed system in the

**SUPPLEMENTARY INFORMATION** section below. Although the Privacy Act requires only that the "routine use" portion of the system be published for comment, HCFA invites comments on all portions of this notice. See **EFFECTIVE DATES** section for comment period.

**DATES:** HCFA filed a new system report with the Chair of the House Committee on Government Reform and Oversight, the Chair of the Senate Committee on Governmental Affairs, and the Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) on March 20, 2001. To ensure that all parties have adequate time in which to comment, the new system of records, including routine uses, will become effective 40 days from the publication of the notice, or from the date it was submitted to OMB and the Congress, whichever is later, unless HCFA receives comments that require alterations to this notice.

**ADDRESSES:** The public should address comments to: Director, Division of Data Liaison and Distribution (DDLDD), HCFA, Room N2-04-27, 7500 Security Boulevard, Baltimore, Maryland 21244-

1850. Comments received will be available for review at this location, by appointment, during regular business hours, Monday through Friday from 9 a.m.—3 p.m., eastern time zone.

#### FOR FURTHER INFORMATION CONTACT:

Carol Davis, Project Officer, Division of Call Center Operations, Customer Teleservice Operations Group, Center for Beneficiary Services, HCFA, 7500 Security Boulevard, C2-26-20, Baltimore, Maryland 21244-1850.

#### SUPPLEMENTARY INFORMATION:

##### I. Description of the Modified System of Records

###### *Statutory and Regulatory Basis for System of Records*

In accordance with the requirements of the Privacy Act of 1974, we are proposing to establish a new system of records, called "1-800-Medicare Choices Helpline (HELPLINE), Systems No. 09-70-0535." HCFA proposes to initiate this new system of records collecting data under the authority of 41 CFR Chapter 101-20.302, Conduct on Federal Property, and OMB Circular A-123, Internal Control Systems and Public Law 105-3, the Balanced Budget Act of 1997.

HCFA is mandated to provide for activities to broadly disseminate information to Medicare beneficiaries and prospective Medicare beneficiaries on the coverage options provided under the Medicare + Choice program in order to promote an active, informed selection among such options. The information campaign shall include general information, information comparing plan options, and information on Medigap and Medicare Select. This information is to be provided through toll-free telephone service, Internet Site, Print, and local education and outreach.

The collected information will contain name, address, telephone number, and Health Insurance Claim (HIC) Number, as well as, background information relating to Medicare or Medicaid issues. The HELPLINE will also maintain a caller history in the desktop for purposes of re-contacts by customer service representatives or HCFA.

##### II. Collection and Maintenance of Data in the System

###### *A. Scope of the Data Collected*

The collected information will contain name, address, telephone number, and health insurance claim number, email address and background information relating to Medicare or Medicaid issues.

###### *B. Agency Policies, Procedures, and Restrictions on the Routine Use*

We are establishing the following policies, procedures and restrictions on routine uses of this system. In general, disclosure of information from the system of records will be approved only for the minimum information necessary to accomplish the purpose of the disclosure after HCFA:

(a) Determines that the use or disclosure is consistent with the reason that the data is being collected; e.g., provide general information to beneficiaries so that they can make informed decisions.

(b) Determines:

(1) That the purpose for which the disclosure is to be made can only be accomplished if the record is provided in individually identifiable form;

(2) That the purpose for which the disclosure is to be made is of sufficient importance to warrant the effect and/or risk on the privacy of the individual that additional exposure of the record might bring; and

(3) That there is a strong probability that the proposed use of the data would in fact accomplish the stated purpose(s).

(c) Requires the information recipient to:

(1) Establish administrative, technical, and physical safeguards to prevent unauthorized use of disclosure of the record;

(2) Remove or destroy at the earliest time all patient-identifiable information; and

(3) Agree to not use or disclose the information for any purpose other than the stated purpose under which the information was disclosed.

(d) Determines that the data are valid and reliable.

##### *III. Proposed Routine Use Disclosures of Data in the System*

The Privacy Act permits us to disclose information without an individual's consent if the information is to be used for a purpose that is compatible with the purpose(s) for which the information was collected. Any such compatible use of data is known as a "routine use." The proposed routine use in this system meets the compatibility requirement of the Privacy Act. HCFA is proposing to disclose information from this system of records under the following routine uses.

1. To agency contractors, or consultants who have been engaged by the agency to assist in the performance of a service related to this system of records and who need to have access to the records in order to perform the activity.

We contemplate disclosing information under this routine use only in situations in which HCFA may enter into a contractual or similar agreement with a third party to assist in accomplishing HCFA functions relating to purposes of this system of records.

HCFA occasionally contracts out certain of its functions when this would contribute to effective and efficient operations. HCFA must be able to give a contractor whatever information is necessary for the contractor to fulfill its duties. In these situations, safeguards are provided in the contract prohibiting the contractor from using or disclosing the information for any purpose other than that described in the contract and to return or destroy all information at the completion of the contract.

2. To a Member of Congress or to a congressional staff member in response to an inquiry of the Congressional Office made at the written request of the constituent about whom the record is maintained.

Beneficiaries sometimes request the help of a Member of Congress in resolving some issue relating to a matter before HCFA. The Member of Congress then writes HCFA, and HCFA must be able to give sufficient information to be responsive to the inquiry.

3. To the Department of Justice (DOJ), court or adjudicatory body when:

(a) The agency or any component thereof; or

(b) Any employee of the agency in his or her official capacity; or

(c) Any employee of the agency in his or her individual capacity where the DOJ has agreed to represent the employee; or

(d) The United States Government; is a party to litigation or has an interest in such litigation, and by careful review, HCFA determines that the records are both relevant and necessary to the litigation.

Whenever HCFA is involved in litigation, or occasionally when another party is involved in litigation and HCFA's policies or operations could be affected by the outcome of the litigation, HCFA would be able to disclose information to the DOJ, court or adjudicatory body involved. A determination would be made in each instance that, under the circumstances involved, the purposes served by the use of the information in the particular litigation is compatible with a purpose for which HCFA collects the information.

#### IV. Safeguards

##### A. Authorized Users

Personnel having access to the system have been trained in Privacy Act

requirements. Employees who maintain records in the system are instructed not to release any data until the intended recipient agrees to implement appropriate administrative, technical, procedural, and physical safeguards sufficient to protect the confidentiality of the data and to prevent unauthorized access to the data. Records are used in a designated work area or workstation and the system location is attended at all times during working hours.

To ensure security of the data, the proper level of class user is assigned for each individual user. This prevents unauthorized users from accessing and modifying critical data. The system database configuration includes five classes of database users:

- *Database Administrator* class owns the database objects; e.g., tables, triggers, indexes, stored procedures, packages, and has database administration privileges to these objects;

- *Quality Control Administrator* class has read and write access to key fields in the database;

- *Quality Index (QI) Report Generator* class has read-only access to all fields and tables;

- *Policy Research* class has query access to tables, but are not allowed to access confidential patient identification information; and

- *Submitter* class has read and write access to database objects, but no database administration privileges.

##### B. Physical Safeguards

All server sites have implemented the following minimum requirements to assist in reducing the exposure of computer equipment and thus achieve an optimum level of protection and security for the HELPLINE system:

Access to all servers is controlled, with access limited to only those support personnel with demonstrated need for access. Servers are to be kept in a locked room accessible only by specified management and system support personnel. Each server requires a specific log-on process. All entrance doors are identified and marked. A log is kept of all personnel who were issued a security card, key and/or combination that grants access to the room housing the server, and all visitors are escorted while in this room. All servers are housed in an area where appropriate environmental security controls are implemented, which include measures implemented to mitigate damage to Automated Information System (AIS) resources caused by fire, electricity, water and adequate climate controls.

Protection applied to the workstations, servers and databases include:

- *User Log-on*—Authentication is performed by the Primary Domain Controller/Backup Domain Controller of the log-on domain.

- *Workstation Names*—Workstation naming conventions may be defined and implemented at the State agency level.

- *Hours of Operation*—May be restricted by Windows NT. When activated all applicable processes will automatically shut down at a specific time and not be permitted to resume until the predetermined time. The appropriate hours of operation are determined and implemented at the State agency level.

- *Inactivity Lockout*—Access to the NT workstation is automatically locked after a specified period of inactivity.

- *Warnings*—Legal notices and security warnings display on all servers and when servers are accessed by workstations.

- *Remote Access Security*—Windows NT Remote Access Service (RAS) security handles resource access control. Access to NT resources is controlled for remote users in the same manner as local users, by utilizing Windows NT file and sharing permissions. Dial-in access can be granted or restricted on a user-by-user basis through the Windows NT RAS administration tool.

There are several levels of security found in the HELPLINE system. Windows NT provides much of the overall system security. The Windows NT security model is designed to meet the C2-level criteria as defined by the U.S. Department of Defense's Trusted Computer System Evaluation Criteria document (DoD 5200.28-STD, December 1985). Netscape Enterprise Server is the security mechanism for all HELPLINE transmission connections to the system. As a result, Netscape controls all HELPLINE information access requests. Anti-virus software is applied at both the workstation and NT server levels.

Access to different areas on the Windows NT server are maintained through the use of file, directory and share level permissions. These different levels of access control provide security that is managed at the user and group level within the NT domain. The file and directory level access controls rely on the presence of an NT File System (NTFS) hard drive partition. This provides the most robust security and is tied directly to the file system. Windows NT security is applied at both the workstation and NT server levels.

##### C. Procedural Safeguards

All automated systems must comply with Federal laws, guidance, and

policies for information systems security. These include, but are not limited to: the Privacy Act of 1974; the Computer Security Act of 1987; OMB Circular A-130, revised; Information Resource Management (IRM) Circular #10; DHHS Automated Information Systems Security Program; the HCFA Information Systems Security Policy and Program Handbook; and other HCFA systems security policies. Each automated information system should ensure a level of security commensurate with the level of sensitivity of the data, risk, and magnitude of the harm that may result from the loss, misuse, disclosure, or modification of the information contained in the system.

#### V. Effect of the Proposed System of Records on Individual Rights

HCFA proposes to establish this system in accordance with the principles and requirements of the Privacy Act and will collect, use, and disseminate information only as prescribed therein. Data in this system will be subject to the authorized releases in accordance with the routine uses identified in this system of records.

HCFA will monitor the collection and reporting of HELPLINE data. HCFA will take precautionary measures (see item IV. above) to minimize the risks of unauthorized access to the records and the potential harm to individual privacy or other personal or property rights. HCFA will collect only that information necessary to perform the system's functions. In addition, HCFA will make disclosure from the proposed system only with consent of the subject individual, or his/her legal representative, or in accordance with an applicable exception provision of the Privacy Act.

HCFA, therefore, does not anticipate an unfavorable effect on individual privacy as a result of maintaining this system of records.

Dated: March 14, 2001.

**Michael M. McMullan,**

*Acting Deputy Administrator, Health Care Financing Administration.*

**09-70-0535**

#### SYSTEM NAME:

Medicare Choices Helpline (HELPLINE), HHS/HCFA/CBS.

#### SECURITY CLASSIFICATION:

Level 3, Privacy Act Sensitive.

#### SYSTEM LOCATION:

HCFA Data Center, 7500 Security Boulevard, North Building, First Floor, Baltimore, Maryland 21244-1850.

#### CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

All beneficiaries and callers to the call center who require a written response.

#### CATEGORIES OF RECORDS IN THE SYSTEM:

This system contains the beneficiary's name and/or caller's name, social security number, Health Insurance Claim (HIC) number, phone number, and background information relating to Medicare or Medicaid related issues.

#### AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

41 CFR Chapter 101-20.302, Conduct on Federal Property, OMB Circular A-123, Internal Control Systems and Public Law 105-3, the Balanced Budget Act of 1997.

#### PURPOSE(S):

The primary purpose of the system of records is to provide general information to beneficiaries and future beneficiaries so that they can make informed decisions on their Medicare options.

Information retrieved from this system of records will also be used to support regulatory and policy functions performed within the agency or by a contractor or consultant; constituent requests made to a congressional representative; and litigation involving the agency related to this system of records.

#### ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:

The Privacy Act permits us to disclose information without an individual's consent if the information is to be used for a purpose that is compatible with the purpose(s) for which the information was collected. Any such compatible use of data is known as a "routine use." The proposed routine use in this system meets the compatibility requirement of the Privacy Act. HCFA is proposing to disclose information from this system of records under the following routine uses. These routine uses are discussed in detail in the attached Preamble.

1. To agency contractors, or consultants who have been engaged by the agency to assist in the performance of a service related to this system of records and who need to have access to the records in order to perform the activity.

2. To a Member of Congress or to a congressional staff member in response to an inquiry of the Congressional Office made at the written request of the constituent about whom the record is maintained.

3. To the Department of Justice (DOJ), court or adjudicatory body when:

(a) The agency or any component thereof; or

(b) Any employee of the agency in his or her official capacity; or

(c) Any employee of the agency in his or her individual capacity where the DOJ has agreed to represent the employee; or

(d) The United States Government; is a party to litigation or has an interest in such litigation, and by careful review, HCFA determines that the records are both relevant and necessary to the litigation.

#### POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:

##### STORAGE:

Information is maintained on paper, computer diskette and on magnetic storage media.

##### RETRIEVABILITY:

The records are retrieved by name and identification number.

##### SAFEGUARDS:

HCFA has safeguards for authorized users and monitors such users to ensure against excessive or unauthorized use. Personnel having access to the system have been trained in the Privacy Act and systems security requirements. Employees who maintain records in the system are instructed not to release any data until the intended recipient agrees to implement appropriate administrative, technical, procedural, and physical safeguards sufficient to protect the confidentiality of the data and to prevent unauthorized access to the data.

In addition, HCFA has physical safeguards in place to reduce the exposure of computer equipment and thus achieve an optimum level of protection and security for the HELPLINE system. For computerized records, safeguards have been established in accordance with HHS standards and National Institute of Standards and Technology guidelines; e.g., security codes will be used, limiting access to authorized personnel. System securities are established in accordance with HHS, Information Resource Management (IRM) Circular #10, Automated Information Systems Security Program; HCFA Automated Information Systems (AIS) Guide, Systems Security Policies; and OMB Circular No. A-130 (revised) Appendix III.

##### RETENTION AND DISPOSAL:

HCFA will retain HELPLINE data for a total retention of seven (7) years after the date of the response to the inquiry.

**SYSTEM MANAGERS AND ADDRESS:**

Director, Center for Beneficiary Services, Division of Call Center Operations, Customer Teleservice Operations Group, Center for Beneficiary Services, HCFA, 7500 Security Boulevard, C2-26-20, Baltimore, Maryland 21244-1850.

**NOTIFICATION PROCEDURE:**

For purpose of access, the subject individual should write to the system manager who will require the system name, health insurance claim number, and for verification purposes, the subject individual's name (woman's maiden name, if applicable), social security number (SSN) (furnishing the SSN is voluntary, but it may make searching for a record easier and prevent delay), address, date of birth, and sex.

**RECORD ACCESS PROCEDURE:**

For purpose of access, use the same procedures outlined in Notification Procedures above. Requestors should also reasonably specify the record contents being sought. (These procedures are in accordance with Department regulation 45 CFR 5b.5(a)(2).)

**CONTESTING RECORD PROCEDURES:**

The subject individual should contact the system manager named above, and reasonably identify the record and specify the information to be contested. State the corrective action sought and the reasons for the correction with supporting justification. (These procedures are in accordance with Department regulation 45 CFR 5b.7.)

**RECORD SOURCE CATEGORIES:**

Sources of information contained in this records system include data collected from HELPLINE calls to the 1-800 Medicare Choices Helpline.

**SYSTEMS EXEMPTED FROM CERTAIN PROVISIONS OF THE ACT:**

None.

[FR Doc. 01-7444 Filed 3-26-01; 8:45 am]

BILLING CODE 4120-03-P

**DEPARTMENT OF HEALTH AND HUMAN SERVICES****National Institutes of Health****Submission for OMB Review; Comment Request; "Tobacco Use Supplement to the Current Population Survey in 2001-2002"**

**SUMMARY:** Under the provisions of section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Cancer Institute (NCI), the National

Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on December 14, 2000, pages 78176-78177 and allowed 60 days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

**Proposed Collection**

**Title:** Tobacco Use Supplement to the Current Population Survey in 2001-2002. Note: The previous title "American Stop Smoking Intervention Study for Cancer Prevention (ASSIST) Final Evaluation: Tobacco Use Supplement to the 1998-1999/2000 Current Population Survey" was changed to more clearly represent current and future surveillance activities and to reflect the fact that the ASSIST project has ended.

**Type of information request:** Revision, with change of OMB #0925-0368, Expiration 01/31/2003.

**Need and Use of Information Collection:** The 2001-2002 Tobacco Use Supplement to the Current Population Survey conducted by the Bureau of the Census will collect data from the civilian non-institutionalized population tobacco use and smoking prevalence, workplace smoking policies, medical and dental advice to stop smoking, and changes in smoking norms and attitudes. This survey will provide invaluable information to government agencies, other scientists and the general public necessary for tobacco control research, as well as measure progress toward tobacco control as part of the National Cancer Institute's Extraordinary Opportunities in Tobacco Research. This survey is part of a continuing series of surveys that were sponsored by NCI and fielded periodically over the 1990's by the Census Bureau as part of the American Stop Smoking Intervention Study for Cancer Prevention (ASSIST) project and made available for general public use. The Tobacco Use Supplements will be continuing over the next decade alternating between a standard or core tobacco use survey (such as the 2001-2002 survey) and a special topic survey focusing on emerging tobacco control issues. The survey will allow state

specific estimates to be made. Data will be collected in June 2001, November 2001 and February 2002 from approximately 293,000 respondents. The National Cancer Institute is co-sponsoring this survey with the Centers for Disease Control and Prevention.

**Frequency of Response:** One-time study.

**Affected Public:** Individuals or households.

**Type of Respondents:** Persons 15 years of age or older.

**The annual reporting burden is as follows:**

**Estimated Number of Respondents:**

97,666;

**Estimated Number of Responses per Respondent:** 1;

**Average Burden Hours Per Response:** 0.1169; and

**Estimated Total Annual Burden**

**Hours Requested:** 11,417.

The annualized cost to the respondents is estimated at: \$114,173. There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.

**Request for Comments**

Written comments and/or suggestions from the public and affected agencies should address one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

**Direct Comments to OMB:** Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503. Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Anne Hartman, Health Statistician, National Cancer Institute, Executive Plaza North,

Suite 4005, Bethesda, Maryland 20892–7344, or call non-toll free (301) 496–4970, or FAX your request, to (301) 435–3710, or E-mail your request, including your address, to [ah42t@nih.gov](mailto:ah42t@nih.gov) or [Anne.Hartman@nih.gov](mailto:Anne.Hartman@nih.gov).

**Comments Due Date:** Comments regarding this information collection are best assured of having their full effect if received on or before April 26, 2001.

Dated: March 20, 2001.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

[NM-020-1430-EU; NMNM-102562]

#### A Direct Sale of Public Land to Manuel Vigil of Hernandez, NM.

**AGENCY:** Bureau of Land Management (BLM), Interior.

**ACTION:** Notice of realty action.

**SUMMARY:** The following public land has been found suitable for direct sale under

section 203 of the Federal Land Policy and Management Act of 1976 (90 Stat. 2750, 43 U.S.C. 1713) and at no less than the estimated fair market value. The land will not be offered for sale until at least 60 days after the date of this notice.

#### New Mexico Principal Meridian

T. 21 N., R. 7 E., Section 1, lot 6.

The subject public land containing 0.13 acres, more or less will be sold to Manuel Vigil of Hernandez, NM. The sale is to resolve an unauthorized occupancy. The disposal is consistent with State and local government programs, plans, and applicable regulations.

**EFFECTIVE DATE:** Interested parties may submit comments on the direct sale on or before May 11, 2001.

**ADDRESSES:** Comments should be sent to the Taos Field Office Manager, BLM, 226 Cruz Alta Rd., Taos, NM 87571.

**FOR FURTHER INFORMATION CONTACT:** Lora Yonemoto, BLM, Taos Field Office, 226 Cruz Alta Rd., Taos, NM 87571, or at (505) 758-8851.

**SUPPLEMENTARY INFORMATION:** The direct sale will be subject to:

1. A reservation to the United States of a right-of-way for ditches or canals constructed by the authority of the United States in accordance with the Act of August 30, 1890 (43 U.S.C. 945).

2. All minerals shall be reserved to the United States, together with the right to prospect for, mine, and remove the minerals. A more detailed description of this reservation, which will be incorporated in the patent document or other document of conveyance is available for review at this BLM office.

Publication of this notice in the **Federal Register** will segregate the public land from appropriations under the public land laws including the mining laws but not the mineral leasing laws. This segregation will terminate upon the issuance of a patent or other document of conveyance, 270 days from date of publication of this notice in the **Federal Register** or upon publication of Notice of Termination, which ever occurs first.

Any adverse comments will be evaluated by the State Director who may sustain, vacate, or modify this realty action. In the absence of any objections, this realty action will become the final determination of the Department of the Interior.

Dated: March 14, 2001.

**Sam DesGeorges,**

*Acting Field Office Manager.*

## DEPARTMENT OF THE INTERIOR

### Minerals Management Service

#### Outer Continental Shelf (OCS) Scientific Committee (SC) of the Minerals Management Advisory Board; Announcement of Plenary Session

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Notice of meeting.

**SUMMARY:** The Minerals Management Advisory Board OCS SC will meet at the Days Hotel and Conference Center, Herndon, Virginia, April 25-27, 2001.

**DATES:** April 25-27, 2001.

**ADDRESSES:** The Days Hotel and Conference Center, 2200 Centreville Road, Herndon, Virginia 20170, telephone (703) 471-6700.

**FOR FURTHER INFORMATION CONTACT:** Ms. Julie Reynolds at (703) 787-1211 or by electronic mail at

julie.reynolds@mms.gov. or Mr. Robert LaBelle, Executive Secretary to the OCS Scientific Committee, Minerals Management Service, 381 Elden Street, Mail Stop 4040, Herndon, Virginia 20170-4817. He may be reached by telephone at (703) 787-1756, and by electronic mail at robert.labelle@mms.gov.

**SUPPLEMENTARY INFORMATION:** The OCS SC is an outside group of scientists that advises the Director, MMS, on the feasibility, appropriateness, and scientific merit of the MMS OCS Environmental Studies Program as it relates to information needed for informed OCS decisionmaking.

The Committee will meet in plenary session on Wednesday, April 25, from 9:00 a.m. to 5:30 p.m. Presentations will be made by the Acting Director, the Associate Director for Offshore Minerals Management, and a representative from the OCS Policy Committee. After these presentations, the rest of the day will be filled by presentations from the MMS regional studies chiefs on their research priorities and needs in the context of regional decisionmaking.

On Thursday, April 26, from 9:00 a.m. to 5:30 p.m., the Committee will meet in discipline subcommittee breakout sessions to review the specific research plans of the regions for Fiscal Years 2002 and 2003.

On Friday, April 27, at 9:00 a.m., the Committee will meet in plenary session

to discuss subcommittee reports and conduct Committee business. The meeting will adjourn at noon on Friday, April 27.

The meetings are open to the public. Approximately 30 visitors can be accommodated on a first-come-first-served basis at the plenary sessions.

A copy of the agenda may be requested from MMS by calling Ms. Julie Reynolds. Other inquiries concerning the OCS SC meeting should be addressed to Mr. Robert LaBelle. Please see the **FOR FURTHER INFORMATION CONTACT** section for addresses and telephone numbers.

**Authority:** Federal Advisory Committee Act, P.L. 92-463, 5 U.S.C., Appendix I, and the Office of Management and Budget's Circular A-63, Revised.

Dated: March 21, 2001.

**Carolita U. Kallaur,**

*Associate Director for Offshore Minerals Management.*

## DEPARTMENT OF THE INTERIOR

### Minerals Management Service

#### Outer Continental Shelf Leasing Map

**AGENCY:** Minerals Management Service, Interior.

**ACTION:** Technical Corrections—Lease Sale 178, Part 1.

**SUMMARY:** This Notice corrects an error on Leasing Maps LA6, South Timbalier Area, September 1, 1999; and LA6A, South Timbalier Area, South Addition, September 1, 1999, for Lease Sale 178, Part 1. In the notes block in the lower left corner of each map, paragraph one, sentence three, the value 3372.18 acres is corrected as follows: 3772.18 acres.

**FOR FURTHER INFORMATION CONTACT:** Technical comments or questions pertaining to these maps should be directed to Chief, Mapping and Boundary Branch, Leasing Division, Minerals Management Service, P.O. Box 25165, Mail Stop 4011, Denver, Colorado 80225, Telephone (303) 275-7121.

**SUPPLEMENTARY INFORMATION:** On February 23, 2001, MMS published a **Federal Register** Notice (66 FR 11524) on Lease Sale 178, Part 1. In this notice, reference is made to leasing maps and official protraction diagrams in identifying the available Federal acreage of all whole and partial blocks in this sale. This notice corrects an error made on each map concerning the value of acres.

Dated: March 22, 2001.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-237 and 50-249]

### Exelon Generation Company, LLC; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License No. DPR-19 and DPR-25, issued to Exelon Generation Company, LLC, (EGC, or the licensee), for operation of Dresden Nuclear Power Station, Units 2 and 3 (Dresden), respectively, located in Grundy County, Illinois. The original application was submitted by Commonwealth Edison Company (ComEd), which merged to form EGC. By letter dated February 7, 2001, EGC assumed responsibility for all pending NRC actions that were requested by ComEd.

### Environmental Assessment

#### Identification of the Proposed Action

The proposed amendment would be a full conversion from the current Technical Specifications (CTS) to a set of improved Technical Specifications (ITS) based on NUREG-1433, "Standard Technical Specifications—General Electric Plants, BWR/4," Revision 1, dated April 1995. The proposed action is in accordance with the licensee's application dated March 3, 2000, as supplemented by letters dated March 24, June 5 (two letters), July 18, July 31, September 1, September 22, October 5, October 9, November 20, and December 18, 2000; and February 15 and February 28, 2001.

#### The Need for the Proposed

It has been recognized that nuclear safety in all plants would benefit from improvement and standardization of Technical Specifications (TSs). The

"NRC Interim Policy Statement on Technical Specification Improvements for Nuclear Power Reactors" (52 FR 3788) contained proposed criteria for defining the scope of TSs. Later, the "NRC Final Policy Statement on TS Improvement for Nuclear Power Reactors" (58 FR 39132) incorporated lessons learned since publication of the interim policy statement and formed the basis for a revision to 10 CFR 50.36. The "Final Rule" (60 FR 36953) codified criteria for determining the content of TSs. To facilitate the development of ITS, each reactor vendor owners group and the NRC staff developed standard TSs (STS). The NRC Committee to Review Generic Requirements reviewed the STS, made note of their safety merits, and indicated its support of conversion by operating plants to the STS. For Dresden, the STS are NUREG-1433, Revision 1, "Standard Technical Specifications, General Electric Plants BWR/4," dated April 1995. This document formed the basis for the Dresden ITS conversion.

#### *Description of the Proposed Change*

The proposed changes to the CTS are based on NUREG-1433, and on guidance provided in the Final Policy Statement. Its objective is to completely rewrite, reformat, and streamline the CTS (i.e., to convert the CTS to the ITS). Emphasis is placed on human factors principles to improve clarity and understanding. The Bases section has been significantly expanded to clarify and better explain the purpose and foundation of each specification. In addition to NUREG-1433, portions of the CTS were also used as the basis for the development of the Dresden ITS. Plant-specific issues (unique design features, requirements, and operating practices) were discussed at length with the licensee.

The proposed changes from the CTS can be grouped into four general categories. These groupings are characterized as administrative changes, technical changes—relocations, technical changes—more restrictive, and technical changes—less restrictive. They are described as follows:

1. Administrative changes are those that involve restructuring, renumbering, rewording, interpretation, and complex rearranging of requirements and other changes not affecting technical content or substantially revising an operating requirement. The reformatting, renumbering, and rewording process reflects the attributes of NUREG-1433 and does not involve technical changes to the existing TSs. The proposed changes include: (a) Identifying plant-specific wording for system names, etc.,

(b) changing the wording of specification titles in the CTS to conform to STS, (c) splitting up requirements that are currently grouped, or combining requirements that are currently in separate specifications, (d) deleting specifications whose applicability has expired, and (e) wording changes that are consistent with the CTS but that more clearly or explicitly state existing requirements. Such changes are administrative in nature and do not impact initiators of analyzed events or assumed mitigation of accident or transient events.

2. Relocation changes are those involving relocation of requirements and surveillances for structures, systems, components, or variables that do not meet the criteria for inclusion in TSs. Relocated changes are those CTS requirements that do not satisfy or fall within any of the four criteria specified in the NRC's policy statement and may be relocated to appropriate licensee-controlled documents.

The licensee's application of the screening criteria to Dresden is described in Volume 1 of Enclosure A to the March 3, 2000, submittal. The affected structures, systems, components, or variables are not assumed to be initiators of analyzed events and are not assumed to mitigate accident or transient events. The requirements and surveillances for these affected structures, systems, components, or variables will be relocated from the TSs to administratively controlled documents such as the Updated Final Safety Analysis Report (UFSAR), the ITS Bases, or other licensee-controlled documents. Once these items have been relocated to other licensee-controlled documents, the licensee may revise them under the provisions of 10 CFR 50.59 or other NRC-approved control mechanisms, which provide appropriate procedural means to control changes by the licensee.

3. More restrictive changes are those involving more stringent requirements compared to the CTS for operation of the facility. These more stringent requirements do not result in operation that will alter assumptions relative to the mitigation of an accident or transient event. The more restrictive requirements will not alter the operation of process variables, structures, systems, and components described in the safety analyses.

4. Less restrictive changes are those where CTS requirements are relaxed, relocated or eliminated, or new plant operational flexibility is provided. The more significant "less restrictive" requirements are justified on a case-by-

case basis. When requirements have been shown to provide little or no safety benefit, their removal from the TSs may be appropriate. In most cases, relaxations previously granted to individual plants on a plant-specific basis were the result of (a) generic NRC actions, (b) new NRC staff positions that have evolved from technological advancements and operating experience, or (c) resolution of the Owners Groups' comments on the Improved Standard Technical Specifications. Generic relaxations contained in NUREG-1433 were reviewed by the staff and found to be acceptable because they are consistent with current licensing practices and NRC regulations. Each less restrictive change in the Dresden conversion was justified by the licensee in a Discussion of Change and reviewed by the NRC staff.

In addition, there are 11 changes that are different from the requirements in both the CTS and NUREG-1433, or that are beyond the changes that are needed to meet the overall purpose of the conversion. These changes are as follows:

1. The test interval of certain surveillance requirements is changed from 18 months to 24 months to permit a longer fuel cycle. Justification for the proposed change follows the guidance of Generic Letter 91-04, "Changes in Technical Specification Surveillance Intervals to Accommodate a 24-Month Fuel Cycle," and includes a revision to the instrument setpoint methodology.

2. The requirements in CTS 4.2.F are changed to allow 6 hours to perform surveillance testing of the post-accident monitoring instrumentation channels prior to entering action statements.

3. The reactor power level at which the rod worth minimizer is required to be operable (CTS 3.3.L) is reduced from 20 percent to 10 percent of rated thermal power.

4. The requirements (CTS 3.9.G) for the reactor protection system electric power monitoring system assemblies to be operable in Modes 1, 2, 3, and also Modes 4 and 5 with any control rod withdrawn, are changed to only include Modes 1 and 2, and also Mode 5 with any control rod withdrawn from a core cell containing one of more fuel assemblies, to coincide with the conditions where the safety function is required.

5. The requirement (CTS 3.6.C Action 2) to trip one of the recirculation pumps when the speed mismatch is not within limits is replaced with a requirement to declare the loop with the low flow "not in operation" and take the required actions for that condition (e.g., use the

more restrictive core power limits that are required for single-loop operation).

6. The frequency for monitoring primary containment sump flow rate (CTS 4.6.H.2) is changed from 8 to 12 hours, which is consistent with the Generic Letter 88-01, Supplement 1, guidance to perform the surveillance once every shift, not to exceed 12 hours.

7. The CTS 3.5.A requirement to shut down within 7 days when both low-pressure coolant injection (LPCI) subsystems are inoperable is being changed to require a shutdown in 72 hours.

8. The required number of operable automatic depressurization system valves (CTS 3.5.A.4) is reduced from five to four, consistent with the safety analysis assumptions.

9. The CTS 4.7.D.4 requirement that the excess flow check valves must "check flow" is changed to require that the valves "actuate to their isolation position."

10. The required spent fuel storage pool water level (CTS 3.10.H) is increased approximately 9 inches.

11. The required voltage during the diesel generator surveillance tests (CTS 4.9.A.2.c, 4.9.A.7, 4.9.A.8.b, 4.9.A.8.d.2, 4.9.A.8.e, 4.9.A.8.f.2, and 4.9.A.8.h) is changed from 4160 plus or minus 420 volts to 4160 plus or minus 208 volts.

#### *Environmental Impacts of the Proposed Action*

The NRC has completed its evaluation of the proposed revision to the CTS. Changes which are administrative in nature have been found to have no effect on the technical content of the TSs and are acceptable. The increased clarity and understanding these changes bring to the TSs are expected to improve the operators' control of the plant in normal and accident conditions. Relocation of requirements to other licensee-controlled documents does not change the requirements themselves nor does 10 CFR 50.36(c)(2)(ii) mandate that the TSs include these requirements. Further changes to these requirements may be made by the licensee under 10 CFR 50.59 or other NRC-approved control mechanisms that ensure continued maintenance of adequate requirements. All such relocations have been found to be in conformance with the guidelines of NUREG-1433 and the Final Policy Statement and are, therefore, acceptable.

Changes involving more restrictive requirements have been found to enhance plant safety and to be acceptable.

Changes involving less restrictive requirements have been reviewed individually. When requirements have been shown to provide little or no safety

benefit or to place unnecessary burden on the licensee, their removal from the TSs was justified. In most cases, relaxations previously granted to individual plants on a plant-specific basis were the result of a generic action, or of agreements reached during discussions with the Owners Groups, and have been found to be acceptable for Dresden. Generic relaxations contained in NUREG-1433 have also been reviewed by the NRC staff and have been found to be acceptable.

In summary, the proposed revisions to the CTS were found to provide control of plant operations such that reasonable assurance will be provided that the health and safety of the public will be adequately protected.

These changes to the TSs will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed amendment.

With regard to potential nonradiological impacts, the proposed amendment involves features located entirely within the restricted area as defined in 10 CFR Part 20 and does not involve any historical sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed amendment.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

#### *Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

#### *Alternative Use of Resources*

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for Dresden, dated November 1973.

#### *Agencies and Persons Consulted*

In accordance with its stated policy, on February 20, 2001, the NRC consulted with the Illinois State official,

Mr. F. Niziolek, regarding the environmental impacts of the proposed action. The State official had no comments.

#### **Finding of No Significant Impact**

On the basis of this environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's application dated March 3, 2000, as supplemented by letters dated March 24, June 5 (two letters), July 18, July 31, September 1, September 22, October 5, October 9, November 20, and December 18, 2000; and February 15 and February 28, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 21st day of March 2001.

For the Nuclear Regulatory Commission.

**Lawrence W. Rossbach,**

*Project Manager, Section 2, Project Directorate III, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.*

**BILLING CODE 7590-01-P**

## **NUCLEAR REGULATORY COMMISSION**

**[Docket Nos. 50-254 and 50-265]**

### **Exelon Generation Company, LLC; Environmental Assessment and Finding of No Significant Impact**

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License No. DPR-29 and DPR-30, issued to Exelon Generation Company, LLC, (EGC, or the licensee), for operation of Quad Cities Nuclear Power Station, Units 1 and 2 (Quad Cities), respectively, located in Rock Island County, Illinois. The original application was submitted by Commonwealth Edison Company (ComEd), which merged to form EGC. By letter dated February 7, 2001, EGC assumed responsibility for all pending NRC actions that were requested by ComEd.

## Environmental Assessment

### *Identification of the Proposed Action*

The proposed amendment would be a full conversion from the current Technical Specifications (CTS) to a set of improved Technical Specifications (ITS) based on NUREG-1433, "Standard Technical Specifications—General Electric Plants, BWR/4," Revision 1, dated April 1995. The proposed action is in accordance with the licensee's application dated March 3, 2000, as supplemented by letters dated March 24, June 5 (two letters), July 18, July 31, September 1, September 22, October 5, October 9, November 20, and December 18, 2000; and February 15 and February 28, 2001.

### *The Need for the Proposed Action*

It has been recognized that nuclear safety in all plants would benefit from improvement and standardization of Technical Specifications (TSs). The "NRC Interim Policy Statement on Technical Specification Improvements for Nuclear Power Reactors" (52 FR 3788) contained proposed criteria for defining the scope of TSs. Later, the "NRC Final Policy Statement on TS Improvement for Nuclear Power Reactors" (58 FR 39132) incorporated lessons learned since publication of the interim policy statement and formed the basis for a revision to 10 CFR 50.36. The "Final Rule" (60 FR 36953) codified criteria for determining the content of TSs. To facilitate the development of ITS, each reactor vendor owners group and the NRC staff developed standard TSs (STS). The NRC Committee to Review Generic Requirements reviewed the STS, made note of their safety merits, and indicated its support of conversion by operating plants to the STS. For Quad Cities, the STS are NUREG-1433, Revision 1, "Standard Technical Specifications, General Electric Plants BWR/4," dated April 1995. This document formed the basis for the Quad Cities ITS conversion.

### *Description of the Proposed Change*

The proposed changes to the CTS are based on NUREG-1433, and on guidance provided in the Final Policy Statement. Its objective is to completely rewrite, reformat, and streamline the CTS (i.e., to convert the CTS to the ITS). Emphasis is placed on human factors principles to improve clarity and understanding. The Bases section has been significantly expanded to clarify and better explain the purpose and foundation of each specification. In addition to NUREG-1433, portions of the CTS were also used as the basis for the development of the Quad Cities ITS.

Plant-specific issues (unique design features, requirements, and operating practices) were discussed at length with the licensee.

The proposed changes from the CTS can be grouped into four general categories. These groupings are characterized as administrative changes, technical changes—relocations, technical changes—more restrictive, and technical changes—less restrictive. They are described as follows:

1. Administrative changes are those that involve restructuring, renumbering, rewording, interpretation, and complex rearranging of requirements and other changes not affecting technical content or substantially revising an operating requirement. The reformatting, renumbering, and rewording process reflects the attributes of NUREG-1433 and does not involve technical changes to the existing TSs. The proposed changes include: (a) Identifying plant-specific wording for system names, etc., (b) changing the wording of specification titles in the CTS to conform to STS, (c) splitting up requirements that are currently grouped, or combining requirements that are currently in separate specifications, (d) deleting specifications whose applicability has expired, and (e) wording changes that are consistent with the CTS but that more clearly or explicitly state existing requirements. Such changes are administrative in nature and do not impact initiators of analyzed events or assumed mitigation of accident or transient events.

2. Relocation changes are those involving relocation of requirements and surveillances for structures, systems, components, or variables that do not meet the criteria for inclusion in TSs. Relocated changes are those CTS requirements that do not satisfy or fall within any of the four criteria specified in the NRC's policy statement and may be relocated to appropriate licensee-controlled documents.

The licensee's application of the screening criteria to Quad Cities is described in Volume 1 of Enclosure C to the March 3, 2000, submittal. The affected structures, systems, components, or variables are not assumed to be initiators of analyzed events and are not assumed to mitigate accident or transient events. The requirements and surveillances for these affected structures, systems, components, or variables will be relocated from the TSs to administratively controlled documents such as the Updated Final Safety Analysis Report (UFSAR), the ITS Bases, or other licensee-controlled documents. Once these items have been

relocated to other licensee-controlled documents, the licensee may revise them under the provisions of 10 CFR 50.59 or other NRC-approved control mechanisms, which provide appropriate procedural means to control changes by the licensee.

3. More restrictive changes are those involving more stringent requirements compared to the CTS for operation of the facility. These more stringent requirements do not result in operation that will alter assumptions relative to the mitigation of an accident or transient event. The more restrictive requirements will not alter the operation of process variables, structures, systems, and components described in the safety analyses.

4. Less restrictive changes are those where CTS requirements are relaxed, relocated or eliminated, or new plant operational flexibility is provided. The more significant "less restrictive" requirements are justified on a case-by-case basis. When requirements have been shown to provide little or no safety benefit, their removal from the TSs may be appropriate. In most cases, relaxations previously granted to individual plants on a plant-specific basis were the result of (a) generic NRC actions, (b) new NRC staff positions that have evolved from technological advancements and operating experience, or (c) resolution of the Owners Groups' comments on the Improved Standard Technical Specifications. Generic relaxations contained in NUREG-1433 were reviewed by the staff and found to be acceptable because they are consistent with current licensing practices and NRC regulations. Each less restrictive change in the Quad Cities conversion was justified by the licensee in a Discussion of Change and reviewed by the NRC staff.

In addition, there are 11 changes that are different from the requirements in both the CTS and NUREG-1433, or that are beyond the changes that are needed to meet the overall purpose of the conversion. These changes are as follows:

1. The test interval of certain surveillance requirements is changed from 18 months to 24 months to permit a longer fuel cycle. Justification for the proposed change follows the guidance of Generic Letter 91-04, "Changes in Technical Specification Surveillance Intervals to Accommodate a 24-Month Fuel Cycle," and includes a revision to the instrument setpoint methodology.

2. The requirements in CTS 4.2.F are changed to allow 6 hours to perform surveillance testing of the post-accident

monitoring instrumentation channels prior to entering action statements.

3. The requirements (CTS 3.9.G) for the reactor protection system electric power monitoring system assemblies to be operable in Modes 1, 2, 3, and also Modes 4 and 5 with any control rod withdrawn, are changed to only include Modes 1 and 2, and also Mode 5 with any control rod withdrawn from a core cell containing one of more fuel assemblies, to coincide with the conditions where the safety function is required.

4. The requirement (CTS 3.6.C Action 2) to trip one of the recirculation pumps when the speed mismatch is not within limits is replaced with a requirement to declare the loop with the low flow "not in operation" and take the required actions for that condition (e.g., use the more restrictive core power limits that are required for single-loop operation).

5. The frequency for monitoring primary containment sump flow rate (CTS 4.6.H.2) is changed from 8 to 12 hours, which is consistent with the Generic Letter 88-01, Supplement 1, guidance to perform the surveillance once every shift, not to exceed 12 hours.

6. The requirements in CTS 4.6.G are changed to allow a channel of leakage detection system to be inoperable for up to 6 hours for performance of required surveillances, provided the other leakage detection system instrumentation is operable.

7. The CTS 3.5.A requirement to shut down within 7 days when both low-pressure coolant injection (LPCI) subsystems are inoperable is being changed to require a shutdown in 72 hours.

8. The required number of operable automatic depressurization system valves (CTS 3.5.A.4) is reduced from five to four, consistent with the safety analysis assumptions.

9. The CTS 4.7.D.4 requirement that the excess flow check valves must "check flow" is changed to require that the valves "actuate to their isolation position."

10. The required spent fuel storage pool water level (CTS 3.10.H) is increased approximately 9 inches.

11. The required voltage during the diesel generator surveillance tests (CTS 4.9.A.2.c, 4.9.A.7, 4.9.A.8.b.2, 4.9.A.8.d.2, 4.9.A.8.e, 4.9.A.8.f.2, and 4.9.A.8.h) is changed from 4160 plus or minus 420 volts to 4160 plus or minus 208 volts.

#### *Environmental Impacts of the Proposed Action*

The NRC has completed its evaluation of the proposed revision to the CTS. Changes which are administrative in

nature have been found to have no effect on the technical content of the TSs and are acceptable. The increased clarity and understanding these changes bring to the TSs are expected to improve the operators' control of the plant in normal and accident conditions. Relocation of requirements to other licensee-controlled documents does not change the requirements themselves nor does 10 CFR 50.36(c)(2)(ii) mandate that the TSs include these requirements. Further changes to these requirements may be made by the licensee under 10 CFR 50.59 or other NRC-approved control mechanisms that ensure continued maintenance of adequate requirements. All such relocations have been found to be in conformance with the guidelines of NUREG-1433 and the Final Policy Statement and are, therefore, acceptable.

Changes involving more restrictive requirements have been found to enhance plant safety and to be acceptable.

Changes involving less restrictive requirements have been reviewed individually. When requirements have been shown to provide little or no safety benefit or to place unnecessary burden on the licensee, their removal from the TSs was justified. In most cases, relaxations previously granted to individual plants on a plant-specific basis were the result of a generic action, or of agreements reached during discussions with the Owners Groups, and have been found to be acceptable for Quad Cities. Generic relaxations contained in NUREG-1433 have also been reviewed by the NRC staff and have been found to be acceptable.

In summary, the proposed revisions to the CTS were found to provide control of plant operations such that reasonable assurance will be provided that the health and safety of the public will be adequately protected.

These changes to the TSs will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed amendment.

With regard to potential nonradiological impacts, the proposed amendment involves features located entirely within the restricted area as defined in 10 CFR Part 20 and does not involve any historical sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts

associated with the proposed amendment.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

#### *Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

#### *Alternative Use of Resources*

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for Quad Cities, dated September 1972.

#### *Agencies and Persons Consulted*

In accordance with its stated policy, on February 20, 2001, the NRC consulted with the Illinois State official, Mr. F. Niziolek, regarding the environmental impacts of the proposed action. The State official had no comments.

#### *Finding of No Significant Impact*

On the basis of this environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's application dated March 3, 2000, as supplemented by letters dated March 24, June 5 (two letters), July 18, July 31, September 1, September 22, October 5, October 9, November 20, and December 18, 2000; and February 15 and February 28, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 21st day of March 2001.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-373 and 50-374]

### Exelon Generation Company, LLC; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering issuance of an amendment to Facility Operating License No. NPF-11 and NPF-18, issued to Exelon Generation Company, LLC, (EGC, or the licensee), for operation of LaSalle County Station, Units 1 and 2 (LaSalle), respectively, located in LaSalle County, Illinois. The original application was submitted by Commonwealth Edison Company (ComEd), which merged to form EGC. By letter dated February 7, 2001, EGC assumed responsibility for all pending NRC actions that were requested by ComEd.

#### Environmental Assessment

##### *Identification of the Proposed Action*

The proposed amendment would be a full conversion from the current Technical Specifications (CTS) to a set of improved Technical Specifications (ITS) based on NUREG-1433, "Standard Technical Specifications—General Electric Plants, BWR/4," Revision 1, dated April 1995, and NUREG-1434, "Standard Technical Specifications—General Electric Plants, BWR/6," Revision 1, dated April 1995. The proposed action is in accordance with the licensee's application dated March 3, 2000, as supplemented by letters dated March 24, June 5 (two letters), July 18, July 31, September 1, September 22, October 5, October 9, November 20, and December 18, 2000; and February 15, February 28, and March 7, 2001.

##### *The Need for the Proposed Action*

It has been recognized that nuclear safety in all plants would benefit from improvement and standardization of Technical Specifications (TSs). The "NRC Interim Policy Statement on Technical Specification Improvements for Nuclear Power Reactors" (52 FR 3788) contained proposed criteria for defining the scope of TSs. Later, the "NRC Final Policy Statement on TS

Improvement for Nuclear Power Reactors" (58 FR 39132) incorporated lessons learned since publication of the interim policy statement and formed the basis for a revision to 10 CFR 50.36. The "Final Rule" (60 FR 36953) codified criteria for determining the content of TSs. To facilitate the development of ITS, each reactor vendor owners group and the NRC staff developed standard TSs (STS). The NRC Committee to Review Generic Requirements reviewed the STS, made note of their safety merits, and indicated its support of conversion by operating plants to the STS. For LaSalle, the STS are NUREG-1433, Revision 1, "Standard Technical Specifications, General Electric Plants BWR/4," dated April 1995, and NUREG-1434, "Standard Technical Specifications—General Electric Plants, BWR/6," Revision 1, dated April 1995. These documents formed the basis for the LaSalle ITS conversion.

##### *Description of the Proposed Change*

The proposed changes to the CTS are based on NUREG-1433, NUREG-1434, and guidance provided in the Final Policy Statement. Its objective is to completely rewrite, reformat, and streamline the CTS (i.e., to convert the CTS to the ITS). Emphasis is placed on human factors principles to improve clarity and understanding. The Bases section has been significantly expanded to clarify and better explain the purpose and foundation of each specification. In addition to NUREG-1433 and NUREG-1434, portions of the CTS were also used as the basis for the development of the LaSalle ITS. Plant-specific issues (unique design features, requirements, and operating practices) were discussed at length with the licensee.

The proposed changes from the CTS can be grouped into four general categories. These groupings are characterized as administrative changes, technical changes—relocations, technical changes—more restrictive, and technical changes—less restrictive. They are described as follows:

1. Administrative changes are those that involve restructuring, renumbering, rewording, interpretation, and complex rearranging of requirements and other changes not affecting technical content or substantially revising an operating requirement. The reformatting, renumbering, and rewording process reflects the attributes of NUREG-1433 and NUREG-1434, and does not involve technical changes to the existing TSs. The proposed changes include: (a) Identifying plant-specific wording for system names, etc., (b) changing the wording of specification titles in the CTS to conform to STS, (c) splitting up

requirements that are currently grouped, or combining requirements that are currently in separate specifications, (d) deleting specifications whose applicability has expired, and (e) wording changes that are consistent with the CTS but that more clearly or explicitly state existing requirements. Such changes are administrative in nature and do not impact initiators of analyzed events or assumed mitigation of accident or transient events.

2. Relocation changes are those involving relocation of requirements and surveillances for structures, systems, components, or variables that do not meet the criteria for inclusion in TSs. Relocated changes are those CTS requirements that do not satisfy or fall within any of the four criteria specified in the NRC's policy statement and may be relocated to appropriate licensee-controlled documents.

The licensee's application of the screening criteria to LaSalle is described in Volume 1 of Enclosure B to the March 3, 2000, submittal. The affected structures, systems, components, or variables are not assumed to be initiators of analyzed events and are not assumed to mitigate accident or transient events. The requirements and surveillances for these affected structures, systems, components, or variables will be relocated from the TSs to administratively controlled documents such as the Updated Final Safety Analysis Report (UFSAR), the ITS Bases, or other licensee-controlled documents. Once these items have been relocated to other licensee-controlled documents, the licensee may revise them under the provisions of 10 CFR 50.59 or other NRC-approved control mechanisms, which provide appropriate procedural means to control changes by the licensee.

3. More restrictive changes are those involving more stringent requirements compared to the CTS for operation of the facility. These more stringent requirements do not result in operation that will alter assumptions relative to the mitigation of an accident or transient event. The more restrictive requirements will not alter the operation of process variables, structures, systems, and components described in the safety analyses.

4. Less restrictive changes are those where CTS requirements are relaxed, relocated or eliminated, or new plant operational flexibility is provided. The more significant "less restrictive" requirements are justified on a case-by-case basis. When requirements have been shown to provide little or no safety benefit, their removal from the TSs may be appropriate. In most cases,

relaxations previously granted to individual plants on a plant-specific basis were the result of (a) generic NRC actions, (b) new NRC staff positions that have evolved from technological advancements and operating experience, or (c) resolution of the Owners Groups' comments on the Improved Standard Technical Specifications. Generic relaxations contained in NUREG-1433 and NUREG-1434 were reviewed by the staff and found to be acceptable because they are consistent with current licensing practices and NRC regulations. Each less restrictive change in the LaSalle conversion was justified by the licensee in a Discussion of Change and reviewed by the NRC staff.

In addition, there are 12 changes that are different from the requirements in the CTS, NUREG-1433, or NUREG-1434, or that are beyond the changes that are needed to meet the overall purpose of the conversion. These changes are as follows:

1. The test interval of certain surveillance requirements is changed from 18 months to 24 months to permit a longer fuel cycle. Justification for the proposed change follows the guidance of Generic Letter 91-04, "Changes in Technical Specification Surveillance Intervals to Accommodate a 24-Month Fuel Cycle," and includes a revision to the instrument setpoint methodology.

2. The requirements in CTS 4.3.7.5 are changed to allow 6 hours to perform surveillance testing of the post-accident monitoring instrumentation channels prior to entering action statements.

3. The requirements in CTS 4.3.7.4 are changed to allow 6 hours to perform surveillance testing of the remote shutdown monitoring system instrumentation channels prior to entering action statements.

4. The detailed list of the remote shutdown monitoring system instrumentation that is required to be operable (CTS 3.3.7.4) is relocated to the TRM.

5. The frequency for determining reactor coolant system leakage (CTS 4.4.3.2.1) is changed from 8 to 12 hours, which is consistent with the Generic Letter 88-01, Supplement 1, guidance to perform the surveillance once every shift, not to exceed 12 hours.

6. The requirements in CTS 4.4.3.1 are changed to allow a channel of leakage detection system to be inoperable for up to 6 hours for the performance of required surveillances provided the other leakage detection system instrumentation is operable.

7. The minimum pressure at which the automatic depressurization system

is required to be operable (CTS 3.5.1) is increased from 122 psig to 150 psig.

8. The requirements (CTS 4.6.1.1) are changed to allow administrative means of verifying air lock door position in areas that are inaccessible due to high radiation or inerting.

9. The CTS 4.6.1.1 requirement that the excess flow check valves must "check flow" is changed to require that the valves "actuate to their isolation position."

10. The required battery voltage for the 250 volt battery (CTS 4.7.3.d.1.d) is increased from 250 volts to 256 volts, which is consistent with the 2.2 volts/cell requirement for the 125-volt battery.

11. The CTS 4.8.2.3.2 requirements will be modified to allow a modified performance discharge test to be used instead of a service test or a performance discharge test, which is consistent with IEEE-450.

12. The duration of the battery charger capacity test (CTS 4.8.2.3.2.c.4) is reduced from 8 hours to 4 hours.

#### *Environmental Impacts of the Proposed Action*

The NRC has completed its evaluation of the proposed revision to the CTS. Changes which are administrative in nature have been found to have no effect on the technical content of the TSs and are acceptable. The increased clarity and understanding these changes bring to the TSs are expected to improve the operators' control of the plant in normal and accident conditions. Relocation of requirements to other licensee-controlled documents does not change the requirements themselves nor does 10 CFR 50.36(c)(2)(ii) mandate that the TSs include these requirements. Further changes to these requirements may be made by the licensee under 10 CFR 50.59 or other NRC-approved control mechanisms that ensure continued maintenance of adequate requirements. All such relocations have been found to be in conformance with the guidelines of NUREG-1433, NUREG-1434, and the Final Policy Statement and are, therefore, acceptable.

Changes involving more restrictive requirements have been found to enhance plant safety and to be acceptable.

Changes involving less restrictive requirements have been reviewed individually. When requirements have been shown to provide little or no safety benefit or to place unnecessary burden on the licensee, their removal from the TSs was justified. In most cases, relaxations previously granted to individual plants on a plant-specific basis were the result of a generic action, or of agreements reached during

discussions with the Owners Groups, and have been found to be acceptable for LaSalle. Generic relaxations contained in NUREG-1433 and NUREG-1434 have also been reviewed by the NRC staff and have been found to be acceptable.

In summary, the proposed revisions to the CTS were found to provide control of plant operations such that reasonable assurance will be provided that the health and safety of the public will be adequately protected.

These changes to the TSs will not significantly increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed amendment.

With regard to potential nonradiological impacts, the proposed amendment involves features located entirely within the restricted area as defined in 10 CFR Part 20 and does not involve any historical sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed amendment.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

#### *Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

#### *Alternative Use of Resources*

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for LaSalle, dated November 1978.

#### *Agencies and Persons Consulted*

In accordance with its stated policy, on February 20, 2001, the NRC consulted with the Illinois State official, Mr. F. Niziolek, regarding the environmental impacts of the proposed action. The State official had no comments.

### Finding of No Significant Impact

On the basis of this environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's application dated March 3, 2000, as supplemented by letters dated March 24, June 5 (two letters), July 18, July 31, September 1, September 22, October 5, October 9, November 20, and December 18, 2000; and February 15, February 28, and March 7, 2001. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 21st day of March 2001.

For the Nuclear Regulatory Commission.

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-188]

### Kansas State University; TRIGA Mark II Nuclear Research Reactor; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of a license amendment to Facility Operating License No. R-88, issued to Kansas State University (the licensee) for operation of the Kansas State University TRIGA Mark II nuclear research reactor.

#### Environmental Assessment

##### Identification of the Proposed Action

The proposed action would allow extension of the license expiration time from August 15, 2001, to October 16, 2002, for the Kansas State University TRIGA Mark II nuclear research reactor. By letter dated February 1, 2001, and supplemented dated February 12, 2001, the licensee requested this license extension by the provisions of 10 CFR

50.90. The licensee submitted an environmental report with their application.

##### Need for the Proposed Action

The proposed action is needed to allow continued operation of the Kansas State University TRIGA Mark II nuclear research reactor for research, development and educational activities beyond the current term of the license.

##### Environmental Impact of the Proposed Action

The Kansas State University TRIGA Mark II nuclear research reactor is on the University's campus in Manhattan, Kansas. The research reactor is housed in a closed room designed to restrict air flow.

The Kansas State University TRIGA Mark II nuclear research reactor is a low power (250 kilowatts), pool-type research reactor. The NRC licensed the facility for operation up to a power level of 100 kilowatts in 1962 and authorized operations up to 250 kilowatts with pulsing capability in 1968. From fiscal year 1981 to fiscal year 1999, the facility has operated ~800 megawatt-hours total. Data from recent operations, from 1995 to 1999, was assessed. The gaseous radiological release of Argon-41, the primary airborne effluent, has conservatively been estimated to result in 2.8 millirem exposure outside the facility. All gaseous releases were and are expected to remain well within regulatory requirements. Liquid effluents have been relatively small with the highest concentration in 1997 at 250 pCi/ml. Low-level solid radioactive waste between 1988 and 1998 was less than 245 mCi in 116 cubic feet of material.

The Commission concludes that the radiological effects of the continued operation will be minimal based on past radiological releases. The radiological exposures for facility operations have been within regulatory limits. Conditions are not expected to change significantly. The proposed action will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be released off site, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

As for potential non-radiological impacts, the proposed action does not involve any historic sites. It does not affect non-radiological effluents and has no other environmental impact. Therefore, no significant non-

radiological environmental impacts are associated with the proposed action.

In addition, the environmental impact associated with operation of research reactors has been generically evaluated by the staff and is discussed in the attached generic evaluation. This evaluation concludes that no significant environmental impact is associated with the operation of research reactors licensed to operate at power levels up to and including 2 megawatts thermal. The NRC staff has determined that this generic evaluation is applicable to operation of the Kansas State University TRIGA Mark II nuclear research reactor and that there are no special or unique features that would preclude reliance on the generic evaluation.

Accordingly, the Commission concludes that there are no significant environmental impacts associated with the proposed action.

##### Alternatives to the Proposed Action

An alternative to the proposed action for the facility is to deny the application (*i.e.*, "no action" alternative). If the application is denied, the licensee has indicated that it would apply for license renewal and operate under the timely renewal provisions of 10 CFR 2.109 until the Commission renewed or denied the license renewal application. With operation under timely renewal or renewal, the actual conditions of the reactor would not change. If the Commission denied license renewal, operations would stop and decommissioning would be required with a likely small impact on the environment. The environmental impacts of the proposed action and alternative action are similar.

##### Alternative Use of Resources

This action does not involve the use of any resources not previously considered in the Hazards Analysis prepared for the issuance of the construction permit in 1961 and for operating license in 1962.

##### Agencies and Persons Contacted

On March 1, 2001, the NRC staff consulted with the State of Kansas, Vick L. Cooper, Chief, Radiation Control Program, Kansas Department of Health and Environment, Bureau of Air and Radiation regarding the environmental impact of the proposed action. The State official had no comment.

### Finding of No Significant Impact

On the basis of the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the

NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated February 1, 2001, and supplement dated February 12, 2001, which is available for public inspection, and/or copied for a fee, at the U.S. Nuclear Regulatory Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 20th day of March, 2001.

For the Nuclear Regulatory Commission.

**Ledyard B. Marsh,**

*Chief, Events Assessment, Generic Communications, and Non-Power Reactors Branch, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.*

#### **Attachment**

#### **Environmental Considerations Regarding the Licensing of Research Reactors and Critical Facilities**

##### *Introduction*

This discussion deals with research reactors and critical facilities which are designed to operate at low power levels, 2 MWt and lower, and are used primarily for basic research in neutron physics, neutron radiography, isotope production, experiments associated with nuclear engineering, training and as a part of a nuclear physics curriculum. Operation of such facilities will generally not exceed a 5-day week, 8-hour day, or about 2000 hours per year. Such reactors are located adjacent to technical service support facilities with convenient access for students and faculty.

Sited most frequently on the campuses of large universities, the reactors are usually housed in already existing structures, appropriately modified, or placed in new buildings that are designed and constructed to blend in with existing facilities. However, the environmental considerations discussed herein are not limited to those which are part of universities.

##### *Facility*

There are no exterior conduits, pipelines, electrical or mechanical structures or transmission lines attached to or adjacent to the facility other than for utility services, which are similar to those required in other similar facilities, specifically laboratories. Heat dissipation is generally accomplished by use of a cooling tower located on the roof of the building. These cooling towers typically are on the order of 10' x 10' x 10' and are comparable to cooling towers associated with the air-conditioning systems of large office buildings.

Make-up for the cooling system is readily available and usually obtained from the local

water supply. Radioactive gaseous effluents are limited to Ar-41 and the release of radioactive liquid effluents can be carefully monitored and controlled. Liquid wastes are collected in storage tanks to allow for decay and monitoring prior to dilution and release to the sanitary sewer system. Solid radioactive wastes are packaged and shipped offsite for storage at NRC-approved sites. The transportation of such waste is done in accordance with existing NRC-DOT regulations in approved shipping containers.

Chemical and sanitary waste systems are similar to those existing at other similar laboratories and buildings.

##### *Environmental Effects of Site Preparation and Facility Construction*

Construction of such facilities invariably occurs in areas that have already been disturbed by other building construction and, in some cases, solely within an already existing building. Therefore, construction would not be expected to have any significant effect on the terrain, vegetation, wildlife or nearby waters or aquatic life. The societal, economic and aesthetic impacts of construction would be no greater than those associated with the construction of a large office building or similar research facility.

##### *Environmental Effects of Facility Operation*

Release of thermal effluents from a reactor of less than 2 MWt will not have a significant effect on the environment. This small amount of waste heat is generally rejected to the atmosphere by means of small cooling towers. Extensive drift and/or fog will not occur at this low power level.

Release of routine gaseous effluents can be limited to Ar-41, which is generated by neutron activation of air. Even this will be kept as low as practicable by using gases other than air for supporting experiments. Yearly doses to unrestricted areas will be at or below established guidelines in 10 CFR Part 20 limits. Routine releases of radioactive liquid effluents can be carefully monitored and controlled in a manner that will ensure compliance with current standards. Solid radioactive wastes will be shipped to an authorized disposal site in approved containers. These wastes should not require more than a few shipping containers a year.

Based on experience with other research reactors, specifically TRIGA reactors operating in the 1 to 2 MWt range, the annual release of gaseous and liquid effluents to unrestricted areas should be less than 30 curies and 0.01 curies, respectively.

No release of potentially harmful chemical substances will occur during normal operation. Small amounts of chemicals and/or high-solid content water may be released from the facility through the sanitary sewer during periodic blowdown of the cooling tower or from laboratory experiments.

Other potential effects of the facility, such as aesthetics, noise, societal or impact on local flora and fauna are expected to be too small to measure.

##### *Environmental Effects of Accidents*

Accidents ranging from the failure of experiments up to the largest core damage and fission product release considered possible result in doses that are less than 10

CFR part 20 guidelines and are considered negligible with respect to the environment.

##### *Unavoidable Effects of Facility Construction and Operation*

The unavoidable effects of construction and operation involve the materials used in construction that cannot be recovered and the fissionable material used in the reactor. No adverse impact on the environment is expected from either of these unavoidable effects.

##### *Alternatives to Construction and Operation of the Facility*

To accomplish the objectives associated with research reactors, there are no suitable alternatives. Some of these objectives are training of students in the operation of reactors, production of radioisotopes, and use of neutron and gamma ray beams to conduct experiments.

##### *Long-Term Effects of Facility Construction and Operation*

The long-term effects of research facilities are considered to be beneficial as a result of the contribution to scientific knowledge and training. Because of the relatively small amount of capital resources involved and the small impact on the environment, very little irreversible and irretrievable commitment is associated with such facilities.

##### *Costs and Benefits of Facility Alternatives*

The costs are on the order of several millions of dollars with very little environmental impact. The benefits include, but are not limited to, some combination of the following: conduct of activation analyses, conduct of neutron radiography, training of operating personnel, and education of students. Some of these activities could be conducted using particle accelerators or radioactive sources which would be more costly and less efficient. There is no reasonable alternative to a nuclear research reactor for conducting this spectrum of activities.

##### *Conclusion*

The staff concludes that there will be no significant environmental impact associated with the licensing of research reactors or critical facilities designed to operate at power levels of 2 MWt or lower and that no environmental impact statements are required to be written for the issuance of construction permits or operating licenses for such facilities.

BILLING CODE 7590-01-P

## **SECURITIES AND EXCHANGE COMMISSION**

[Release No. 34-44087; File No. 265-22]

### **Advisory Committee on Market Information**

**AGENCY:** Securities and Exchange Commission.

**ACTION:** Notice of meeting of the Securities and Exchange Commission

### Advisory Committee on Market Information.

**SUMMARY:** The fourth meeting of the Securities and Exchange Commission Advisory Committee on Market Information ("Committee") will be held on April 12, 2001, in the William O. Douglas Room, at the Commission's main offices, 450 Fifth Street, NW., Washington, DC, beginning at 9:00 a.m. The meeting will be open to the public, and the public is invited to submit written comments to the Committee.

**ADDRESSES:** Written comments should be submitted in triplicate and should refer to File No. 265-22. Comments should be submitted to Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-0609.

**FOR FURTHER INFORMATION CONTACT:** Anitra Cassas, Special Counsel, Division of Market Regulation, at 202-942-0089; Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549-1001.

**SUPPLEMENTARY INFORMATION:** In accordance with Section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. app. 10a, and the regulations thereunder, the Designated Federal Official of the Committee, David S. Shillman, has ordered publication of this notice that the Committee will conduct a meeting on April 12, 2001, in the William O. Douglas Room at the Commission's main offices, 450 Fifth Street, NW., Washington, DC, beginning at 9:00 a.m. The meeting will be open to the public. This will be the fourth meeting of the Committee. The purpose of this meeting will be to continue discussing possible ways to improve the existing model for consolidating and disseminating market information in the equities markets, and other issues relating to the public availability of market information in the equities and options markets.

Dated: March 20, 2001.

**Jonathan G. Katz,**

*Secretary.*

### SMALL BUSINESS ADMINISTRATION

#### Notice Seeking Exemption Under Section 312 of the Small Business Investment Act, Conflicts of Interest

Notice is hereby given that TD Lighthouse Capital Fund, L.P. ("TD Lighthouse"), 303 Detroit Street, Suite 301, Ann Arbor, Michigan 48104, a Federal Licensee under the Small

Business Investment Act of 1958, as amended ("the Act"), in connection with the financing of a small concern, have sought an exemption under section 312 of the Act and section 107.730, Financials which Constitute Conflicts of Interest, of the Small Business Administration ("SBA") rules and regulations (13 CFR 107.730 (2000)). TD Lighthouse proposes to provide equity financing to Quorex Pharmaceuticals, Inc. ("Quorex"), 2075 Corte Del Nogal, Suite J, Carlsbad, California 92009. The financing is contemplated for product development and working capital.

The financing is brought within the purview of Section 107.730(a)(1) of the Regulations because TD Origen Capital Fund, L.P. and TD Javelin Capital Fund II, L.P., Associates of TD Lighthouse, currently and collectively own greater than 10 percent of Quorex, and therefore Quorex is considered an Associate of TD Lighthouse as defined in section 107.50 of the regulations.

Notice is hereby given that any interested person may submit written comments on the transaction to the Associate Administrator for Investment, U.S. Small Business Administration, 409 Third Street, SW., Washington, DC 20416.

Dated: March 19, 2001.

**Harry Haskins,**

*Acting Associate Administrator for Investment.*

### DEPARTMENT OF STATE

#### [Public Notice 3614]

#### 60-Day Notice of Proposed Information Collection (OMB 1405-0018): DS-156, Nonimmigrant Visa Application (Formerly OF-156)

**AGENCY:** Department of State.

**ACTION:** Notice.

**SUMMARY:** The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. The purpose of this notice is to allow 60 days for public comment in the **Federal Register** preceding submission to OMB. This process is conducted in accordance with the Paperwork Reduction Act of 1995.

The following summarizes the information collection proposal submitted to OMB:

*Type of Request:* Extension of Currently Approved Collection  
Originating Office: Bureau of Consular Affairs, Office of Visa Services (CA/VO).

*Title of Information Collection:* Nonimmigrant Visa Application.

*Frequency:* Once.

*Form Number:* DS-156 (formerly OF-156).

*Respondents:* Most nonimmigrant visa applicants.

*Estimated Number of Respondents:* 9,600,000.

*Average Hours Per Response:* 1 hour.

*Total Estimated Burden:* 9,600,000 hours.

Public comments are being solicited to permit the agency to:

- Evaluate whether the proposed information collection is necessary for the proper performance of the functions of the agency.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the reporting burden on those who are to respond, including through the use of automated collection techniques or other forms of technology.

#### FOR FURTHER INFORMATION CONTACT:

Public comments, or requests for additional information, regarding the collection listed in this notice should be directed to Eric Cohan, 2401 E St., NW., RM L-703, Tel: 202-663-1164, U.S. Department of State, Washington, DC 20520.

Dated: March 19, 2001.

**Linda Donahue,**

## DEPARTMENT OF STATE

[Public Notice 3617]

### 60-Day Notice of Proposed Information Collection (OMB #1405-0020): DSP-82, Application for Passport by Mail

**AGENCY:** Department of State.

**ACTION:** Notice.

**SUMMARY:** The Department of State is seeking Office of Management and Budget (OMB) approval for the information collection described below. The purpose of this notice is to allow 60 days for public comment in the **Federal Register** preceding submission to OMB. This process is conducted in accordance with the Paperwork Reduction Act of 1995.

The following summarizes the information collection proposal submitted to OMB:

*Type of Request:* Revision of a currently approved collection.

*Originating Office:* Bureau of Consular Affairs, CA/PPT/FO/FC.

*Title of Information Collection:* Application for Passport by Mail.

*Frequency:* On Occasion.

*Form Number:* DSP-82.

*Respondents:* Individuals or Households.

*Estimated Number of Respondents:* 1,461,200.

*Average Hours Per Response:* 1/4 hr. (15 min).

*Total Estimated Burden:* 365,300.

Public comments are being solicited to permit the agency to:

- Evaluate whether the proposed information collection is necessary for the proper performance of the functions of the agency.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including through the use of automated collection techniques or other forms of technology.

#### FOR FURTHER INFORMATION CONTACT:

Public comments, or requests for additional information, regarding the collection listed in this notice should be

directed to Margaret A. Dickson, CA/PPT/FO/FC, Department of State, 2401 E Street, NW., Room H904, Washington, DC 20522, and at 202-663-2460.

Dated: March 16, 2001.

**Georgia Rogers,**

## DEPARTMENT OF STATE

[Public Notice 3615]

### 30-Day Notice of Proposed Information Collection (OMB 1405-0096): DS-156K, Nonimmigrant Fiancé(e) Visa Application (Formerly OF-156K)

**AGENCY:** Department of State.

**ACTION:** Notice.

**SUMMARY:** The Department of State has submitted the following information collection request to the Office of Management and Budget (OMB) approval in accordance with the Paperwork Reduction Act of 1995. Comments should be submitted to OMB within 30 days of the publication of this notice.

The following summarizes the information collection proposal submitted to OMB:

*Type of Request:* Extension of Currently Approved Collection.

*Originating Office:* Bureau of Consular Affairs, Office of Visa Services (CA/VO).

*Title of Information Collection:* Nonimmigrant Fiance(e) Visa Application.

*Frequency:* Once.

*Form Number:* DS-156K (formerly OF-156K).

*Respondents:* All nonimmigrant fiance(e) visa applicants.

*Estimated Number of Respondents:* 18,500.

*Average Hours Per Response:* 1 hour.

*Total Estimated Burden:* 18,500 hours.

Public comments are being solicited to permit the agency to:

- Evaluate whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the reporting burden on those who are to respond, including

through the use of automated collection techniques or other forms of technology.

#### FOR FURTHER INFORMATION CONTACT:

Copies of the proposed information collection and supporting documents may be obtained from Eric Cohan, 2401 E St NW., RM L-703, U.S. Department of State, Washington, DC 20520, (202) 663-1164.

Public comments and questions should be directed to the State Department Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Washington, DC 20530, (202) 395-3897.

## TENNESSEE VALLEY AUTHORITY

### Sunshine Act Meeting

**AGENCY HOLDING THE MEETING:** Tennessee Valley Authority (Meeting No. 1528)

**TIME AND DATE:** 9 a.m. (CST), March 28, 2001

**PLACE:** TVA Environmental Research Auditorium Muscle Shoals, Alabama

**STATUS:** Open

### Agenda

Approval of minutes of meeting held on March 5, 2001.

#### New Business

#### B—Purchase Award

B1. Contract with McDaniel Fire Systems to design, fabricate, deliver and install specialty fire protection equipment at any TVA location.

#### C—Energy

C1. Term coal contract with Coastal Coal Company, LLC, for coal supply to John Sevier Fossil Plant.

C2. Contract with Union County Coal Company, Inc., for coal supply to Johnsonville Fossil Plant for two years.

C3. Delegation of authority to the Chief Operating Officer, or a designee, to enter into an Interagency Agreement with the Department of Energy for TVA to use low enriched uranium derived from surplus highly enriched uranium in TVA's reactors and delegation of authority to the Senior Vice president of Procurement, or a designee, to award separate contracts to Framatome Cogema Fuels and Siemens Power Corporation for uranium processing and nuclear fuel fabrication services.

#### E—Real Property Transactions

E1. Grant of a permanent easement to Shoals Chamber of Commerce, Inc., for office space purposes, affecting approximately 2.5 acres of land on Wilson Dam Reservation in Lauderdale County, Alabama, Tract No. XTWDRT-6E.

E2. Amendment to Watts Bar Reservoir Land Management Plan to change approximately 0.76 acre of Tract No. XWBR-133PT in Roane County, Tennessee, form forest management, historic preservation, and wildlife management to commercial recreation.

E3. Sale of a permanent easement and temporary construction easement to the city of Murfreesboro, Tennessee, affecting 0.03 acre and 0.11 acre, respectively, of the Murfreesboro Power Service property, for a road improvement project in Rutherford County, Tennessee, Tract No. XMBSC-2H.

E4. Approval of the Bear Creek Reservoirs Land Management Plan, consisting of Little Bear, Cedar Creek, Upper Bear and Bear Creek Reservoirs in Franklin, Marion, and Winston Counties, Alabama.

#### F—Other

F1. Approval to file condemnation cases to acquire easements and rights-of-way for transmission lines, to survey land for transmission lines, and to acquire property for a power substation. The affected tracts are the Guntersville Dam-Cullman Loop into East Point in Cullman County, Alabama; Clarksville-Hopkinsville Tap to Superior Graphite in Christian County, Kentucky; Sturgis-Europa Tap to Maben, Mississippi, in Choctaw County, Mississippi; and the East Calvert Kentucky Substation in Marshall County, Kentucky.

#### Information Items

1. Approval for the sale of Tennessee Valley Authority Power Bonds.

2. Modification of three contracts—Nos. P95P07-148381, P91P08-116119, and P98P01-238224—with AEI Resources, Inc., and its subsidiary for coal supply to Kingston, Widows Creek,

Shawnee, Johnsonville, and Colbert Fossil Plants.

3. Amendments to the Rules and Regulations of the TVA Retirement System and to the Provisions of the TVA Savings and Deferral Retirement Plan (401(k) Plan).

4. Appointment of Greer Tidwell, Jr., to and designation of Bruce D. Shupp as chairperson of the Regional Resource Stewardship Council.

5. Appointment of Ralph E. Rodgers as TVA's Designated Agency Ethics Official.

6. Approval of TVA's Winning Performance Team Incentive Plan, FY 2001.

7. Approval of the 2001 edition of the Transmission Service Guidelines, providing open access transmissions service and rates for transmission service and ancillary services.

**FOR MORE INFORMATION CONTACT:** Please call TVA Media Relations at (865) 632-6000, Knoxville, Tennessee. Information is also available at TVA's Washington Office (202) 898-2999. People who plan to attend the meeting and have special needs should call (865) 632-6000.

Dated: March 21, 2001.

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

#### RTCA, Inc.; Renewal of Charter

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Notice of charter renewal, RTCA, Inc. (utilized as an advisory committee).

**SUMMARY:** Notice is hereby given of the renewal of the charter for RTCA, Inc. (utilized as an advisory committee) for 2 years, effective March 14, 2001. The Administrator is the sponsor of the committee. The objective of the advisory committee is to seek solutions to problems involving the application of technology (e.g., electronics, computers, and telecommunications) to aeronautical operations that impact the future air traffic management system. The solutions are frequently in the nature of recommended minimum operational performance standards and technical guidance documents which are acceptable to Government, industry, and users. Standards ensure equivalent performance of the same generic equipment built by different

manufacturers. RTCA standards are generally referenced or used (with or without modification) in Government regulatory and procurement activities.

The Secretary of Transportation has determined that the information and use of the committee are necessary in the public interest in connection with the performance of duties imposed on the FAA by law. Meetings of the committee will be open to the public except as authorized by section 10(d) of the Federal Advisory Committee Act.

**FOR FURTHER INFORMATION CONTACT:**

Janice Peters, Office of System Architecture and Investment Analysis (ASD-3), 800 Independence Avenue, SW., Washington, DC 20591, Telephone: 202/358-5243.

Issued in Washington, DC, on March 21, 2001.

## DEPARTMENT OF TRANSPORTATION

### Surface Transportation Board

[STB Finance Docket No. 34018]

#### Yolo Shortline Railroad Company—Acquisition and Operation Exemption—County of Sacramento, CA

Yolo Shortline Railroad Company (Yolo), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to acquire from the County of Sacramento, CA (County), the exclusive occupancy and operating rights over 7 miles of unmarked railroad track within McClellan Park,<sup>1</sup> in

<sup>1</sup> Yolo states that McClellan Park a new site being developed from the former McClellan Air Force

McClellan, CA.<sup>2</sup> In addition, Yolo has leased the associated engine house and shop.

The transaction is scheduled to be consummated on or about April 2, 2001. The earliest the transaction could be consummated was March 16, 2001, 7 days after the exemption was filed.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to reopen the proceeding to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 34018, must be filed with the Surface Transportation Board, Office of the Secretary, Case Control Unit, 1925 K Street, NW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on Mr. David Magaw, General Manager, Yolo Shortline Railroad, 341 Industrial Way, Woodland, CA 95776.

Board decisions and notices are available on our website at <http://www.stb.dot.gov>.

Decided: March 20, 2001.

By the Board, David M. Konschnik, Director, Office of Proceedings.

**Vernon A. Williams,**  
*Secretary.*

## DEPARTMENT OF THE TREASURY

### Office of the Secretary

#### List of Countries Requiring Cooperation With An International Boycott

In order to comply with the mandate of section 999(a)(3) of the Internal Revenue Code of 1986, the Department of the Treasury is publishing a current list of countries which may require participation in, or cooperation with, an international boycott (within the meaning of section 999(b)(3) of the Internal Revenue Code of 1986).

Base (Base), which was slated for closure by the U.S. Department of Defense and will be officially closed by the U.S. Air Force in July 2001. Yolo indicates that, as portions of the Base are closed, they are turned over to the County for redevelopment. According to Yolo, there is no rail traffic currently at McClellan Park but that the track is usable for team track and reloading areas and service to warehousing.

<sup>2</sup> Yolo notes that the Union Pacific Railroad Company has filed McClellan Park at milepost 97.5 on its Martinez Subdivision, between Roseville and Sacramento, CA. Certain attachments to the verified notice indicate that the Base is in Planehaven, CA.

On the basis of the best information currently available to the Department of the Treasury, the following countries may require participation in, or cooperation with, an international boycott (within the meaning of section 999(b)(3) of the Internal Revenue Code of 1986).

Bahrain  
Iraq  
Kuwait  
Lebanon  
Libya  
Oman  
Qatar  
Saudi Arabia  
Syria  
United Arab Emirates  
Yemen, Republic of

Dated: March 20, 2001.

## DEPARTMENT OF VETERANS AFFAIRS

### Proposed Information Collection Activity: Proposed Collection; Comment Request

**AGENCY:** Office of Acquisition and Materiel Management, Department of Veterans Affairs.

**ACTION:** Notice.

**SUMMARY:** The Office of Acquisition and Materiel Management (OA&MM), Department of Veterans Affairs (VA), is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement, without change, of a previously approved collection for which approval has expired, and allow 60 days for public comment in response to the notice. This notice solicits comments on the information needed to allow firms to offer items that are equal to the brand name item stated in the bid.

**DATES:** Written comments and recommendations on the proposed collection of information should be received on or before May 29, 2001.

**ADDRESSES:** Submit written comments on the collection of information to Donald E. Kaliher, Office of Acquisition and Materiel Management (95A), Department of Veterans Affairs, 810

Vermont Avenue, NW., Washington, DC 20420 or e-mail [donald.kaliher@mail.va.gov](mailto:donald.kaliher@mail.va.gov). Please refer to "OMB Control No. 2900-0585" in any correspondence.

**FOR FURTHER INFORMATION CONTACT:** Donald E. Kaliher at (202) 273-8819.

**SUPPLEMENTARY INFORMATION:** Under the PRA of 1995 (Public Law 104-13; 44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, OA&MM invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of OA&MM's functions, including whether the information will have practical utility; (2) the accuracy of OA&MM's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

**Title:** Veterans Affairs Acquisition Regulation (VAAR) Clause 852.211-77, Brand Name or Equal (was 852.210-77).

**OMB Control Number:** 2900-0585.

**Type of Review:** Reinstatement, without change, of a previously approved collection for which approval has expired.

**Abstract:** VAAR clause 852.211-77, Brand Name or Equal, advises bidders or offerors who are proposing to offer an item that is alleged to be equal to the brand name item stated in the bid, that it is the bidder's or offeror's responsibility to show that the item offered is in fact, equal to the brand name item. This evidence may be in the form of descriptive literature or material, such as cuts, illustrations, drawings, or other information. While submission of the information is voluntary, failure to provide the information may result in rejection of the firm's bid or offer if the Government cannot otherwise determine that the item offered is equal. The contracting officer will use the information to evaluate whether or not the item offered meets the specification requirements.

**Affected Public:** Business or other for-profit; Individuals and households; and Not-for-profit institutions.

**Estimated Annual Burden:** 833 hours.

**Estimated Average Burden Per Respondent:** 5 minutes.

*Frequency of Response:* On occasion.  
*Estimated Number of Respondents:*  
 10,000.

Dated: March 8, 2001.

By direction of the Secretary:

**Donald L. Neilson,**

*Director, Information Management Service.*

## DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900-0589]

### Proposed Information Collection Activity: Proposed Collection; Comment Request

**AGENCY:** Office of Acquisition and Materiel Management, Department of Veterans Affairs.

**ACTION:** Notice.

**SUMMARY:** The Office of Acquisition and Materiel Management (OA&MM), Department of Veterans Affairs (VA), is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement, without change, of a previously approved collection for which approval has expired, and allow 60 days for public comment in response to the notice. This notice solicits comments on the information needed to ensure that shellfish purchased by VA comes from a State- and Federal-approved and inspected source.

**DATES:** Written comments and recommendations on the proposed collection of information should be received on or before May 29, 2001.

**ADDRESSES:** Submit written comments on the collection of information to Donald E. Kaliher, Office of Acquisition and Materiel Management (95A), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420 or e-mail [donald.kaliher@mail.va.gov](mailto:donald.kaliher@mail.va.gov). Please refer to "OMB Control No. 2900-0589" in any correspondence.

**FOR FURTHER INFORMATION CONTACT:** Donald E. Kaliher at (202) 273-8819.

**SUPPLEMENTARY INFORMATION:** Under the PRA of 1995 (Public Law 104-13; 44 U.S.C., 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct

or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, OA&MM invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of OA&MM's functions, including whether the information will have practical utility; (2) the accuracy of OA&MM's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

*Title:* Veterans Affairs Acquisition Regulation (VAAR) Provision 852.270-3, Shellfish.

*OMB Control Number:* 2900-0589.

*Type of Review:* Reinstatement, without change, of a previously approved collection for which approval has expired.

*Abstract:* VAAR clause 852.270-3, Shellfish, requires that a firm furnishing shellfish to VA must ensure that the shellfish is packaged in a container that is marked with the packer's State certificate number and State abbreviation. In addition, the firm must ensure that the container is tagged or labeled to show the name and address of the approved producer or shipper, the name of the State of origin, and the certificate number of the approved producer or shipper. This information normally accompanies the shellfish from the packer and is not information that must be separately obtained by the seller. The information is needed to ensure that shellfish purchased by VA comes from a State- and Federal-approved and inspected source. The information is used to help ensure that VA purchases healthful shellfish.

*Affected Public:* Business or other for-profit; Individuals and households; and Not-for-profit institutions.

*Estimated Annual Burden:* 17 hours.

*Estimated Average Burden Per Respondent:* 1 minute.

*Frequency of Response:* On occasion.

*Estimated Number of Respondents:* 1,000.

Dated: March 8, 2001.

By direction of the Secretary:

**Donald L. Neilson,**

## DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900-0593]

### Proposed Information Collection Activity: Proposed Collection; Comment Request

**AGENCY:** Office of Acquisition and Materiel Management, Department of Veterans Affairs.

**ACTION:** Notice.

**SUMMARY:** The Office of Acquisition and Materiel Management (OA&MM), Department of Veterans Affairs (VA), is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed reinstatement, without change, of a previously approved collection for which approval has expired, and allow 60 days for public comment in response to the notice. This notice solicits comments on the information needed to identify bid envelopes from other mail parcels.

**DATES:** Written comments and recommendations on the proposed collection of information should be received on or before May 29, 2001.

**ADDRESSES:** Submit written comments on the collection of information to Donald E. Kaliher, Office of Acquisition and Materiel Management (95A), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420 or e-mail [donald.kaliher@mail.va.gov](mailto:donald.kaliher@mail.va.gov). Please refer to "OMB Control No. 2900-0593" in any correspondence.

**FOR FURTHER INFORMATION CONTACT:** Donald E. Kaliher at (202) 273-8819.

**SUPPLEMENTARY INFORMATION:** Under the PRA of 1995 (Public Law 104-13; 44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, OA&MM invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of OA&MM's functions, including whether the information will have practical utility; (2) the accuracy of OA&MM's estimate of the burden of the proposed collection of information; (3) ways to enhance the quality, utility, and clarity

of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or the use of other forms of information technology.

*Title:* Veterans Affairs Acquisition Regulation (VAAR) Provision 852.214-70, Caution to Bidders—Bid Envelopes.

*OMB Control Number:* 2900-0593.

*Type of Review:* Reinstatement, without change, of a previously approved collection for which approval has expired.

*Abstract:* VAAR provision 852.214-70, Caution to Bidders—Bid Envelopes, advises bidders that it is their responsibility to ensure that their bid price cannot be ascertained by anyone prior to bid opening. It also advises bidders to identify their bids by showing the invitation number and bid opening date on the outside of the bid envelope. The Government often furnishes a blank bid envelope or a label for use by bidders/offers to identify their bids. The bidder is advised to fill in the required information. This information requested from bidders is needed by the Government to identify bid envelopes from other mail or packages received without having to open the envelopes or packages and possibly exposing bid prices before bid opening. The information will be used to identify which parcels or envelopes are bids and which are other routine mail. The information is also needed to help ensure that bids are delivered to the proper bid opening room on time and prior to bid opening.

*Affected Public:* Business or other for-profit; Individuals and households; and Not-for-profit institutions.

*Estimated Annual Burden:* 960 hours.

*Estimated Average Burden Per*

*Respondent:* 10 seconds.

*Frequency of Response:* On occasion.

*Estimated Number of Respondents:* 346,000.

Dated: March 8, 2001.

BILLING CODE 8320-01-M

## DEPARTMENT OF VETERANS AFFAIRS

### Privacy Act of 1974; System of Records

**AGENCY:** Department of Veterans Affairs (VA).

**ACTION:** Notice of amendment to system of records.

**SUMMARY:** The Privacy Act of 1974 (5 U.S.C. 552(e)(4)) requires that all agencies publish in the **Federal Register** a notice of the existence and character of their systems of records. Notice is hereby given that the Department of Veterans Affairs (VA) is amending the system of records entitled "Veteran, Patient, Employee, and Volunteer Research and Development Project Records-VA" (34VA11) as set forth in the **Federal Register** 40 FR 38095, dated 8/26/75 and last amended in 58 FR 40852, dated 7/30/93. VA is amending the system by revising the System Number and the paragraphs on Authority to Maintain the System, Purposes, Categories of Records in the System, Routine Uses of Records Maintained in the System, and System Manager. VA is republishing the system notice in its entirety.

**DATES:** Comments on the amendment of this system of records must be received no later than April 26, 2001. If no public comment is received, the amended system will become effective April 26, 2001.

**ADDRESSES:** Written comments concerning the proposed new system of records may be submitted to the Office of Regulations Management (02D), Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420. Comments will be available for public inspection at the above address in the Office of Regulations Management, Room 1158, between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday (except holidays).

**FOR FURTHER INFORMATION CONTACT:** Veterans Health Administration (VHA) Privacy Act Officer, Department of Veterans Affairs, 810 Vermont Avenue, NW., Washington, DC 20420; telephone (727) 320-1839.

**SUPPLEMENTARY INFORMATION:** VA is renumbering the system of records from 34VA11 to 34VA12 to reflect organizational changes in the Department. The authority to maintain the records in the system has been amended to reflect current codification of the statute.

Two new routine use disclosure statements are being added to the system. One new routine use is being added to the system to allow for disclosure of information to the Department of Justice (DOJ), including U.S. Attorneys, upon its official request in order for VA to respond to pleadings, interrogatories, orders or inquiries from DOJ, and to supply DOJ with information to enable DOJ to represent the U.S. Government in any phase of litigation or in any case or controversy

involving the VA. The second routine use is being added to the system to allow for disclosure of invention information with affiliated intellectual property partners to aid in the possible use, interest in, or ownership rights in VA intellectual property. Routine use number 4 is being amended to remove the Title 44 United States Code Section numbers.

The Privacy Act permits VA to disclose information about individuals without their consent for a Routine Use when the information will be used for a purpose that is compatible with the purpose for which we collected the information. In all of the Routine Use disclosures described above, the recipient of the information will use the information in connection with a matter relating to one of VA's programs, to provide a benefit to VA, or to provide disclosure as required by law.

The notice of intent to publish and an advance copy of the system notice have been sent to the appropriate Congressional committees and to the Director of the Office of Management and Budget (OMB) as required by 5 U.S.C. 552a(r) (Privacy Act) and guidelines issued by OMB (61 FR 6428), February 20, 1996.

Approved: March 1, 2001.

**Anthony J. Principi,**

*Secretary of Veterans Affairs.*

### 34VA12

#### SYSTEM NAME:

Veteran, Patient, Employee, and Volunteer Research and Development Project Records—VA.

#### SYSTEM LOCATION:

Records are maintained at each VA health care facility where the research project was conducted and at VA Central Office (VACO). Address locations are listed in VA Appendix 1 of the biennial Privacy Act Issuance publication. In addition, records are maintained at contractor and fieldwork sites as studies are developed, data collected and reports written. A list of locations where individually identifiable data are currently located is available from the System Manager.

#### CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

The following categories of individuals will be covered by this system: (1) Veterans; (2) patients; (3) employees; or, (4) volunteers who have indicated their willingness to be a participant in medical research projects being performed by VA, by a VA contractor or by another Federal agency in conjunction with VA; and (5) research and development investigators.

**CATEGORIES OF RECORDS IN THE SYSTEM:**

Records, or information contained in records, vary according to the specific medical research involved and may include: (1) Research on biomedical, prosthetic and health care services; (2) research stressing spinal cord injuries and diseases and other disabilities that tend to result in paralysis of the lower extremities; and (3) morbidity and mortality studies on former prisoners of war. VACO records contain (4) a merit review of the project; and (5) a review and evaluation of the research and development investigators and of the participants in the program. The review and evaluation information concerning the research and development investigators may include personal and educational background information as well as specific information concerning the type of research conducted. Invention records contain: a certification page, describing the place, time, research support related to the invention and co-inventors; Technology Transfer Program Invention Evaluation Sheet Internal or External Invention Assessment reports; Research and Development Information System (RDIS) reports on research support related to the invention; Correspondence; and the Office of General Counsel Letter of Determination.

**AUTHORITY FOR MAINTENANCE OF THE SYSTEM:**

Title 38, United States Code, Section 7301.

**PURPOSE(S):**

The records and information may be used to determine eligibility for research funding, to determine handling of intellectual properties, and to manage proposed and/or approved research endeavors.

**ROUTINE USES OF RECORDS MAINTAINED IN THE SYSTEM, INCLUDING CATEGORIES OF USERS AND THE PURPOSES OF SUCH USES:**

1. Transfer of statistical and other data to Federal, State, and local government agencies and national health organizations to assist in the development of programs.

2. In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether Federal, State, local or foreign, charged with the responsibility of

investigating or prosecuting such violation or charged with enforcing or implementing the statute or rule, regulation or order issued pursuant thereto.

3. Disclosure may be made to a congressional office from the record of an individual in response to an inquiry from the congressional office made at the request of that individual.

4. Disclosure may be made to National Archives and Records Administration (NARA), General Services Administration (GSA) in records management inspections conducted under authority of 44 United States Code.

5. Disclosure of medical record data, excluding name and address (unless name and address is furnished by the requester) for research purposes determined to be necessary and proper, to epidemiological and other research facilities approved by the Under Secretary for Health.

6. In order to conduct Federal research necessary to accomplish a statutory purpose of an agency, at the written request of the head of the agency, or designee of the head of that agency, the name(s) and address(es) of present or former personnel of the Armed Services and/or their dependents may be disclosed (a) to a Federal department or agency or (b) directly to a contractor of a Federal department or agency. When a disclosure of this information is to be made directly to the contractor, VA may impose applicable conditions on the department, agency and/or contractor to ensure the appropriateness of the disclosure to the contractor.

7. Upon request for research project data, the following information will be released to the general public, including governmental and non-governmental agencies and commercial organizations: Project title and number; name and educational degree of principal investigator; Veterans Health Administration (VHA) medical center location; type (initial, progress, or final) and date of last report; name and educational degree of associate investigators; and project summary. In addition, upon specific request, keywords and indexing codes will be included for each project.

8. Upon request for information regarding VA employees conducting research, the following information will be released to the general public, including governmental agencies and commercial organizations: Name and educational degree of investigator; VHA title; academic affiliation and title; hospital service; primary and secondary specialty areas and subspecialty.

9. Records from this system of records may be disclosed to a Federal agency or to a State or local government licensing board and/or to the Federation of State Medical Boards or a similar nongovernment entity which maintains records concerning individuals' employment histories or concerning the issuance, retention or revocation of licenses, certifications, or registration necessary to practice an occupation, profession or specialty, in order for the agency to obtain information relevant to an agency decision concerning the hiring, retention or termination of an employee or to inform a Federal agency or licensing boards or the appropriate nongovernment entities about the health care practices of a terminated, resigned or retired health care employee whose professional health care activity so significantly failed to conform to generally accepted standards of professional medical practice as to raise reasonable concern for the health and safety of patients in the private sector or from another Federal agency. These records may also be disclosed as part of an ongoing computer matching program to accomplish these purposes.

10. Identifying information in this system, including name, address, social security number and other information as is reasonably necessary to identify such individual, may be disclosed to the National Practitioner Data Bank at the time of hiring and/or clinical privileging/reprivileging of health care practitioners, and other times as deemed necessary by VA, in order for VA to obtain information relevant to a Department decision concerning the hiring, privileging/reprivileging, retention or termination of the applicant or employee.

11. Relevant information from this system of records may be disclosed to the National Practitioner Data Bank and/or State Licensing Board in the State(s) in which a practitioner is licensed, in which the VA facility is located, and/or in which an act or omission occurred upon which a medical malpractice claim was based when VA reports information concerning: (a) Any payment for the benefit of a physician, dentist, or other licensed health care practitioner which was made as the result of a settlement or judgment of a claim of medical malpractice of an appropriate determination is made in accordance with agency policy that payment was related to substandard care, professional incompetence or professional misconduct on the part of the individual; (b) a final decision which relates to possible incompetence or improper professional conduct that adversely affects the clinical privileges

of a physician or dentist for a period longer than 30 days; or, (c) the acceptance of the surrender of clinical privileges or any restriction of such privileges by a physician or dentist either while under investigation by the health care entity relating to possible incompetence or improper professional conduct, or in return for not conducting such an investigation or proceeding. These records may also be disclosed as part of a computer matching program to accomplish these purposes.

12. Information concerning individuals who have submitted research program proposals for funding, including the investigator's name, social security number, research qualifications and the investigator's research proposal, may be disclosed to qualified reviewers for their opinion and evaluation of the applicants and their proposals as part of the application review process.

13. Any information in this system may be disclosed to the Department of Justice (DOJ), including U.S. Attorneys, upon its official request in order for VA to respond to pleadings, interrogatories, orders or inquiries from DOJ and to supply DOJ with information to enable DOJ to represent the U.S. Government in any phase of litigation or in any case or controversy involving VA.

14. Any invention information in this system may be disclosed to affiliated intellectual property partners to aid in the possible use, interest in, or ownership rights in VA intellectual property.

**POLICIES AND PRACTICES FOR STORING, RETRIEVING, ACCESSING, RETAINING, AND DISPOSING OF RECORDS IN THE SYSTEM:**

**STORAGE:**

(1) Paper documents. (2) Microscope slides. (3) Magnetic tape or disk. (4) Photographs. (5) Microfilm.

**RETRIEVABILITY:**

Records are retrieved by individual identifiers and indexed by a specific project site or location, project number, or under the name of the research or development investigator.

**SAFEGUARDS:**

Physical Security: Access to VA working space and medical record storage areas is restricted to VA employees on a "need to know" basis. Generally, VA file areas are locked after normal duty hours and protected from outside access by the Federal Protective Service. Employee file records and file records of public figures or otherwise sensitive medical record files are stored in separate locked files. Strict control measures are enforced to ensure that disclosure is limited to a "need to know" basis. Access to a contractor's records and their system of computers used with the particular project are available to authorized personnel only. Records on investigators stored on automated storage media are accessible by authorized VACO personnel via terminals which are dedicated to this research and development information system.

**RETENTION AND DISPOSAL:**

The project records are held five (5) years after completion of the research project and/or publication of a final

report unless they become part of the patient's individual medical history file in which case the record would remain 75 years after the last activity of care. At the end of a study, records maintained by a contractor are returned to VA for appropriate disposition.

**SYSTEM MANAGER(S) AND ADDRESS:**

Director of Operations, Research and Development (12C), Department of Veterans Affairs, 810 Vermont Ave, NW., Washington, DC 20420.

**NOTIFICATION PROCEDURE:**

Interested persons should write to: Director of Operations, Research and Development (12C), Department of Veterans Affairs, 810 Vermont Ave, NW., Washington, DC 20420. All inquiries must reasonably identify the project and site location; date of project and team leader.

**RECORD ACCESS PROCEDURES:**

Interested persons desiring access to and contesting of research records should write to the address in Notification Procedure above.

**CONTESTING RECORD PROCEDURES:**

(See Notification Procedure above.)

**RECORD SOURCE CATEGORIES:**

(1) Patients and patient records; (2) employees and volunteers; (3) other Federal agencies; (4) National Institutes of Health; (5) Centers for Disease Control (Atlanta, Georgia); (6) individual veterans; (7) other VA systems of records; and, (8) research and development investigators.

## **Part II**

### **Federal Emergency Management Agency**

---

**Compendium of Flood Map Changes;  
Notice**

**FEDERAL EMERGENCY  
MANAGEMENT AGENCY****Compendium of Flood Map Changes**

**AGENCY:** Federal Emergency Management Agency (FEMA).

**ACTION:** Notice.

**SUMMARY:** This Notice provides listings of changes made to National Flood Insurance Program (NFIP) maps produced by FEMA effective during the last 6 months of 2000.

**DATES:** The listings include changes to NFIP maps that became effective July 1, 2000, through December 31, 2000.

**FOR FURTHER INFORMATION CONTACT:** Michael K. Buckley, P.E., Director, Technical Services Division, Mitigation Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202)646-2756.

**SUPPLEMENTARY INFORMATION:** In accordance with Section 1360(i) of the National Flood Insurance Reform Act of 1994, this Notice is provided to inform interested parties of changes made by FEMA to NFIP maps. The two listings provided show communities affected by map changes made by letter and communities affected by physical map changes. For each Letter of Map Change, the first listing provides the map panel(s) affected, effective (determination) date of the change, case

number, and determination type. For each physical map change, the Map Revision listing provides the map panel(s) affected and the effective date of the change. The listing also identifies: (1) those panels on which the Special Flood Hazard Areas have not been changed or have been changed only to incorporate the Letters of Map Change issued before the effective date; and (2) those panels for which a Flood Insurance Rate Map is produced for the first time, resulting only in changes to flood insurance and floodplain management requirements in the affected community. Future notices of changes to NFIP maps will be published approximately every 6 months.

Dated: March 13, 2001.

**Margaret E. Lawless,**

*Acting Executive Associate Director for Mitigation.*

Two listings are provided below. The first listing includes all Letters of Map Change issued by FEMA from July 1 through December 31, 2000. The following types of letters are included in the listing:

Type	Description
01 .....	Letter of Map Revision Based on Fill (218-65)
02 .....	Letter of Map Amendment (218-70)
05 .....	Letter of Map Revision With Base Flood Elevation Changes

Type	Description
06 .....	Letter of Map Revision Without Base Flood Elevation Changes
08 .....	Denial
12 .....	Floodway Revision
17 .....	Letter of Map Revision-inadvertent inclusion in floodway (218-65)
18 .....	Letter of Map Revision-inadvertent inclusion in V zone (218-65)
19 .....	Letter of Map Change Revalidation.

The second listing includes map panels that FEMA physically revised and republished from July 1 through December 31, 2000. For those map panels on which the Special Flood Hazard Areas have not been changed or have been changed only to incorporate Letters of Map Change issued before the effective date, two asterisks(\*\*) are shown to the right of the map panel number. For those map panels for which a Flood Insurance Rate Map is produced for the first time, resulting only in changes to flood insurance and floodplain management requirements in the affected community, three asterisks(\*\*\*) are shown to the right of the map panel number.

For both listings, a single asterisk is shown to the right of each county name that appears in the "Community" column. This asterisk indicates the area covered is the unincorporated areas of that county.
